Non.
The field notes of the survey of the West to South American of the Smithsonian
are without date or signature, but were apparently composed by John or James
K. Donald in November 1840.

Although the closing of fractional Sec. 29 according to the rule of the Survey is not as good as it can be made, yet it was considered by the Surveyor General and the Engineer in charge of the line between Sections 29 and 32 as a compromise sufficiently near the best center of the land grant. Section to unimproved portion of the Mustangs. The operations of definition and firming relations between the Survey of this portion of of said Section 29 to Section 32 and of said fractional and Section 30 were day laid down on this plat according to the old notes of the of the line between Sections 29 and 32 which is according to the measurement by Run of 1837 according to sec. 29, point of this and of 1st sec. 29 and 32 at Chicago.

Surveyors' office. Saint Louis, 20th January, 1884.

This plat was this day completed, strictly conformable to the field notes on file in this office, which have been examined and approved, of the survey and bearings, recorded in this township, in February 1865 by W. A. Spaulding, under instructions of the D.P. of March 1862. The lines run by W. A. Spaulding, are defined in the Metewment on the right margin of this plat. 200-50 acres, which were paid for at the 3rd quarter of 1865, and changed in the account current of the Surveyor General during that quarter, under the appropriation of \$ 2000. of the 3rd quarter of 1865. The balance of the same land was sold at a public sale in 1866 and the proceeds were paid for at the 3rd quarter of 1865. See p. 1 by act of the 20th section of the 20th Congress.

Map of Sections 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000

See for survey & survey on
L. S. of the 18th of 1842

13.90 acres

Surveyor's Office
St. Louis April 24th 1847
Subdivided the S. E. 1/4 of Sec. 32 and the South half of Sec. 33,
into conform to previous sales (marked & thereon) and sent a
copy to the Register & another copy to the Comptroller on the 30th of April

Note:
The eastern boundaries of Township 7 S. R. 2 W. were
surveyed in December (approximately 1840) the field notes of
said boundaries are not signed, but were apparently
taken by James or John M. Donald.

Aggregate area of public land in main shore = 15084.63 acres
on islands = 14.56
Total = 15099.19 acres

Surveyor's Office - St. Louis

Today laid down on this plat a correction between the
surveys made from the 2^d of 4th of 1842 conformable to
the field notes of the survey thereof contained in said
in file in this office vol. 107 - page 26

St. Louis 1st of May 1848

A copy of the plat of sections 3, 4, 10, 11, 12,
23, 27 & 28 was this day sent to the Register at
St. Louis

Surveyor's Office
St. Louis 1st of May 1848
Plat of sections 3, 4, 10, 11, 12, 23, 27 & 28, out of the
South half of Sec. 32 & 33, and this day to the
Comptroller of the Public Land

Surveyor's Office, Saint Louis 31st of January 1849.
The plat in section 3, and that part of section 4, which was in sections 3
was this day laid down on this plat, the plat conformable to the plat made of
Survey thereof on file in this office, which have been examined and approved
on October 1848, by W. A. Spradling, Commissioner of the Land
1842 - to wit the line between Sec. 1 & 2, 1/4 Sec. 1, the western of the upper
1841 claim - and the western of the lower claim, North 7. 6. 5 chains - as plat
19. 17 chains, which were paid for in the 1st quarter of 1843, and changed to the
Survey of the Surveyor General, during the same quarter, under the appropriation
of \$3000, of the 3^d of March 1841, the surveying 500 miles of public land
lines in Illinois & Missouri, at a rate not exceeding \$1000 a mile. See
29 Act of March 3^d 1847

Silas Rice

Surveyor of the public land in
of Missouri

31st January 1849, sent to the Comptroller & Register a plat of the land referred
above and plat.

Surveyor's Office
St. Louis 18th of September 1850
The above plat of the three western Range & sections
first Sup. N. of S. R. 2 W. of the 1st of May is conformable
to the notes of survey on file in this office.

Wm. Rice

Office of the Surveyor
St. Louis

A plat of the south half
sections 32 & 33, was sent
to the Register at St. Louis

Fractional Township 8 South of the base line, Range 2 West of the 4th principal meridian.

page 10 v. 21

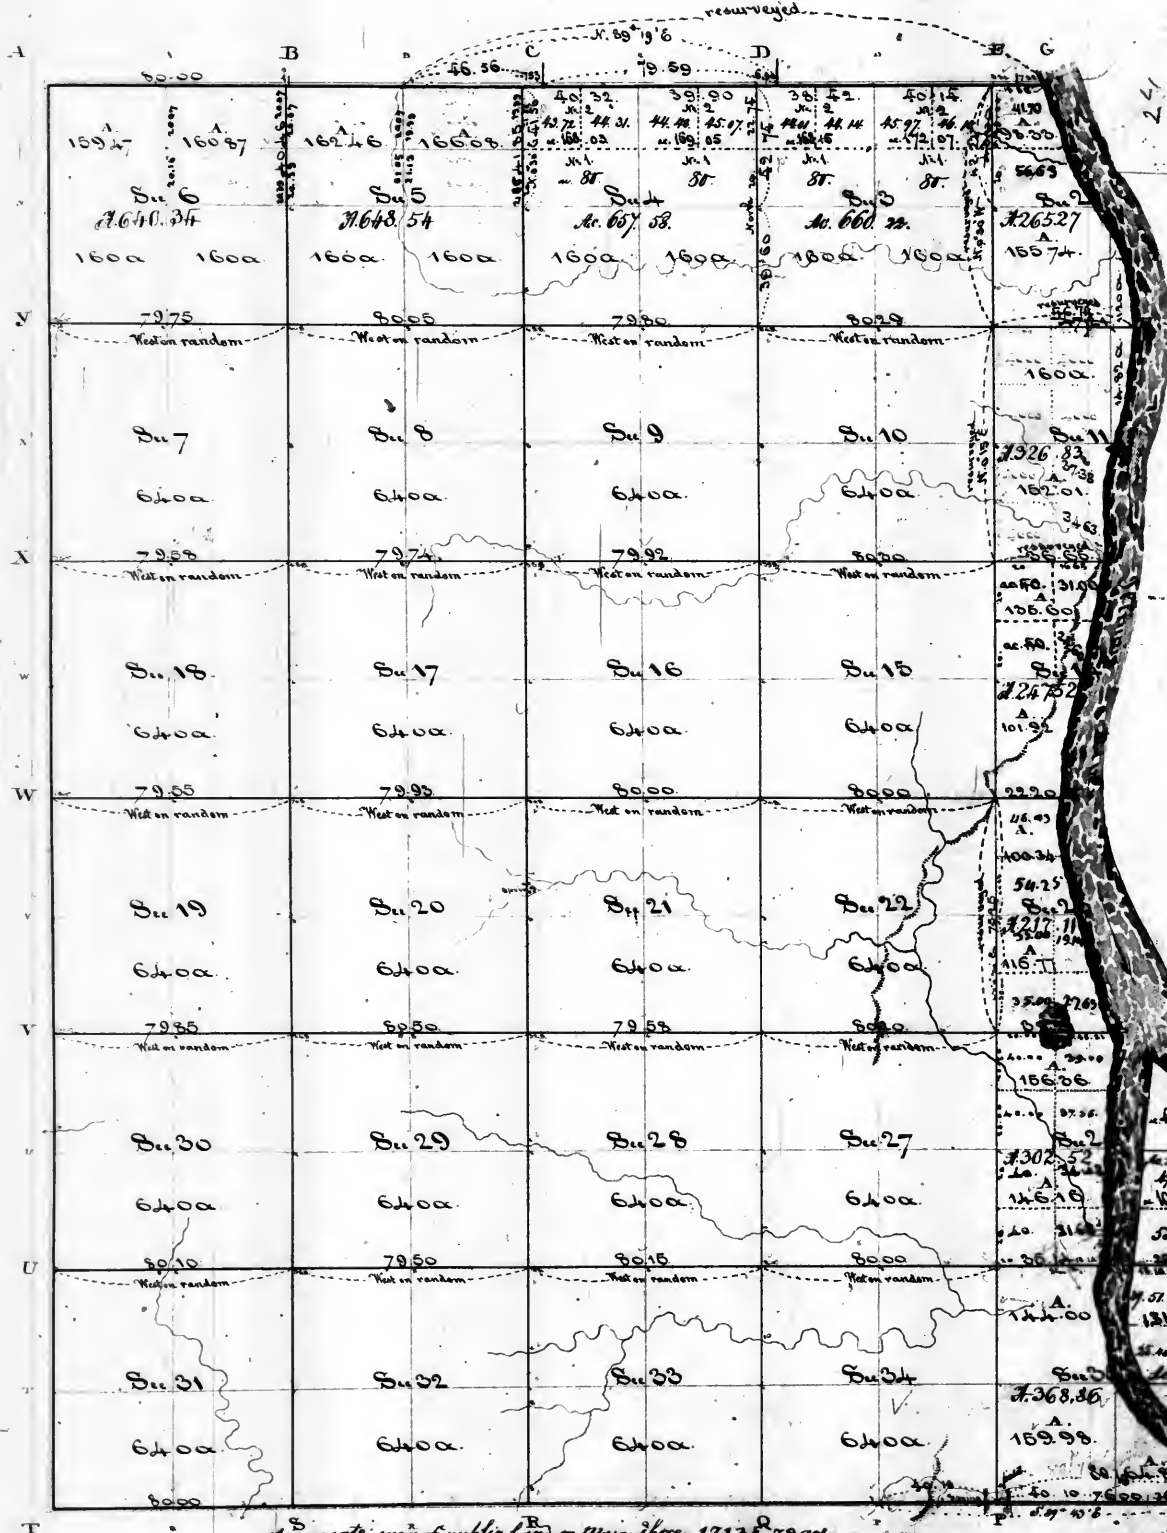

Each - Sec 14 - (offhand P.S. - 2
and apparently by A. B. Brown

The following is a copy of the original survey of the fractional boundaries of this Township (which boundary is 27.5 miles long) as not signed in 1854, but one (apparently) by James H. Brown. The survey was executed (apparently) in December, 1854.
The south boundary (T. 8 S. R. 2 W.) was originally surveyed by James H. Brown and one apparently between the 10th and 11th months 1854, the exact date with field notes indicating the name of the survey of that time, and showing and also being the 1st of 1854. The south boundary of sections 14, 15 and 16 North boundary of sections 34, 35 and 36 as laid down on this plat were resurveyed by John H. Brown on 2^d of July 1857. The southern line of the Township comprises the line between sections 14, 15, 16, 34, 35, 36, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 2053,

A a B b C c D d E e F f

The above plat of township 10 South of the base line and Range 2 West of the 4th principal meridian is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. That part of fractional sections 30 and 31, west of the slough, and which is designated as "Pileas Island" was surveyed in October 1856, by Joseph Burnap, under instructions of 2d April 1856. The surveying, 2 miles .37.43 chains, is embraced in an account approved by me, received for by Burnap, and transmitted this day to the Commissioner of the General Land Office, as per his instructions of the 11 March 1856, for a direct settlement with the Deputy, out of the appropriation for the corrections of erroneous and defective lines of the public and private surveys in Illinois & Missouri; at a rate not exceeding six dollars per mile.

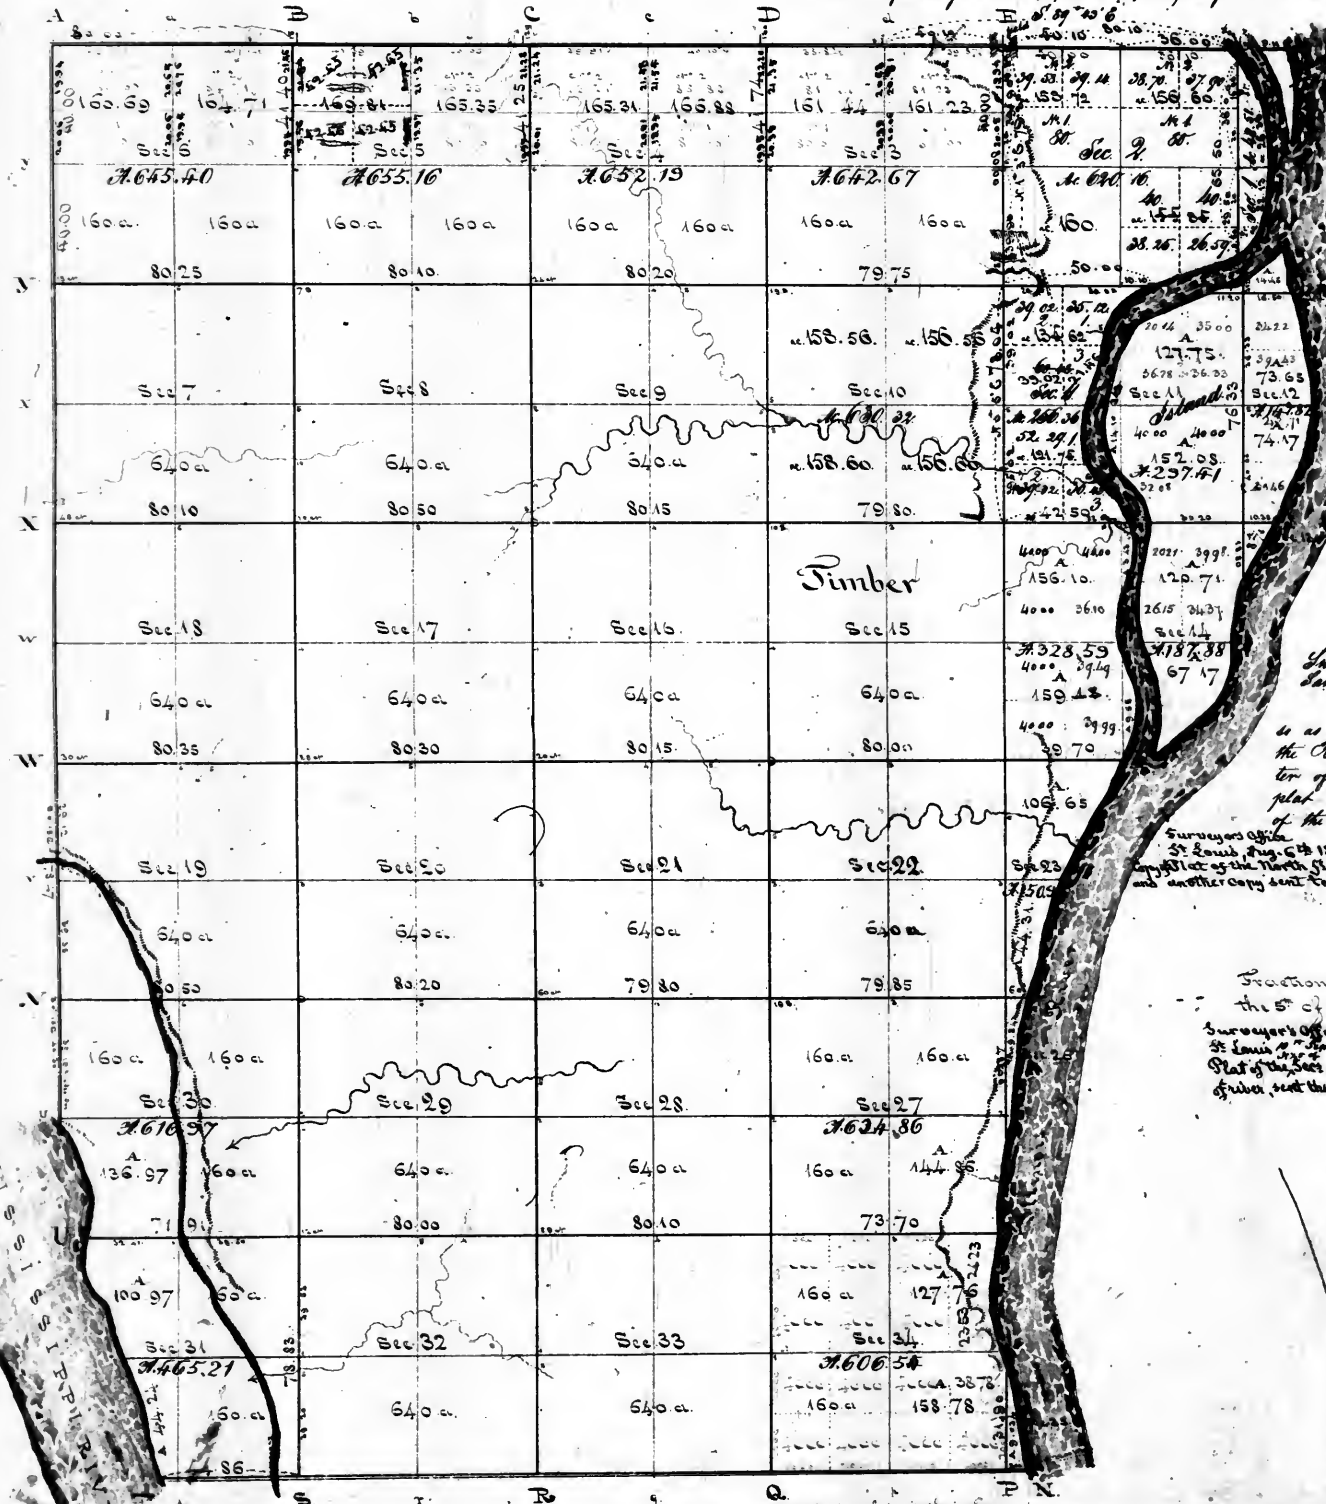

A copy of the plat of sec^s 30 & 31 West of
Trough was sent to the Commissioner & Register
on 25 February 1857.

John Loughborough
Surveyor General.

except those parts of fractional Sections 1, 2 & 11 which lay on the main bank of the Illinois River

The South boundary of Sup. 10 S. 1. as laid down on this plat, viz: along Sec. 32, 33, and 34, is in conformity with the above mentioned field notes of resurvey, without date or signature (except the copy to Dist. 33, registered by Messinger and which is considered to be virtually in the same position given to it in the aforesaid notes of 22. subvency) and along Station 34 1/2 33, is in conformity with the field notes of the resurvey thereof by Messinger.

for runways on the N. by of this township, the plat. of T. 9 S R. 28 E

Aggregate area of public lands on Main shore = 16672.77 acres
on the Islands = 672.77

Total = 17345.54 acres

Notarys Office
St. Louis 18th September 1830

The above class of radiations Expt. No. S. P. 2 N. of the 4th pe
 (Expt. No. 10 - Expt. Report of 28th M. last) has been
 confirmed to full notes of such things as are
 in this office; and to put said notes, no other, and explained
 above.

Records on island.

3rd of January. Set a plot of Sect. 1, 2, 11 on main shore, of Sec. 10, and of that part of island in Sec. 1. to the Gov^t of the Register.
Donation on N^o. Spaulding's surveying: 7th 30th E.

Surveyor's Office, Lae, Louisi^a 31st of January, 1844. This plot was this day completed, by laying down Noron, sections 1, 2, 10 & 11, & the main stream on that part of Mexican island, which lies in between, & thereby completed the first work of the Survey, and returned myself on file in this office, where they have been examined and approved & they were executed on January 18th, 1844.

C. A. Spaulding, Interior Minister of the 31st of March 1845, in the report is detailed in the statement above, and amounts to 50 miles which were paid for in the 3^d quarter of 1843, and charged in the account.

Contract of the Surveyor General, bearing the same date after the appropriation of \$1000, of the 3^d of March 1844, for surveying 200 miles of San Joaquin and Colorado Lines in the State of California a note not calculating the dollars a mile. See p. 22 of 2^d Jan. 26 Congress.

John C. Frick

Silas Koca
Surveyor of the public lands
State of Illinois at Madison

Note. On account of a supposed error in the line between Sections 10 & 11 in this Township, the area of Section 10 is not set down on the Map, the said Section will therefore not be affected by and will not require any conveyance shall be made, of which the Register will be duly notified.

Township 11 South of the base line Range 2 West of the 4th principal Meridian

Office of the Surveyor General for Illinois & Missouri.
St Louis 25th February 1857.

The above plat of Township 11 South of the base line and range 2 West of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. Kappa Island in sections 17, 18, 19 & 20 - A island in sections 17 & 18, and part of Pileat Island in sections 18, 19 & 20 were surveyed in October 1856, by Joseph Duranap, under instructions of the 24th April 1856. The Survey amounts to 18 miles 10.28 chains, which is enclosed in an account, approved by me, receipted for by Duranap, and transmitted this day to the Commissioner of the General Land Office, as per his instructions of the 11th March 1856, for a direct settlement at the Treasury Department, with the Deputy out of the appropriation for the correction of erroneous and defective lines of the public and private surveys in Illinois & Missouri, at a rate not exceeding ten dollars per mile.

A plat of the islands mentioned in the above statement was sent to the Commissioner and another to the Register on the 25th February 1857.

Plat of the Northwest halves of Secs 2, 3, 4
and of the gl. sections 1 & 12 sent this day
the Comr of the Genl & O.

Notes: The distance 9.25 on the line between Sections 19 & 20 is not the true length of that part of land which lies East of the Dayton, but is the distance from the corner of Section 19 to the E. 1/4 of Sec. 20, West to the north-east point on the top of the bluff. To the nearest measurement the distance is 1/4 mi. to the East, east of the Dayton, and to the North, the distance is 200 links West of said bluffs, on the top of the bluff, making the whole length of that part of land here between Sections 19 & 20, which lies East of the Dayton 1/4 of a mile, and on which the area of the flowing fractional Section 19 is

Aggregate area of public land in S. 13 & 14 S. R. 2 W. of 4th P.M. = 248.9 ac.
 Aggregate area of public land in S. 13 & 14 S. R. 2 E. of 4th P.M. = 13697.90 ac.
 Total = 13946.28 ac.

Note: The North boundaries of sections 12 & 14 Township 13 South are laid down on this plat according to field notes of the survey thereof, but on without date or signature. The North boundary of section 2 is laid down according to the survey thereof in February 1827 by Dr. Messinger, D.S. The subdivision lines of Townships 13 & 14 S. R. 2 W. are laid down on this plat in conformity with the field notes without signature that are dated 20th March and 1st April 1816; except the lines between sections 21 & 22, 23 & 24, 25 & 26, and 27 & 28 Township 13 South, which are laid down agreeably to the notes of the survey thereof in 1827 by Dr. Messinger who also meandered the Mississippi River along both of these fractional Townships. The several distances on the following named lines, viz. 37.50 on the line between sections 5 & 8, and 50 on the line between sections 1 & 4, 19.24 on the line between sections 27 & 30, 18.66 on the line between sections 21 & 24, and 18.51 on the South boundary of section 35 of Township 14 South, 18.50 on the line between sections 1 & 2 and 22.50 on the East boundary of section 1 of Township 14 S. R. 2 W. are not the whole lengths of said lines respectively, but are the distances on the lines from the proper section corners to the several corner points established on the bluff, to the true places of the fractional section corners on the margin of the River, and to where the meanders were taken, the true places of the corners at the intersections of the before enumerated lines with the Mississippi being the following distances from the several witness points in the direction of the lines towards the River, in the order which the said lines are above enumerated, viz. 0.40 chains, 3.60 chains, 0.70 chains, 2.00 chains, 4.20 chains, 2.00 chains, and 1.00 chains, making the whole length of each of said lines as follows: viz. the line between sections 5 & 8, 97.50 chains; the line between sections 1 & 4, 44.18 chains; the line between sections 27 & 30, 50.00 chains; the line between sections 21 & 24, 50.56 chains; the South boundary of section 35, 20.59 chains; the line between 1 & 2, 72 chains; and the East boundary of section 1, 44.56 chains, and on which the areas of the several adjoining fractional sections were estimated.

1582, 1583, 1584, 1585, 1586, 1587, 1588, 1589, 1590, 1591, 1592, 1593, 1594, 1595, 1596, 1597, 1598, 1599, 1600, 1601, 1602, 1603, 1604, 1605, 1606, 1607, 1608, 1609, 1610, 1611, 1612, 1613, 1614, 1615, 1616, 1617, 1618, 1619, 1620, 1621, 1622, 1623, 1624, 1625, 1626, 1627, 1628, 1629, 1630, 1631, 1632, 1633, 1634, 1635, 1636, 1637, 1638, 1639, 1640, 1641, 1642, 1643, 1644, 1645, 1646, 1647, 1648, 1649, 1650, 1651, 1652, 1653, 1654, 1655, 1656, 1657, 1658, 1659, 1660, 1661, 1662, 1663, 1664, 1665, 1666, 1667, 1668, 1669, 1670, 1671, 1672, 1673, 1674, 1675, 1676, 1677, 1678, 1679, 1680, 1681, 1682, 1683, 1684, 1685, 1686, 1687, 1688, 1689, 1690, 1691, 1692, 1693, 1694, 1695, 1696, 1697, 1698, 1699, 1700, 1701, 1702, 1703, 1704, 1705, 1706, 1707, 1708, 1709, 1710, 1711, 1712, 1713, 1714, 1715, 1716, 1717, 1718, 1719, 1720, 1721, 1722, 1723, 1724, 1725, 1726, 1727, 1728, 1729, 1730, 1731, 1732, 1733, 1734, 1735, 1736, 1737, 1738, 1739, 1740, 1741, 1742, 1743, 1744, 1745, 1746, 1747, 1748, 1749, 1750, 1751, 1752, 1753, 1754, 1755, 1756, 1757, 1758, 1759, 1760, 1761, 1762, 1763, 1764, 1765, 1766, 1767, 1768, 1769, 1770, 1771, 1772, 1773, 1774, 1775, 1776, 1777, 1778, 1779, 1780, 1781, 1782, 1783, 1784, 1785, 1786, 1787, 1788, 1789, 1790, 1791, 1792, 1793, 1794, 1795, 1796, 1797, 1798, 1799, 1800, 1801, 1802, 1803, 1804, 1805, 1806, 1807, 1808, 1809, 1810, 1811, 1812, 1813, 1814, 1815, 1816, 1817, 1818, 1819, 1820, 1821, 1822, 1823, 1824, 1825, 1826, 1827, 1828, 1829, 1830, 1831, 1832, 1833, 1834, 1835, 1836, 1837, 1838, 1839, 1840, 1841, 1842, 1843, 1844, 1845, 1846, 1847,

The East Boundary of the Strip (according to the field notes on file) Surveyed South 6 miles and intersected at the S. E. Corner. — The West Boundary (East Boundary of the Strip) was Surveyed South 6 miles, and also intersected at the S. E. Corner.

The field notes of the Survey of the East, West, and South boundary are not signed — but were apparently taken in Nov. & Dec. 1815 by John, or James Mc. Donald.

St. Louis 18th Sept. 1840

The above plat is conformable to field notes of surveys of Imp. No. 2 S. R. 3 West (pts 4th & 5th of Sec. 31) on file in this office. — Wm. M. Rice

Dr. of Pub. Lands

Surveyor's Office, Saint Louis 31st of January 1841.

The above plat was this day completed, strictly conformable to the field notes of the surveys and remeasures in section 31, which are on file in this office, and have been examined and approved. They were executed on April 1843, by J. A. Spaulding, under instructions of the 31st of March 1843; to wit: 40.33 chains on the line between sections 31 & 32, and 1 mile 5.35 chains on the South boundary of section 31, to wit: 1 mile 15.67 chains, which were paid for in the 4th quarter of 1843, and charged to the account current of the Surveyor General, during the same quarter, under the appropriation of \$3000 of the 3rd of March 1841, for surveying 500 miles of unpatented and detached lines in Illinois & Missouri, at a rate not exceeding 60¢ dollars at note. See page 29 acts of the 26th session of the 26th Congress.

Surveyor of the public land in the State of Missouri

The field notes of the North East boundary of the 31st section, were not signed, but were apparently taken by John M. Donald. The West boundary (6.25 S. 2.25 W.) was surveyed South 8 miles & a corner established thereon to Sec. 26 S. 2.25 W. The field notes of the survey of said West boundary are without signature, but were apparently taken by John M. Donald. The South boundary of this strip was surveyed West 6 miles, the field notes of this survey, (which are on file) are without date or signature, and are found on two separate pieces of paper, one of which is signed John M. Donald, of the other the signature appears to be by John M. Donald. One of the said pieces of paper contains the notes of the S. 2.25 W. of Sec. 26 S. 2.25 W., preceded by a description of the corner of the 31st S. 2.25 W. Range 2 S. 2.25 W. which agrees with the description of the same corner in the notes of the survey of the E. 1/2 of the 31st section. It is further stated in the notes of one of the said pieces of paper, that the corner of the South boundary of Sec. 31 was on the 6th piece of paper, above mentioned, and a call for same being made at 50.00 ch. def. a point corner of Sec. 26 S. 2.25 W. 2.25 W. from which a Red Oak 30 inches diameter, being struck. This corner is also mentioned in the corner to same strip, which is described in the notes of the West boundary of the 31st S. 2.25 W. 2.25 W. It does not appear upon these documents that either corner is at the intersection of the two boundaries, and it does not appear from the field notes that there has been any accidental introduction of said boundaries. Now there is a plat on file of the Eastern boundaries of S. 2.25 S. 2.25 W. and another plat of S. 2.25 S. 2.25 W. both of which are signed and certified by John M. Donald 31st of March 1841. The Eastern boundary of the West half of Sec. 26 S. 2.25 W. is to be 15.50" long, which is according to the field notes of the line, the corner of the West half of Sec. 31, are therefore not determined on this plat.

St. Louis 21st March 1841. Subdivided under the act of 15th Aug. 1833, to wit: the 1st of section 2, 4 & 6 of act of 18th Sept. 1840, sec. 7 of the 2nd quarter of act of 18th Sept. 1840, the plat was by the Reg. Com. to the Chief of the Genl. & Ind. Office.

Surveyor's Office St. Louis 18th Sept. 1842. Plat of the N.E. quarter of Sec. 14 S. of the N.W. quarter of Sec. 24 S. of the North half of Sec. 5 of the S.W. quarter of Sec. 6 and the West halves of Sec. 7 & 16 1840 sent this day to the Comptroller of the Genl. & Ind. Office.

31st of January 1841. Sent a copy of the plat of section 31 to the Commissioner and the Register at Quincy.

For the money of the West boundary of section 31, the plat of S. 2.25 S. 2.25 W.

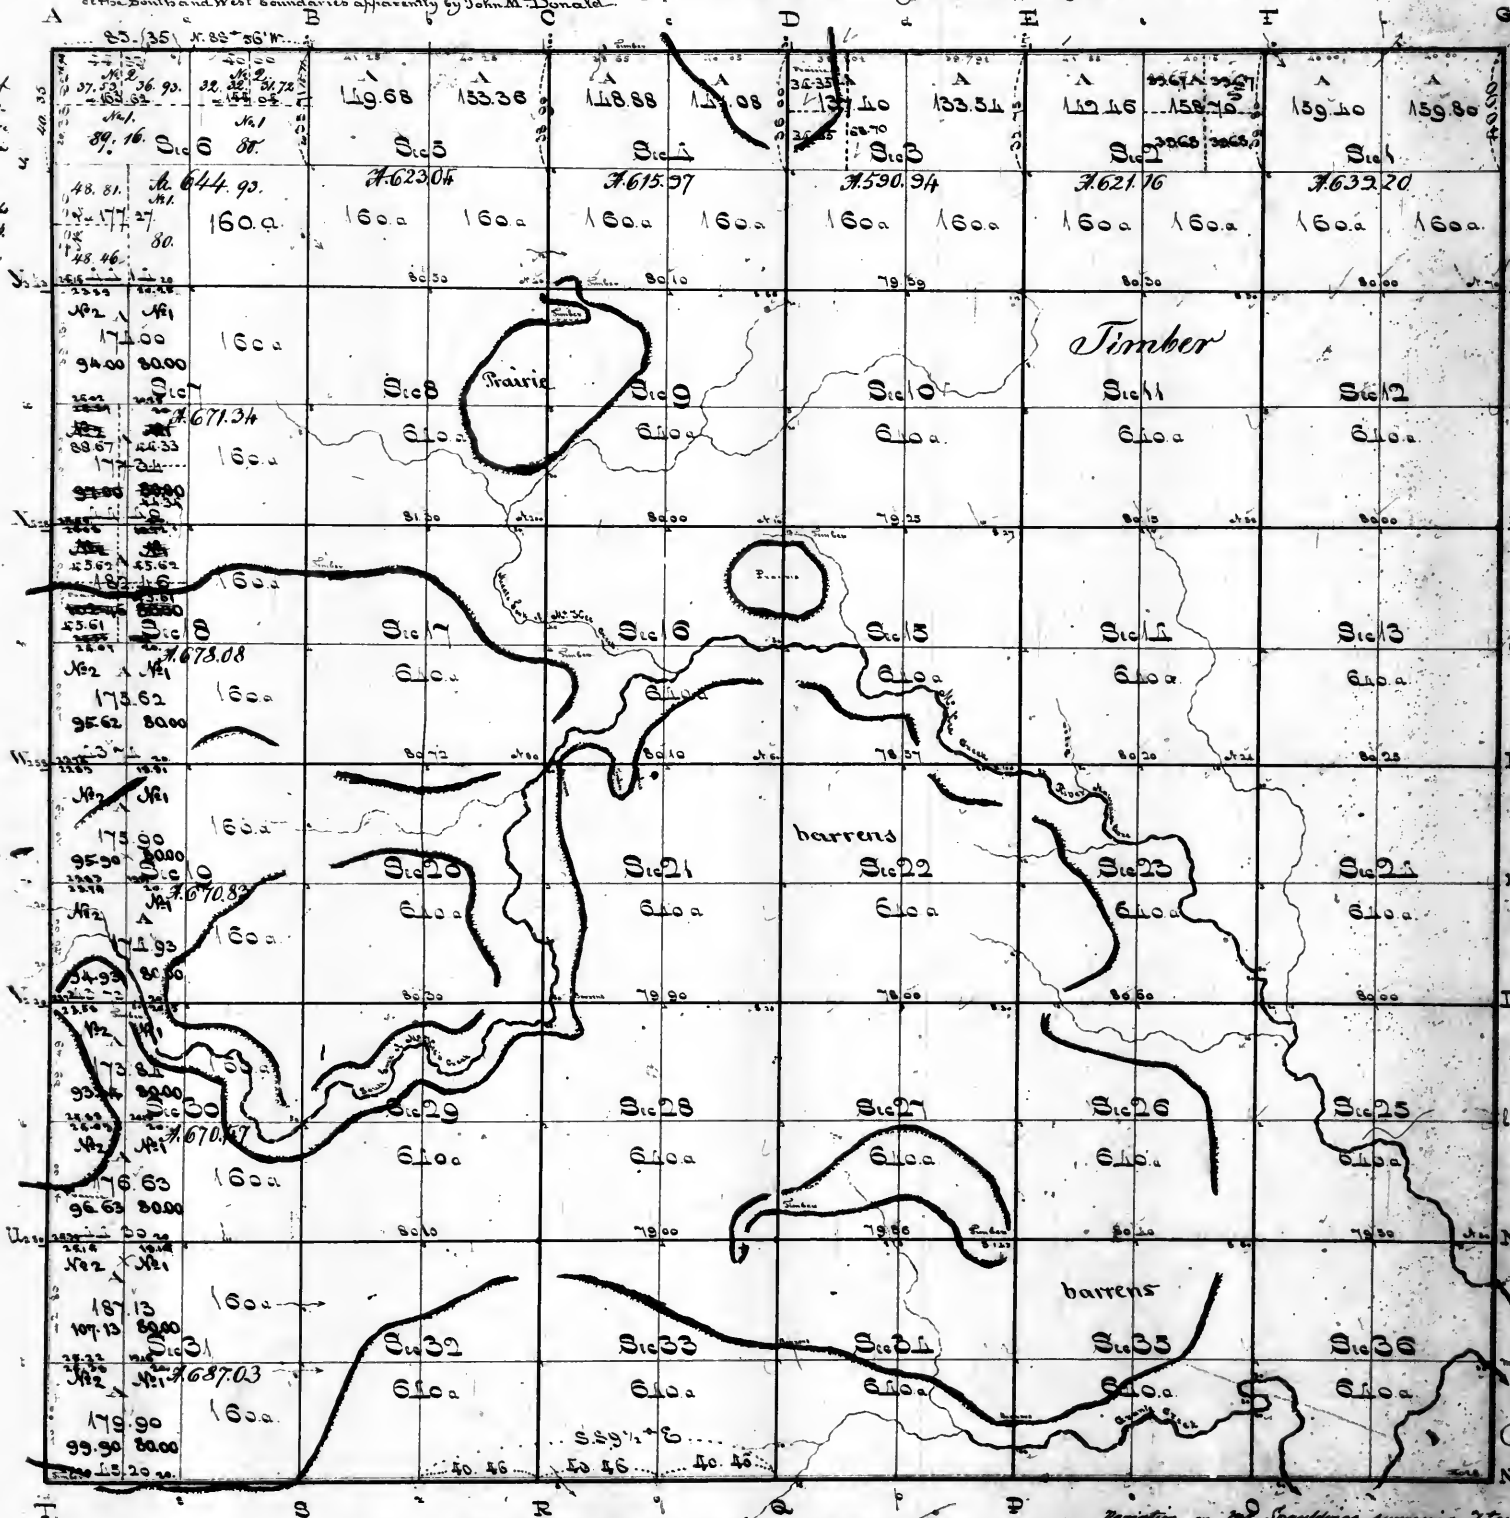

Surveyor's Office St. Louis 15 January 1847. Subdivided the N.E. & S.E. 1/4 of Sec. 2, 4 & 6 to conform to previous sales (marked S. 2.25 S. 2.25 W.) sent a copy to the Register & another copy to the Comptroller of the Genl. & Ind. Office.

Township 3 South of the base line, Range 3 West of the 1st Principal Meridian.

Page 18 vol 21

Here. For statements concerning the field notes, and situation, of the survey of the North boundary of this Township, and the establishment of two separate corners to Townships 2 & 3, & 3 & 4, see marginal note on plat of Township 2 S. 3. W. In consequence of the facts, there set forth, the areas of section 6, and the areas of its legal subdivisions cannot be correctly calculated except the south-east quarter. The field notes of the East and West boundaries of this Township are not signed, but those of the East boundary were taken apparently by John McDonald and those of the South and West boundaries apparently by John McDonald.

See for the survey on the N. of sec 6, the plat of T. 2 S. 3. W. The N. 1/2 sec 6 on the W. by of sec 6 (to by sec 1 & 3 R. 4) was paid for by B. A. Spaulding, as the survey on the S. line of sec 32 & 33 of this Township, detached in the Statement of 31st Jan'y 1844.

Surveyor's Office Aggregate area of public land - 23112.99 ac

St. Louis 18th September 1830

The above plat, is, (with the exception of the North half, and 1/2 S.W. 1/4 of sec 6,) conformable to the notes of Survey of Twp. 3 S. R. 3 West. (of the 4th pl. Eldon, as is believed), & is filed in this office.

Wm. C. Rice

St. of Pub. Lands

Surveyor's Office. Saint Louis, 21st of January, 1844.

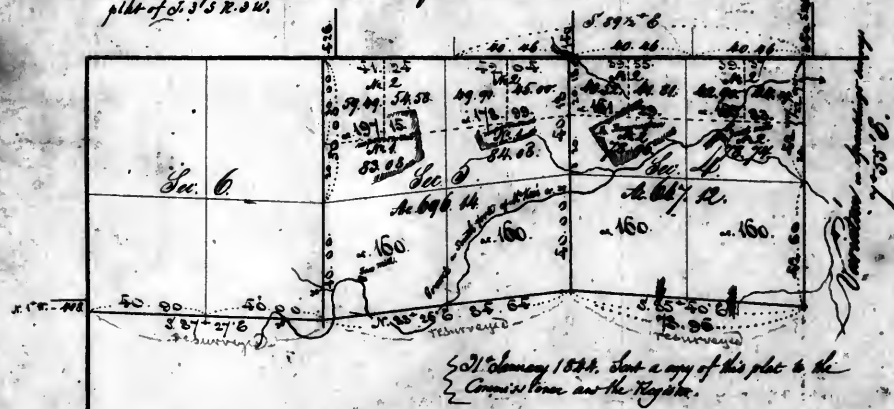

This plat was this day completed, by laying down section 6, strictly conformable to the field notes of the survey and surveys thereof on file in this office, which have been examined and approved. The distance set down on the S. boundary of sections 32 & 33, T. 3 S. R. 3 W., was surveyed by B. A. Spaulding, in April, 1843, under instructions of the 31st of March, 1843. It was paid for in the 4th quarter of 1843, and changed in the account current of the Surveyor General during the same quarter under the appropriation of 500 dollars of the 3rd March, 1844, for completing the surveying of 500 miles of unfinished and detached lines in Missouri & Arkansas, at a rate not exceeding the Dollars a mile. See p. 24 and 25 of the 46th Congress.

Silas Reed

St. Louis, 21st of January, 1844.

See for runways on the north boundary of sec 4 & 5, the plot of S 3 S. R. 3 W.

50th January 1844. Sent a copy of this plot to the Commissioner and the Register.

Surveyors' office. Saint Louis, 31st of January, 1844.

The above plot of sections 4 & 5, in Township 4 South of the base line, range 3 West of the 4th principal meridian, is partly conformable to the field notes of the Survey, thereof on file in this office, which have been examined and approved. The said runways were executed in April 1843, by B. A. Spaulding, under instructions of the 31st of March 1842 - to wit: the line between sec. 3 & 4 R. 1. S. 35 - 24.8, 75.35 chs - 1.45 - 1 mile 4.18 chs - 54.2, 1 m. 4.64 chs - 64.7, 1 m. and 30 chs - and 54.6 - 1 m. and 10 chs - in all, 6 miles 20 chs 45 links, which were paid for in the 4th quarter of 1843, and charged in the account current of the Surveyor General, during the same quarter, under the appropriation of \$2000, made on the 3rd of March 1841, for surveying 500 miles of unfinished and detached lines in Illinois & Missouri, at a rate not exceeding 6 dollars a mile. See p. 23 Act 3rd Term 25th Congress.

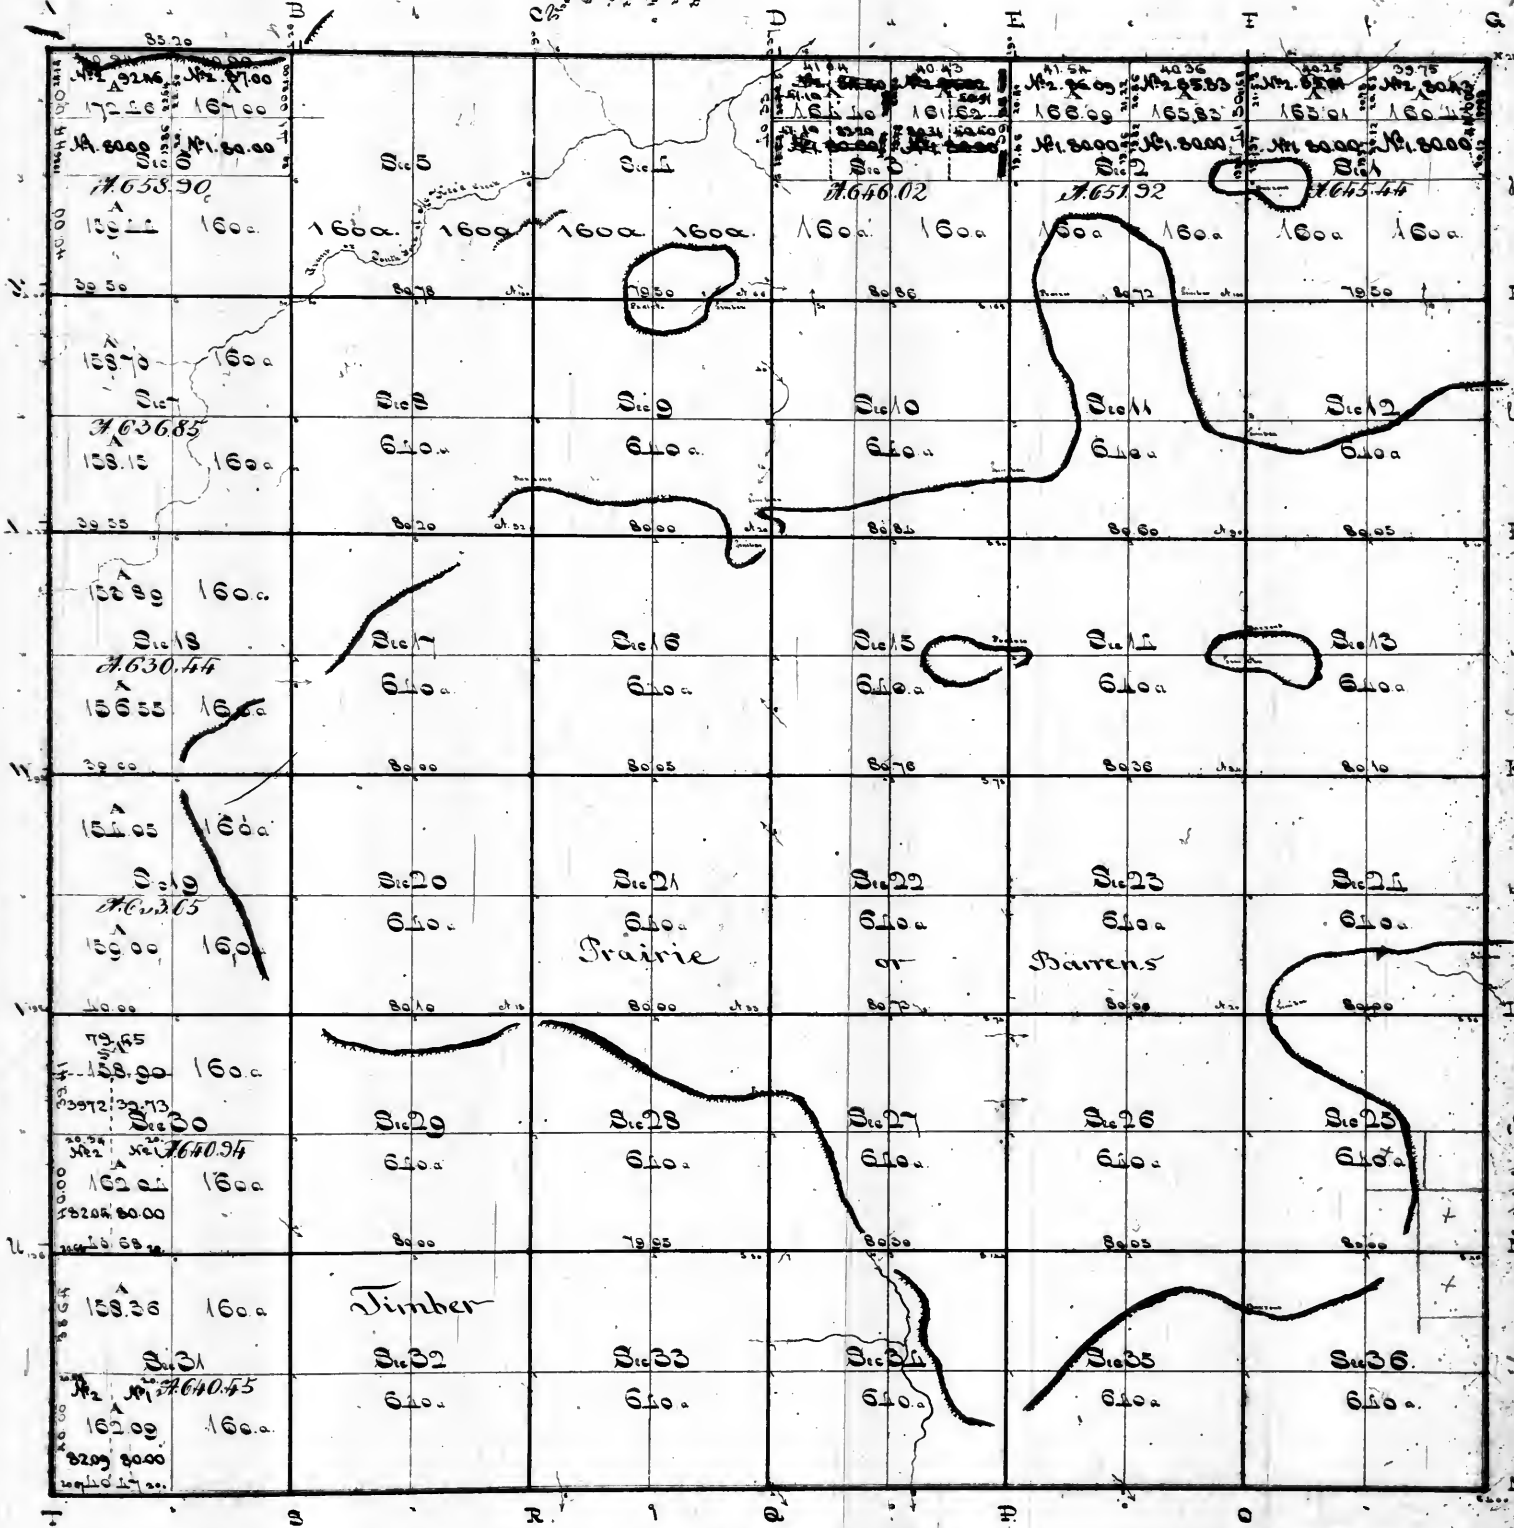

Silas Reed

Surveyor of the public land in the State of Illinois & Missouri.

Township 4 South of the base line, Range 3 West of the 4th Principal Meridian.

Log 181 100 21

Note
The original survey of this township was made by John M. Donald in 1832, and the same was confirmed by the Surveyor's Office in 1847. The original survey was made by John M. Donald in 1832, and the same was confirmed by the Surveyor's Office in 1847.

Note.
The field notes of the exterior boundary lines of this Township are not signed, but the last book diary was apparently by John M. Donald, and the North West & South boundaries by John M. Donald.

The map is a detailed topographic representation of a section of the Adirondack Park, New York. It is overlaid with a grid of 100 square miles, labeled with numbers 1 through 100. The map is oriented with North at the top. The title "Adirondack Park" is written in a large, stylized font at the bottom. The word "Timber" is written in a large, stylized font in the center. The map features a network of roads, rivers, and lakes. The grid is labeled with numbers 1 through 100. The map is surrounded by a border with latitude and longitude coordinates. The map is a historical document, likely from the early 20th century.

Survey of
St Louis 18th Sept 1842
Plat of the North halves of Secs 1, 2 & 3
North half 4 & 1/4 quarter of section 6 of the
halves of Sec 7 & 8. 4 1/2 acres of the lot Sec 20
21, 22 & 23 sent this day to the Comm.
of the Genl. L.O.

7775

Note
The East boundary of Township 8 S
8000⁰⁰ is laid down on this plat accord-
ing to field notes without any signature
but which are (apparently) by John
James M. Donahoe. The North and
South boundaries of the Township are
laid down in conformity with the field
notes that are without signature except
the South boundary of sections 10, 11 & 12
which is represented on this plat according
to the field notes of John James M. Donahoe
who established a new corner to Section
10 between the Township 8 S and
Township 9 S. The line between
sections 10, 11 & 12 of the Township 8 S
at the intersection of the line between
sections 10, 11 & 12 of the Township 8 S
line in consequence of not finding the
old corner to said sections and there-
fore the said Township line was
run to the Mississippi River in March 1842
The subdivision lines of the Township
are represented on this plat according
to field notes that are without signa-
ture, except the line between sections
10, 11 & 12 and that part
of each of the lines between sections 10
11, and 12 & 13 which lies south of the
North or left bank of Bay creek near
the mouth of the Mississippi River along
sections 10, 11 & 12 and of both banks
of Bay creek through sections 10, 11
12 & 13 which are laid down in conform-
ity with notes of the reconnoissance
made in March 1842 by John
James M. Donahoe.
The figures are set between the 10
on the line between sections 10
11 and 12 Bay creek is not the dis-
tance between the corners represented
by said figures 215 but is the width
of the Bay creek from the corner
represented by the figure 215 between
which and the corner represented by
the figure 2 there is no direct con-
nection - the corner of that part of the
line between sections 10 11 & 12 which lies East
of Bay creek according to estimation
by John James M. Donahoe in 1842 is
at 85.50.2000

St Louis 25th March 1844
Subscribed under the seal of the
to confirm to previous sales as reported by
15th Aug. 1843, N. E. Sec. 19th and today
plat for the Reg^y and another to the
Acres of the several sections of fractional
sections 10 11 & 12 of the 4th principal
meridian as sold on this plat.

Aggregate area: 23538.56 acres

Surveyors Office
St Louis 18th September 1840
The above plat of 1/2 Trp. 8 S. R. 2 W. of the 4th Meridian is conformable
to the notes & plan of this office in this Office.
Wm. Bee
Sr. of Pub. Land.

T. 9 S. R. 3 W. of the 4th pr. Mer.

At Louis 18 Sept. 1844 Sent copy of Subdivision
of the S. M. gr. of Sec. 23 to H. J. at Survey at his
request - See list of 29 July 1844

Variation 8° 10' East
Scale of 40 chains to one inch.

Surveyor General's Office
St. Louis, the 20th May 1839

The line between Sections 23 & 26 - 64.76 chains-, and the
line between Sections 23 & 24 - 78.61 chains-, and the line between Sections 14 & 23 - 1 mile and
0.25 chains- and the line between Sections 22 & 23 - 40.00 chains- and the meanders of the
left bank of Mississippi river along fractional Section 23 - 38.07 chains- all in
Township 9 South, Range 3 West of the 4th principal Meridian, are correctly de-
lineated on the above plat, according to the field notes of the resurvey thereof
file in this office, which have been examined and approved. - The said lines were
resurveyed in the 4th quarter of 1836 by Silas Hurd, under instructions from the
Surveyor General, dated the 12th of August 1836, and were paid for in the 4th quar-
ter of 1838, and charged in the account of the Surveyor General for that quar-
ter - Voucher N^o 3. -

William H. Miller
Surveyor General

Note: The line between Sections 14 & 23 - being 1 mile and 0.25 chains - is erroneously stated in the
account to be 1 mile and 0.25 chains. -

Townships 10 & 11 South of the base line Range 3 West of the 4th principal Meridian

T 4 R 3

Note. The dotted line through sections 13, 24 & 25 represents the line of meanders along the slough and the Mississippi river, according to the first survey of the township. That line is retained on this plat as a boundary between the several tracts on the East and those on the West thereof.

Office of the Surveyor General for Illinois & Missouri
St Louis 25 February 1857.

This plat of townships 10 and 11 South of the base line and range 3 west of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. That part of the two townships which lies south of the dotted line described in the above note is designated as Pileas island, and was surveyed in October 1856, by Joseph Burnap, under instructions of 24 April 1856. The surveying amount in Township 10 to 10 miles 37.48 chains - and in Township 11 to 50.53 chains. It is enclosed in an account approved by me, received for by Burnap, and this day transmitted to the Commissioner of the General Land office, as per his instructions of the 11 March 1856, for a direct settlement at the Treasury Department, out of the appropriation for the correction of erroneous and defective lines of the public and private surveys in Illinois & Missouri at a rate not exceeding \$100 dollar per mile.

Jno Loughborough
Surveyor General.

A copy of this plat was sent to the Commissioner and Register on 25 February 1857

|---------------|--------|
| Frac. Sec. 10 | 655.43 |
| Frac. Sec. 11 | 93.78 |
| Frac. Sec. 12 | 60.42 |
| Frac. Sec. 13 | 609.76 |
| Frac. Sec. 14 | 400.51 |
| Frac. Sec. 15 | 127.11 |
| Frac. Sec. 16 | 42.30 |

In consequence of errors in the survey of fractional sections 11 on the main shore of the Mississippi, and of fractional section 12, the area of that part of said fractional section 11 which lies on the main shore of said river, and of the legal subdivisions of fractional section 12 have not been computed and set down on this plat; no part therefore of fractional section 12, nor of section 11 except the Island No. 54 will be offered for sale until the necessary corrections shall have been made of which the Register will be duly notified.

The boundaries of the survey of the exterior lines of the Township are without date or signature except the recovery of the East boundary of sections 10 to 20. And the field notes of the subdivisions are without signature except the recovery of the line between fractional sections 10 to 20.

Surveyors Office
St. Louis 20th August 1853

The above plat of fractional sections 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100 is conformable to the field notes of the survey thereof on file in this office.

Wm. C. Rice
Surveyor of the Public Land in the State of Missouri, St. Louis.

Subdivided under the Act of Congress of the 5th of April 1852, and sent copies one to the Register of the District, and another to the Commissioner of the General Land Office.

31st January 1854. A copy of the plat of sections 10 to 30, sent to the Commissioner of the General Land Office.

Variation on N. 54, Spaulding's surveying 7th East. Aggregate area of public land on main shore 2185. Area on Island No. 54 22. Total 2207.

Surveyors Office, Saint Louis, 31st of January, 1854.

The above plat was this day completed, by laying down, Sections 11 & 12, strictly conformable to the field notes of the surveyors thereof on file in this office, which have been examined and approved, as shown by B. A. Spaulding, on the north of April 1853, under instructions of the 31st of March 1853; to wit: the line between sections 11 & 12, 24 chains, and the meanders of the main shore of the Mississippi river, along sections 11 & 12, 1 mile 6.79 chains in all, 1 mile 50.59 chains. See, for the payment thereof, Voucher No. 10 of account current under the general appropriation, during the 3rd quarter of 1853, and accounts current, during the 3rd and 4th quarters of 1853, under the appropriation of \$3000, of the 3rd of March 1851, for surveying 500 miles of unfinished and detached lines in Missouri by Mississippi, at a rate not exceeding ten dollars a mile. See p. 23 acts of 3rd Sec. 25 Congress.

Wm. C. Rice

Page 20 Dec 27.
 Plat of Fractional Township 24-12 South of the Base Line Range 1-3 West of the 4th principal Meridian.

Note
 The East Boundary of this Township was originally surveyed (from a corner established on the River bank) North to 68 chains along the East boundary of Section 16, (commonly called between sections 16 & 18, in ^{the} ~~land~~ ^{lot} 16 & 18 N. E. R. & E. W.) thence it was continued North 2 miles, to where a ^{new} corner was established, but the sections are erroneously called D. 16, 18 & 12, instead of D. 16, 16 & 16, & on the corner the North boundary was surveyed West 5 1/2 ch. to the Mississippi river. The field notes of this ^{original} survey contain no date or signature, and in consequence the said lines are laid down on this plat, except the East boundary of section 16, which is - according to the survey made in 1827 by John Messinger D.S. who did not find the old corner on the River bank, nor did he establish one because the bank was falling fast, and there was no living timber near that place.

The line between sections 12 & 15, was originally surveyed West 5 1/2 ch. to the Mississippi river, where a corner was established, the notes are without date or signature, it is laid down on this plat according to the survey by John Messinger D.S. in 1827 who found no old corner on the River bank nor did he establish one because the River bank was falling in fast and there was no timber near the line between sections 12 & 15, (including the Island N. 56) are laid down according to the survey thereof by John D. Poteet in March 1821.

Areas of the fractional sections
of T12S R3W of the 4th principal
Meridian, as set down on this plat.

 The above plat of lot 12, S. 12. S. R. 3 W. of T. 1 N. is conformable to
 the field notes of the survey thereof (referred to in the marginal notation above),
 and on file in this office. — W. M. Rice

Surveyors' office. Saint Louis 31st of January 1844.
The east boundary of this township, was reserved as a reservation on the above plat; on the 11th of November 1842, by L. A. Spaulding, under instructions of the 31st of March of the same year; on the 1st mile 46.87 chains, &c. See for the payment thereof, Voucher No 10 of account Current, during the 2nd quarter of 1843, and the accounts current during the 2nd and 3rd quarters of 1843, and the special appropriation of \$34000, of the 3rd of March 1841, for ranging 500 miles of detached and encroached areas in Illinois & Missouri.

Silas Reed
Surveyor of the public land in the
State of Illinois & Missouri.

Aggregate area = 23537.06 acres

Surveyors Office
St. Louis 31st October 1830

The Exterior Boundaries and subdivision lines of Township 1 South, Range 4 West, are laid down on the above plat as surveyed according to the following mentioned notes on file in this Office viz

The North Boundary, surveyed West on a true (Bear) line, and the Trip corner established at the end of six miles, the 22nd November 1815, according to notes that are without signature, in Book No 218 of Exterior boundary lines of Townships in Illinois.

The East Boundary, surveyed South, 6 miles, where it intersects the line between Sec 132 South at the corner, according to notes that are without date or signature, but apparently, by John or James C. Donald in Nov^r or December 1815, in Book No 211 B of Exterior boundary lines of Townships in Illinois.

The South Boundary, surveyed West and the Trip corner established thereon at the end of six miles (laid down on the plat only as far West as the 14th Sec. cor on the South side of Sec 31) according to notes that are without date or signature, but apparently by John or James C. Donald in November or December 1815. The Township corner established at the West end of this Boundary, differs materially from the description given of the cor. established at the South end of the West Boundary of the Trip; there is no ascertained connection therefore between the two lines.

The West Boundary, surveyed South, and Trip corner established thereon at the end of six miles the 30th January 1817; is laid down on the above plat (only as far South as the intersection therewith, of the line between Sections 30 & 31) according to the notes of John C. Donald. For further particulars concerning this Boundary, see statement on the plat of Township 1 South Range 5 West.

The Subdivision lines, surveyed in Dec^r 1816 and January 1817, according to notes that are apparently by two or more persons and are irregularly dated, and entered in a field Book, signed by James C. Donald. The latest date, in the book is January 5th 1817 and occurs at the end of the notes of the line between Sec 5 & 6. But the survey or re-survey of the West Boundary of the Trip as above stated, was not made according to the notes until the 30th January of the same year. more than three weeks after the surveys of the East & West Sec lines in the Western tier of Sections; hence it would appear that the said East and West section lines, must have intersected and been connected with a prior survey (there having been two previous surveys made) of the Range line, and not with the survey thereof made on the 30th January, as laid down on this plat, and on the plat of Trip 1 South, Range 5 West. - nevertheless, as the distances on the East & West section lines before mentioned, have all been evidently altered in the field notes, as also, the descriptions of the corners established at their respective intersections with the Range line, except of the corner to Sec 18 & 19 which is "a mound" and is left unaltered in the notes - and except that the intersections with the Range line, of the lines between Sec 7 & 8 and 6 & 7, are also left as originally described. each of said lines intersecting "at the corner" It is probable that subsequent to the re-survey of the Range line, the previously surveyed section lines, were extended to their respective intersections with the new line, and that instead of taking separate notes of these corrections, the Deputy Surveyor had contented himself with altering the original entries in his notes of the said section lines, where ever the new connections made it necessary to do so; It is upon the strength of this hypothesis that the said section lines, where ever the halves of the Western tier of Sections (except of the West half of Sec 31) have been recalculated, are left, as found upon two unauthenticated plats on file in this Office which were probably returned by the Deputy Surveyor, with the field notes of the Trip surveys; one of said plats after having been corrected, was this day issued to the Register with the foregoing statement of facts for the purpose of obviating misconception, and for the special information of purchasers, the other remaining on file in this Office. The survey of Trip 1 S. R. 4 W (except the North boundary) are not in the field notes, and are referred to any printed map, and the old plat on file (which is without date or signature) refers to the principal meridian.

Surveyors Office
St. Louis 10th Sept. 1831.
Plat of the N. W. 1/4 of Sec. 3, of the N. E. quarter of Sec. 145, and of the West halves of Secs 6, 7, 10, 15 & 20, this day to the Comm^r of the Gen^l.

St. Louis 21st March 1834.
Subscribed
the Act of 1832, so as to provide for the sale, reported by in 1835, Aug. 1833 viz:
the N. W. quarter of Sec. 14, and said copies of the plat, are to the Reg^r, and under the Commission^r of the Gen^l Land Office.

31st January 1834, Sent a copy of plat of Sec 31 to the Com^r of the Register.

Variation in the plat of Sec 31, surveyed by J. C. Donald.

Surveyors Office, St. Louis 31st of January 1834.

The above plat of Township 1 South of the line line range 4 West of the 4th principal meridian, was this day completed, by laying down Section 31, the only conformable to the field notes of the survey of the South boundary of the said section, which are on file in this Office, and have been examined and approved. This survey, 1 mile 10 1/2 chains, was executed in April 1833, by B. A. Spaulding under instructions of the 31st of March 1832 - it was paid for in the 3rd quarter of 1833, and charged in the account current of the Surveyor General, during the same quarter, under the appropriation of \$3000, made on the 3rd of March 1831, for surveying 300 miles of detached and unprized lines in Illinois to measure, at a rate not exceeding 50 dollars a mile. See page 20 of acts and resolutions of the 3rd session of 36th Congress.

31st of January 1844. Sent a copy of this plan to the Commissioner of the Register.

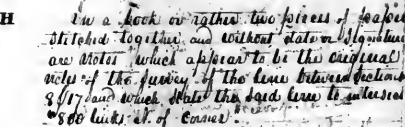

Surveyor's office, Saint Louis, 31st of January, 1844.

The above plat of Section 31 Township 2 South of the base line, range 4 west of the 4th principal meridian, is mostly conformable to the field notes of the survey and returns thereof, on file in this office, which have been examined and approved. The said surveys were executed in April 1843, by D. A. Spaulding, under instructions of the 31st of March 1842. to wit: the line between sections 31 & 32, S. of 1/4 sec. corner to 12 chains - the line between sections 31 & 32, 1 mile 20 3/4 chains and the South boundary of section 31, 1 mile 22 3/4 chains, - in all, 3 miles 3 3/4 chains, which were paid for in the 4th quarter of 1843, and charged in the account current of the Surveyor General, during the same quarter, under the appropriation of \$5,000, of the 3rd of March 1841, for surveying 500 miles of unfinished and detached lines in Illinois & Missouri, at a rate not exceeding five dollars a mile. See page 29 of act of regulations of the 2nd session of the 26th Congress.

(am) sent to-day copies of the plat on to
Genl. & another to the Comr.

Aggregate area = 23901.35 acres

Surveyor's Office, New, October 7, 1886

The North boundary of Township 2 N. R. 1 W. as far West as the 1/2 Sec. E. on the South side of Sec. 31 is laid down on the above plat, according to the field notes of a survey thereof, without date or signature, but apparently by John McDonald in Sept. 1816. Sec. 1815, which describe the line to have been run West from a tree line. Corners 2 & 3, which, without underlying the same line, and without substantiation, a Chipping sp., and Township corner, are, however, calls for "Range 2 West" along the South 1/2 of Sec. 31. These calls are allowed as proper, & it is well known that the line is a curved line, 2 1/2 Sec. E. running West to the NW corner, and also, and an adjacent Concessionist thinks, on the Woods. These facts, which, without on Record, shows in the Column of distances, also field notes of any such Principal as above stated, or of any survey of this line is to be found in the Office, but are a part of the Evidence boundaries of this Township, signed & certified by John McDonald, the South boundary of the North half of Sec. 31 is set down on both sides of the line, "S. 1/2 Sec. 31" (with a different note, some that employed on the rest of the plat, the square "S. 1/2 Sec. 31" on the inside, have instead been attested, and was objected to have been originally written "S. 1/2 Sec. 31" on the plat of the North half of Sec. 31 (without any signature), has also "S. 1/2 Sec. 31" set down on the same boundary. But the plat, Old Map, Plat. of John McDonald plat of the Evidence of this Township, differ from each other, on the West boundary, the latter differs from the old plat of J. & C. D. W. on the line between the two Townships, and neither of them agree with the Old plat of J. & C. D. W. in regard to the line between Range 2 & 3 West. These discrepancies in the Old plat, render the evidence of each irregular, when it differs from the field notes, notwithstanding the circumstances of doubt which accompany the latter.

The South boundary of J. & C. D. W. is therefore laid down according to the field notes as just above stated, leaving the line West of the 1/2 Sec. E. on the South side of Sec. 31 undetermined.

The point of intersection of the North with the West boundary of the Tract, is also problematical, and is not set down on the above plat: the areas of the North halves of Sec. 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735,

31st January 1844. Sent to the Commissioner and the Registrar a plat of section 6.

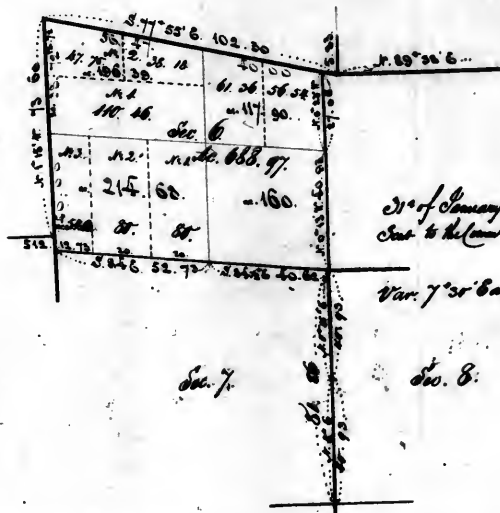

Surgeon's office.
31 January 1864. Saint Louis.
Section C was this day laid down, strictly conforming
the field notes of the surveyors of its North and East
sides are on file in this office and have been examined
and approved. It was executed in April 1863, by
Hawling under the instructions of the St. Louis Board.

this western line.

21st of January 1844. a copy of this plan
sent to the Commr. and the Register.

Var. 7°35' East

Sec. 7.

Dec. 8.

Surveyors' office. Saint Louis, 31st of January, 1844.

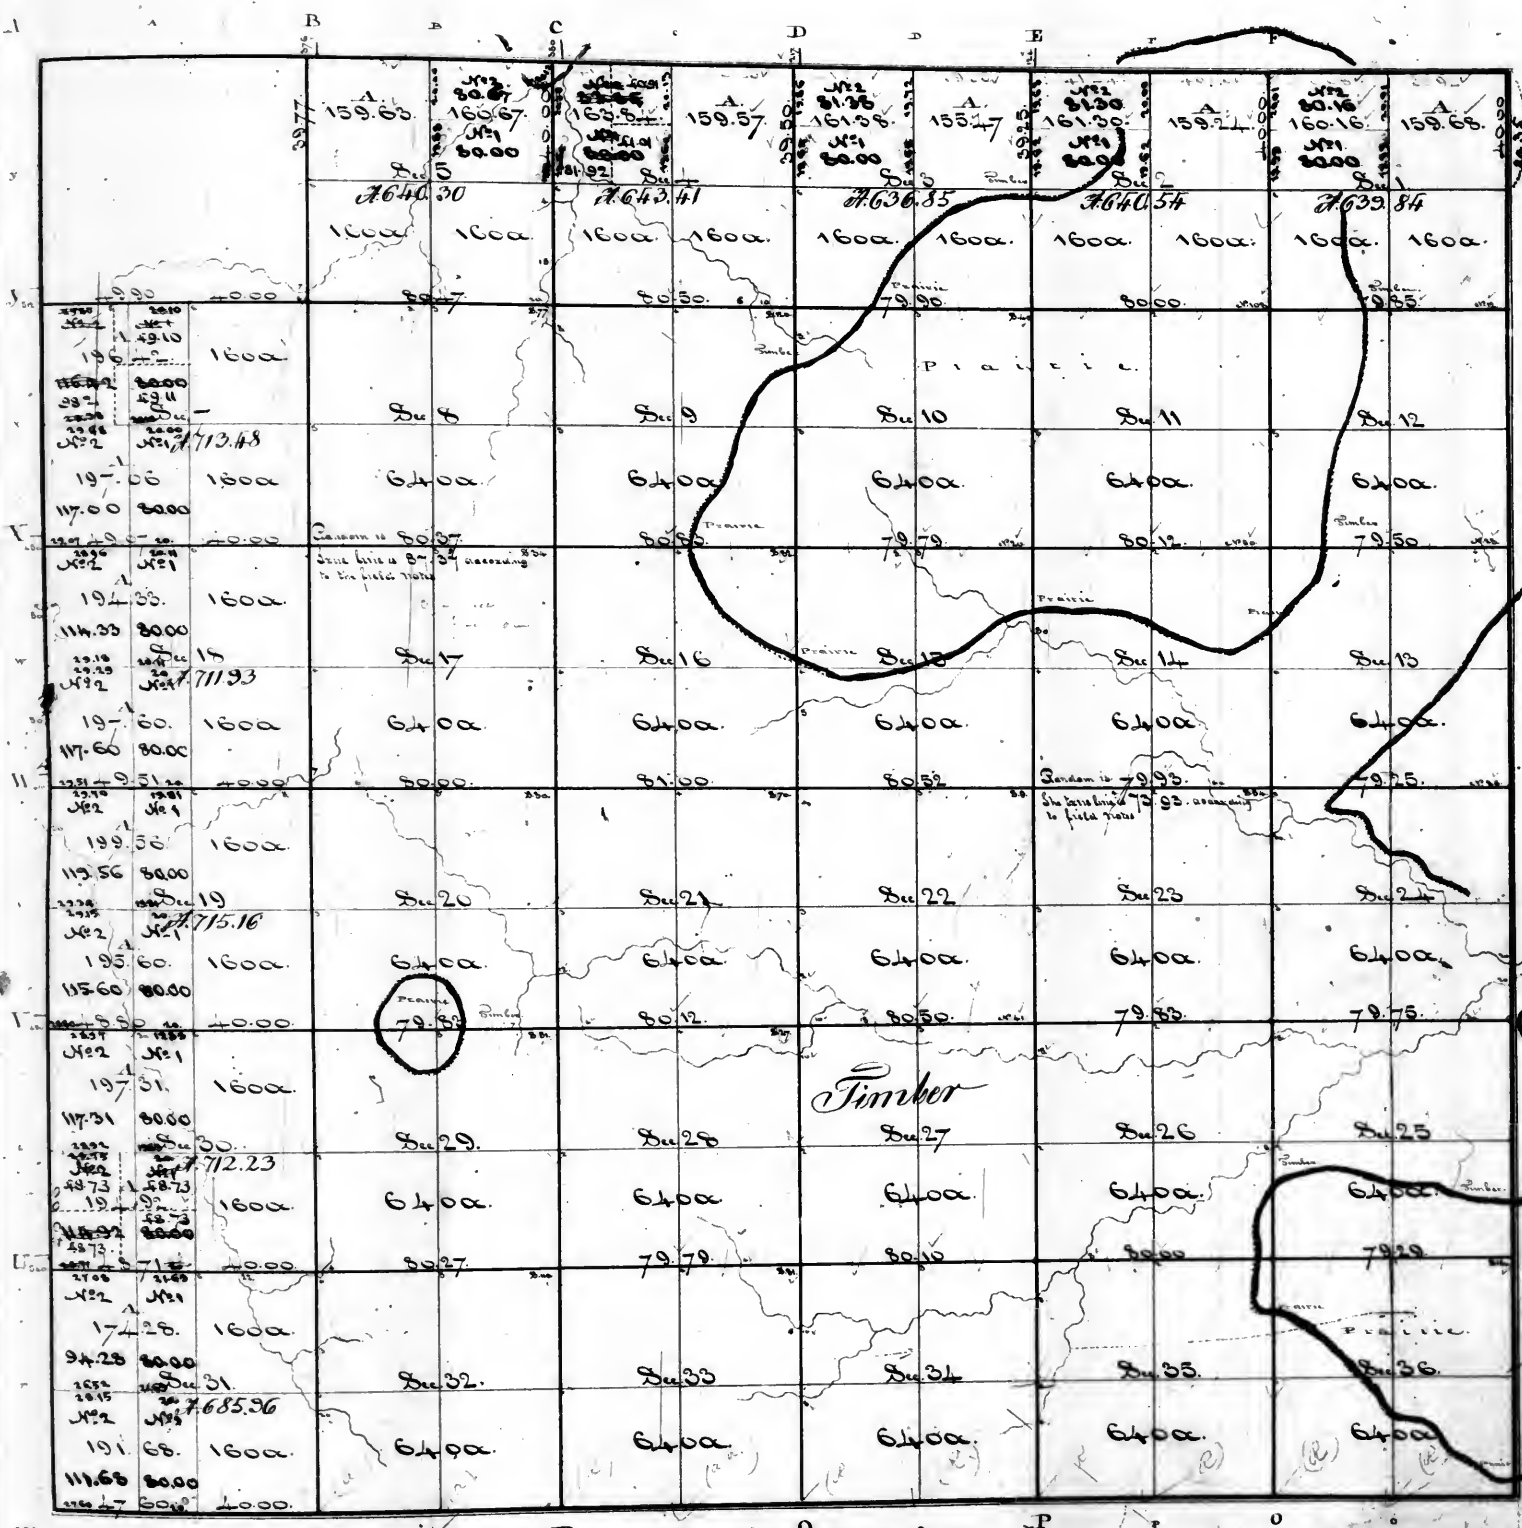

The above plat of section 6, Township 3 South of the base line, range A west of the 4th principal meridian, is strictly conformable to the field notes of the surveys and runways thereof on file in this office, which have been examined and approved. The said runways were executed in April 1843, by D. A. Spaulding, under his directions of the 31st of March 1842. to wit: the line between sections 6 and 7 - 1 mile 13.35 chains - the line between sections 5 & 6 - 67.33 chains - and also the line between sections 7 & 8, 1 mile 1.86 chains - in all, 2 miles 3.20 chains, which were paid for in the 4th quarter of 1843, and charged to the account current of the Surveyor General, during the same quarter, under the appropriation of \$3000 of the 3rd of March 1834, for clearing 500 miles of detached and unimproved lines in Illinois & Missouri, at a rate not exceeding ten dollars a mile. Two pages of acts and resolutions of the 2^d session of the 26th Congress.

S. J. Reed

Silas Reed
Surveyor of the public land in the
State of Illinois and Missouri.

Lat of Township 3 South at the Base Line Range 4 West at the Principal Meridian.

Page 31 of 41

See for this survey by D. L. 3
Spreading the plat of J. S. 23

Note: The length of the line between sections 7 & 16 is not plain in the field notes - the distance set down on this plat is conformable to the old plat on file.

Surveyor's Office
St. Louis, 10th Sept. 1842.
Plat of the N. W. quarter of Sec. 1, 2, 3, 4 of the N. E. of Sec. 5, and of the West halves of Sec. 7, 8, 9, 10, 11, 12, and 13, to the Company of the Land & O.

James Jones 21st March 1844.
Subscribed under the
of 1832 so as to conform to previous sales
reported by the Register on the 15th day
1843, viz:
the N. W. qr. of sec. 4 & 7
the S. W. qr. of sec. 30
and sent today, copies of the plat
to the Reg^r & another to the Comm^r

Aggregate area = 23428.67 acres.

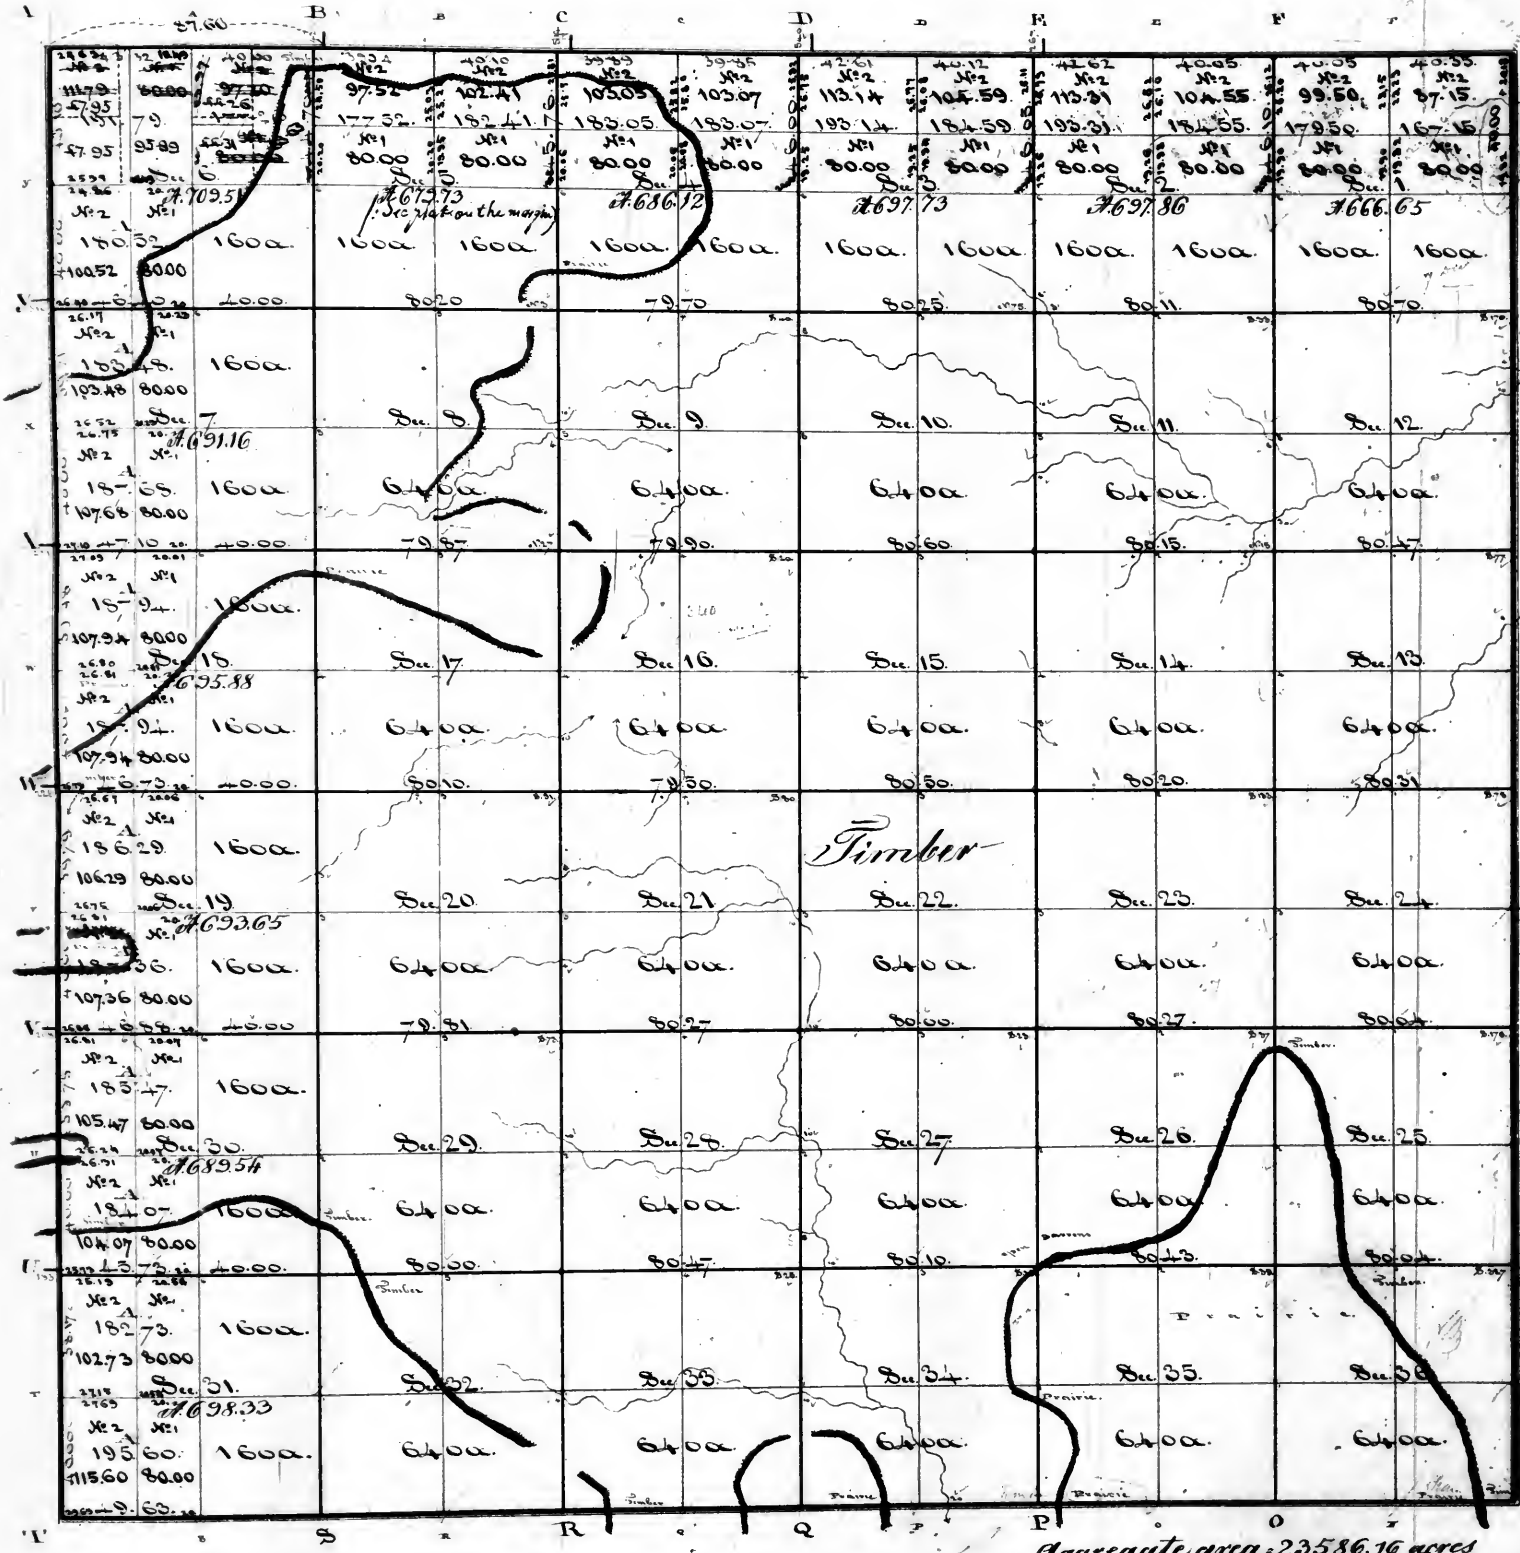

Surveyor's Office, St. Louis 5th October 1840

The North Boundary of S. D. & D. W. (East of the 1/4 Sec. line on the South side of Sec. 18) is laid down on the above plat according to notes that are without date a signature of which represent the entry boundary to have been surveyed West, 6 miles 2.65 ch, without establishing a deep corner, or intersecting at Cor. or intersecting at Cor. with any change line. (See plat of S. D. & D. W. for further particulars.)
The East Boundary surveyed South and West for established Union at the end of 16 miles, (apparently by John A. Donald in Dec. 1815) (see 1815)
The South Boundary - This line appears to have been originally surveyed in 1815 - and again surveyed, or resurveyed, in Dec. 1816. It is laid down on the above plat according to notes signed by John A. Donald; which represent it to have been surveyed West, and at 6 miles 1/2 to show to have intersected at the deep Cor. (which is a second set of notes on file, without date, a signature which extends the line no farther West than the 1/4 Sec. line on the South side of Sec. 18, and which differs from those signed by John A. Donald in the direction given of some of the corners - a third set of notes, on file, but without date a signature conclusively of disagreement, of corners at that boundary, again, with the 1/4 Sec. line of Survey but mentions: there is also, a description of the 1/4 Sec. line on the South side of Sec. 18, and of the corner to Sec. 18 & 19, which does not agree with any of the before mentioned notes.
The West Boundary surveyed North, Dec. 29th (apparently in 1815) and laid down on the above plat, (except the West side of Sec. 6) according to notes, with out signature, (but apparently by John A. Donald): for further particulars concerning this boundary, see plat of S. D. & D. W. 610
The subdivisions lines, surveyed in Dec. 1816, and (with the exception stated on the margin) laid down, according to notes by three different hands, and signed James A. Donald.

Subdivided
the land of 1832 so as to conform
to previous sales as reported
in the Reg. & in the 15th
to wit
the N.E. of section
and sent to day copies of
plat one to the Reg. &
another to the Commr.

Surveyor's Office
St. Louis 10th April 1842.
Plat of the North halves of Secs
4, 2, 3, & 4, 5 of the West half and
N.E. quarter of Sec. 6, and of
the West halves of Secs 7, 12, 13, 30,
& 31, sent this day to the Com-
missioner of the Land O.

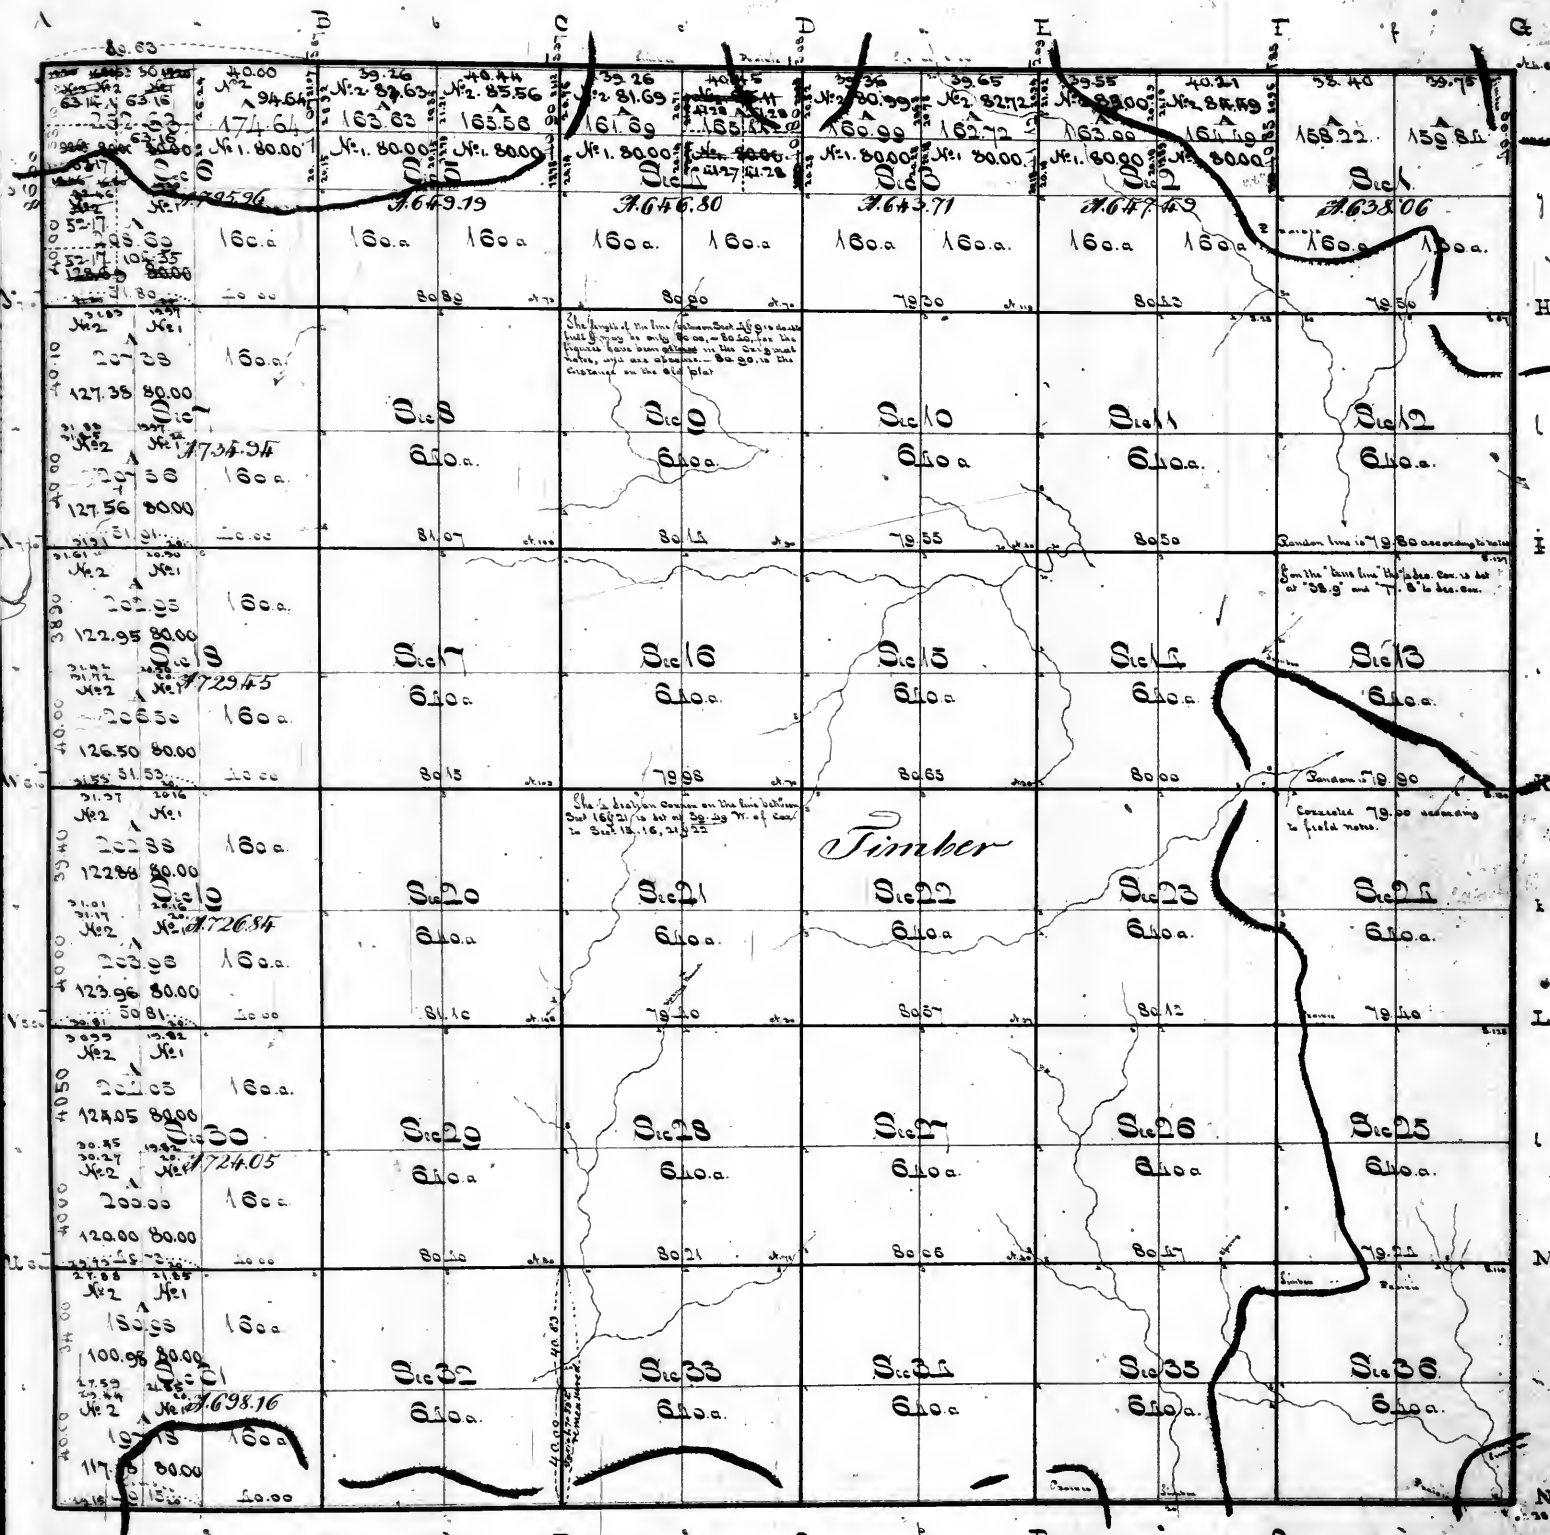

Aggregate area 23586.16 acres

Surveyor's Office
St. Louis 8th October 1837.
The above plat of Twp. 4 S. R. 4 W. is conformable to the Notes on file
in this office, which however do not refer the survey to any Principal
Meridian. — W. M. Rice
Asst. Prof. —

Examined
18th Nov.

Downship 5 South of the Base line, Range 4 West of the 4th Principal Meridian.

page 1

Notes:
The intersection of the line between Sect 455, is rendered doubtful in the field notes, from the situation of the entry; the entry is corroborated however by the old line plat.
The length of the line between Sect 714 is set down on this plat, according to one reading of the field notes - and according to the old unauthenticated line plat - the notes however may be read differently.

Saint Louis 21st March 1894.

Subdivided under the Act of 1832, so as to conform to previous sales, reported by the Reg^r in the 15th May, 1894, to wit: the NE. quarter of Section 2, the NW. of Section 6, and sent to-day, copies of the plat, to the Reg^r's Com. another to the Com^r.

Notes:
The length of the East Boundary of Section 1, Sect 5 S. 25 W. is laid down on this plat 86.00 from the field notes (in Book of 211 D) of said line; the entry of that distance however had the appearance of having originally been written 80.00, and altered to 86.00. On the plat of Township 5 S. 25 W.

Surveyor's Office
St. Louis 11th Sept. 1892
Plat of the North halves of Sect 2, 3, 4, 5, of the West half of NE. quarter of Sec 6, and of the West halves of Sect 7, 13, 15, 20, 21, sent this day to the Com^r of the Public Land Office.

See for correctness of line between sections 32 & 33, the plat of T. 6 S. R. 4 West.

Aggregate area = 23634.65 acres

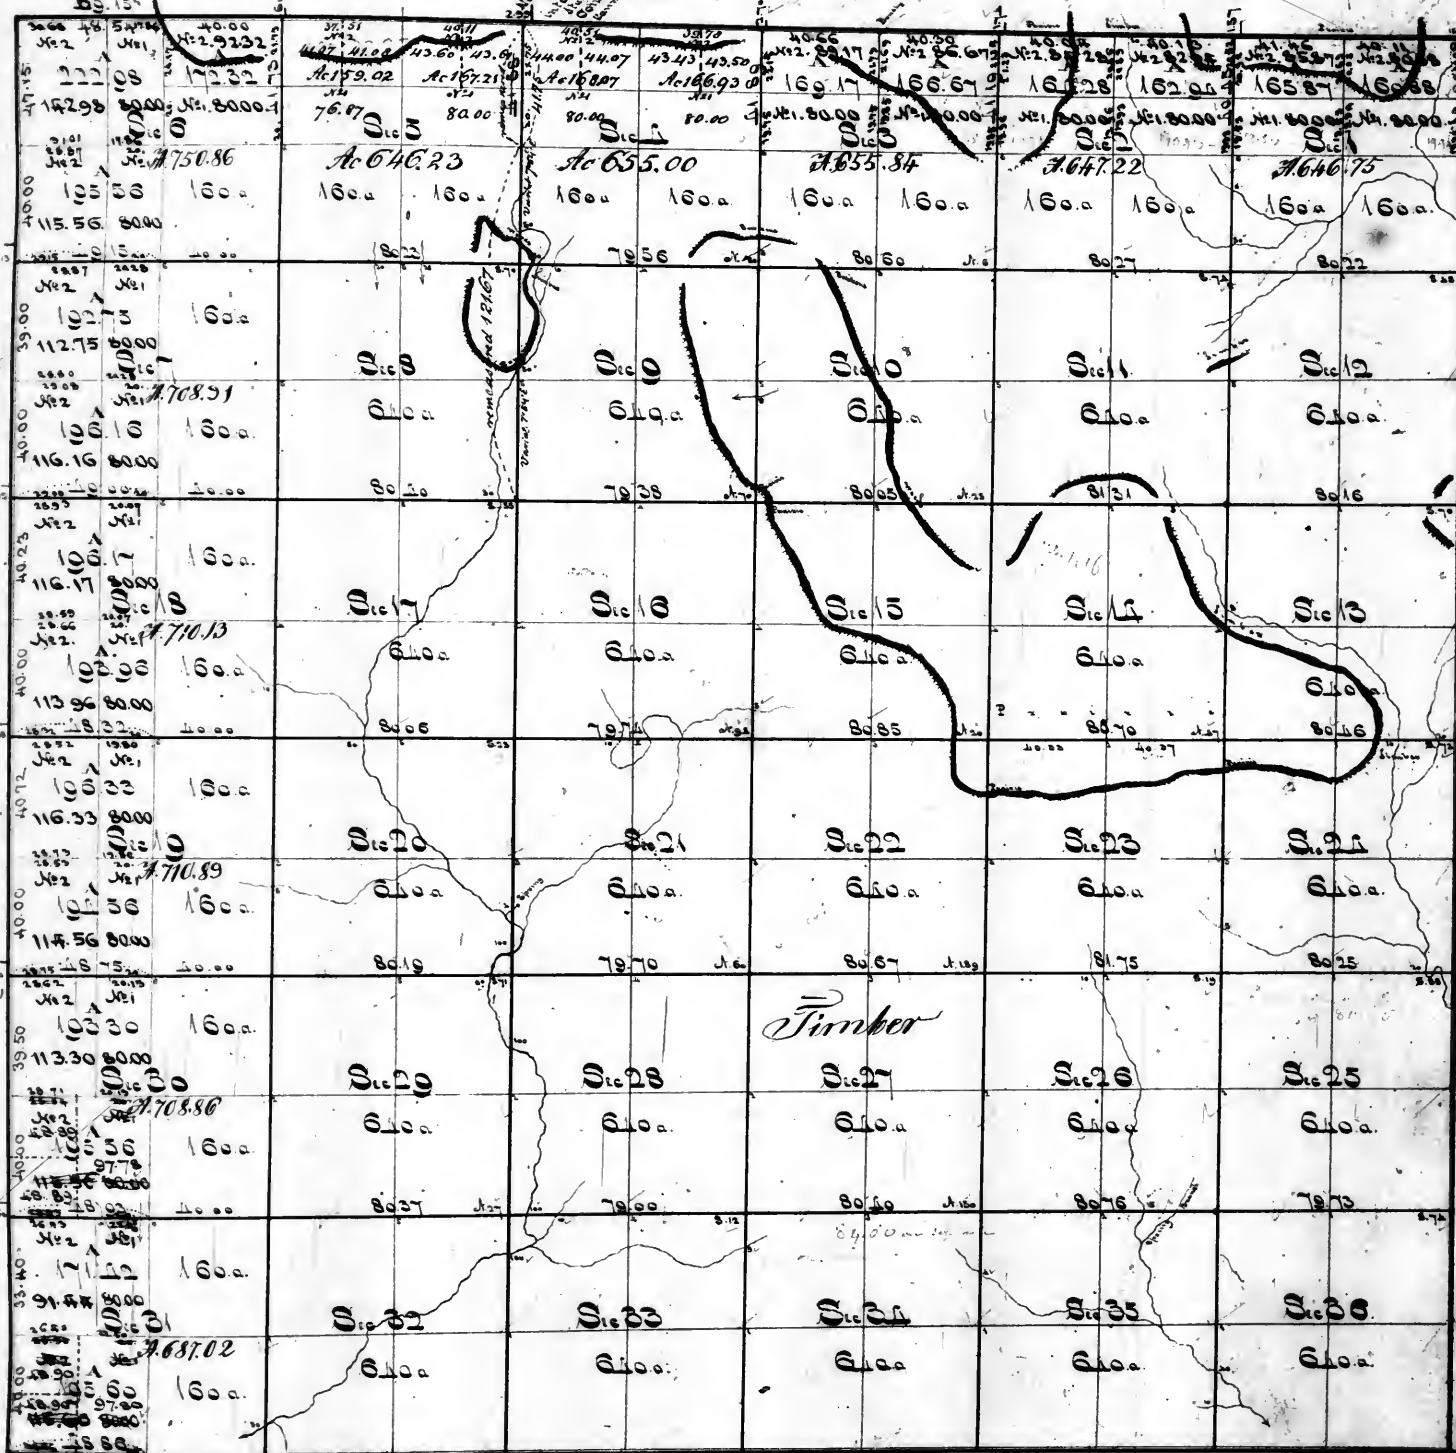

Surveyors Office
St. Louis 8th October 1890
The exterior boundaries and subdivision lines of Twp 5 South, Range 4 West, are (with the exceptions stated in the marginal notes) represented on the above plat according to the field notes thereof on file in this office, mentioned below, but which do not refer the surveys to any principal Meridian. Very
Notes of the North, South, West Boundaries apparently by John or James M. Donald in Dec^r 1815 but not signed.
Notes of the East Boundary dated Dec^r 1815 apparently by John M. Donald.
Notes & subdivision (in three different hands written) put together in a Book signed James M. Donald.

W. M. Rice

Surveyors' Office.

Saint Louis 10th of October 1844.

The above plot of sections 31 & 32, Township 7 South of the base line, range 4 west of the 4th principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. In 1862 & 1863, Amos R. Parker, under instructions of the 12th of March 1842, surveyed the line detailed in the above statement, 4 miles 6 furlongs, which were paid for, in the 2nd quarter of 1844, and charged in the account current of the Surveyor General during the same quarter under the appropriation of \$3000, of the 3rd of March 1843 (page 95 Acts of 31st Janu. 27th Congress) for the survey of detached and unfinished lines in Illinois & Missouri. *S. L. B.*

Scale of 40 chains to one inch.

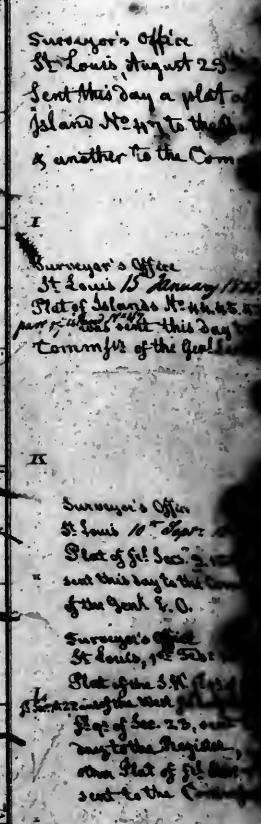

Surveyor's Office, St. Louis, 10th of October 1844.

The above plat of sections 5, 6, 24 & 25 Township 8 South of the base line, range 4 West of the 4th principal meridian, is strictly conformable to the field notes of the Survey hereof on file in this office which have been examined and approved. On 18th of March 1842, Surveyor the lines, described in the above statement, 11 miles 50.27 chains, which were paid for in the 2^d quarter of 1844, and charged in the account Current of the Surveyor General, during the same quarter, under the appropriation of \$2000. of the 3rd of March 1842, (page 95 Act of Session 27th Congress) for the survey of railways and detached lines in Illinois & Missouri at a rate not exceeding 50 dollars a mile.

Silas Reed
Surveyor of the public land in
the State of Missouri &c.

Plot of fractional Township N. 8 South & the Danlimin Range N. 4 West of the 1st principal Meridian

Page 36 vol 21

The notes of the surveyors of the exterior lines of said Township filed in constructing this plat are, without date or signature, but are apparently by John Ellis Donald. In 1815 they are in a field book of exterior lines of Township with no numbers. The notes of the original subdivision of the land of said Township in 1815, as far as the meanders of the left bank of the river are concerned, are by John D. Beale in March 1815, and the meanders of the right bank of the river are apparently by three or four different persons, in a Book, No. 1060 signed John Mc Donald.

The subdivision lines on the plat of said Township are laid down in the plat according to the notes in said Book of Subdivision lines, No. 1060, except the line between sections 577 and 578, which is laid down according to the meanders of the left bank of the river, and both banks of the Chenoweths, and the meanders of the right bank of the river, and both banks of the Chenoweths, according to the re-survey thereof by John Ellifinger in March 1827.

Plat of Township 1 South of the Base line in Range 5 West of the Principal Meridian.

page 37 vol 21

1530

uncalculated

The East Boundary of the Township appears from notes in this office to have been originally surveyed about 6 miles and intersected at the first corner, at present, by John M. Donald, at Donald's, probably in 1815.

It was surveyed apparently a second time, in 1816, by the same surveyor, when it again intersected at the first corner, by John M. Donald, Jan. 5, 1817. The notes of this survey have been examined and found correct, and each of the proper things, of one of them crossed out.

The line was surveyed a third time (as laid down in this plat) south, and a line corner established there at the end of six miles, Jan. 20, 1817, by John M. Donald, Jr.

There is also a file of south set (or collection) of notes (without date or signature) containing descriptions of corners, by which, describes all the corners on the line, south of the base line. These descriptions agree with those given in the notes of the 1st survey of the 20th Jan. but above mentioned.

Surveyor's Office
St. Louis 10th Sept. 1842.

Plat of NE quarter of Sec 14, of the N. 1/2 of Sec 24, and of the West halves of Sec 6, 7, 18, 19, 30, 31 and this day to the Commr of the General Land Office.

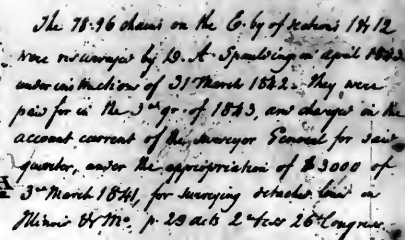

Saint Louis, 10th March 1844

Subdivided
of 1832 as is to conform to
reported by the Reg. on the 15th
of the N. 1/2 of Sec. 31
the 20th of Jan. 31.
and to-day, copies of the
the Reg. and another to the

Surveyor's Office, St. Louis, 11th October 1840.

The Eastern boundary & subdivision lines of Township 1 South, Range 5 West, as shown on the above plat according to field notes taken, or file in this office, and mentioned below, but which (except the East boundary) do not refer to the survey thereof to any Principal Meridian.
The notes of the survey of the East boundary are in a field book of Exterior lines of Townships in Illinois numbered 218, they are dated December 1815, but are not signed.
The notes of the East boundary are in field books of Exterior of 216, those of the East body are signed John M. Donald, and dated January 10th 1817, those of the West body are without date or signature.
The notes of the survey of the West body are in field books of Exterior lines in Illinois numbered 212, they are apparently by James M. Donald, in March 1816.
The notes of the subdivision are in field books of 1043 A. of subdivisions of Townships in Illinois, they are dated in January 1817, and have the names of John & James M. Donald on the outside.

Page 38 vol. 21

The fallings of the Pandanus between Stations 23^g 26, 24^g 25, 13^g 24, 12^g 15, 14^g 12, 26^g 25, 23^g 26, 14^g 25, 11^g 14, 25^g 11, 24^g 23, 22^g 27, 15^g 22, 10^g 15, 25^g 10 and 16^g 21, are not stated in the field notes.

The East Boundary of Township 2 S.
R. 30 W. appears from notes on file to have been
originally surveyed North 6 miles, where it inter-
sected at the Township corner, in March 1816,
by Samuel H. Donald. It was a return survey
at 600 yds; as either comes out at 560 to
the East side of Section 1, a corner established
to sections 1 & 2, at 76.50 and at the end
the fifth mile following, the Township corner
was established by John M. Donald. D. S.
The notes of this survey are not dated, but follow
in the same book (N. 216), immediately after
the notes of the East boundary of S. 3, R. 20 W.,
and laid down on the Plat at that Township.

Date of origl. Submis. of Ser. 7418, the 18th July 1941

Surveyor's Office
Saint Louis 11th October.

The exterior boundary and subdivision lines of Township 2 South Range 5 West, are represented on the above plat according to field notes thereof on file in this office (but which do not refer the Surveys to any principal Meridian &c.)

The notes of the survey of the West boundary, in book of partitions in Illinois numbered 212, signed by John M. Donald in March 1816.

The notes of the Survey of the North, East & South boundaries on a field book of sections in Illinois number 216, those of the East Boundary are signed John Mc Donald, and those of the North and South are without signature, but are apparently by John Mc Donald, they are all three without date.

The notes of the Subdivision Taxes of the Township are without date, they are in field book of Subdivision in Illinois numbered 10 & 11, signed John M. Donah.

Expressed

The External Subdivision lines of Twp. 3 South, Range 5 West are represented in the above plat among the first notes thereof in this office, but which do not refer the survey to any former plat or subdivision.

The North Boundary according to notes, apparently of John M. Donald, in book C. 216, of Township lines of ships in Illinois, which run west only, as far as the quarter section corner on the North End of Section 31, Twp. 3 S., R. 5 W., the line of the W. of Section 31 is omitted on this plat.

The West & South Boundary according to notes, apparently, of John M. Donald in book C. 216, of Township lines of ships in Illinois, in December 1815, is shown.

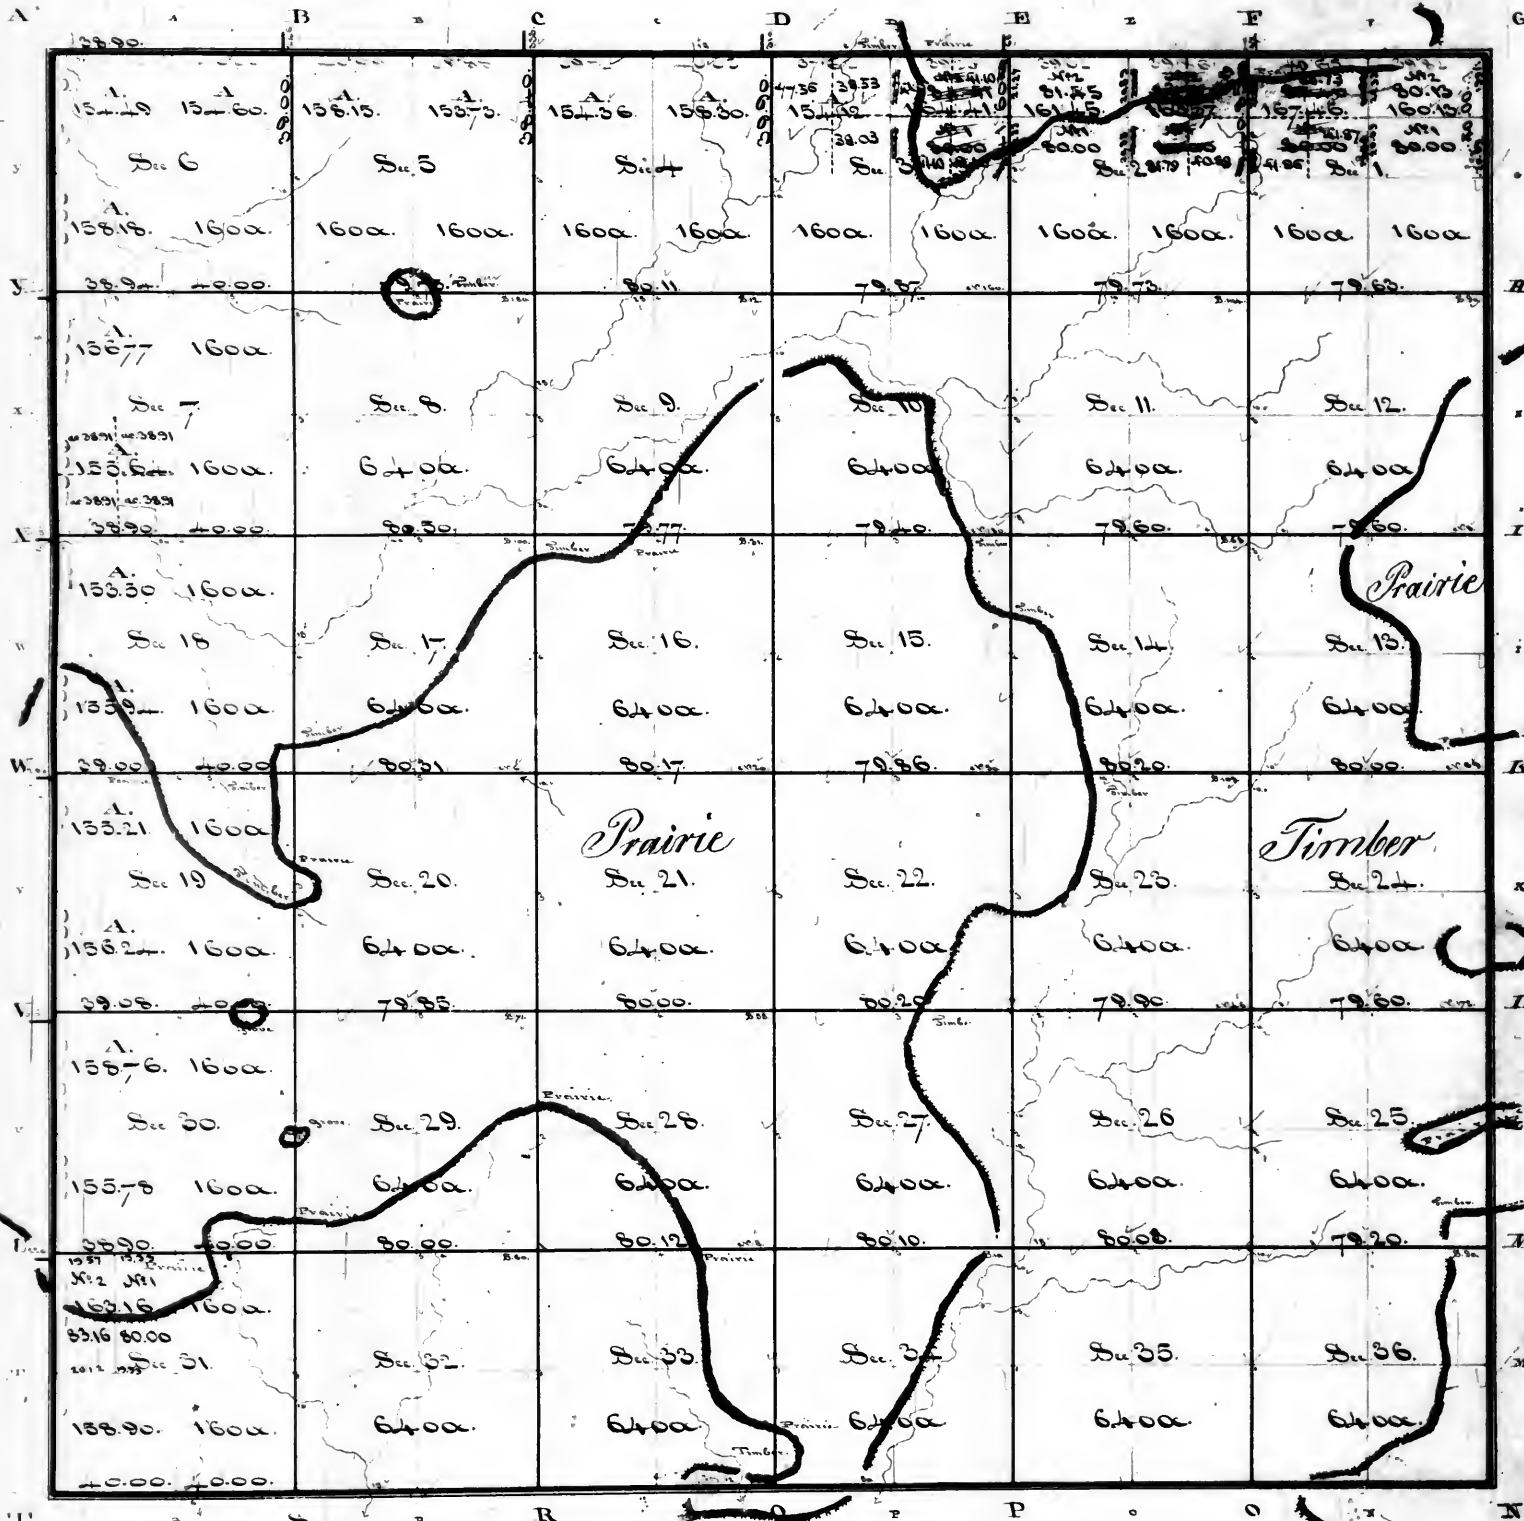

The East Boundary, according to notes apparently, of John M. Donald in book C. 216, of Township lines of ships in Illinois, in December apparently 1816, (with the quarter states in the margin of the plat).

The Subdivision lines according to notes of (apparently) John M. Donald in book C. 216, of Township lines of ships in Illinois, in December 1817.

ending to note of (apparently) 1884.

Comptroller
1870

Surveyor's Office
St. Louis October 11th 1830.

The exterior boundary and subdivision lines of Township 4 South, Range 5 West, are represented on the above plat according to the following notes thereon on file in this office, but which do not refer the surveys to any principal meridian viz:
The notes of the survey of the East boundary—apparently by John or James M. Donald in December 1815.
The notes of the survey of the North, West and South boundaries—dated in December 1815, in a book signed by John M. Donald
The length of the East boundary of Sec. one Township 4 South Range 5 West, has been altered, and is rendered obscure, it appears to be intended for 8000. The old Township plat however signed by John M. Donald represents the line between those sections as of the proper length or 8000 and under the uncertainty of the above stated notes, the said old plat is taken as explanatory thereof, and the line set down on this plat as 8000 chains.
The notes of the subdivision—in three or four different hand-writes—put together in a book signed John M. Donald. The said book is numbered 1039 of subdivision book of Townships in Illinois.
The notes of the East boundary are in a book numbered 2113, and those of the West North and South boundaries are in a book numbered 2114 of Exterior Lines of Townships in Illinois.

Notes in a Book No. 211A signed John M. Donald - 5 - 18 March 1844

Township 5 South of the baseline. Range 5 West of the 4th principal meridian

Note
The length of the East boundary of section 4, as laid down on the plat is 86.00 from the full note for Book No. 211B of said line, the survey of that distance having been the appearance of having originally been written 80.00 and altered to 86.00 in the plat of Township 5. S. R. 5. W.

Note
The entry of said distance has been written 80.00 and altered to 86.00 in the plat of Township 5. S. R. 5. W.

The full note does not state at what distance from either of the two corners the line was laid out on the line like the yellow line in the plat.

Surveyor's Office
St. Louis 10th Sept 1844.
Plat of the North halves of Secs 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, of the North half of Sec. 34, of the West half of Sec. 35, of the West half of Sec. 36, 19. 30. from this day to the Commence of the Plat. 4.0.

St. Louis 21st March 1844.
Subdivided under Act of 1832 as to conform to provisions as reported by the Reg^r on the 15th August 1843, viz:
the N.W. qr. of sec. 1 (cont)
the N.W. qr. of sec. 13
and sent to day, copies of the plat on to the Reg^r and another to the Comm.

Township 5 South Range 5 West

Surveyor's Office
Saint Louis 11th October 1850.

The exterior and subdivision lines of T. 5. S. R. 5. W. are represented on the above plat according to notes of the survey thereof on file in this office (but which do not refer the survey to any principal Meridian) and the North, West and South boundaries according to notes in book 211A, signed John M. Donald, in December 1845. The East boundary according to notes in Book 211B apparently by John or James M. Donald in December 1845. The subdivision lines by these persons, in a book numbered 1038, with the signature of John M. Donald on the outer leaf thereof.

quarter of Sec. 21 and 22
to the Commr of the Genl
Land Office.

Surveyor's Office
St. Louis October 11th 1830

The exterior boundary and subdivision line of Township 6 South Range 5 West, are (with the exceptions stated above) represented on the above plat according to field notes thereof on file in this Office mentioned below, but which do not refer the surveys thereof to any principal Meridian viz.

The notes of the survey of the north boundary by John Mc Donald in December 1815 in book numbered 211A.

The notes of the survey of the east boundary apparently by John or James Mc Donald in December 1815 in book numbered 211B.

The notes of the South boundary, east of the Chapel Creek or a channel of the Mississippi (which was run West 3 miles 27 rods) are apparently by John Mc Donald in December 1817; and the notes of the survey of that part of the South boundary West of the Church Creek (which was run East 2 miles 36 rods) signed James Mc Donald and dated November 1816 in book numbered 216.

The notes of the survey of the West boundary are apparently by John Mc Donald in November 1816 in book numbered 215 except the West boundary of Sec. 6 which is a book numbered 214 apparently by John Mc Donald in December 1816.

The notes of the subdivision line in three different hand written put together in a book and dated January 1817, without signature but has the name of Charles Mc Lure in the margin.

Copy sent to the Comr. &
Register on 23rd Oct. 1844.

Scale of 40 chains to one inch.

Surveyor's Office.

First Survey 10th of October 1844.

The above plat of township 8 North of the base line, range 5 West of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The east boundary of said township 50-50 chains, and the measures of the Mississippi river, 77.20 chains, were surveyed in 1842 & 1843, by A. T. Parker under instructions of the 13th of March 1842. They were paid for on the 29th of June 1844, and charged in the account current of the Surveyor General during the 2nd quarter of that year, under the appropriation of \$3000, of the 3rd of March 1843 (see page 35, of the 4th resolutions of 37th Congress) for the survey of detached and unperfected lines in Illinois & Missouri.

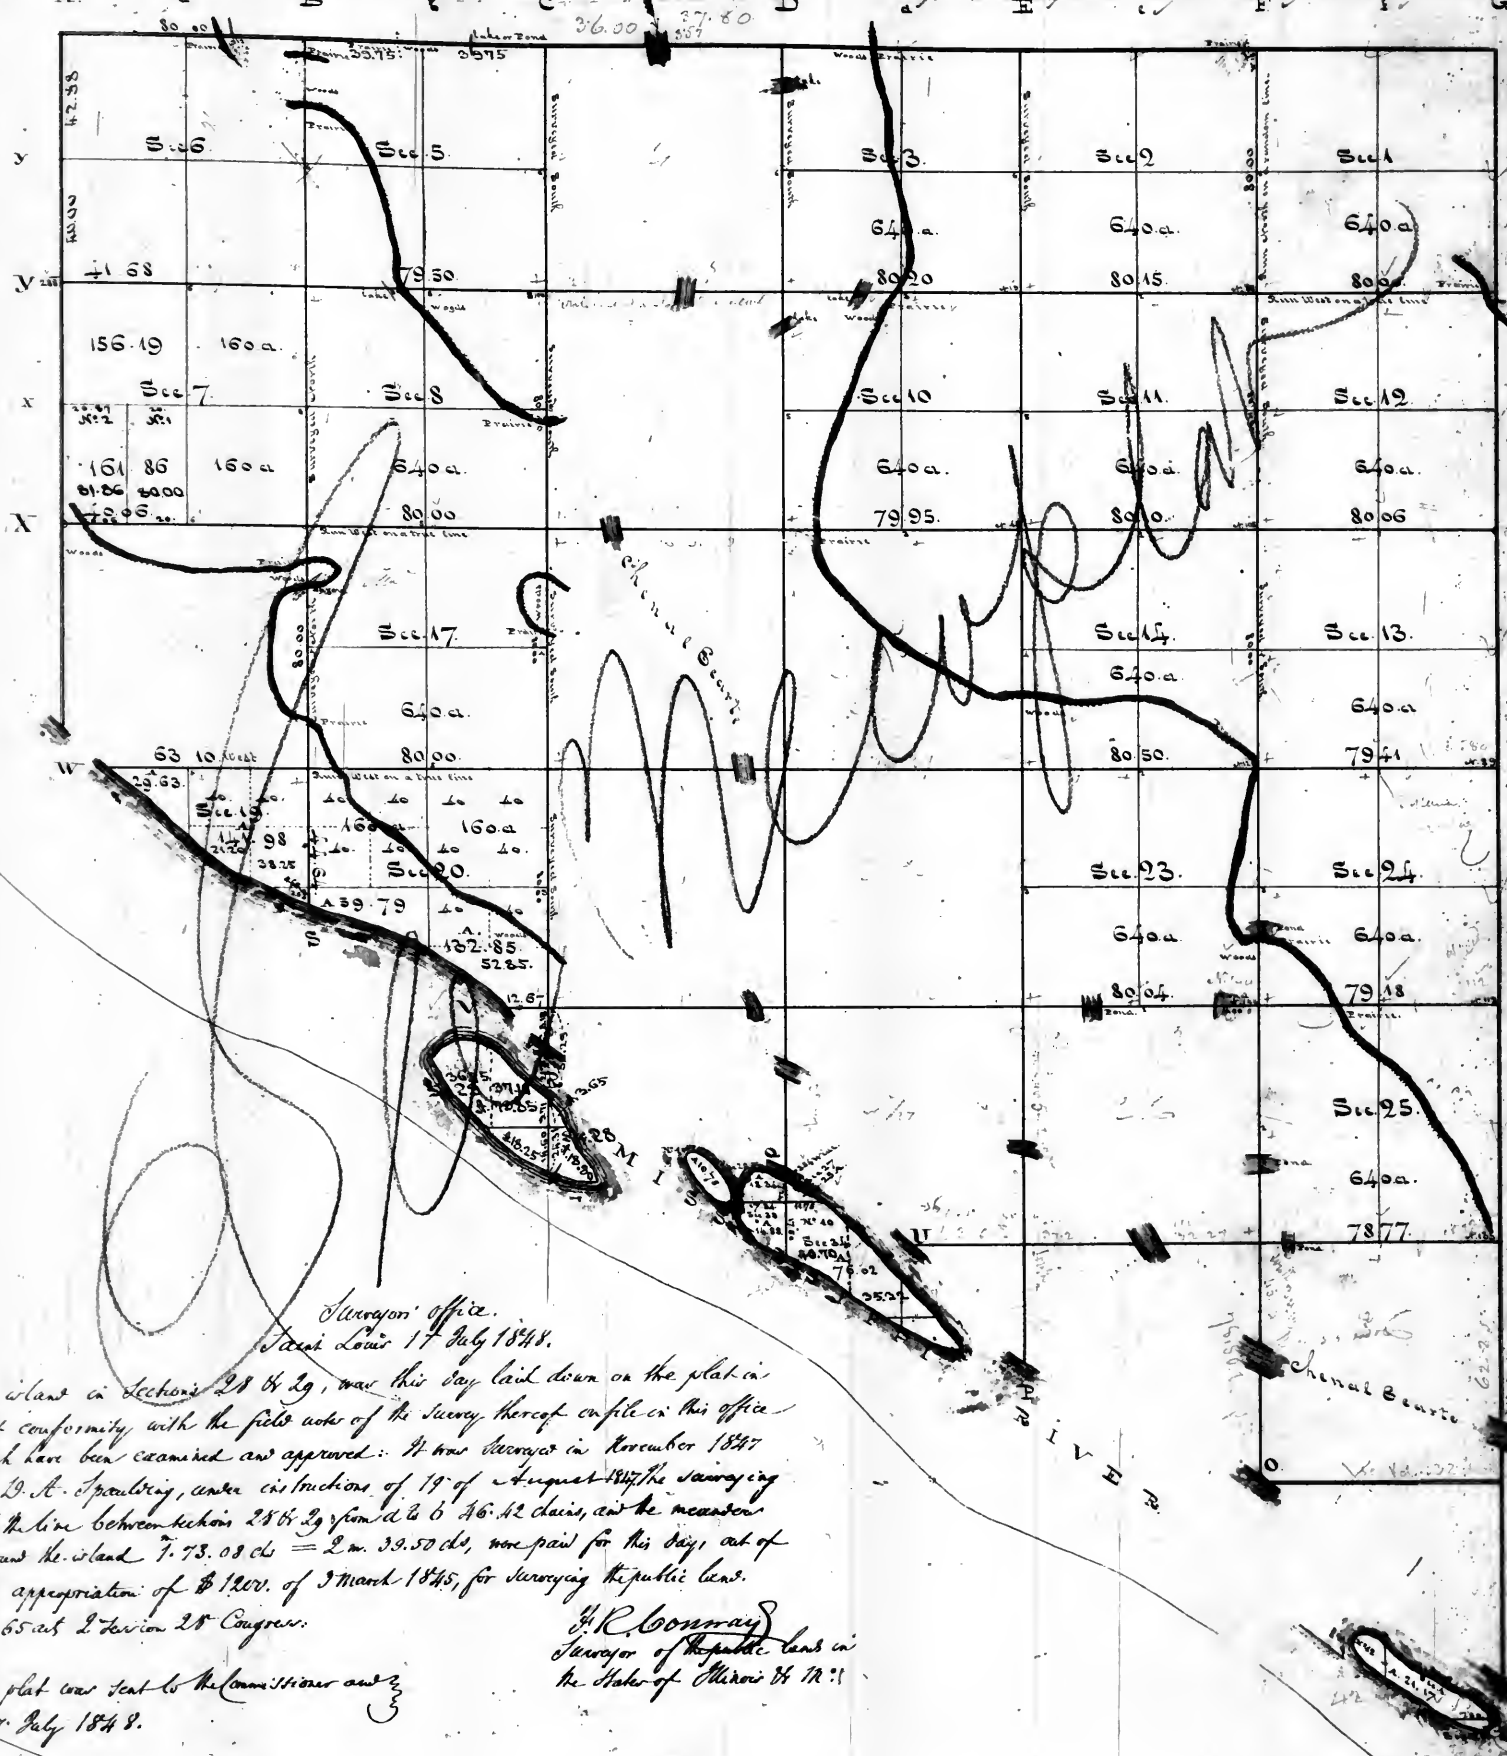

Silas Reed

Surveyor of the public lands
in Illinois & Missouri.

St. Louis

This day recalculated Sec. 1, and sent a copy of the plat
to the Register & another copy to the Comptroller of the Land Office

Fractional Township 7 South of the baseline, Range 3 West of the 4th principal Meridian, except sections and fractional sections 2, 5, 6, 9, 10, 16, 21, 22, 26, 29, 35, 36; and except also fractional sections 27, 28, 34 on the main shore of the Mississippi River, which are omitted on account of errors in the survey thereof. And also a Plat of fractional sections 1, 12, 13, 14, 15, 17, 19, 20, 23, 24, 25, 33, 34, in T. Township 8 South of the baseline, Range 3 West of the 4th principal Meridian.

Surveyor's Office
St. Louis, October 1850.

The south boundary of the 1st South Range 6 West, was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 16 and 17 was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 17 and 18 was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 18 and 19 was surveyed in 1851 by the Surveyor General of the Territory of Missouri.

The south boundary of the 1st South Range 6 West, was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 16 and 17 was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 17 and 18 was surveyed in 1851 by the Surveyor General of the Territory of Missouri. The line between Sec. 18 and 19 was surveyed in 1851 by the Surveyor General of the Territory of Missouri.

Surveyor's Office
Saint Louis 13 April 1850.

Sections 4 and 5 of this township have been plotted and the areas of the 16 1/2 and 17 1/2 quarters thereof have this day been calculated upon the assumption that the boundary lines which purport to be meridians are parallel to each other, which makes north boundary of section 4 - 79.66 chains and the north boundary of section 5, 80.11 chains.

Surveyor's Office
Saint Louis 12th October 1850.

William Miller
Surveyor of the public lands in the State of Missouri

The exterior boundary and subdivision lines of T. 1. S. R. 6. W. are represented on the above plot, according to the notes thereof mentioned below, which do not refer the Surveyor (except of the North boundary) to any principal Meridian.

The North boundary from notes in Book of Exterior N. 218, without signature and dated in November 1816.

The East boundary from notes, apparently of James M. Donald in March 1816, in book of Exterior numbered 212.

The South boundary from notes, apparently of James M. Donald in March 1816, in a book of Exterior lines of Township numbered 212 and signed "John M. Donald".

The West boundary from notes (apparently of James M. Donald in March 1816) in book of Exterior numbered 212 signed John M. Donald.

The Subdivision lines from notes dated in January 1817, without signature (and apparently by 3 or 4 different persons) put together in a book numbered 1024.

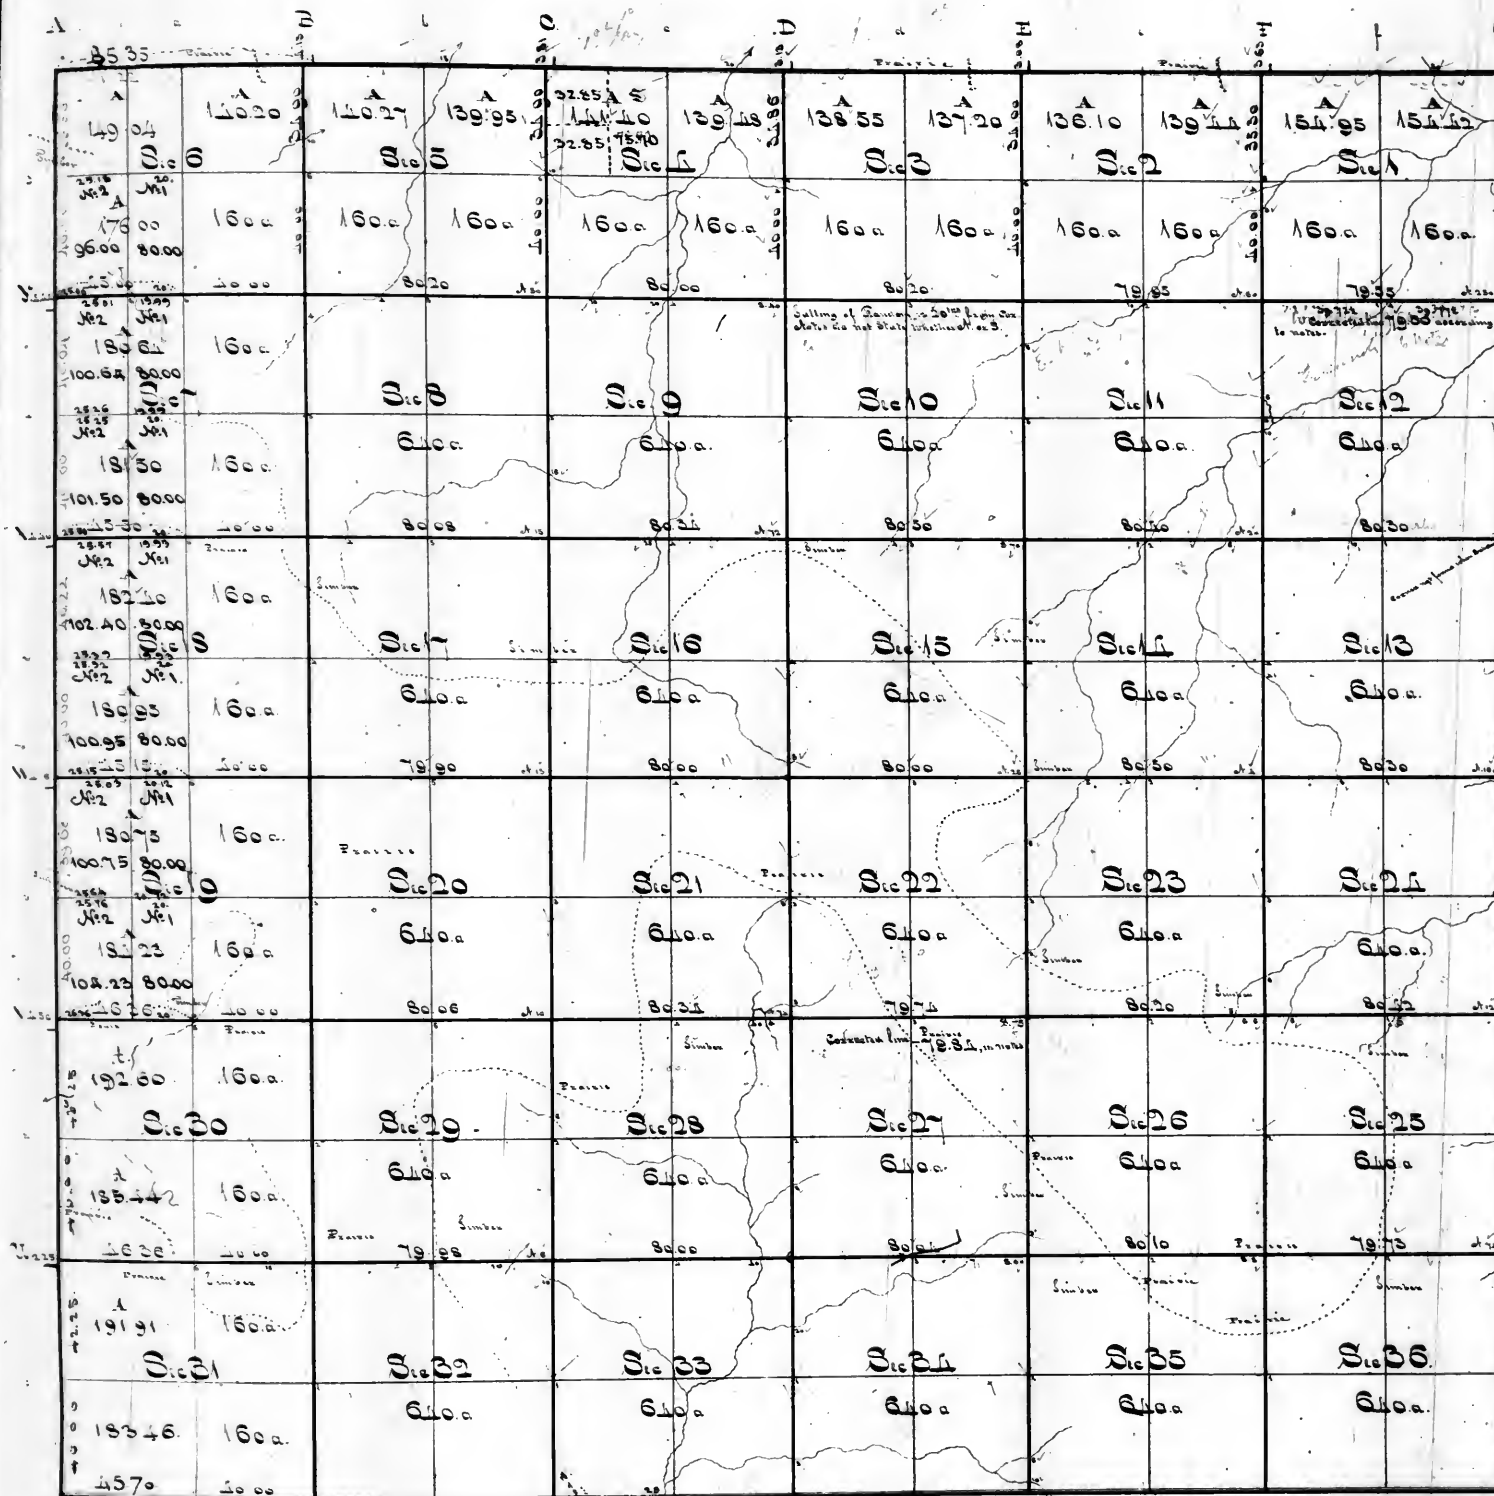

St. Louis 10 April 1850.

A copy of the plot of the 16 1/2 and 17 1/2 quarters of sec. 4 and 5 of the W. 1/2 of T. 1. S. R. 6. 7. 18. 19. 30 and 31 sent this day to the Comr. of the Genl. Land Office.

Township 2 South of the base line, Range 6 West of the 4th Principal Meridian.

page 45 vol 21

6570
7285

At the intersection of the random line between sections 12 and 13, with the range line, the corner was not found, consequently the falling line from could not be determined, said line between sections 12 & 13 was corrected, West on the supposition of the falling being the same as that of the line between sections 2 & 3, viz. 12.3 links North of the corner. In the description of the corner to sections 12, 22, 27 & 28, it is erroneously called "boundary 2 South."

The intersection of the line between sections 30 & 31 with the range line is not given in the field notes, the areas therefore of the West halves of sections 30 & 31 are omitted on this plat.

Surveyor's Office

Saint Louis 21 May 1836.

The areas of the N.W. and S.W. quarters of sections 30 & 31 which were originally omitted on this plat for the reasons stated above have this day been calculated as if the line between said sections had intersected the Range line at half the distance between the corner thence for sections 29 and 30 and the Townships corner. The said line between sections 30 and 31 will therefore be surveyed on accordance herewith from the quarter section corner already established thence.

Surveyor's Office

Saint Louis 10 Sept. 1842.

Plat of the S.W. quarter of Sec. 6 and of the West halves of Secs 7, 12 & 13 sent this day to the Comptroller of the Genl. Land Office.

Surveyor's Office

Saint Louis 16 January 1847.

Subdivided the N.W. q. of Sec. 6 conform to a previous sale (marked S) & sent a copy to the Register & a copy to the Comptroller of the Genl. Land Office.

Surveyor's Office

Saint Louis 12th October 1850.

The exterior boundary and subdivision lines of T. 2 S. R. 6 W. are represented on the above plat according to the notes thereof mentioned below, which do not refer the surveys to any principal Meridian viz:

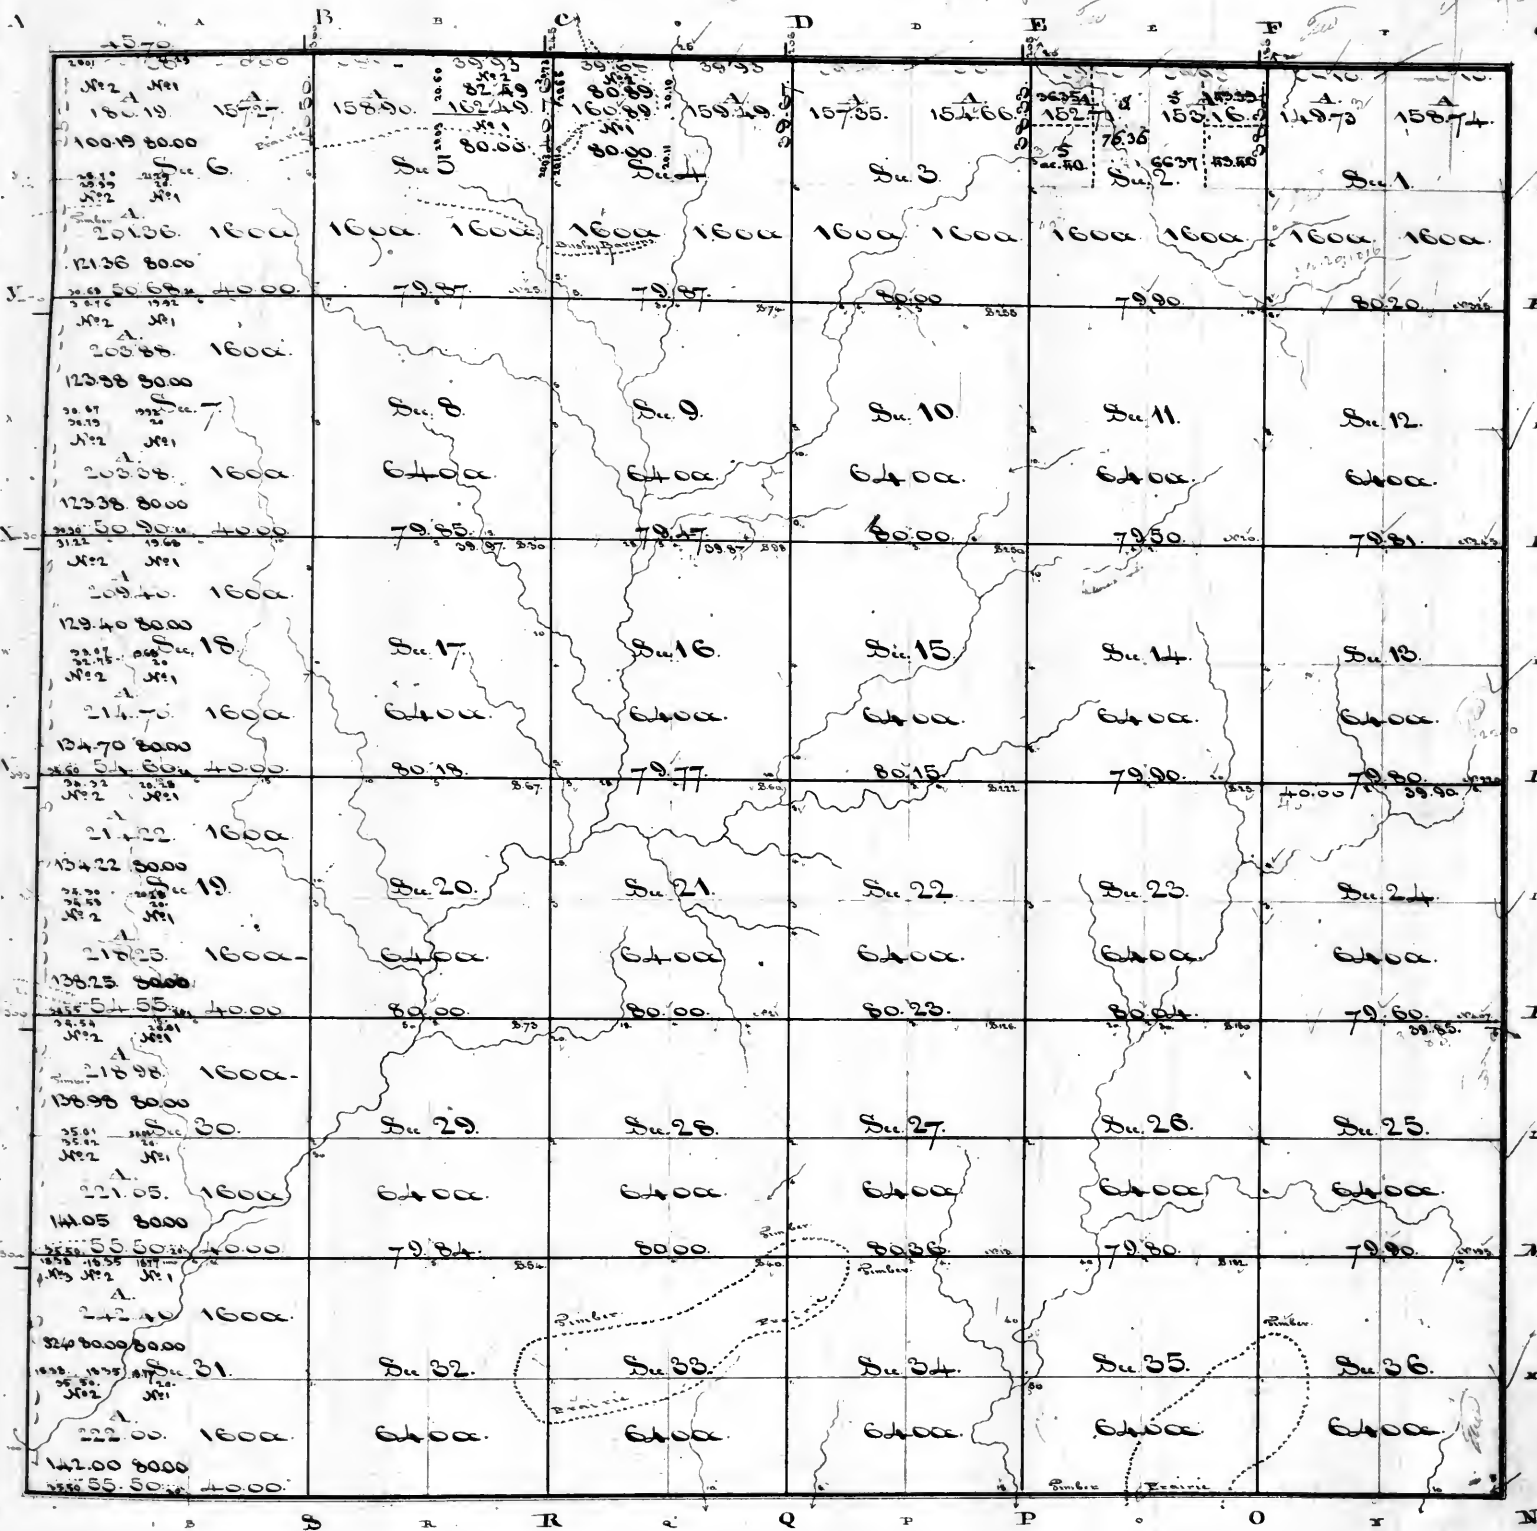

The North, East, South & West boundaries, from notes apparently of James M. Donald, in March 1816, in Book of entries of Townships numbered 212, and signed "John M. Donald."

The subdivision lines from notes dated in December 1816, and in January 1817, without signature (and apparently by 3 or 4 different persons) put together in Book number 1020. —

Variation:
on West boundary 8° 23' East
all the other lines 7° 30' East.
Scale of 40 chains to one inch.

Surveyor's Office, Saint Louis 18th of October 1844.

The above plat of section 19, 30 431 Township 5 South of the base line
range 6 West of the A¹ principal meridian, is strictly conformable to the field notes of the survey made on file in this office
which have been examined and approved in 1842 & 1843. James R. Parker, under instructions of the 12th March
1843, surveys the lines described in the above statement, 20 miles 65.02 chains, which were paid for in the 3rd quarter
of 1844 and charges in the account current of the Surveyor General during that quarter, under the appropriation of
\$3000. of the 3rd of March 1843, (p. 95 act 3rd session 27th Congress) for the survey of unfinished and selected lines in
Missouri & Arkansas.

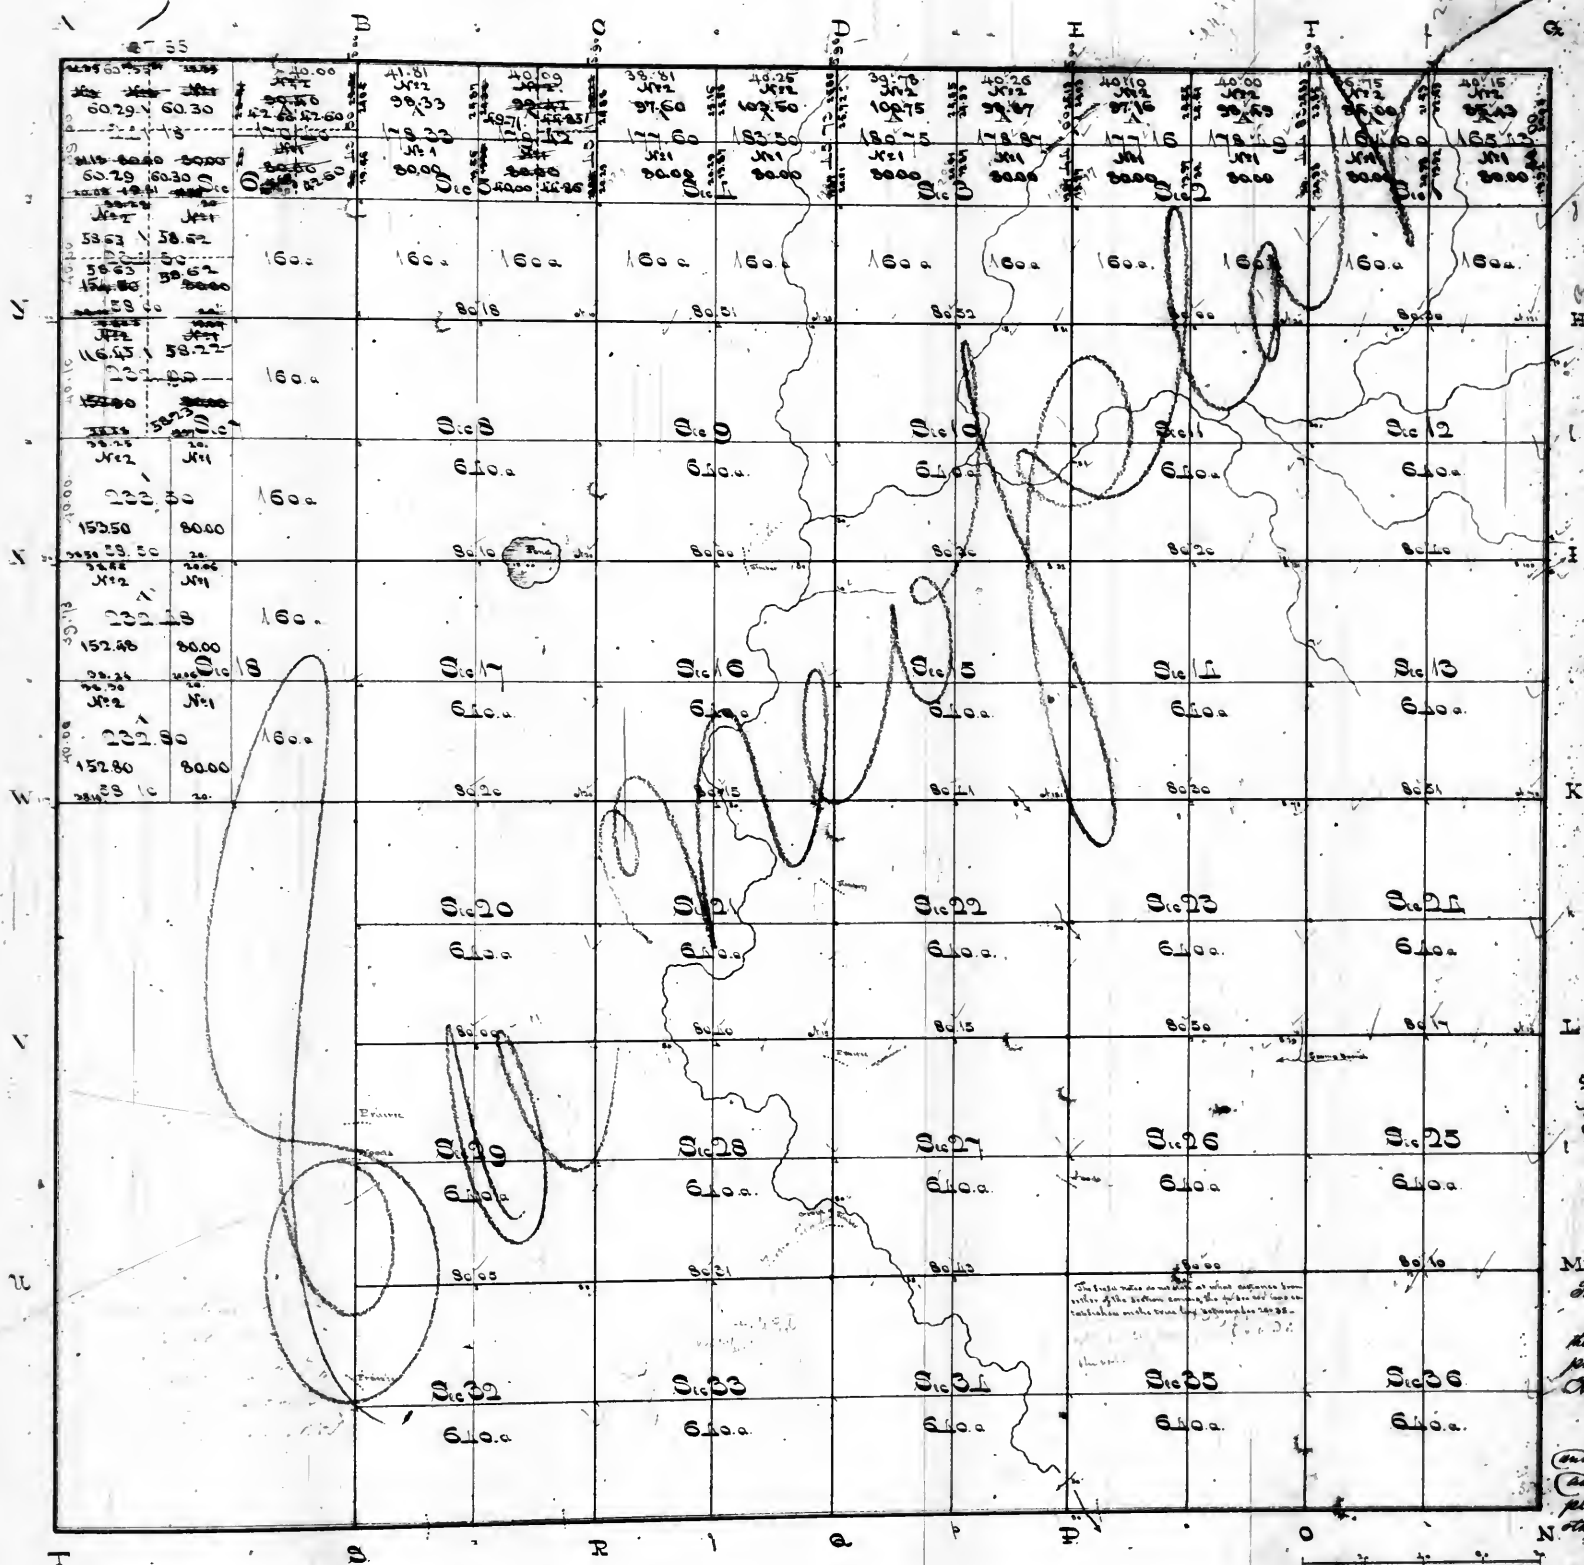

Silas Reed
Surveyor of the public lands in
the State of Missouri & Arkansas.

Township 5 South of the base line, Range 6 West of the 1st principal meridian.

48

except Sections 19, 20 & 31 which are omitted on account of errors in the surveys.

48 vol 21

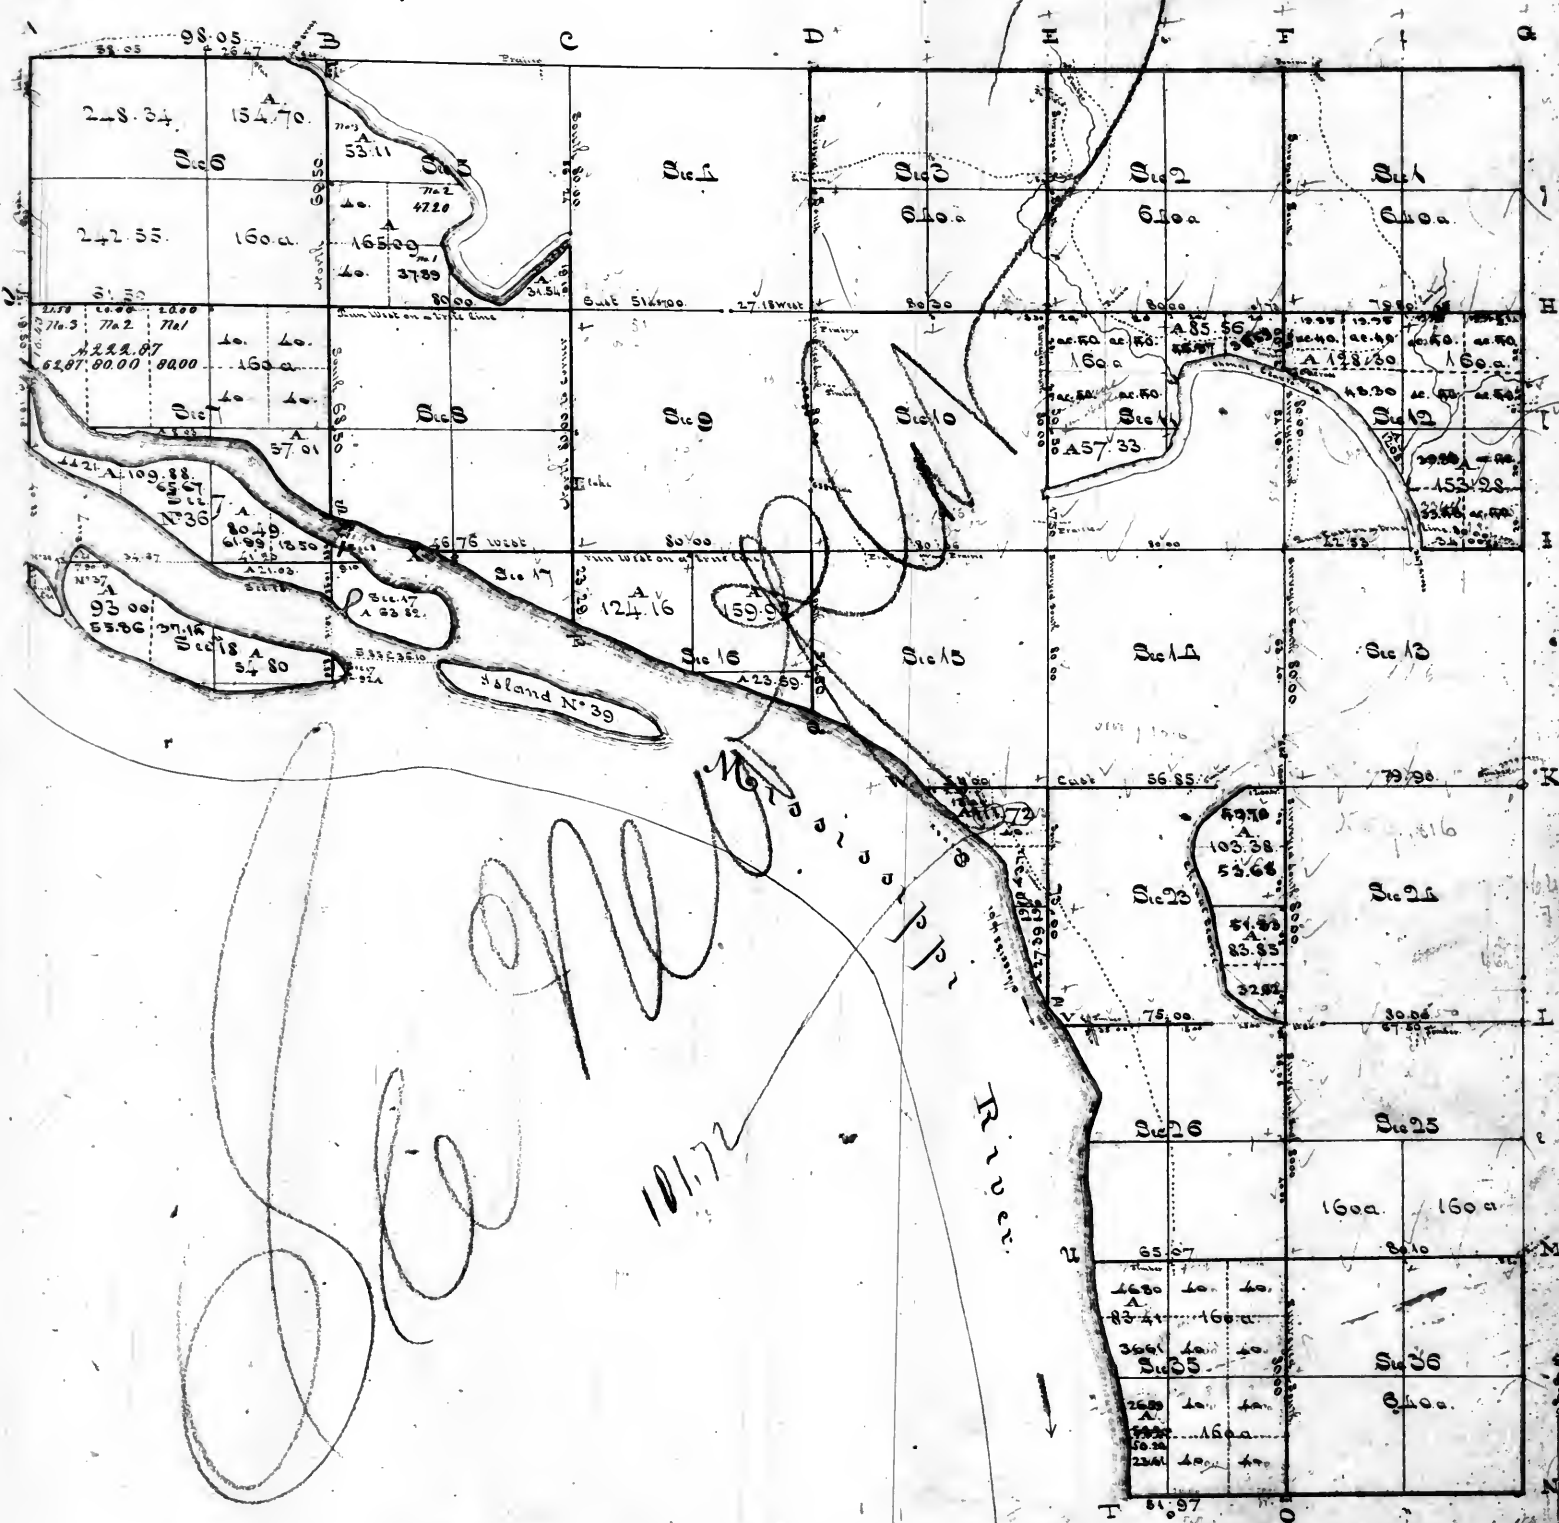

Notes of the Surveyor
The original length of the line was
what was first written, to 80.00.
1. Plot of exp. 5. S. & 5. W. signed
the distance is represented by
on the old plot of J. S. & R. G.
not signed. - the line is

Surveyors Office

St. Louis, October 14th 1830

The Exterior Boundary and Subdivision lines of Township 6 South, Range 6 West of the 4th principal Meridian, including the meanders of the left bank of the Mississippi and of Island number 37 and part of Islands numbered 36 & 38; and the meanders of the Chenal Beavie, are laid down on the above plat according to the field notes of the survey thereof mentioned below.

The North, South and West boundaries, except on Islands N° 36 & 38, from notes (apparently of John M^{rs} Donald in November 1816) in book of exteriors numbered 216.

The East boundary, from notes (apparently of John M^{rs} Donald in November 1816) in book of exteriors numbered 216, except the East boundary of sec. one, which is from notes (apparently of John M^{rs} Donald in December 1815) in book of exterior boundaries numbered 211A.

The Subdivision lines and meanders (except of the Islands numbered 36, 37 & 38) are from notes of the survey thereof in books numbered 1016A & 1016B, signed John M^{rs} Donald, and 1016C, without signature, all in November 1816.

Island N° 37, and that part of Islands numbered 36 & 38 which lies in this Township, are from notes of the survey thereof by John S. Potter in March 1821.

Wm. H. Potter
Surveyor General

T. 7. S. Pr. 6. W. of the 7th pt. M^o

Surveyor's Office

St. Louis, August 13th 1845

Note. The Register at Quincy in his letter to this Office, of the 15th of November 1844 reported all the whole quarter sections of this Township as potential for military purposes, and the fractional sections were divided 5, as sold. On this Plat the fractional sections are divided in to tracts, to suit these sales, except such the areas, which are set down in conformity with the instructions of the Commissioner of the General Land Office, dated the 25th of April 1845.

A Copy of this Plat sent to the Commissioner; and another to the Register on the 13th of August 1845

Surveyor's Office

St. Louis, August 13th 1845

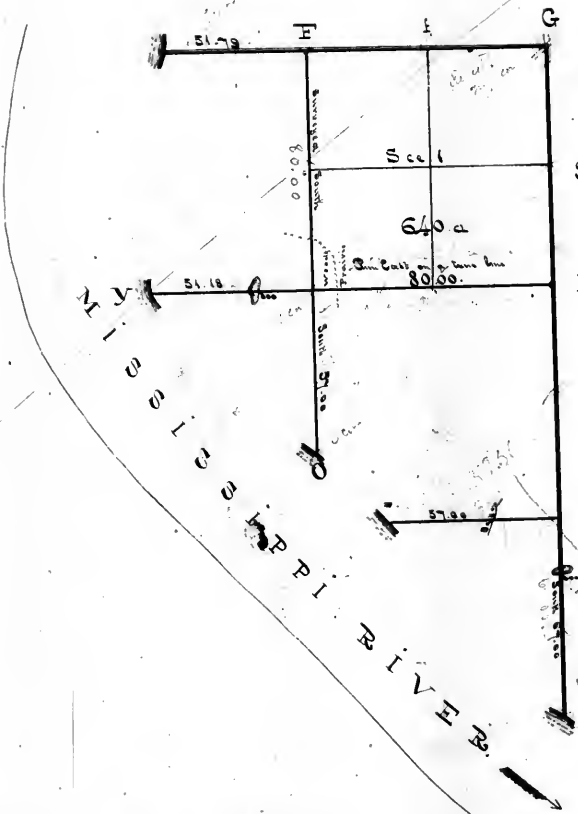

The above Plat of Township 7 South of the base line, Range 6 West of the 7th principal Meridian, is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved.

In 1842 & 1843, Amasa D. Parker, under instructions of the 12th of March 1842, surveyed the lines detailed in the Marginal Statement, 5 miles 67.63 chains, which were paid for in the 2^d quarter of 1844, and charged in the account current of the Surveyor General during the same quarter under the appropriation of \$3000 of the 3^d of March 1843, for the survey of ungranted and detached lines in Illinois & Missouri, at a rate not exceeding six dollars a mile.

See p. 35 arts 3^d Session, 27th Congress.

J. K. Courney
Surveyor of the public lands in the
States of Illinois & Missouri.

The above plat of section No. 1 - pt. 2 p. 7 S. R. 6
west of the 4th Meridian is confirmed
with the notes of the survey thereof on file in this
office - Wm. Reed
Sr. Asst. Secy

Map of Township 1 South of the baseline in Range 7 West of the 4th Principal Meridian.

Notes: The survey was made by John McDonald in 1815. The notes are in a book numbered 218. The survey was made by John McDonald in 1815. The notes are in a book numbered 218.

Notes: The survey was made by John McDonald in 1815. The notes are in a book numbered 218. The survey was made by John McDonald in 1815. The notes are in a book numbered 218.

Notes: According to the field notes used in constructing this plat there is no connection between the West & South boundaries of the Township. The area of the West half of Section 1 is therefore omitted, as is also the West boundary and the West half of the South boundary of said Section.

Surveyor's Office St. Louis 14th May 1830. The South boundary of Sec 1 of the Township has been laid down on this plat according to the survey thereof by John McDonald on the 27th day of the present month under the lines of the 16th and the 17th and 18th of said Sec 1 have been calculated in accordance therewith and a plat of the Section transmitted to the Register of the County.

E. J. Simpson

Surveyor's Office St. Louis 14th Apr: 1830. Plat of the N.E. quarter of Sec 1 of the North halves of Sec 2, 3, 4, 5, of West half N.E. quarter of Sec 6, and the West halves of Sec 7, 15, 16, 20, and 21 to the Commr. of the Land O.

Surveyor's Office St. Louis October 14th 1830

The exterior boundary and subdivision lines of Township 1 South Range 7 West are represented on the above plat according to notes of the Survey thereof mentioned below which do not refer the surveys (except the two eastern miles of the North boundary) to any principal Meridian. The East and South boundaries from notes (apparently of James McDonald in March 1815) in book of exterior survey numbered 212 signed John McDonald.

The North boundary from the N.E. corner of the Township West to the corner of Sec 24, 25 of Twp 1 N R 7 West from notes without signature in book of Exterior survey numbered 218, and dated in November 1815. The remainder of said North boundary and the West boundary are from notes which seem to be a copy (and are apparently by John McDonald in October 1816) in book of exterior boundaries numbered 216.

The Subdivision lines are from notes dated in October 1816 without signature (and apparently by three or four different persons), put together in a book numbered 1007.

Notes in Book 1816, by James M. Donald

Notes in May 1816

Note
Stations were established at the intersection of the line between Sec. 2 & 3 with the Township line.
According to the notes used in constructing this plat, there is no doubt of the correctness of the West boundary of the Township, and the East and South boundaries thereof, the areas of the West halves of sections 31, 40, and of the S.W. quarter of section 45 are therefore included as is also the West boundary and the West half of the South boundary of said section 31, and the West boundary and West half of the North boundary of said section 45.

Surveyor's Office
St. Louis 31 May 1836.
The South boundary of Sec. 31, Town 18 N Range 7 W has been laid down on this plat according to the survey of the same taken on the 27th day of the present month under instructions of the 16th and the 17th and 18th sections of Section 6 of this Township have been calculated in accordance therewith, and a plat of said Section 6 transmitted to the Register at St. Louis.

E. J. Langhorne

Surveyor's Office
St. Louis 10 Sept 1840.
Plat of the North halves of Secs 12, 13, 14, 15 and of the West halves of Secs 16, 17, 18, 19, 20 and this day to the Commr of the Genl Land Office.

Surveyor's Office
St. Louis 15 January 1847.
Subdivided the N.E. 1/4 of Sec. 6, so as to conform to a previous sale (marked S) and sent a copy to the Register & another copy to the Commr of the Genl Land Office.

Examined
W. M. C.

The exterior Boundary & Subdivision lines of T. 2 S. R. 7 W. are represented on the above plat according to notes of the Survey thereof mentioned below and which do not refer the Survey to any principal Meridian viz.
The North, East and South Boundaries from notes apparently of James M. Donald in March 1816 in book of sections numbered 212 signed "John M. Donald".
The West Boundary from notes which seem to be a copy, and are apparently by John M. Donald in October 1816 in book of sections numbered 216.
The Subdivision lines from notes dated in October 1816, without signature and apparently by 3 or 4 different persons put together in a book numbered 1006. —

Note.

At the intersection of the line between Sections 1 & 5 with the Township line the falling from the corner to Section 21 & 25 of S. 2. S. is not given the field notes. The areas of the North halves of Sec. 4 & 5 are therefore omitted on this Plat. According to the field notes used in constructing this Plat there is no direct connection between the West boundary of the Township and the North & South boundaries thereof, the areas therefore of the West halves of Sections 21 & 6, and of the N. E. quarter of Section 6 are omitted, as is also the West boundary of the West half of the S. boundary of said Section 21, and the West boundary of West half of the North boundary of said Section 6.

Subdivided under
Act of 1832
the NW. qr. of sec. 31,
and sent to day, copies of the plat on
to the Dep. Com. another to the Govt.

Surveyed & approved of by General Donald in March 1816.

Surveyor's Office St Louis 11th October 1850.

The Exterior Boundary and Subdivision lines of Twp. 5 & 6 R. 7 W. are laid down on this plat according to the notes thereof made by the surveyors and which do not refer the surveys to any principal Meridian. viz:
The North, East, and South boundaries from notes (apparently of James M. Donald in March 1816) in book of Exterior lines of Townships, numbered 112, signed John M. Donald;
The West Boundary from notes (apparently of John M. Donald in October or November 1816) in books of Exterior lines of Townships, numbered 216.
The Subdivision lines from notes without signature (and apparently by David Persons in October 1816) put together in a book, numbered 1005.

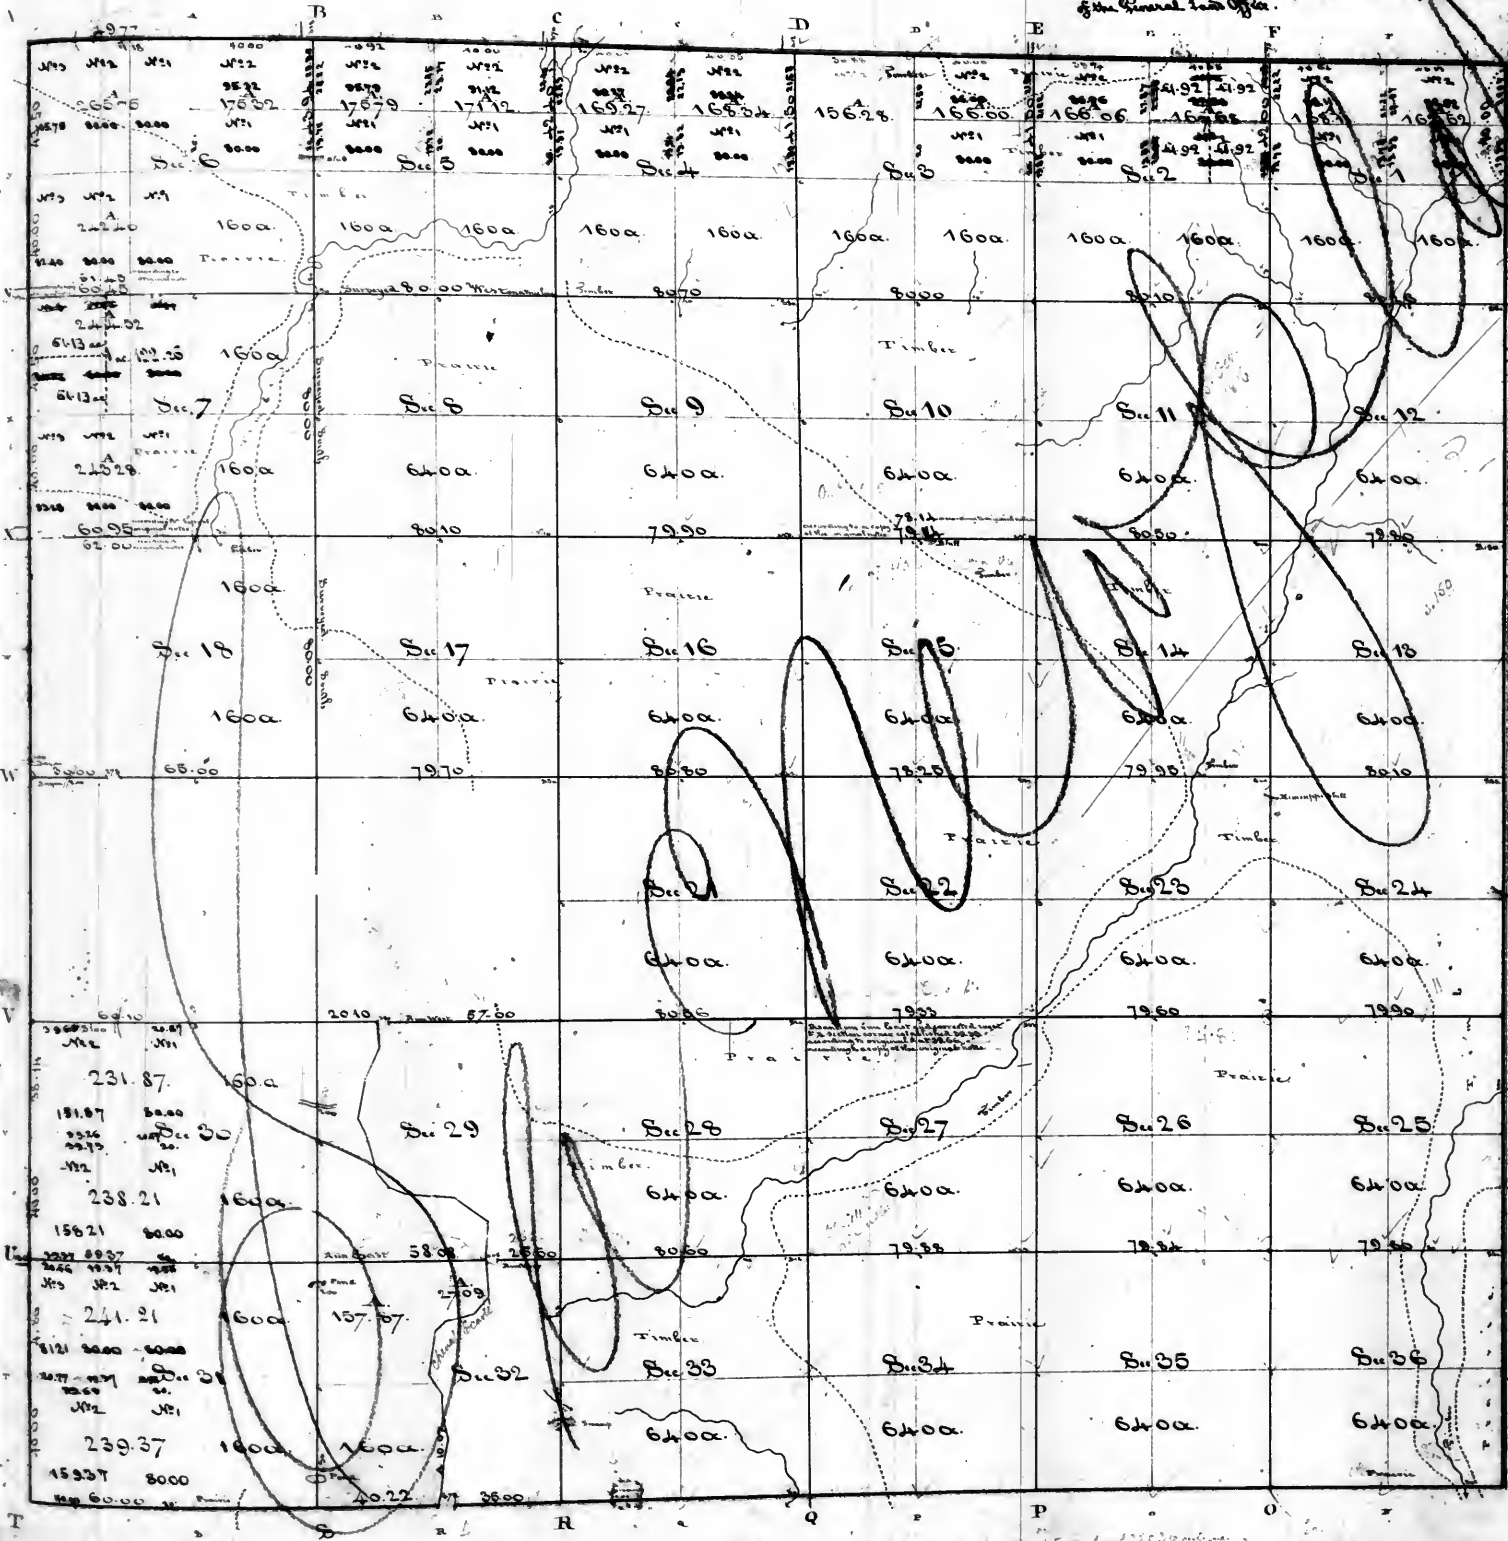

W. W. Wells
Dr. J. P. Pub. Lds

except Sections 19, 20 & 29, the W 1/2 of Section 18 and fractional section 32, East of the Chinal Beach; logs which are omitted on account of errors in the survey thereof.

Page 54 vol 21

Insurgent's Office
 St. Louis 10. Sept. 1862.
 Price of the North hedges of Secs. 1, 2, 3, 4, 5 of the N.E. 1/4
 of Sec. 7, of the West half of Sec. 8, of the S.E. 1/4 of the
 hedges of Secs. 7, 20 & 31, sent this day to the Commr.
 of the General Land Office.

Surveyors Office
St. Louis 26th September 1850.

According to the field notes the N. boundary was surveyed W.
5 miles & 77 chains to the corner of ~~S. 7~~ S. 26 7 1/2 N.
by James McDonald, apparently in March 1816.
The East boundary was surveyed 6 miles on the 5
March (apparently 1816) by John McDonald.

H section is established by the Township corner with the woods - post Debang North - intervened between the two first lines of the entry. On a separate leaf or piece of paper and beginning with the date October 14th 1846, we have notes of the S. boundary of Section 20 with Charles H. Clavin signed as surveyor on the back on next line. It appears

copy of the above mentioned paper with their generals, represent-
ing however the line to be continuously West including
the S. boundary of Section 20 as exactly copied from
the original of Charles M. Clure) & must not be mis-
takenly call for interesting at the Townships nor, and
not for establishing one as in the original.

According to what appears to be original field notes with
out date or signature the West boundary was surveyed
from the N. W. corner of the Township South 2 miles
to a chain to the "Smeatic", and thence on the East
boundary of Section 15 to D. H. R. to a corner
3 1/2 miles on the E. boundary of section 2, T. 4 N. R. 10 W.

A corner which seems to have been established by running 1/2 sec above, between sections 18 & 19 of this Township. The said West boundary is laid down on this plat according to what seems to be intended in part as a copy of said apparent original note, which call for running S. 6 miles on the back containing them is signed "John A. Davis &c".

also another apparent copy without signature, of
the notes of the survey of the W. boundary solo, it
agrees with the copy used in constructing this
plot except that it calls for a post and mound to corner
D. 1. 2. 5. 20. 10. 10, where as the copy used describes
it said corner as being a post with two witness trees, and

which agrees with the description of said corner in the apparent original note of the survey of the South boundary, The said Surveyor shows however first - described in the said copy used in constructing this plat as being a post and mound which has been marked over with ink, and the other description written -

underneath. The subdivisions lines are laid down according to notes which are in part apparently copies, at least one other note of some of the lines between which, and the apparent copies the following differences in addition to those noted on the plate are found to exist. viz. the divisions to which the witness refers in the quarter section course on the line between sections 20 & 21 is contained in the original notes, in the original

the original notes call for running West between sections 18 &
19, describe 1/4 quarter section corner, now any fractional
section corner north. I measured and call for intersec-
ting the N 1/2 S line at 102 chains at corner to section 18
N a foot & 1/2, describing two witnesses; one other set
of notes of said line (apparently original) call for

running W. describes a quarter section corner at the
chain, a corner at 66.00 chains on the "Bancroft"
which is stated to be 107 links wide; they then
describe another corner on the W. side of the line; then
the copy which seems to be an inaccurate compound of
the two before described sets of notes describes the
quarter section corner at the chain, a corner at 66.00

on the "Gneiss" which is stated to be 750
wide and has intersecting the N & S line at 778
chains at the corner where is there deviation.

21st March 1844

Variation 7° 30' East
Scale of 400 chains to one inch

Surveyor's Office
Saint Louis 10th of October 1844.

The above plat of section 12, on main shore, and of that part of island No. 36, which lies in fractional Sec 12 & 13, of township 6 South of the base line, range 7 West of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. On 18th & 19th 1843, Francis T. Parker, under instructions of the 12th of March 1842, surveyed the lines detailed in the statement above, 2 miles 78.08 chains, which were paid for in the 2nd quarter of 1844, and charged in the account current of the Surveyor General during the same quarter, under the appropriation of \$3000, of the 3rd March 1843. (p. 95, act of Congress 27 Congress) for the survey of ungranted and detached lands in Illinois & Missouri, at a rate not exceeding ten dollars a mile.

Silas Reed

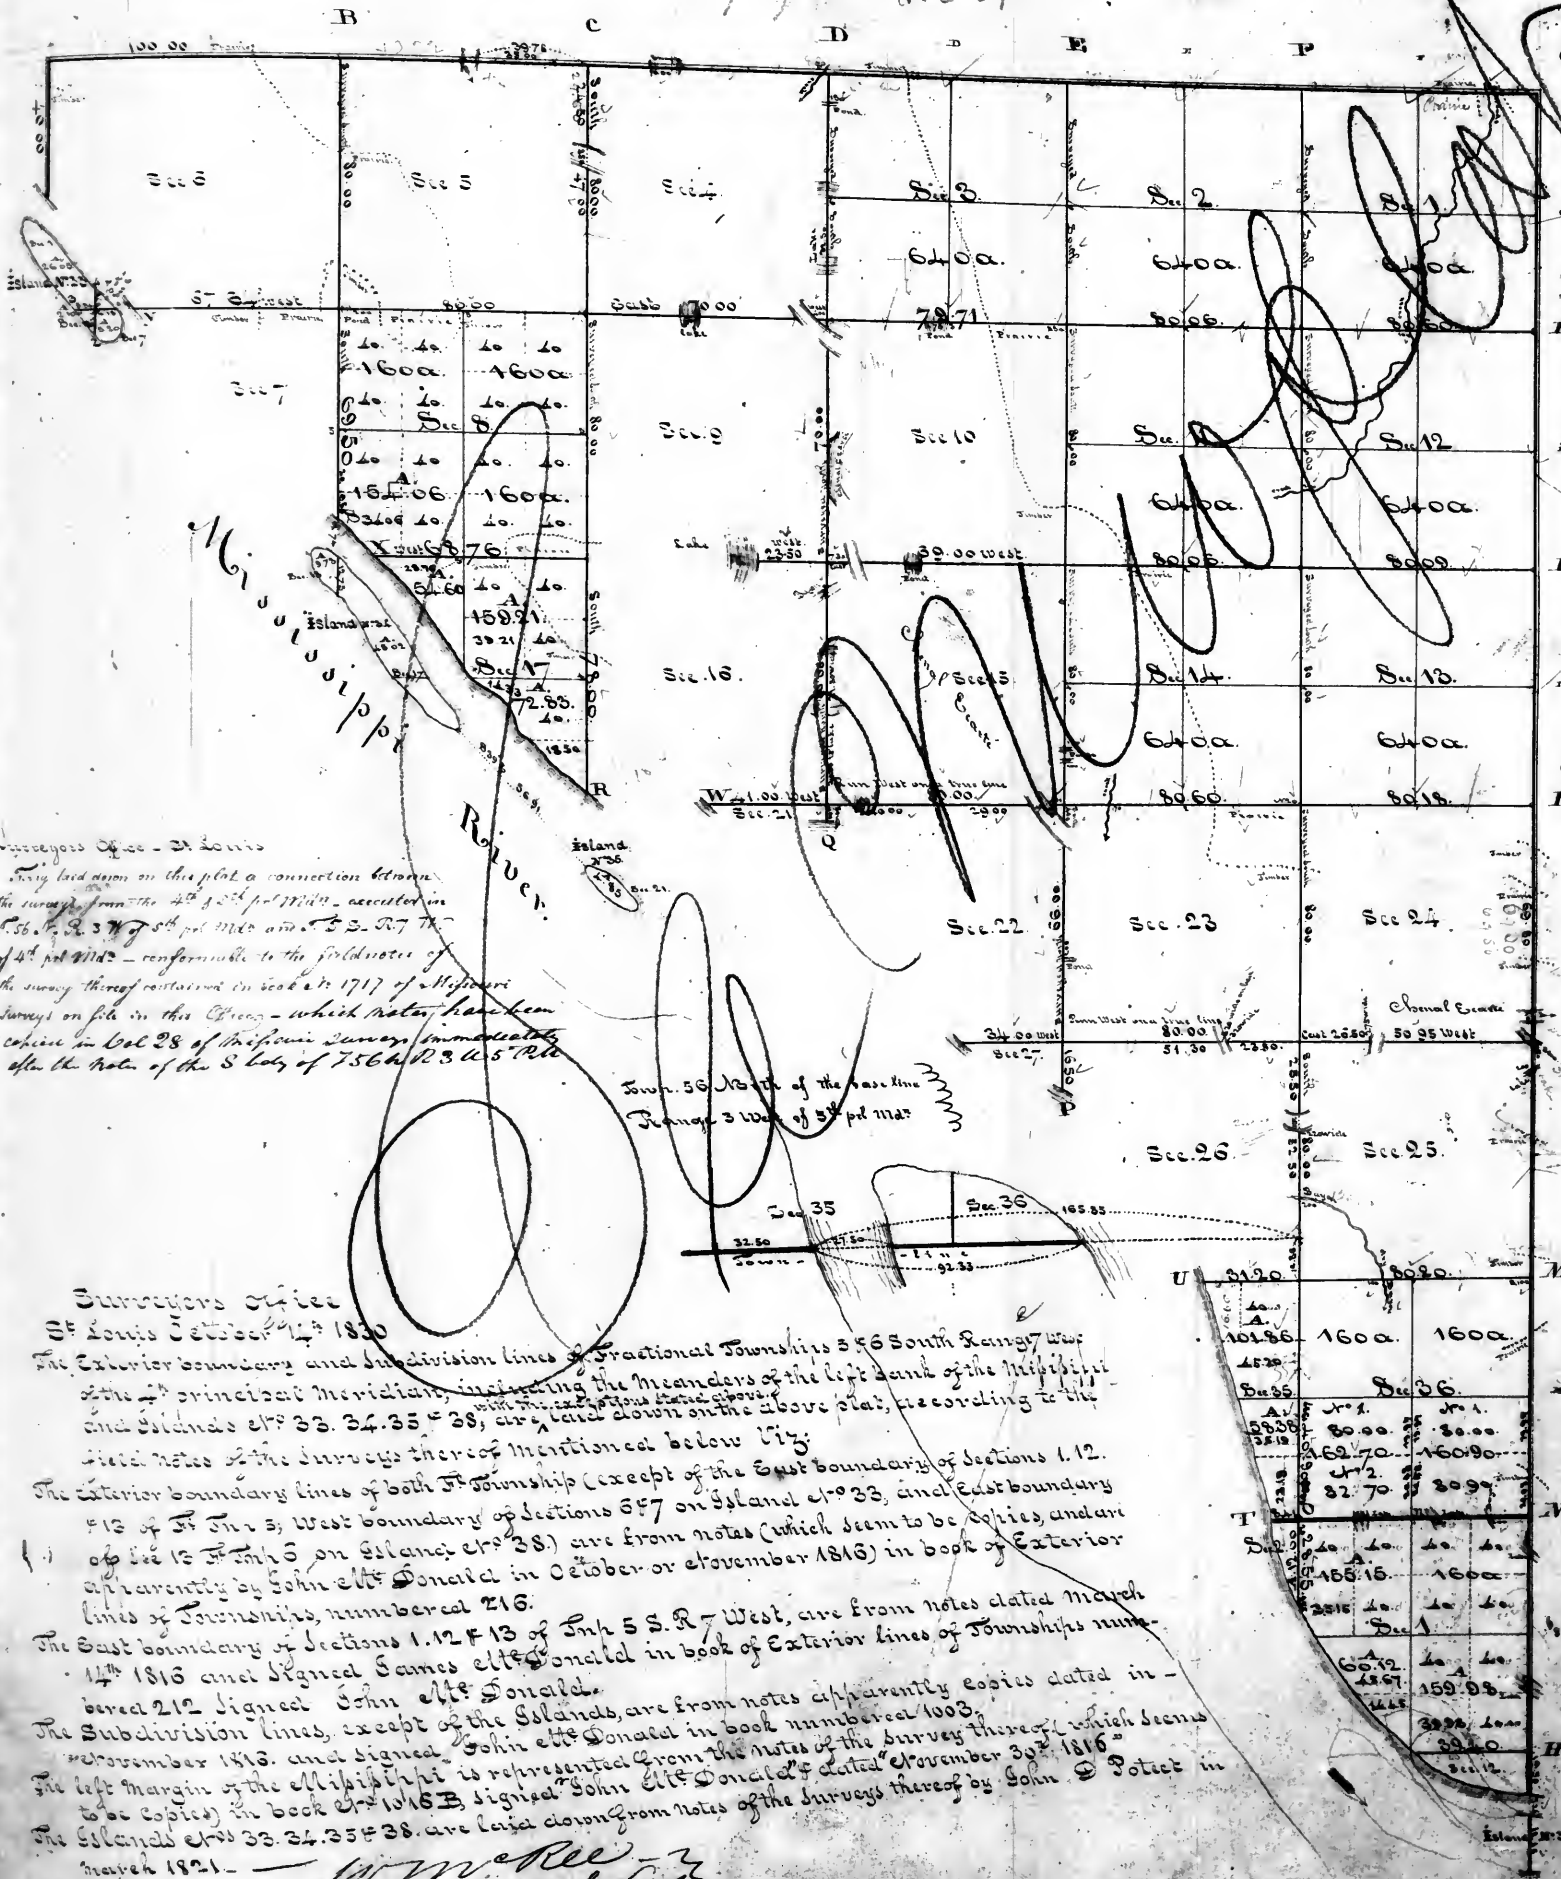

Surveyor of the public lands in the
States of Illinois & Missouri.

Plat of fractional townships 5 & 6 South of the baseline in Range 7 West of the Principal Meridian.

except sections and fractional sections, 4.5.6.7.9.10.15.16.21.22.23.24.25.26 & 27 in Twp 5 S. R. 7 W. on the main shore of the Mississippi and of Sec 12 in Twp 6 S. R. 7 W. which are omitted on account of errors in the survey there. Also Sec 13 & 14 on Island # 33 in Twp 5 South of the baseline, Range 7 West of the Principal Meridian.

Notes on Book A 216, containing the signature of John D. Donald in 1816.

page 55 vol 21

Surveyors Office - St. Louis
They laid down on this plat a connection between the survey from the 4th 1/2 Sec 17th 1812 - accessed in S. 56. R. 3 W. 5th pt 1812 and T. 5 S. R. 7 W. of 4th pt 1812 - conformable to the field notes of the survey thereof contained in book A 1717 of Mississippi Survey on file in this Office - which notes have been copied in Vol 28 of the House Survey immediately after the note of the S. 6th of T. 5 S. R. 3 W. 5th pt 1812

Surveyors Office
St. Louis October 12th 1830
The exterior boundary and subdivision lines of Fractional Townships 5 & 6 South Range 7 West of the Principal Meridian, including the meanders of the left bank of the Mississippi and Islands # 33, 34, 35 & 38, are laid down on the above plat, according to the field notes of the surveys thereof mentioned below viz:
The exterior boundary lines of both Twp 5 & 6 South (except of the East boundary of Sections 1, 12, 13 of Twp 5, West boundary of Sections 6 & 7 on Island # 33, and East boundary of Sec 12 of Twp 6 on Island # 38) are from notes (which seem to be copies, and are apparently by John D. Donald in October or November 1816) in book of Exterior lines of Townships, numbered 216.
The East boundary of Sections 1, 12 & 13 of Twp 5 S. R. 7 West, are from notes dated March 11th 1816 and signed James D. Donald in book of Exterior lines of Townships numbered 212 signed John D. Donald.
The Subdivision lines, except of the Islands, are from notes apparently copied dated in November 1816, and signed John D. Donald in book numbered 1003.
The left margin of the Mississippi is represented from the notes of the survey thereof which seems to be copies in book A 1718, signed John D. Donald dated November 30th 1816.
The Islands # 33, 34, 35 & 38, are laid down from notes of the surveys thereof by John D. Poter in March 1821.

Plat of 1/2 Sec. 8, 1/2 Sec. 17, on Main shore and of Island # 33, in T. 5 S. R. 7 W. of the 4th pt 1812, and of 1/2 Sec. 12, in T. 5 S. R. 7 W. of the 4th pt 1812 sent this day to the Commr of the Land Office.

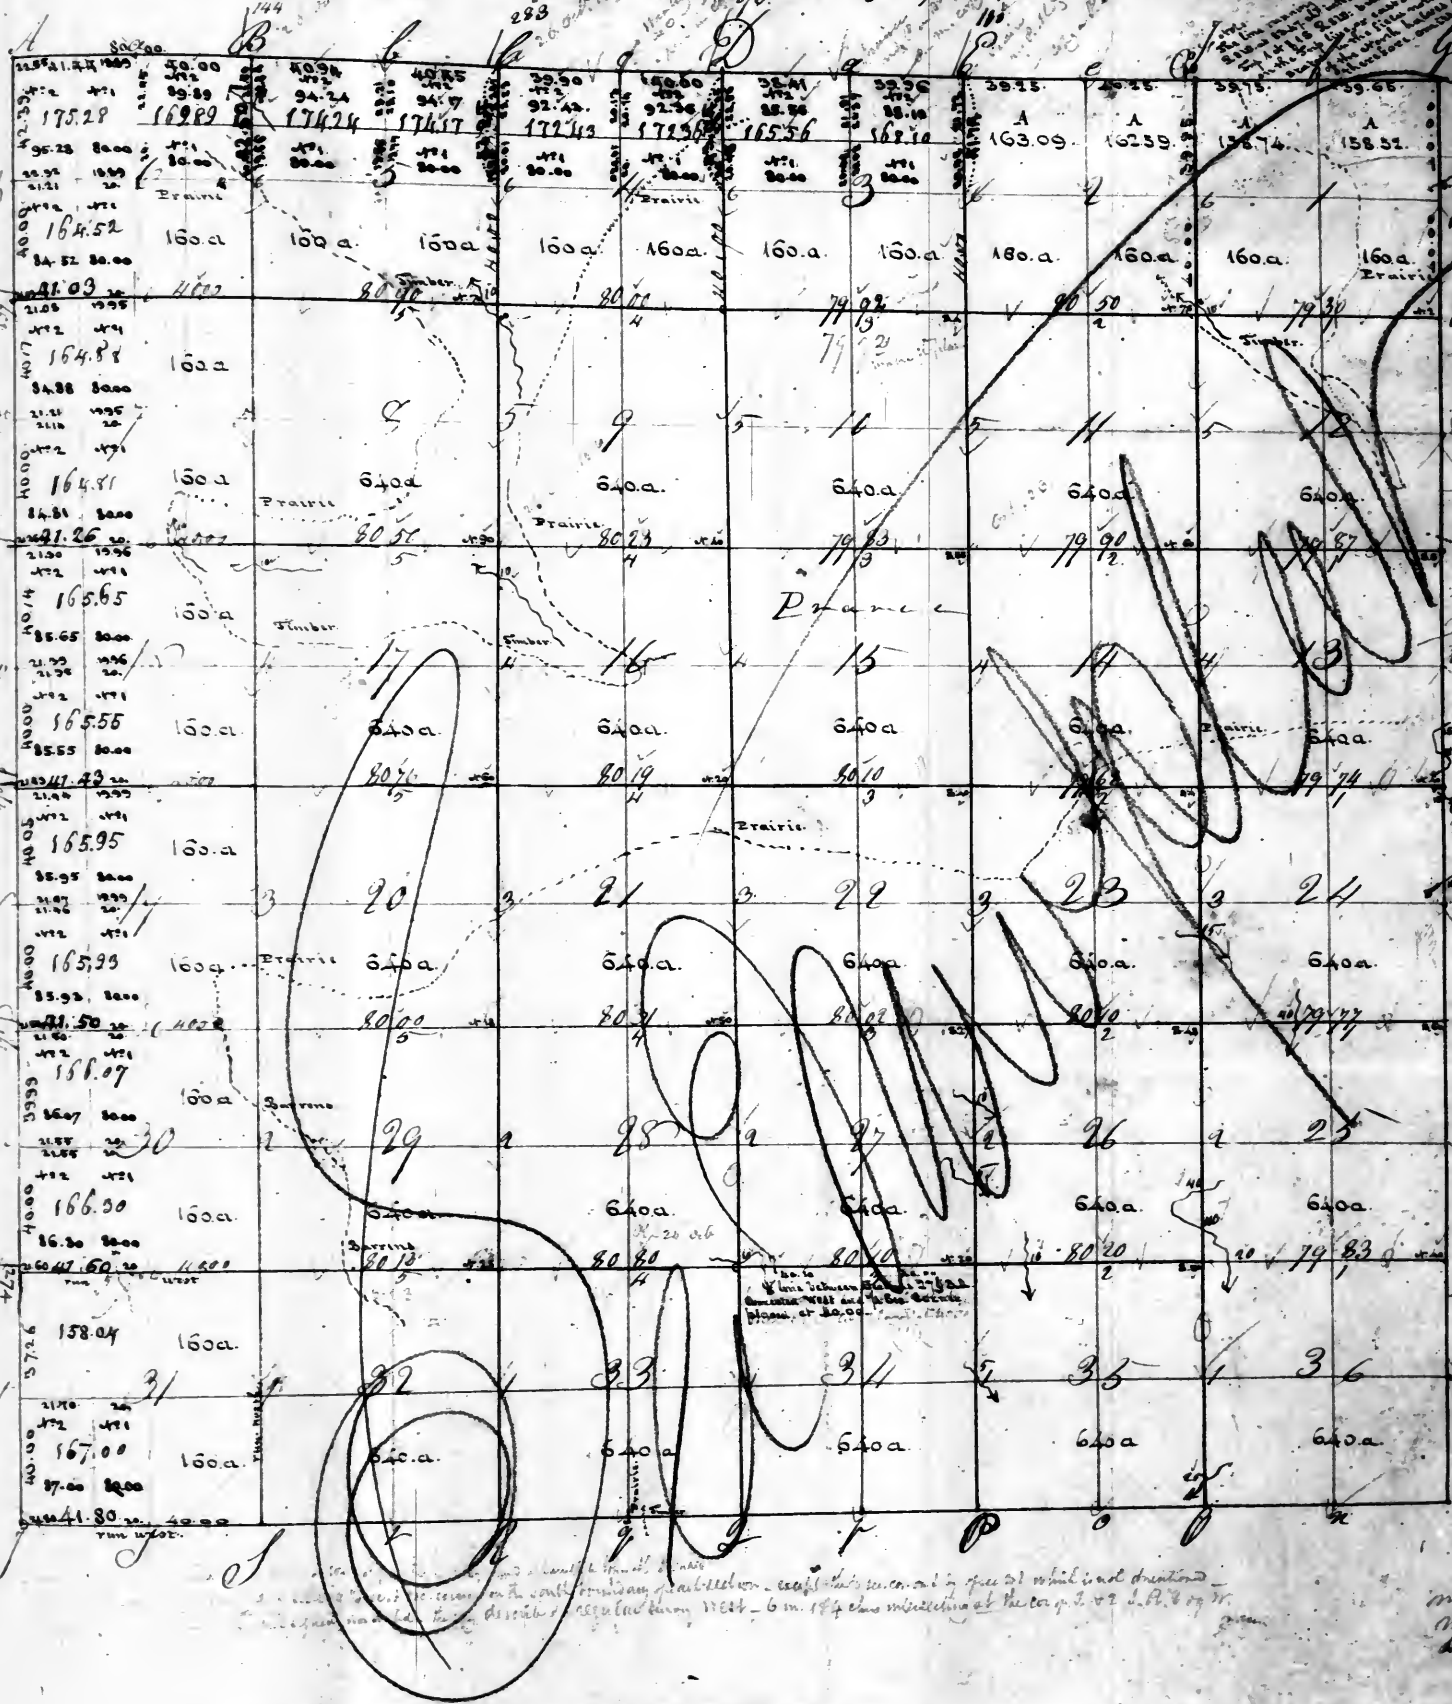

St. Louis 11th Sept. 1842
Plat of 1/2 Sec. 8, 1/2 Sec. 17, on Main shore and of Island # 33, in T. 5 S. R. 7 W. of the 4th pt 1812, and of 1/2 Sec. 12, in T. 5 S. R. 7 W. of the 4th pt 1812 sent this day to the Commr of the Land Office.

Township 1 South of the base line Range 8 West of the 4th principal meridian.

Page 56 vol 21

The entire line of this map
was laid down according to the
survey thereof. The original notes
are not signed or dated, the books
containing a copy thereof, original
data with original, and according to
said book the survey was executed
prior to the 21st of October 1816.
The original notes of the survey
of the South Range do not call for
showing regularly on said map but
describe the several corners thereon,
beginning with the quarter
section corner on the South Range
of Sec. 36, and going Westward
along the several section corners
Station corners at Sec. 36, according to
the corner to Station 31, 32, where
they stop, omitting the section
corner on the South Range of Station
31, as the length of the said
South Range is 36 miles.
The original notes there is no quarter
section corner described on the South
Range of Station 31, 32, nor on
the East boundary of Sec. 32, where
the only call for a point in the map
is for a point marked in the survey
that marked corner.
The subdivision lines are laid
down according to the field notes
thereon, which are dated and signed
in October 1816, they seem to be
by two persons but are not signed
by either, nor are the notes of said
survey, which principal meridians
the survey was made from.

except Sections and fractional Sections 1, 5, 6, 19, 20, 29 and 32 on the main shore of the Mississippi & fractional Sections 29, 32 on the left or East side of the Chenal Ecarter, which are omitted on account of errors in the Survey thereof.

Handwritten: Hans Partlow's reserve page 58 vol 21

Surveyor's Office
St. Louis, Mo.
Date of final plat, 22 in before 1837, and of final (West of Chenal Ecarter) and this day to the Surveyor of the Land Office.

Note
The North boundary of this Township is laid down according to the survey of 1837, which is particularly described in the marginal note on the left of this plat.
According to the same note in this office the East boundary of this Township appears to have been originally surveyed 6 miles and 12 at March 1816 by James M. Donald, and has been subsequently surveyed.
The same East boundary of this Township is laid down on this plat conformably to original notes and a copy thereof of a survey, the original notes are without signature, and are dated November 1816; the copy is without latitude and signature, but the book is signed John M. Donald. There is also another set of notes (apparently originals) of a survey dated November 1816, in these notes not one corner is recorded, but merely a mile and a half post are stated to be set at 20 and 30 chains on the East boundary of each section.
The South boundary (except that part on Island No. 27) was surveyed according to the notes which have the appearance of being originals and which are without date or signature. West of the Chenal Ecarter to the East of the Chenal Ecarter, the survey of 1816 is shown to be correct, but the survey of 1837 is shown to be incorrect, the said line was run regularly west of the Chenal Ecarter to the Mississippi river, calling for intersecting the River at right angles and bearing it at 60 chains on the South boundary of section 35.
The field notes of the Survey of the East of this Township in the Subdivision book of this Township are apparently copied, there are other notes without signature dated Nov. 2, 1816, apparently originals, of the line between Sections 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, which differ from the copies at 20 chains on the East of the line of the above mentioned line (in the Eastern Range of Sections) in the Subdivision book are dated November 2, 1816, of the notes of the remainder of the line of the Eastern Range are dated "approximately 1816". The remaining notes of the Township are dated from the 2d to the 11th of November 1816, they are apparently by two different persons, but are signed by neither.
According to said notes of Subdivision the line between Sections 31, 32, and that between Sections 33, 34 were each surveyed South of the Section Corners established at 25 chains and Section corners at 30 chains: making that part of said line which lies South of the quarter Section Corners only 35 chains, which is inconsistent with the length of the line between Sections 34, 35 (35 ch) and of the West boundary of Section 6, (30 ch).
Jan. 2, 1836.
A plat of the 7910 a subdivided on this plat has been sent to the Regt also one has been sent to the Ordnance Office.
Said Spirit 21: and 1836.
Subdivided on the 1832 as to conform to the report by the Regt on the 15th of the N.W. quarter of the 34th and to-day copies of the Regt's and another to the Ordnance Office.

Surveyors Office
St. Louis 25th September 1830
The above plat of the Trp. 3 S. R. 8 W. of the Principal Meridian (except sec. 4, 5, 6 - p. 19, 20, - that part of p. 28, and p. 33, lying East of the Chenal Ecarter, and p. 32, West of same Chenal Ecarter, that part of p. 29, on the main shore of the Mississippi, and the part East of Chenal Ecarter), is conformable (as near as may be) to the notes of survey from Trp. on file in this Office.
Note. The area of the N.W. q. of Sec. 7 has been altered from 168.60 to 168.65 & the division of the said N.W. q. into No. 1 & 2 has been erased.

Surveyors' Office.
Saint Louis 11th of February 1845.

The above plot of fractional Township 5 South of the base line, range 8 west of the 4th principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The east boundary, 53 rods; the north boundary 53.70 chains, and the measure of the Mississippi river 55.24 chains were all surveyed in the year 1842 & 1843, by Amasa R. Parker, under instructions of the 12th of March 1842. This surveying was ordered on the account of said Parker, transmitted to the Commissioner of the General Land Office, on the 18th of November 1844, in compliance with his instructions of the 20th of Sept. of the same year, for a direct settlement with Parker, from the Treasury Department, under the appropriation of \$3000, of the 17th June 1844 (see page 75 acts of Session of 28th Congress) for surveying the ungranted and detached lands within 94 sections at a rate not exceeding 50 cents a mile.

Silas Reed
Surveyor of the public land in the
State of Missouri & Wisconsin.

A Plat of Sections and Fractional sections 1, 2, 3, 9, 10, 15, 16, 23, 24, 25, on the left or northwest side of Chenal-ecarte, and 5, 6, 21, 22, 27, 28, sections of said Township 4 South of the base line, Range 8 West of the 1st principal Meridian. The survey of the remaining sections of the Chenal-ecarte being incomplete, the areas of said sections and fractional sections are not computed and set down on this Plat; they will be so until the necessary surveys and corrections be made and the Register furnished with a Plat thereof.

Surveyor's Office
St. Louis, 7th Dec. 1874
Plat of 1/4 Sec. 15 (North of
County) sent this day to the

Surveyors Office
St. Louis 30th September 1830

The north (East) boundary lines of this Township (except on the 33rd and 34th) are laid down according to the notes of the surveyors, and, in a book signed John McDonald, the surveyors seem to have been satisfied with the way of obtaining and with a former (1812) note agree (so far as they are now used) with what is contained in the original notes, except in the manner in which the corners to sections 18, 19, on the east boundary and 15, 16 on the north boundary were derived according to the copy of the notes; the north boundary was surveyed at the beginning, and the east boundary south 7 miles; whereas the original notes of the north boundary (which are without date or bearing call for running west to the "Sagawake" from the N.W. corner of the Township, and West to the "Majestic" and East to the "Sagawake" from a corner established for sections 22, 23, 24 & 25, Range 3 West, 6th Township; and the position of said corner to sections 22, 23 was obtained, and without giving the relative position of the corners on the opposite sides of the "Sagawake". The original notes on the East boundary (which are also without date or a definite call for running south 7 miles and give a connection with the line on the north boundary) sections to the "Sagawake" and north on the East boundary of section 18, 16, 15, 14, to a "Sagawake" and South 2 miles on the East boundaries of sections 14, 13, from a corner which seems to have been obtained by running West 100 rods between sections 18, 13 Township 4 South, Range 7 West, according to the original notes thereto; but only 97.75 rods to the "Sagawake" on the copy. The lines are laid down according to the field notes signed John McDonald, and dated in December 1812, but the whole of the said notes are apparently copied, and agree with some slight exceptions, in the copy of the corners, and also that the lines with what appears to be a "Sagawake" note, which are without signature with only, and on the margin of a page thereof, the word "Copied" is written, The original and copy are in the position of most of the lines of which there are original notes, as also in the manner of running most of the lines of obtaining the corners. viz. The original notes call for running between sections 18, 13 West 100 rods intersecting line at 700 West side of

Surveyor General's Office,
St. Louis the 29th of Dec. 1839

The above plat of fractional Section 27 East of Boston Bay in fractional Township 1 South, Range 9 West of the 4th principal Meridian is strictly conformable to the fieldnotes of the survey thereof on file in this office, which have been examined and approved. The North boundary of said fractional Section 27—6.90 chains—and the meanders of Boston bay along said fractional Section 27, were surveyed in the 2^d quarter of 1836 by Hans Patten under instructions from the Surveyor General dated the 11th June 1836, and were paid for in the 2^d quarter of 1838, and charged in the account of the Surveyor General for that quarter, Voucher No. 6. The fieldnotes of the survey of the East and South boundaries of the said fractional Section 27 are dated October 1816, but are without signature.

William H. Wilson
Surveyor General

See
The Register of the Land-Office at Quincy with his letter of the 5th December 1844 to the Surveyor of Illinois and Missouri enclosed a report, by which it appears, that the quarter section marked P, has been patented for military services, as containing 160 acres, and that the tracts marked S have been sold by the Register.

Surveyor's Office.

Saint Louis 12th of February 1845.

The above plat of section 35 of Township 2 South of the base line, range 9 West of the 4th principal meridian, is strictly conformable to the field notes of the survey thereon file in his office, which have been examined & approved. In the year 1842 & 1843, Amasa P. Barker, under instructions of the 12th of March 1842, surveyed the line between sections 34 & 35 south of the quarter section corner 37.80 chains, and the meander of the Mississippi river, along sec. 35, 4.15 chains. This surveying was included in the said Barker's account, transmitted to the Commissioner of the General Land Office on the 18th of November 1844, for a direct settlement with him (Barker) from the Treasury Department, in compliance of the said Commissioner's instructions of the 20th of September 1844. The said account to be paid out of the \$3000, appropriated on the 17th of June 1844, (see page 75 of acts of the 1st Session of the 28th Congress) for the survey of detached and unpatented lines in Illinois & Missouri, at a rate not exceeding two dollars a mile.

Silas Reed

Surveyor of the public lands in the
States of Illinois & Missouri.

Plat of fractional townships n. 2 South of the Principal Meridian, Range 9 West,

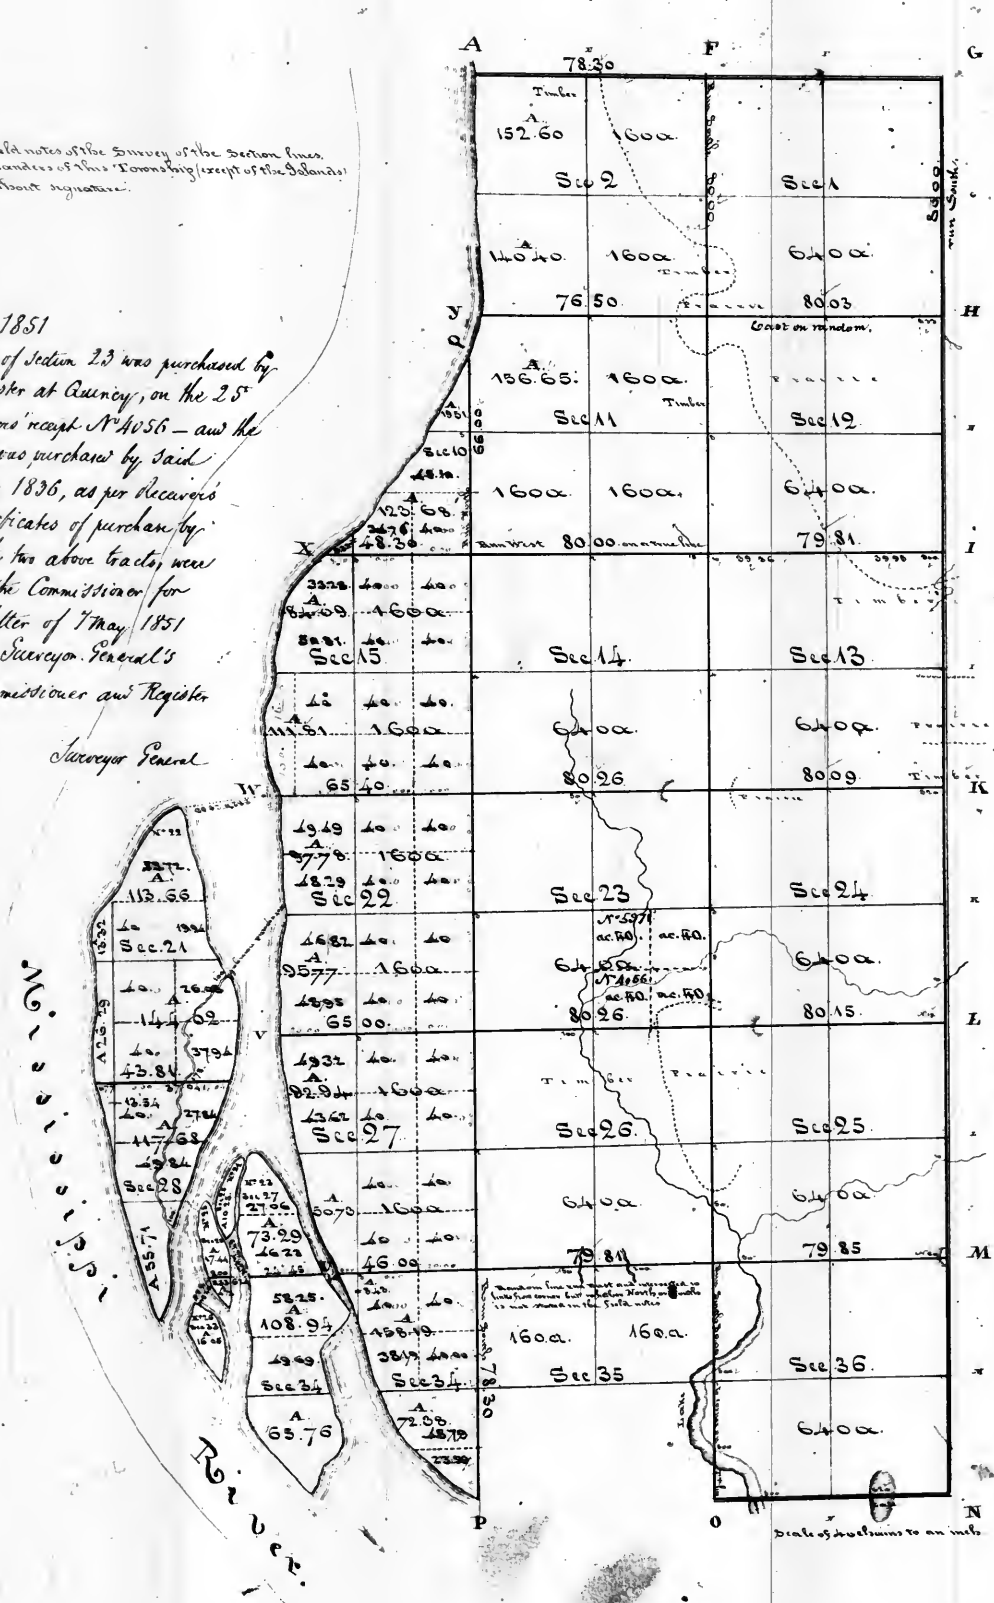

the 1st Principal Meridian, except fractional Section 35, which is omitted on account of error in the surveying.

Page 61 vol 21.

Note
The field notes of the Survey of the Section lines and meanders of this Township (except of the Island) are without signature.

19 May 1851
The South West 1/4 of SE 9: of section 23 was purchased by Samuel Alexander, former Register at Quincy, on the 25th August 1835, as per Receiver's receipt N^o 456 - and the NW 1/4 of the same quarter was purchased by said Alexander on 13th January 1836, as per Receiver's Receipt N^o 597 - The certificates of purchase by the Surveyor General for the two above tracts, were transmitted this day to the Commissioner for probate. See Register's letter of 7 May 1851 to Surveyor General - and Surveyor General's letters of this day to Commissioner and Register.

also plat at page 69 of Volume XXIV of Illinois plats.

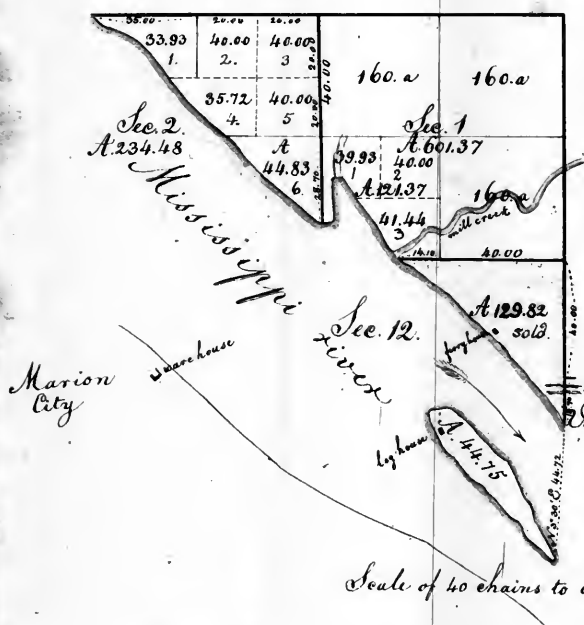

Note
The East boundary of this Township was originally surveyed 30.00 miles further west, 1810, apparently by John or James M. Donald, and then was surveyed 30.00 miles from a corner to Township 21, Range 25, which established apparently 20.00 chains East of the old corner to said Township, apparently by John M. Donald. In what appears to be the original notes of the survey of said boundary (which are dated the 31st October 1815, but are without signature) the length of the East boundary of section 26, seems to have been first written 20.00 chains and the distance to the 1/4 section corner there on 10.00 chains, and the two distances to have been altered to 20.00 chains and 20.00 chains respectively. In what appears to be the copy of said original notes (and which are in a book signed 'John M. Donald') the length of the East boundary of section 26, seems to have been first written 20.00 chains and the distance to the 1/4 section corner there on 10.00 chains, and the two distances to have been altered to 20.00 chains and 20.00 chains respectively. There is also in the office an abstract of field notes of a part of the East boundary of the township of sections 21 to 26, or two separate loose leaves or pieces of paper (with the name of John M. Donald on the back of one of them) and which make the East boundary of section 26 to be 20.00 chains in length, and the distance to the 1/4 section corner there on 20.00 chains. These detached notes agree in other respects with the before mentioned original notes of the survey and with the supposed copy, except that certain recollections of any quarter section corners on the East boundary of sections 21, 23 & 25, and that there is an omission therein of one entry contained in the above said original notes which entry however was evidently interlined in the original notes subsequent to their being first taken or written. Under these circumstances the East boundary of the Township is laid down on this plat as nearly as may be in conformity with the foregoing described notes of the survey of the East boundary of section 26 being set down at 20.00 chains as most probably its true length, and which is corroborated by the old plat of the Township that is on file. It will be found that the line between sections 21 & 22, S. 2, R. 9, W. intersects the range line 30.00 miles South of the corner to sections 21 & 26 in Range 9.
The South boundary of S. 2, R. 9, W. was originally surveyed West 26.60 chains to a part of the Mississippi river on the 20th November 1810 by John or James M. Donald, and was surveyed West 1 mile 75.00 chains to the Mississippi on what appears to be such. The original field notes of the survey are without dated nor signed, another set of notes of the same boundary which have the appearance of being a copy of the originals are in a book signed by John M. Donald and differ from the supposed original notes in the descriptions given of the 1/4 section corner on the South boundary of section 26 and of the Township corner on the river boundary. Differences will be found noted on the general description of the Township.

Subdivided under the Act of Congress of the 5th of April and sent copies on to the Register of the District, and on to the Commissioner of the General Land Office.

A copy of this plat sent to the Commissioner of the Register on 23rd of October 1844.

Surveyor's Office.
Saint Louis 10th of October 1844.

The above plat of township 3 south of the base line, of range 9 west of the 4th principal meridian is strictly conformable to the field notes of the survey, heretofore on file in this office, which have been examined and approved. In 1842 to 1843, Amasa R. Barker, under instructions of the 12th of March 1842, surveyed the lines detailed in the marginal statement, 5 miles 46.86 chains, which were paid for in the 2nd quarter of 1844, and charged in the account current of the Surveyor General, during the same quarter, under the appropriation of \$3000, of the 3rd of March 1843 (p. 95 Acts 3rd Session 27th Congress) for surveying, unfringed and chained line in Illinois & Missouri, at a rate not exceeding six dollars a mile.

Silas Reed
Surveyor of the public lands
in Illinois & Missouri.

E. J. Humphreys

Fractional Township 35 North of the base line Range 1 East of the 3^d principal Meridian
North of the old Indian boundary line.

Surveyor's Office.

Saint Louis 30th of May 1843.

The above plat of township 35 north of the base line, range 1 east of the 3^d principal meridian, north of the old indian boundary line, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The South boundary, which is designated 'Old Indian boundary line' was surveyed by John C. Sullivan, assisted by James M. Brainerd, in the 1st quarter of 1819, under the authority of a letter of appointment from William Recker, Surveyor of the lands of the United States in Illinois and Missouri, dated October 18th 1813, authorizing them to survey certain indian boundaries, under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run the lines of the tract ceded by the treaty of Saint Louis of the 24th of August 1816, between the United States and the United Nations of Ottawas, Chippewas and Potawatamies - This being the line agreed to be run West to the Mississippi from a point on Fox river one west of the Southern extremity of Lake Michigan - The west boundary 36.00 chains, was surveyed in the 4th quarter of 1835, by Leon Alonzo Spaulding, under contract dated the 9th of June 1835; and it was, with the limitation noted below, paid for in the 3^d quarter of 1837 (Voucher N^o 6) and in the 2^d quarter of 1839 (Voucher N^o 7) - The north boundary 6 miles 1.60 chains, was surveyed in the 2^d quarter of 1838, by Eli S. Prescott, under contract signed by the Surveyor General on the 8th of May, and by Prescott on the 3^d of June 1837, - it was paid for in the 4th quarter of 1838, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 5 - The subdivision lines 1 mile 5.11 chains were surveyed in the 4th quarter of 1842, by G. E. Welder, under contract of the 20th of October 1842 - They were paid for in the 2^d quarter of 1843, and charged in the account current of the Surveyor General, during said quarter, Voucher N^o 5.

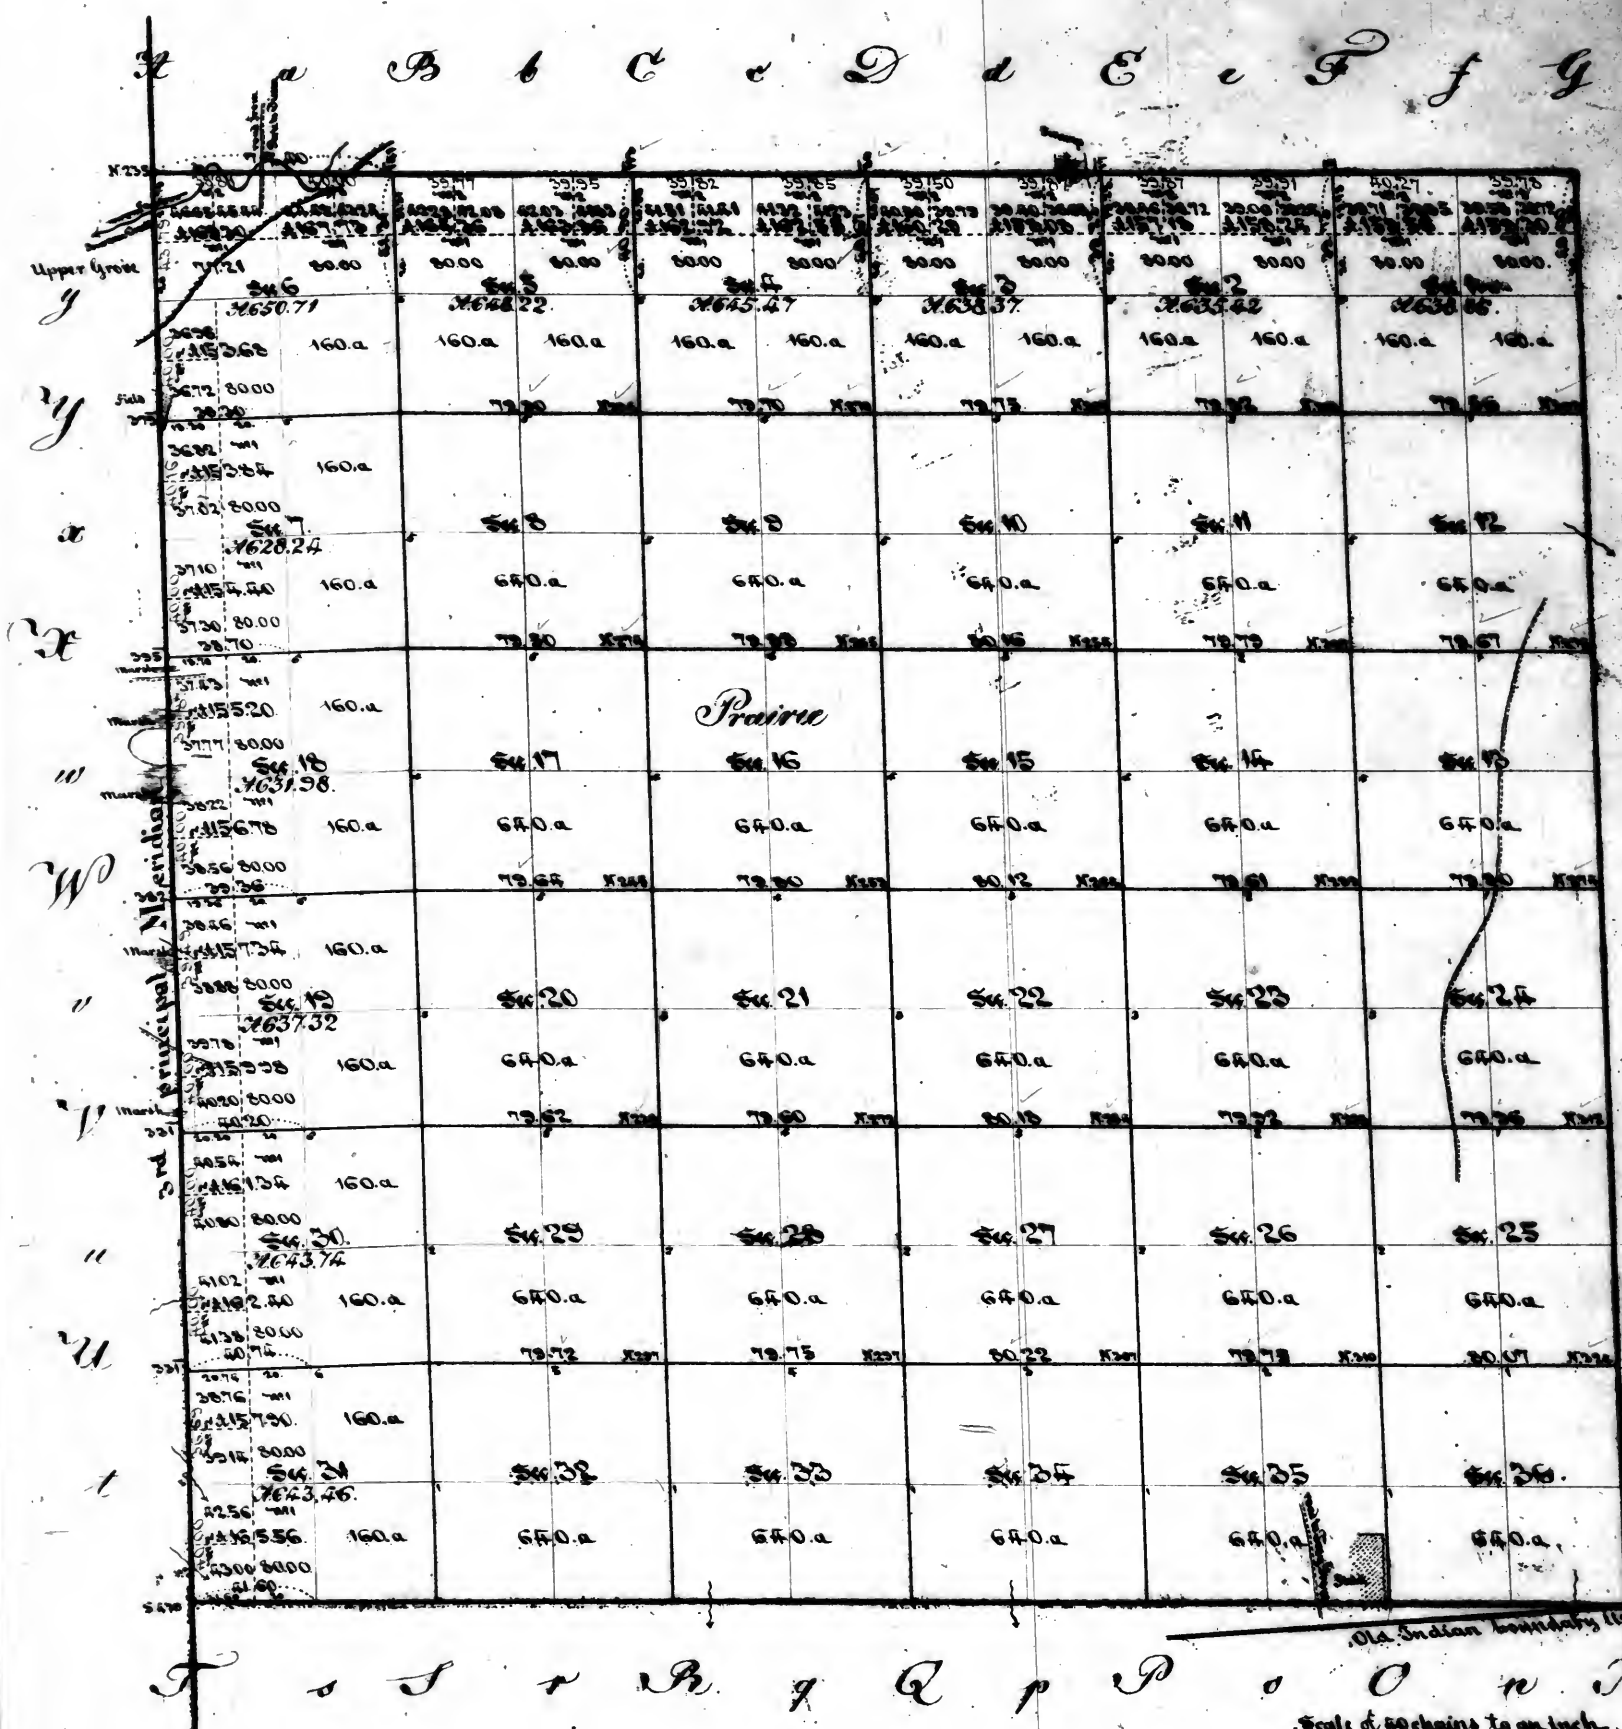

Silas Reed

Surveyor of the public lands in the States of Illinois and Missouri.

Note: The accounts in which the west boundary of this township is charged amount to \$2443.95, of which \$2050, were paid on the 20th of July 1837; and \$393.95, on the 20th day of June 1839 - The balance, being \$393.95, having been paid by E. J. Langham, former Surveyor General.

Saint Louis 1st of July 1839.

The above plat of township 43 north of the base line range 2 east of the 3rd principal meridian is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The west boundary 6 miles was surveyed in the 4th quarter of 1835, and the South boundary 6 miles and 60 links - the east boundary 6 miles and the North boundary 5 miles 77.04 chains were surveyed in the 3rd quarter of 1836, by Don Lorenzo Spaulding, under contract of the 9th of June 1835; and with the limitation noted in the margin were paid for in the 3rd quarter of 1837 and 2nd quarter of 1839, and charged on the accounts of the Surveyor General for those quarters - Vouchers No. 6 and 7. - the subdivision lines 59 miles 75.73 chains were surveyed in the 4th quarter of 1838 by Don Lorenzo Spaulding, under contract signed by the Surveyor General on the 20th of September 1837 and by the said Spaulding on the 14th of May 1838, they were paid for in the 2nd quarter of 1839 and charged on the account of the Surveyor General for that quarter, Voucher No. 8.

William Milburn
Surveyor General

Township N. 44 North of the Base line in Range N. 2 East of the 3^d principal Meridian.

41

See Special survey notes of the 16th of March 1838 which will bring sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36 within the limits of the township.

Note: The accounts in which the surveying of this township is charged amount to \$2,443.55, of which \$2050.00 were paid on the 29th of July 1837, and \$493.55 on the 25th day of June 1839. The balance being \$900.00. Having been paid by Elias J. Langham, former Surveyor General. See Voucher No. 6 of the Surveyor General's accounts for the 3^d quarter of 1837, and voucher No. 7 of the accounts for the 2^d quarter of 1839.

Surveyors Office.
Saint Louis 1st of July 1839.

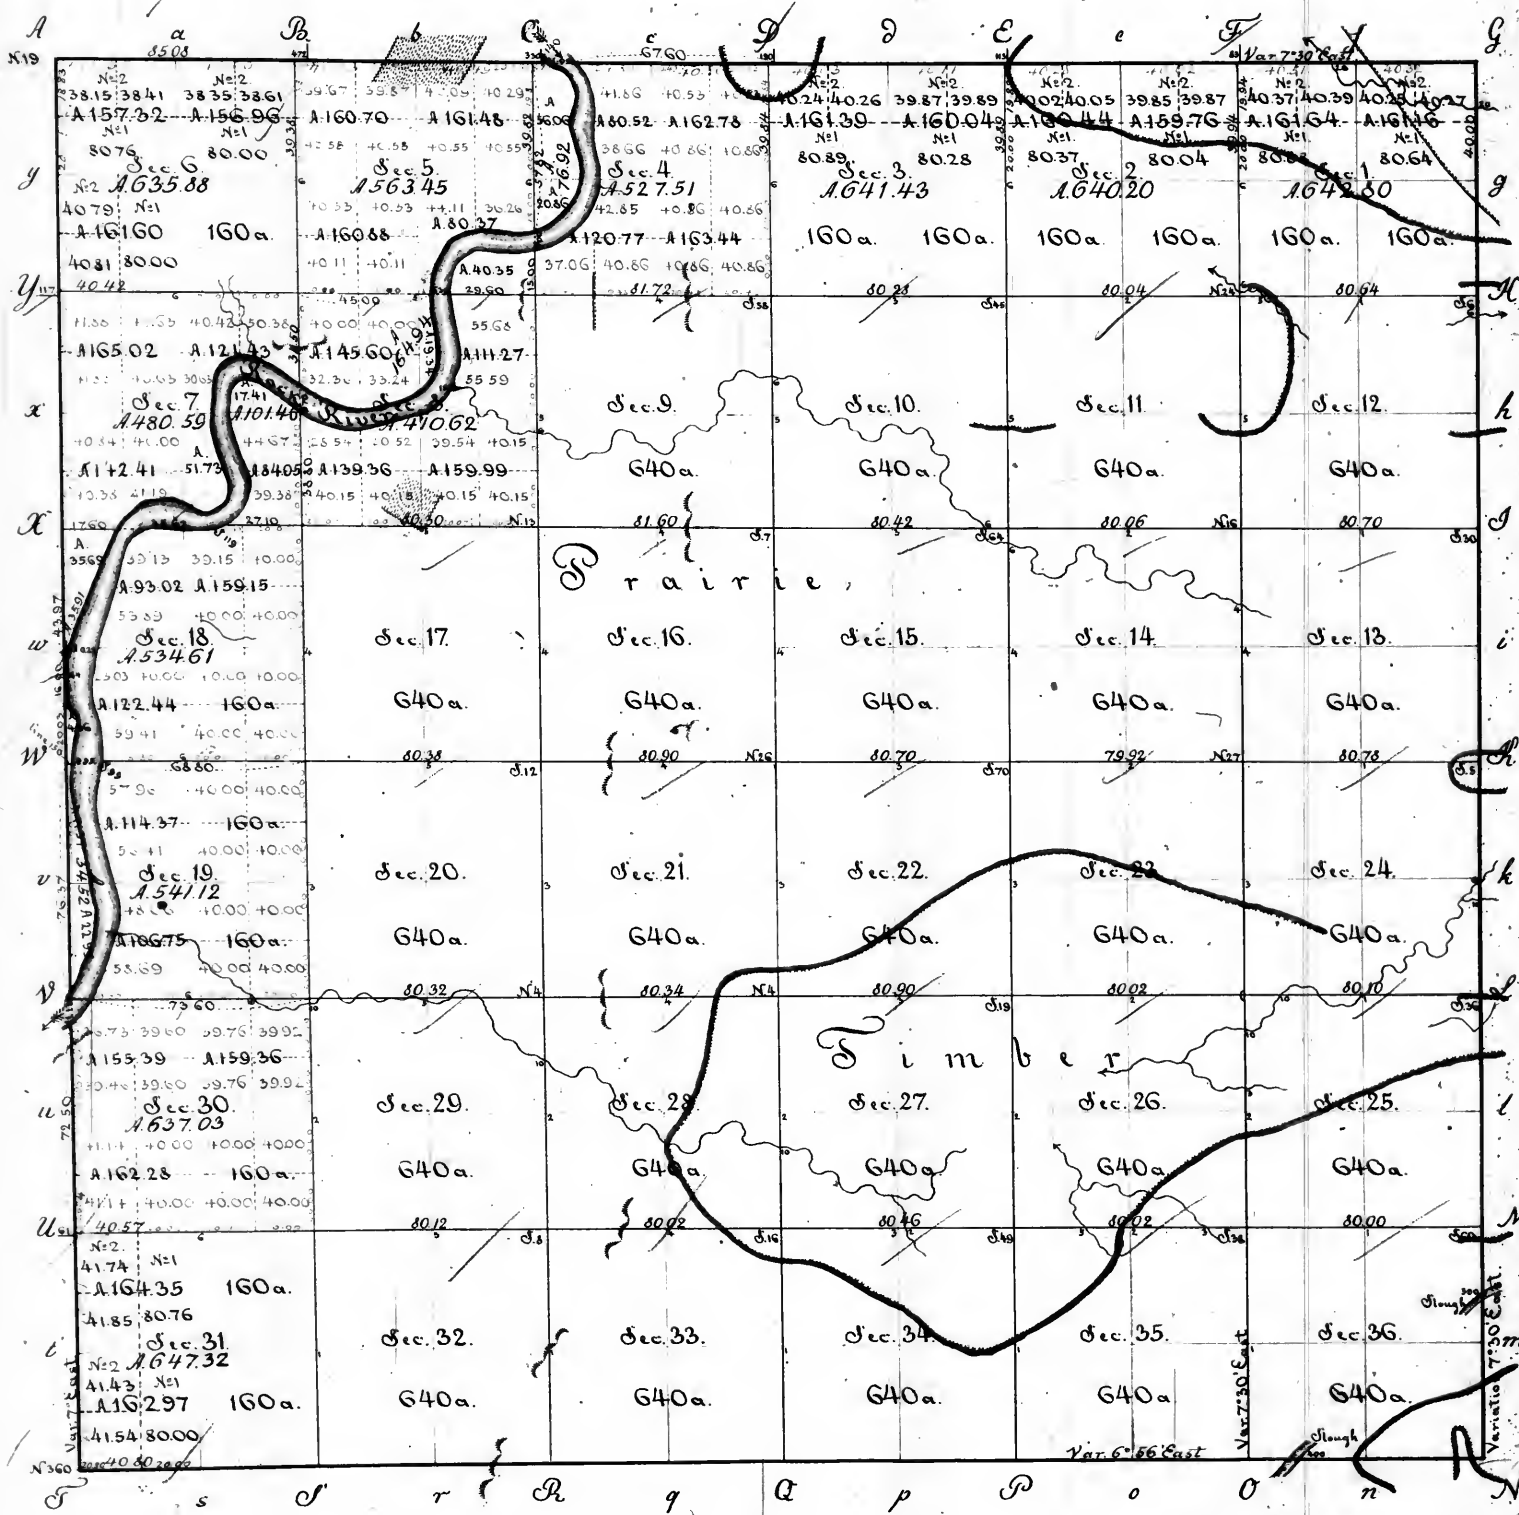

Scale of 40 chains to one inch.
Aggregate Area 22915.47 acres.

The above plat of township 44 north of the base line range 2 east of the 3^d principal meridian is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The west boundary 6 miles, was surveyed in the 2^d quarter of 1835 - the South boundary 5 miles 77.04 chains and the east boundary 6 miles were surveyed in the 3^d quarter of 1836 - the north boundary 6 miles and 80 links was surveyed in the 3^d and 4th quarters of 1836 - and the subdivision lines 53 miles 66.38 chains were surveyed in the 1st quarter of 1837 - all by Don Alonso Spaulding under contract of the 9th of June 1835 - and with the limitation noted in the margin they were paid for in the 3^d quarter of 1837 and 2^d quarter of 1839 and charged in the accounts of the Surveyor General for those quarters - Vouchers No. 6 and 7.

William Millwright
Surveyor General

Township N. 45 North of the Base line in Range N. 2 East of the 3^d principal Meridian.

42

(Note. The accounts in which the surveying of this township is charged amount to \$2,475.36, of which \$2,050.00 were paid on the 29th of July 1837, and \$425.36 on the 20th day of June 1839. The balance being \$200.00, having been paid by Charles J. Langhorne, Surveyor General, in Voucher No. 6 of the Surveyor General's accounts for the 3^d quarter of 1837, and voucher No. 7 of account for the 2^d quarter of 1839.

Surveyors Office.
Saint Louis. 1st of July 1839.

The above plat of township 45 north of the base line range 2 east of the 3^d principal meridian, is strictly conformable to the field notes of the Survey thereof on file in this Office, which have been examined and approved. The west boundary 6 miles was surveyed in the 4th quarter of 1835: the south boundary 6 miles and 80 links was surveyed in the 3^d and 4th quarters of 1836: and the east boundary, 6 miles, the north boundary 6 miles 5.08 chains: the subdivision lines 59 miles 33.80 chains, and the meanders of Rock river 12 miles 11.53 chains were surveyed in the 4th quarter of 1836: all by Don Alonso Spaulding under contract of the 9th of June 1835, and with the limitations noted in the margin. They were paid for in the 3^d quarter of 1837 and 2^d quarter of 1839: and charged in the accounts of the Surveyor General for those quarters Vouchers No. 6 and 7.

Scale of 40 chains to one inch.

Aggregate Area 22,720.72 acres.

Surveyor's Office
St. Louis 21 August 1859
The above Plat of Township 30 North of the base line, Range 3 East of the 3rd principal meridian, is conformable to the field notes thereof on file in this office which have been examined and approved— The north boundary was surveyed in the 2nd quarter of 1821, by R. J. Holliday under the contract of the 12th of March 1821— The west boundary was surveyed in the 2nd quarter of 1824, by J. Milton Moore, under his contract of the 12th of August 1822— and the South and East boundaries were surveyed in the 4th quarter of 1822— the subdivision lines in the 2nd quarter of 1824 by James Moore under his contract of the 12th of August 1822.
William Millman
Surveyor General
J. H.

Township 21 North of the base line Range 3 East of the 3^d principal meridian
except the North halves of sections 1, 2, 3, 4, 5, 6, the North half and South West quarter of section 6, and the West halves of sections 7, 18, 19, 30 and 31 which are omitted
for the reasons stated in the margin for the reasons stated in the margin for the reasons stated in the margin

49

Surveyor's Office
St. Louis June 29th 1854
There are no notes of
the survey of the North & West boundaries of
this Township found on file in this Office.
The North halves of sections 1, 2, 3, 4, 5, 6, the
North half & West quarter of section 6, and
the West halves of sections 7, 18, 19, 30
& 31 are therefore omitted on this plat.
E. J. Sangham
1854
for recording on the
plat

Aggregate area 19360.00 acres exclusive of the N. halves of sections 1, 2, 3, 4, 5, 6, the S. W. 1/4
of section 6 and the West halves of sections 7, 18, 19, 30 & 31.

2554.82

Total = 22914.82 acres.

Surveyor's Office
St. Louis June 29th 1854

The above Plat of Township 21 North of the Baseline, Range 3 East of the 3^d principal
Meridian, is conformable to the field notes of the survey thereof on file in this Office

E. J. Sangham

Surveyor's Office. St. Louis 29th January 1841.

The above plat of township 21 north of the base line, range 3 east of the 3^d principal meridian, with the exception
specified in the marginal note certified by E. J. Sangham former Surveyor General of this district is strictly conformable to the field notes of the survey thereof on file in this office, which
have been examined and approved. The South boundary and the east boundary were surveyed by Nicholas J. Holliday, during the month of May 1821, and the subdivision lines
were surveyed in June 1821, all under the contract dated the 20th of March of the same year, of Stephen Sector and Thomas C. Sector.

Surveyor's Office.
St. Louis 16th of October 1844.
Sections 1, 2, 3, 4, 5, 6, 7, 18, 19, 30 & 31, were laid down on the above plat strictly conformable to the field notes of
the survey thereof on file in this Office which have been examined and approved. In April 1844, Geo. E. Waller, under
instructions from the Surveyor General dated the 23rd of March of the same year, surveyed the lines described in the
marginal statement, 4 miles 64.90 chains, which were paid for in the 3^d quarter of 1844 and charged in the account
current of the Surveyor General. During the same quarter under the appropriation of \$2000 of the 3^d of March 1843
(p. 95 of 3^d Session of the 27th Congress) for the survey of unfinished or defective lines in Missouri & Arkansas.

William Milburn

Surveyor of the public lands in
the State of Missouri and Arkansas.

Silas Beebe

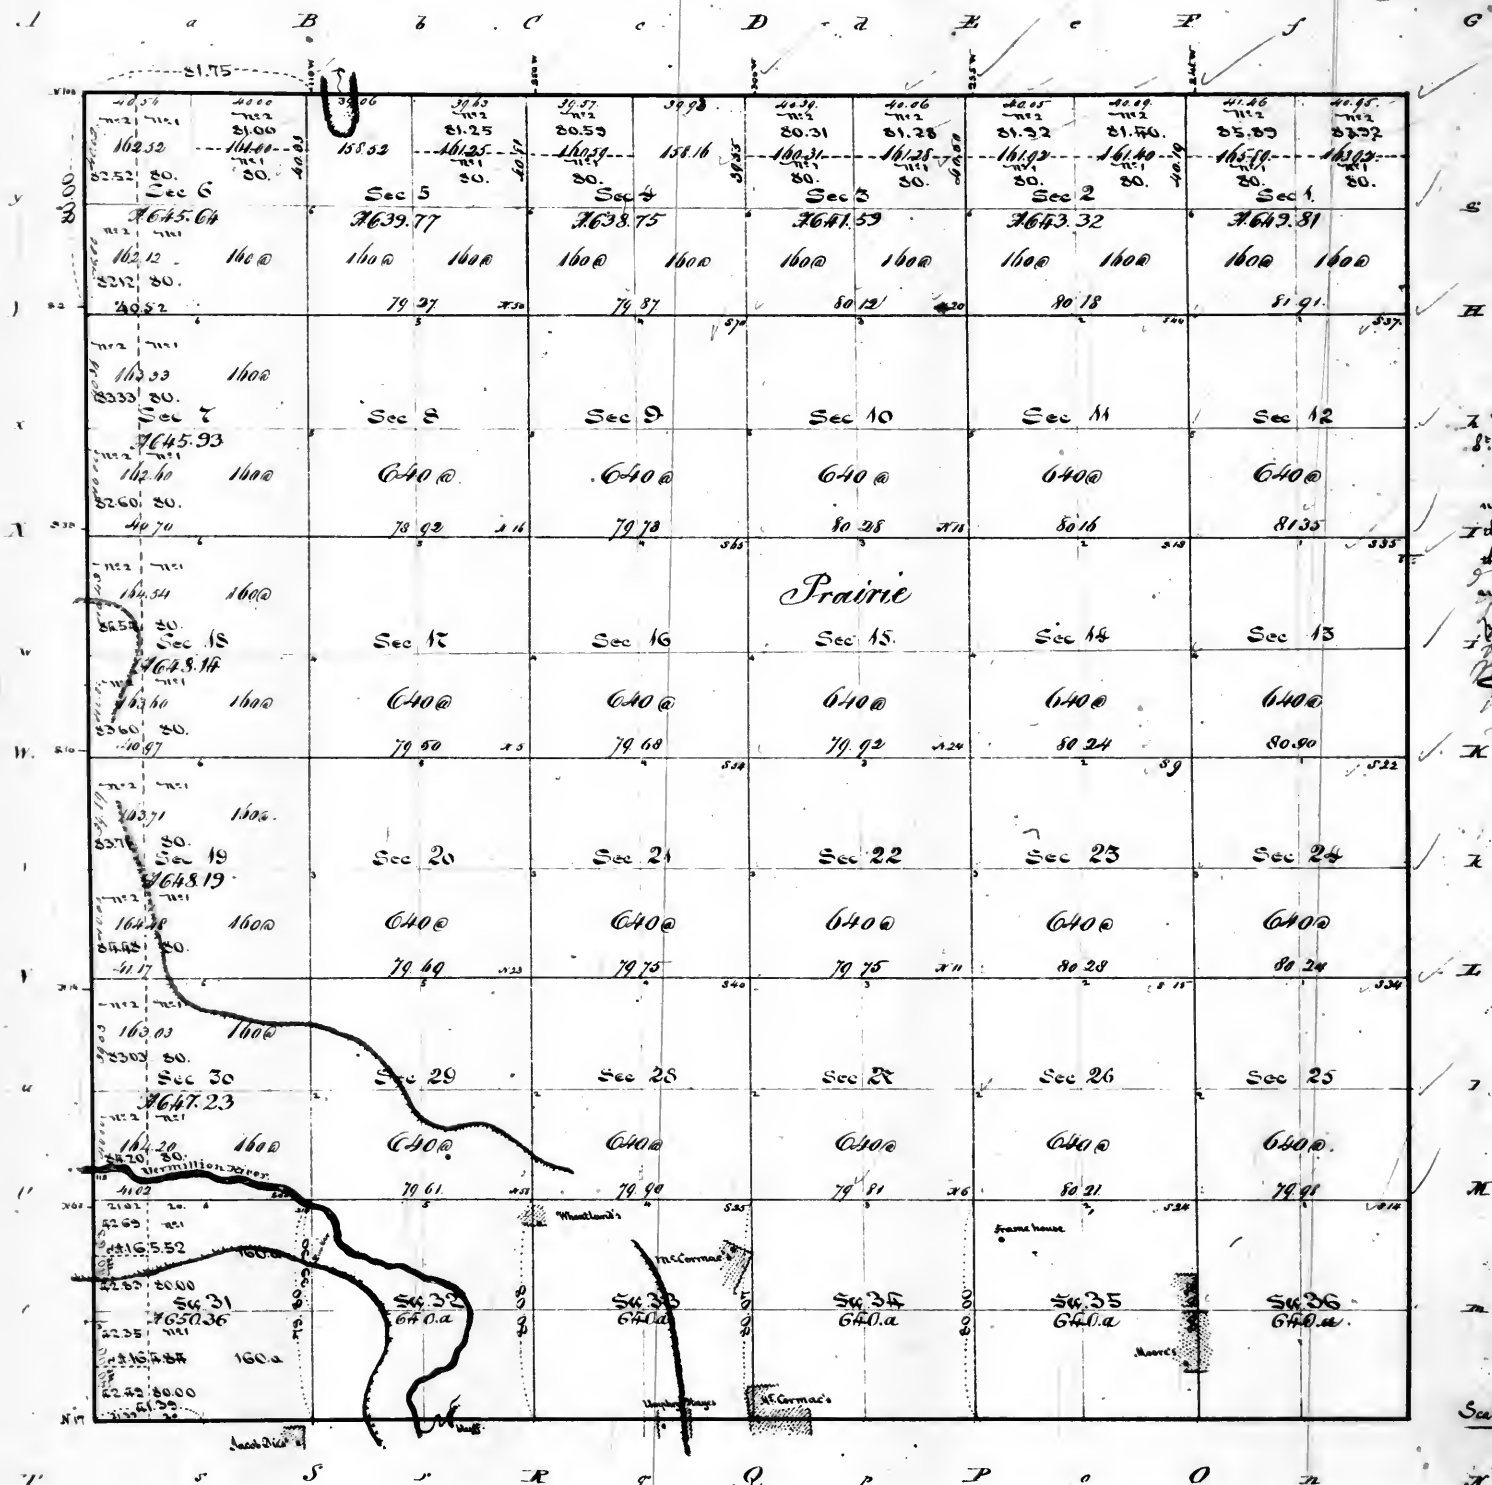

Technical report to a certificate of
16 October 1854.

TOWNSHIP No 32 NORTH of the BASE LINE Range No 3 EAST of the 3rd PRINCIPAL MERIDIAN,

except sections 31, 32, 33, 34, 35 and 36, which are omitted for the reasons stated in the marginal note in accordance for the 17th of January 1841.

50

Surveyors Office
St. Louis June 28th 1834
These are
notes found on file in this Office, of
the survey of the base boundary of
this Township, sections 31, 32, 33, 34, 35
and 36 are therefore omitted on this
plat.
E. J. Lougham

Surveyors Office
St. Louis June 28th 1834

Aggregate area 18248.57 acres, exclusive of sections 31, 32, 33, 34, 35 & 36.
2850.36 area of do.
Total 23098.93

The above Plat of Township 32 North of the Base line, Range 3 East of the 3rd principal meridian, is conformable to the field notes of the survey thereof on file in this Office.

E. J. Lougham

Surveyors Office. Saint Louis 28th of January 1841.

The above plat of township 32 north of the base line, range 3 east of the 3rd principal meridian, with the exception specified in the marginal note certified by E. J. Lougham, former surveyor General of this district, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved - The east boundary was surveyed in May 1831, by R. J. Redway; - The west boundary, the north boundary and the subdivision lines were surveyed in July 1831, by G. Thomas, all under the contract of Stephen Rector and Thomas C. Rector of the 20th of March of the same year.

Minam Mullen
Surveyor of the public lands
in the State of Missouri & Wisconsin.

Surveyors Office. Saint Louis 16th of October 1844.
Sections 31, 32, 33, 34, 35, 36 were laid down on the above plat strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved - On the north of April 1844, Geo. E. Waller, under instructions of the 23rd of March of the same year, surveyed the south boundary of the township, and the lines between sections 31 & 32, 32 & 33, 33 & 34, 34 & 35, 35 & 36, in all 11 miles 01. 40 chains, which was paid for in the 3rd quarter of 1844, and charged in the account current of the Surveyors General, during the same quarter under the appropriation of \$3000. of the 3rd of March 1843, Cap. 95 Act 3rd Session 27th Congress for the survey of detached and unfinished lines in Missouri & Wisconsin.

14. 2.75
15. 28.00
Total 35.00 acres

Areas of fraction of Island
in sections 15, 21, & 22
July 15. 1.75 A
21. 51.00
22. 6.50
Total 59.25 acres

Note In the field notes appears the length
of the line between Sec 15 & 22 as read
from corner to Sec 15 & 22
as 76.68 chains.
In taking out the latitude & separ-
ture of the meander courses of the
left bank of Illinois river in Sec 22
(See Vol. 241 pag 302) the writings
are 17.35 ch which added to 76.68
chains gives the whole length 94.03
ch which is evidently erroneous.

Surveyors Office
St. Louis July 5th 1834

21st Nov 1834, Sent to the Commissioner of the Land
Office a plat of this Township 33 North of the base line
Range 3 East of the 3^d principal Meridian
Aggregate area of public land = 22363.47 acres
estimated area of the river = 800.00
Total = 23163.47 acres

The above Plat of Township 33 North of the base line, Range 3 East of the 3^d principal Meridian, is conformable to the field notes of the survey thereof on file in this Office.

E. J. Langham

Township 34 North of the baseline Range 3 East of the 3^d principal Meridian

distances on N & W 1834
to be entered from 20

Fractional Township No 36 North of the Base line in Range No 3 East of the 3^d principal Meridian.

54

Surveyors Office. Saint Louis 21st of May 1839.

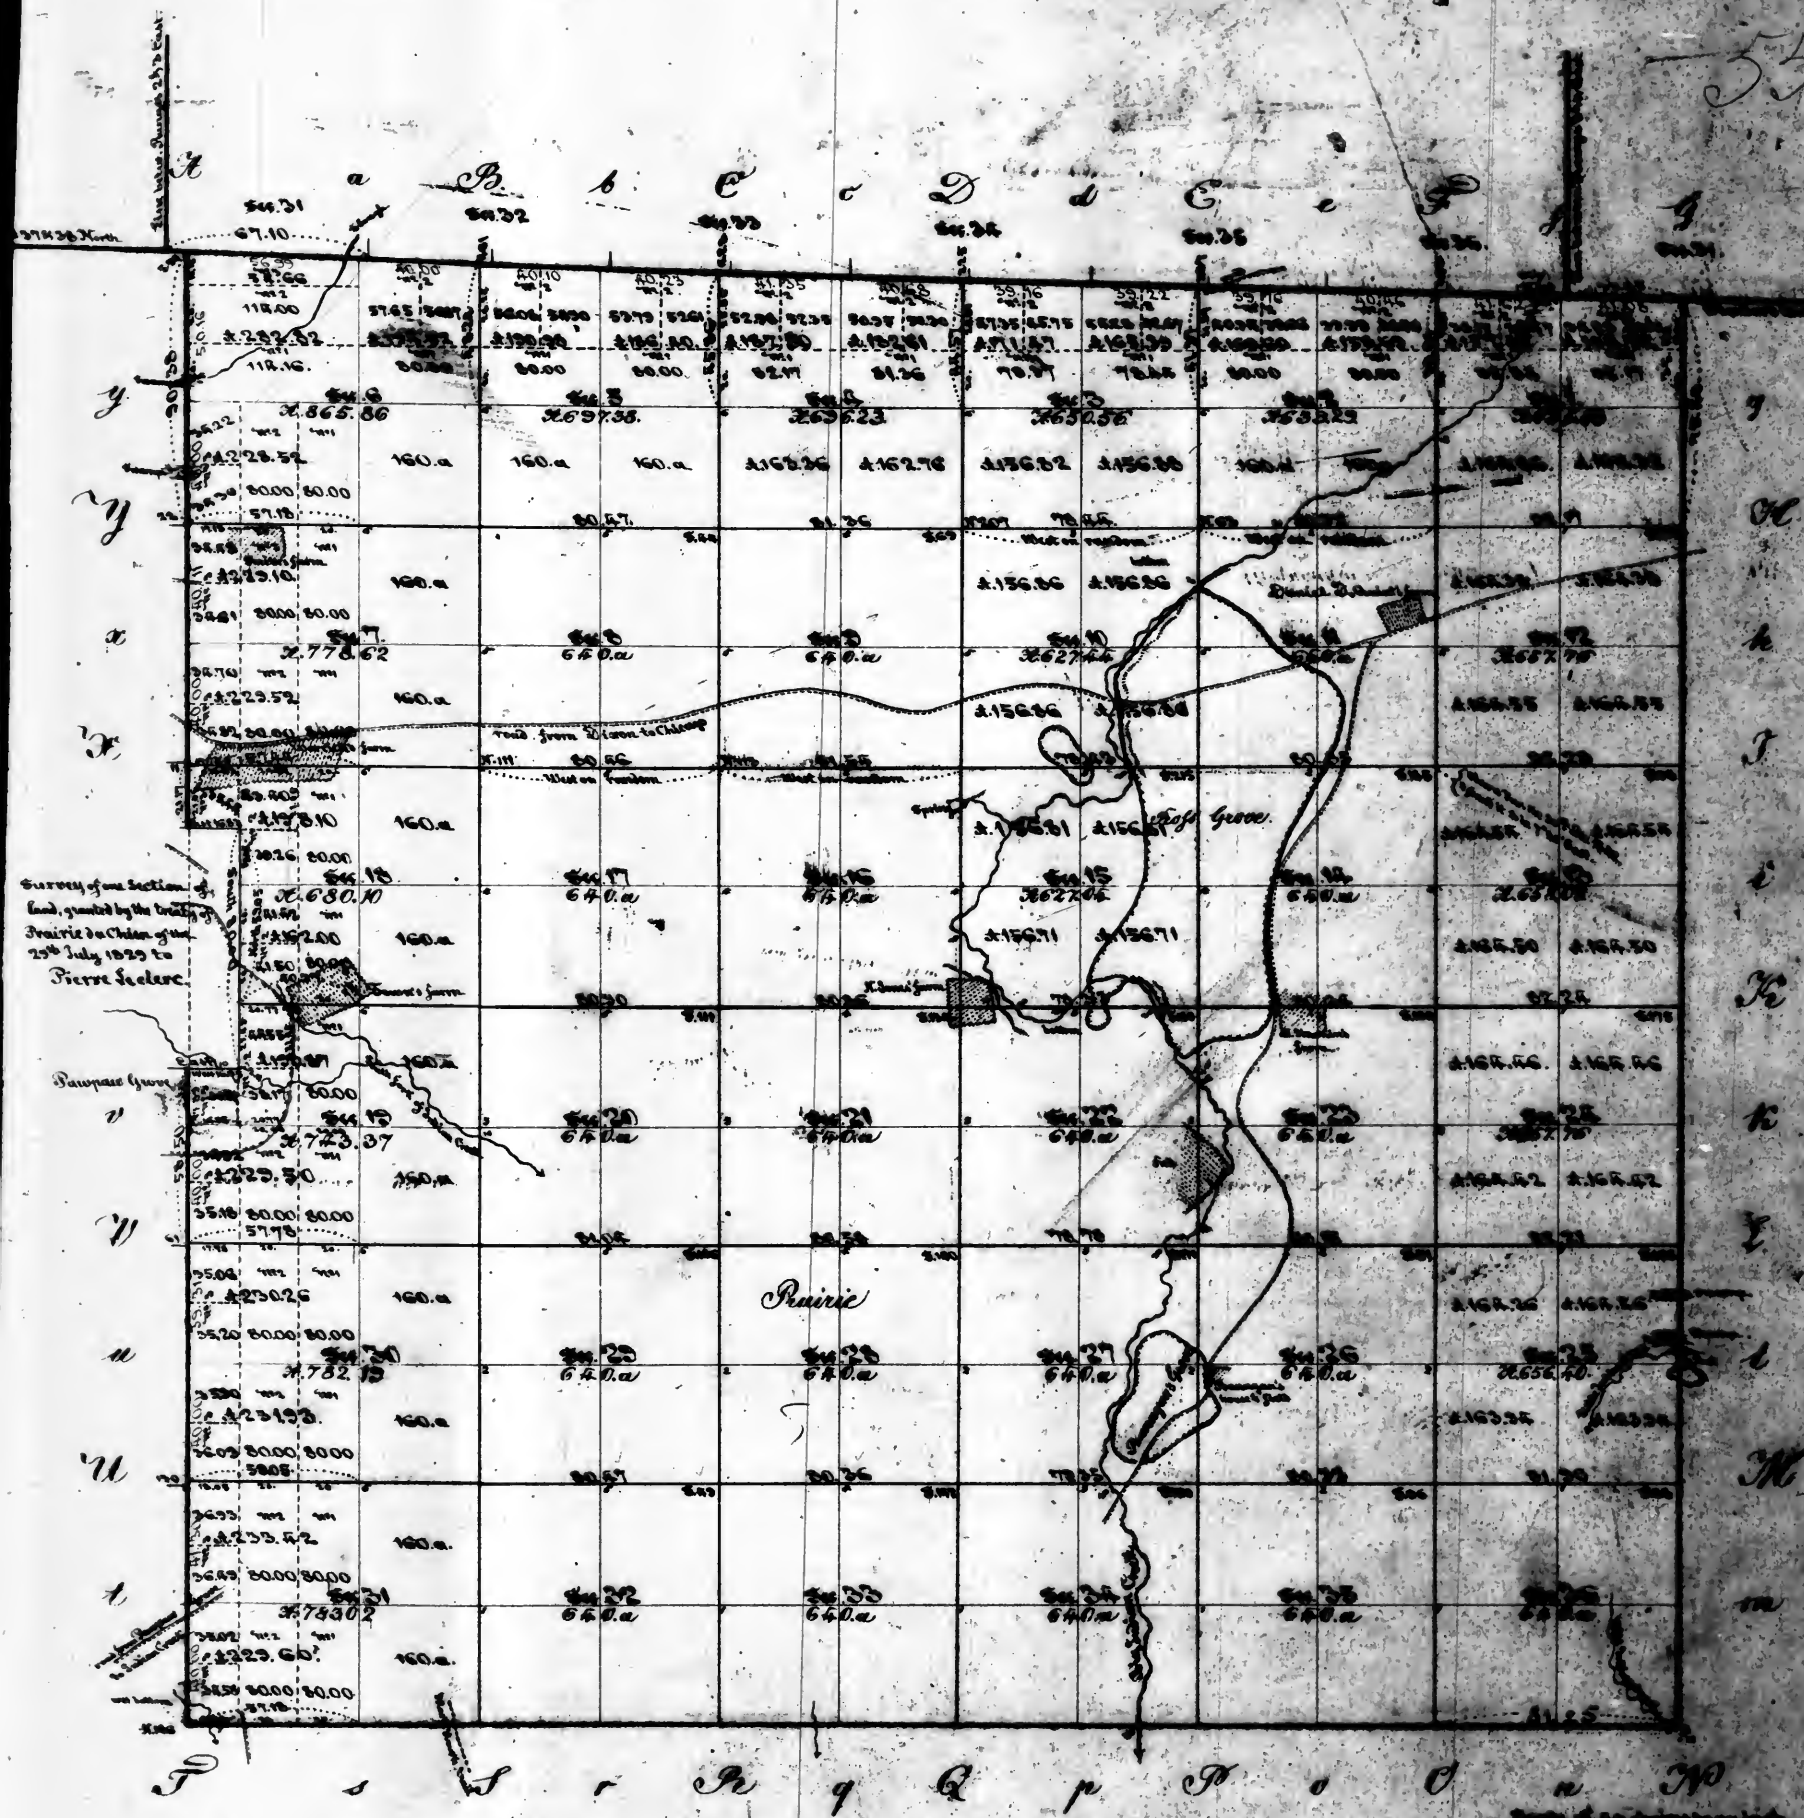

Scale of 40 chains to one inch.
Aggregate Area 22989.00 acres.

The above plat of fractional township 36 north of the base line range 3 east of the 3^d principal meridian, north of the old indian boundary, is mostly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The Southern boundary which is designated 'old indian boundary' was surveyed by John C. Sullivan assisted by James M. Duncan, in the first quarter of 1819, under the authority of a letter of appointment from William Hector Surveyor of the lands of the United States in Illinois and Missouri, dated October 18th 1818, authorizing them to survey certain indian boundaries, under the direction of Commissioners Graham and Phelps appointed by the President to run the lines of the tract ceded by the treaty of Saint Louis of the 24th August 1804, between the United States and the United Nations of Illinois, Chippewas, and Potawatamies - This being the line agreed to be run West to the Mississippi from a point on the river one mile west of the Southern extremity of Lake Michigan: - It was surveyed 6 miles 20.85 chains, and the mile points thereon were surveyed at the several distances set down on the map - The west boundary 5 miles 66.67 chains - the east boundary 5 miles 57.75 chains - and the north boundary 6 miles 17.18 chains were surveyed in the 4th quarter of 1827, and the subdivision lines 50 miles 73.15 chains were surveyed in the 3^d quarter of 1838 - all by Eli S. Prescott, under contract signed by the Surveyor General on the 8th of May, and by Prescott on the 3rd of June 1837 - and with the exception of the subdivisional line between sections 18 and 19, 1 mile 17.33 chains were paid for in the 4th quarter of 1838, and charged in the account of the Surveyor General for that quarter, voucher 765 - The line between sections 18 & 19 was suppressed from the account, because the quarter section corner was not established: - I find upon examination that the place of the said quarter section corner is in the middle of a large cultivated field in a prairie and without any mark or monument in a reasonable distance - that the establishment of the corner would be more a matter of form than actual utility; and that its position can readily be determined by means of the adjacent corners: I have therefore approved of the survey of said line as at first returned, but have not yet paid therefor.

William McIlwain
Surveyor General

Township 37 North of the base line Range 3 East of the 3rd principal Meridian

Deputy Dector

St. Louis June 28. 1834

The above Plat of Township N 35 North of the Base Line, Range 4 East of the 3rd Principal Meridian, is conformable to the field notes of the Survey thereof on file in this Office.

Wm Dector

Fractional Township No. 36 North of the Base line in Range No. 4 East of the 3^d principal Meridian.

Surveyors Office.

Saint Louis 20th May 1839.

The above plat of fractional township 36 North range 4 East of the 3^d principal meridian, north of the old indian boundary is strictly conformable to the field notes of the survey being on file in this office, which have been examined and approved. The Southern boundary which is designated "Old Indian Boundary" 5 miles 40.03 chains, was surveyed by John C. Sullivan, assisted by James M. Duncan in the first quarter of 1819, under the authority of a letter of appointment from William Becher Surveyor of the lands of the United States in Illinois and Missouri dated October 18th 1818, authorizing them to survey certain indian boundaries under the direction of Commissioners Graham and Phelps appointed by the president to run the lines of the tracts ceded by the treaty of Saint Louis of the 23rd of August 1816, between the United States and the United Nations of Ottawa, Chippewas and Pottawatomies - this being the line agreed to be run west to the Mississippi from a point on Fox river one west of the Southern extremity of Lake Michigan. It was re-surveyed 5 miles 40.03 chains, and the mile points thereon renewed at the several distances set down on the map by Eli S. Prescott in the 4th quarter of 1837. - The west boundary 5 miles 58.72 chains - The east boundary 5 miles 35.95 chains and the north boundary 5 miles 37.34 chains were surveyed by Eli S. Prescott in the 3^d quarter of 1837 and the subdivision lines 55 miles 43.12 chains were surveyed by the said Prescott in the 2^d and 3^d quarters of 1838 - all the surveys by Prescott were executed under contract signed by the Surveyor General on the 8th of May 1837, and by the said Prescott on the 3^d day of June of the same year - They were paid for in the 4th quarter of 1838, and charges in the account of the Surveyor General for

Fractional Township N. 36 North of the Base line in Range N. 4 East of the 3^d principal Meridian.

Surveyors Office.

Saint Louis 20th May 1837.

The above plat of fractional township 36 North range 4 East of the 3^d principal meridian, north of the old Indian boundary is strictly conformable to the first notes of the survey thereof on file in this office, which have been examined and approved. The southern boundary which is designated "Old Indian boundary" 5 miles 40.03 chains, was surveyed by John C. Sullivan, assisted by James Duncan in the first quarter of 1819, under the authority of a letter of appointment from William Becher Surveyor of the United States in Illinois and Missouri dated October 18th 1818, authorizing them to survey Indian boundaries under the direction of Commissioners Graham and Phelps appointed by the president to run the lines of the tract ceded by the treaty of Saint Louis of the 23rd of August 1816, between the United States and the United Nations of Ottawa, Chippewas and Potawatamies - this being the line agreed to be run west to the Mississippi from a point on the river due west of the southern extremity of Lake Michigan. It was surveyed 5 miles 40.03 chains, and the mile points thereon removed at the several distances of the map by Eli S. Prescott in the 4th quarter of 1837. - The west boundary 5 miles 58.72 chains - The east boundary 5 miles 43.12 chains were surveyed by Eli S. Prescott in the 3^d quarter of 1837 and the subdivision lines 36 sections were surveyed by the said Prescott in the 2^d and 3^d quarters of 1833 - all the surveys by contract signed by Mr. Surveyor General on the 8th of May 1837, and by the said Prescott on the 1st of June of the same year - They were paid for in the 3^d quarter of 1838, and charged in the account of the Surveyors Office that quarter - Voucher No 5.

William Becher

Township N° 37 North of the Base line in Range N° 4 East of the 3rd principal Meridian.

Scale of 40 chains to one inch.

Aggregate area 20925.00 acres.

Surveyors Office. Sept. 25th of August 1862.

The above map of Township N° 37 North of the base line, range 4 East of the 3rd principal meridian is a copy of the first notes of the survey thereof on file in this office which have been examined and approved. The south boundary 5 miles 57.07 chains - the east boundary 6 miles - the north boundary 5 miles 57.07 chains - and the west boundary 5 miles 75.00 chains, were all surveyed on the 1st of June 1857, by Chas. S. Brown, under contract signed by the Surveyor General, on the 3rd of May 1857, and by Wm. Brown on the 2nd of June following - they were paid for in the 4th quarter of 1858, and changed in the account current of the Surveyor General during the same quarter, Voucher N° 5. The subdivision lines of the 36 sections, were surveyed in September, 1858, by Charles H. Rice, for Chas. S. Brown, without authority, and were not treated with this office, but the first notes have been received for examination, upon their receipt, in virtue of the directions contained in the letter of the Commissioner of the General Land Office, to Surveyor General Matthews, dated 5th of June 1860, and Wm. Brown's notes having been examined and approved and paid for, the said 57 miles 57.07 chains, were then paid out of the general appropriation for surveying the public lands; and the same were charged in the account current of the Surveyor General during the 3rd quarter of 1862, Voucher N° 1. The first notes of the survey of the Township N° 37 North of the base line, range 4 East of the 3rd principal meridian, were received in this office on the 25th of July 1862, exhibiting the same payment for the same thereon, and which is not here again to be surveyed.

Chas. S. Brown

Surveyor of the public lands in the State of Illinois

Surveyors Office - Saint Louis 25 of August 1842.

The above plat of township 22 north of the base line, range 12 west of the 4th principal meridian, was surveyed by the Surveyor General of the Territory of Kansas, under contract signed by the Surveyor General on the 8th of May, 1857, for on the 1st quarter of 1855, and changed in for account, contract of the Surveyor General, signed by the Surveyor General on the 1st quarter of 1852, by S. J. Spaulding under contract signed by the Surveyor General on the 1st of May 1852:— it was paid for on the 1st quarter of 1850 and charged in the account of the Surveyor General on the 1st quarter of 1850. The east boundary 6 miles and the north boundary 12 miles, were signed under their joint contract of the 21st of September 1850. They were paid for in the 1st quarter of 1850, under their joint contract of the 1st of September 1850. The south boundary 12 miles, was signed under their joint contract of the 1st of September 1850. The west boundary 12 miles, was signed under their joint contract of the 1st of September 1850. The Surveyor General, during the said term, under his contract of the 1st of September 1850, was paid for the same by the Surveyor General, during the said term, under his contract of the 1st of September 1850.

7. Silas Reed
Minister of the public lands in
the State of Maine &c

Township 33 North, 4 East of the 3d principal Meridian

14

Surveyors Office, Saint Louis 25th of August 1842.

The above plat of township 33 north of the base line range 4 east of the 3d principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The west boundary 6 miles, was surveyed in the 4th quarter of 1833, by John Alonzo Spaulding, under contract signed by the Surveyor General on the 20th of September 1833, and by M. Spaulding on the 14th of May 1833. It was paid for in the 2nd quarter of 1834 and charged in the account current of the Surveyor General during the same quarter, Voucher N° 8. The south boundary 5 miles 65 to chains - the east boundary 6 miles - and the north boundary 5 miles 66 to chains, were surveyed in the 4th quarter of 1833, by James Thompson and John P. Thompson, under their joint contract of the 21st of September 1833. They were paid for in the 3rd quarter of 1840, and charged in the account current of the Surveyor General during that quarter, Voucher N° 17. The subdivision lines 36 miles 15 to chains, were surveyed in the 4th quarter of 1840, by James Thompson and John P. Thompson, under their joint contract of the 13th of September 1840. They were paid for in the 3rd quarter of 1842, and charged in the account current of the Surveyor General during the said 3rd quarter, Voucher N° 17.

Silas Reeds

Surveyor of the public lands
in the State of Missouri.

Township 40 North, Range 4 East of 3rd Principal Meridian

15

Surveyors office, Saint Louis 25 of August 1880

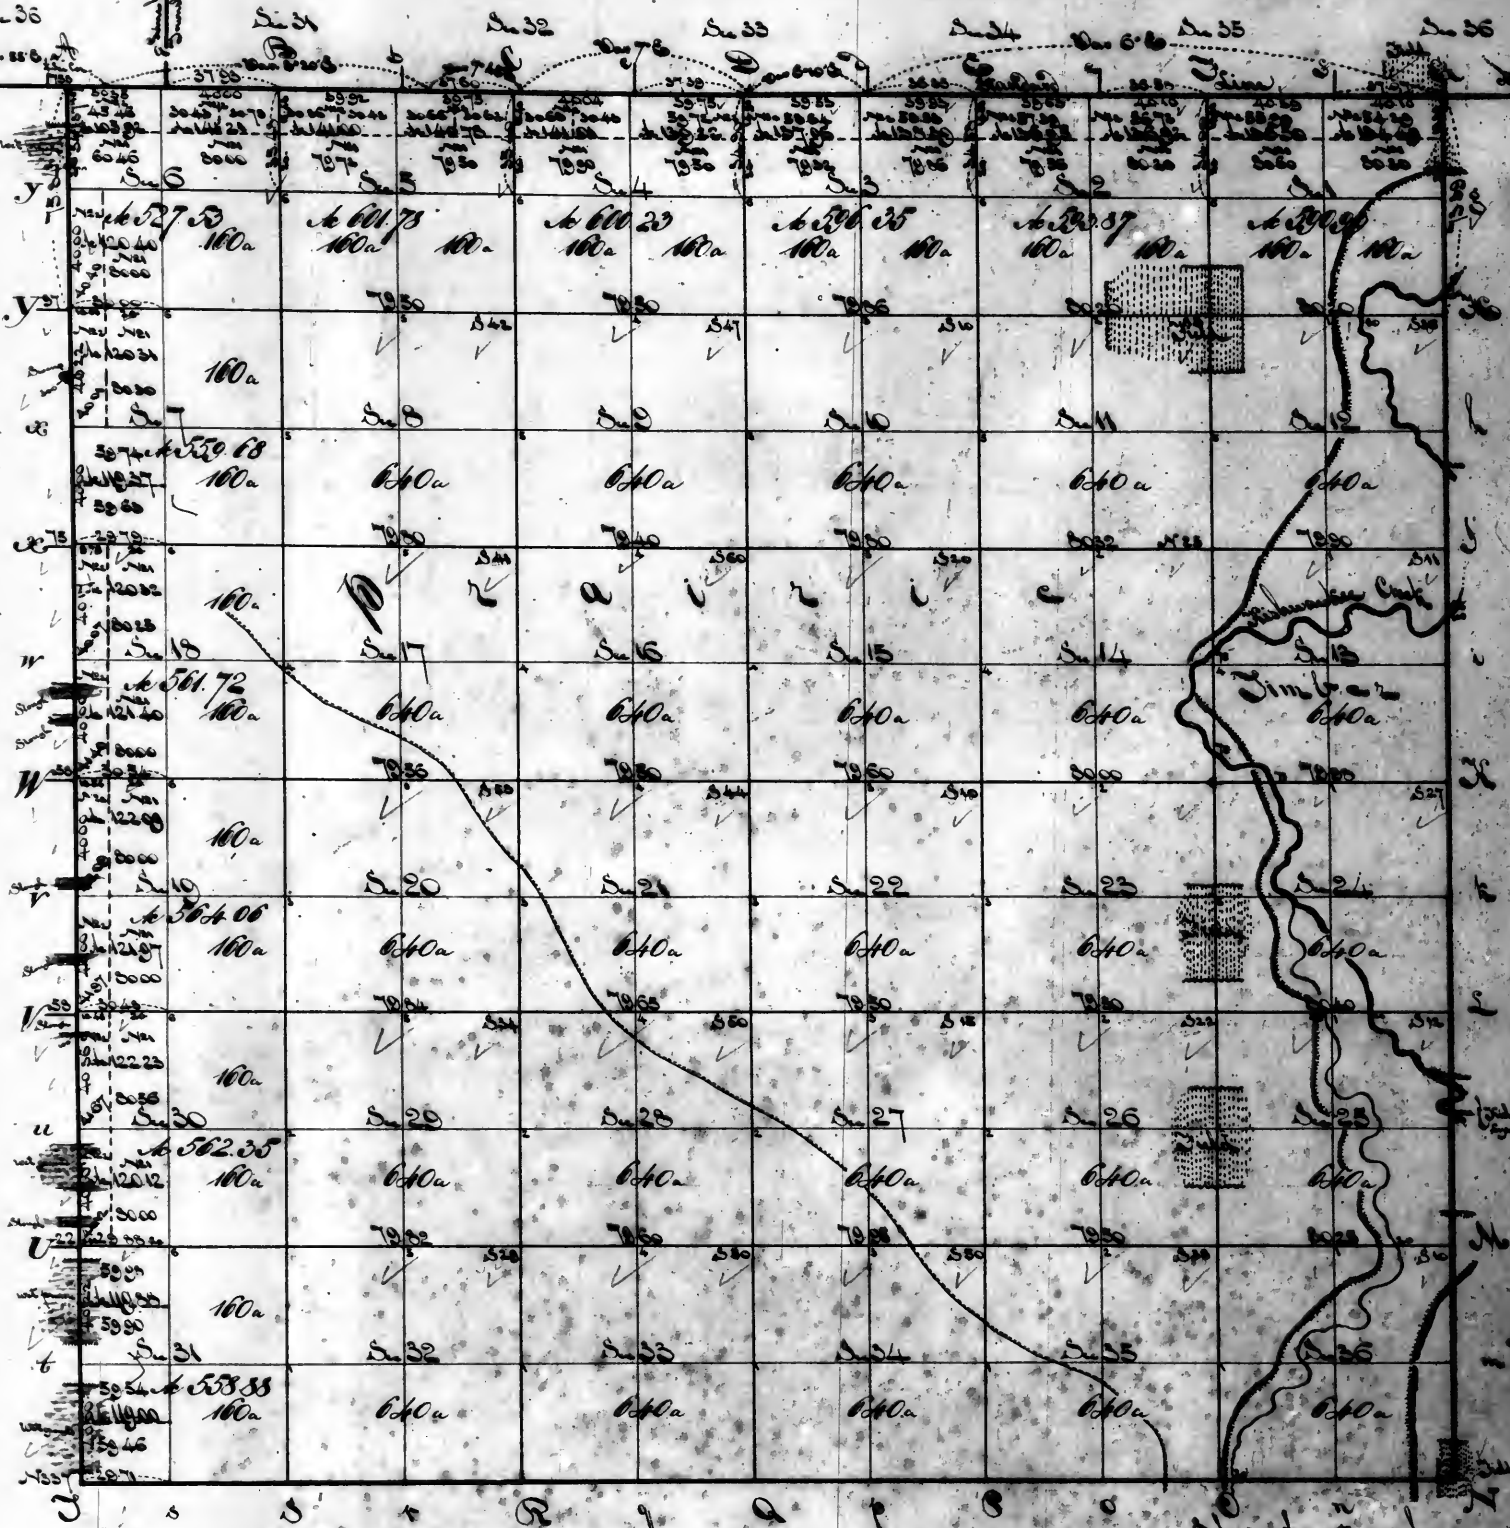

The above plat of township 40 north of the base line and range 4 east of the 3rd principal meridian, is hereby confirmed to the full and entire thereof on file in this office which have been examined and approved. The north boundary 6 miles, was surveyed by Spaulding, under a contract signed by the Surveyor General on the 20th September 1887 and by McSpaulding on the 1st of October 1888. It was paid for in the 3rd quarter of 1888, and charges in the account of the Surveyor General for that quarter, Voucher N° 6. The east boundary 6 miles, and the north boundary 5 miles 69.71 chains, were surveyed in the 4th quarter of 1888, by J. Thompson, under their joint contract of the 21st of September 1889. They were paid for in the 3rd quarter of 1889, and charges in the account of the Surveyor General during that quarter, Voucher N° 17. The subdivision line 59 miles 13.51 chains, was surveyed in the 4th quarter of 1889, by James Thompson and John J. Thompson, under their joint contract of the 18th of September 1889. They were paid for in the 3rd quarter of 1889, and charges in the account current of the Surveyor General during that quarter, Voucher N° 7.

Silas Reeds

Surveyor of the public lands
the State of Missouri

Township 41 North of the base line Range 4 East of the 3rd principal Meridian

16

Notes: The accounts in which that part of the land boundary of this township, west of the range line, between ranges 3 & 4 is charged, comes to \$2,443.59m of which \$2,550. was paid on the 20th of May 1837 - and \$93.59m on the 20th of May 1838. The balance being \$200 having been paid by Elias S. Langdon from township funds.

Silas Reeds

Surveyors Office. Saint Louis 24th of August 1842.

The above plat of township 41 north of the base line, range 4 east of the 3rd principal meridian is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. That part of the north boundary which is west of the range line between S. 42 R. 3 & 4, was surveyed in the 1st quarter of 1836, by S. A. Spaulding, under contract of the 9th of June 1835; - and with the limitation noted in the margin, it was paid for (32.42 chains) in the 3rd quarter of 1837 and 2nd quarter of 1839 and charged in the accounts current of the Surveyor General for those quarters, Vouchers N^o 6 and 7. That part of the north boundary, east of the said range line 5 miles and 35 chains was surveyed in the 2nd quarter of 1837, by S. A. Spaulding, under contract signed by the Surveyor General on the 21st of November and by M. Sprigg on the 15th of December 1836; - it was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 2. The west boundary 5 miles 75.84 chains, was surveyed in the 4th quarter of 1838, by S. A. Spaulding under contract signed by the Surveyor General on the 20th of September 1837, and by Spaulding on the 14th of May 1838; - it was paid for in the 2nd quarter of 1839, and charged in the account current of the Surveyor General during the same quarter, Voucher N^o 8. The south boundary 5 miles 69.71 chains, and the east boundary 5 miles 73.39 chains were surveyed in the 4th quarter of 1839, by James Thompson, and John P. Thompson, under their joint contract of the 21st of September 1839 - they were paid for in the 3rd quarter of 1840, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 17. The subdivision lines 59 miles and 13 links, were surveyed in the 4th quarter of 1840, by James Thompson and John P. Thompson, under their joint contract of the 18th of September 1840 - they were paid for in the 3rd quarter of 1842, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 7.

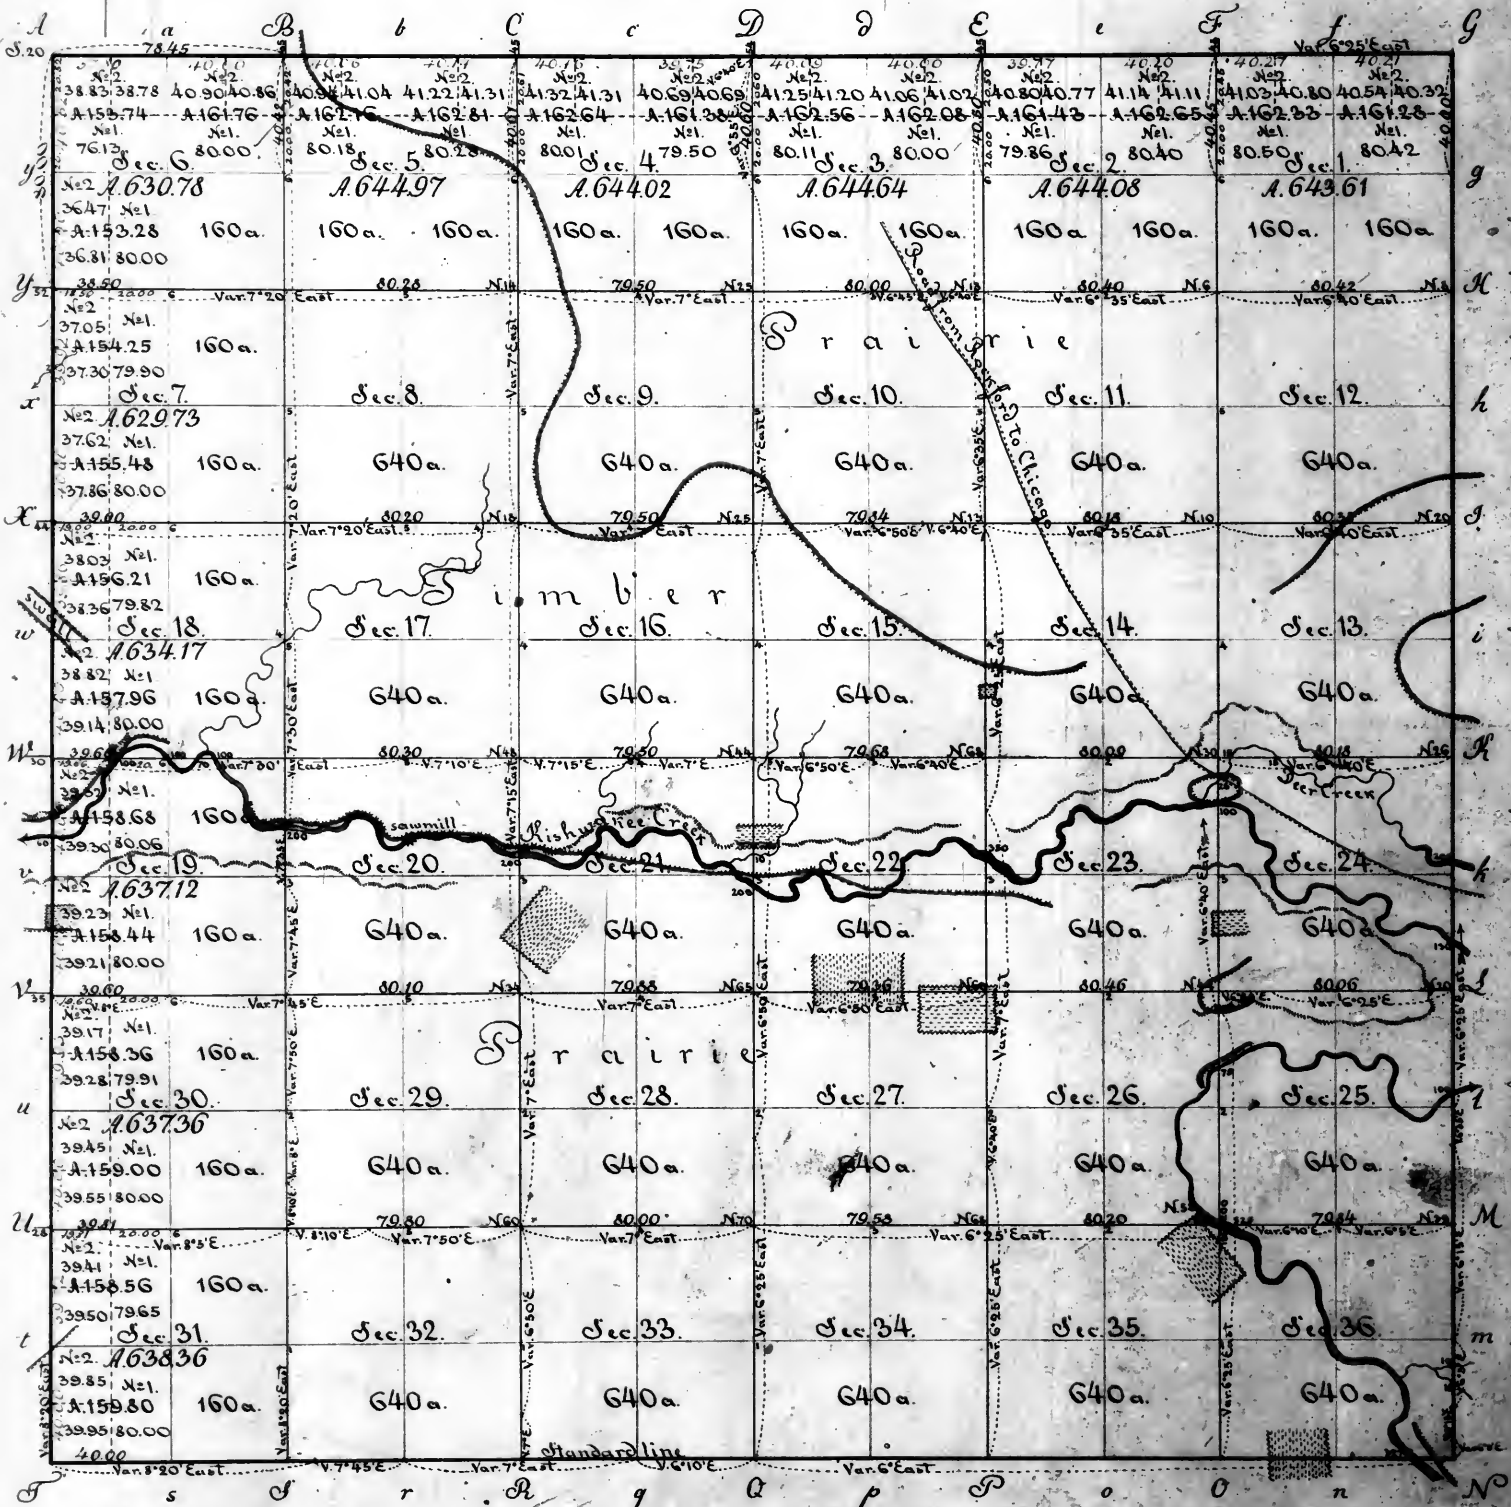

Silas Reeds

Surveyor of the public lands in the States of Illinois and Missouri.

By J. A. Spaulding
24th of August 1842

Township N^o 42 North of the Base line in Range N^o 4 East of the 3^d principal Meridian.

Note. The survey of the East boundary and of each of the several ranges of sections in the subdivision of this Township was commenced at the respective variations stated on the Southern tier of Sections, and the meridian lines were carried North through the Township by fore and back sights, disregarding the many changes in the variation, occasioned by local attraction, which are noted on the plat. The East & West random lines and the West lines in the Western range of Sections were all run at right angles to the proper North & South lines.

Surveyors Office.

Saint-Louis 14th of May 1839

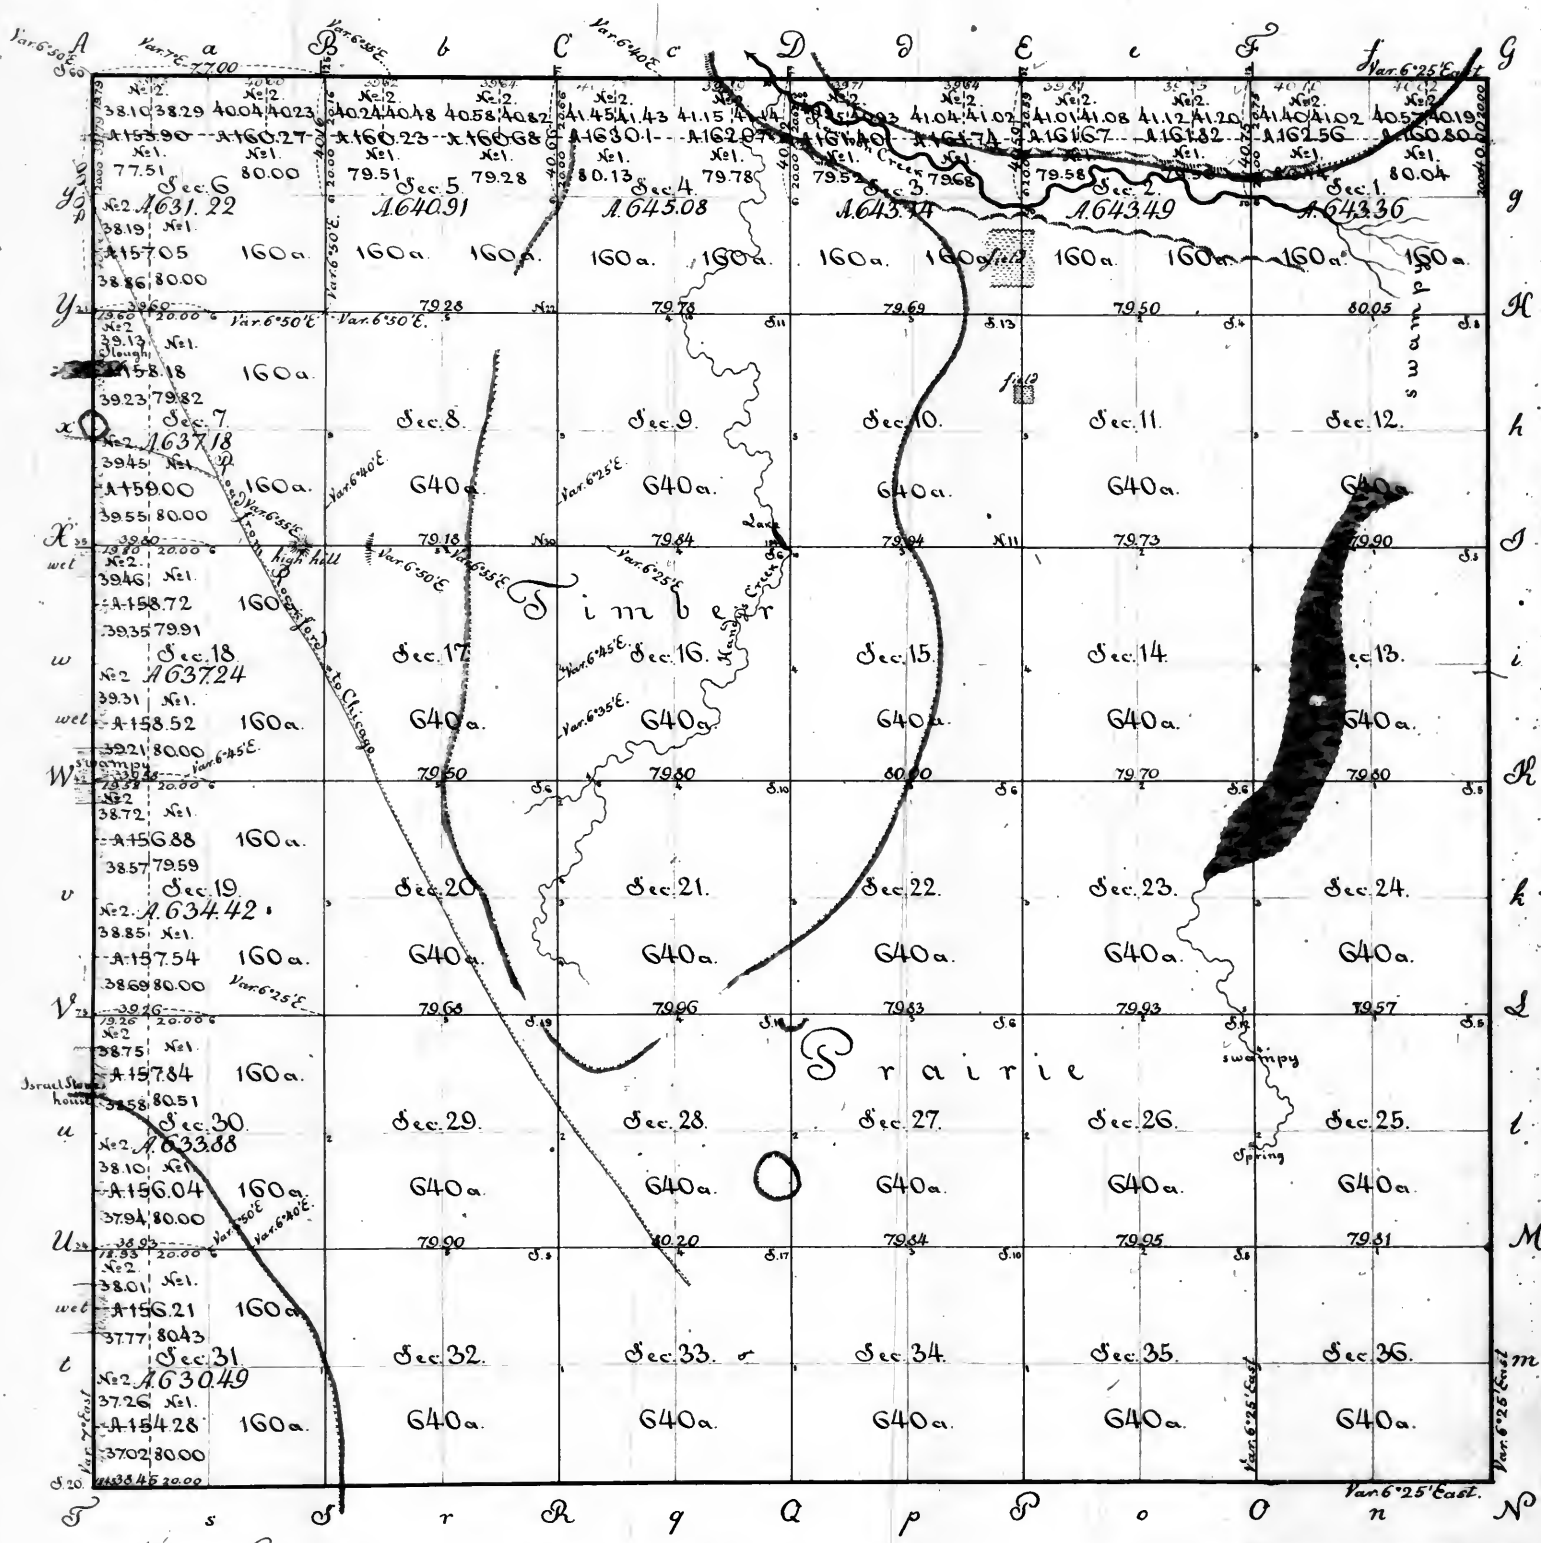

Scale of 40 chains to one inch.

Aggregate Area 2302884 acres.

The above plat of township 42 north of the base line, range 4 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof, on file in this Office, which have been examined and approved. - The west boundary (6 miles) was surveyed in the 4th quarter of 1836, by D. B. Spaulding, under contract of the 9th of June 1835, and was paid for in the 3^d quarter of 1837 - and charged in the account of the Surveyor General for that quarter - Voucher N^o 6 - The South and East boundaries (6 miles each) and the north boundary (5 miles 78.45 chains) were surveyed in the 2^d quarter of 1837, and the subdivision lines (59 miles 78.88 chains) were surveyed in the 3^d quarter of 1837 - all by Ignatius Spragg, under contract signed by the Surveyor General on the 21st of November, and by the said Spragg on the 15th of December 1836 - and to the extent noted in the margin, they were paid for in the first quarter of 1839, and charged in the account of the Surveyor General for that quarter - Voucher N^o 2.

William M. M. M.
Surveyor General

Township N. 43 North of the Base line in Range N. 4 East of the 3^d principal Meridian.

(Note: The accounts in which the west boundary of this township is charged amount to \$2,443.95, of which \$2050.00 were paid on the 25th of July 1837 - and \$493.95 on the 20th of June 1839 - the balance being \$900.00 having been paid by C. O. Langham - former Surveyor General, due Voucher N. 6 of the account of the Surveyor General for the 3^d quarter of 1837 - and voucher N. 7 of account for the 2^d quarter of 1839)

Surveyor General

Variation:
on W. 12th - 6° 50' East
on all the other lines 6° 25' East
except where stated otherwise
on this plat, the change in
variation being accounted for
attraction, which was
by operating with fore

Township $\#46$ North of the Base line in Range $\#4$ East of the 3^d principal Meridian.

Explanatory note by the Deputy Surveyor relative to the variation of the needle in subdividing this township. — In all cases where there was a variation of the needle, the variation was noted by me, and shown by the direction of the needle, when the compass was set on the direct line as before, and adjusted to the variation of which the line was commenced on the South boundary of the township in the subdivision; or on the standard line in ranging the exterior lines. The South boundary line of Township $\#46$ North, Range $\#4$ East was run at a variation of $6^{\circ} 25'$ East the north being free of attraction in the subdivision of said township the N. & E. lines were each started from the South boundary thereof with the compass adjusted to said variation ($6^{\circ} 25'$) and continued as straight lines to the North boundary, fore and back sights being used as before over all such parts of said lines where there appeared to be any attraction — all random lines were commenced with the compass adjusted to the variation shown by the needle, when set on the direct North and South lines at the corners from which said randoms were started and continued by fore and back sights over all such parts of said lines where there appeared to be any attraction — they were run at right angles to the proper North and South lines — January 5th 1839 — J. Sprigg

Surveyor General's Office.

Saint Louis. 22 July 1839

The above plat of Township $\#46$ north of the base line, range $\#4$ east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The North boundary was surveyed in 1832 and 1833 by Lucius Lyon, Commissioner on the part of the United States as certified to this Office by No. 1 Williams, Surveyor General of Ohio, Indiana & Michigan. The said line being a part of the boundary between Illinois and Michigan, now Wisconsin — The west boundary 5 miles 24.68 chains was surveyed in the 4th quarter of 1836, by Don Alvaro Spaulding, under contract of the 9th of June 1835, and with the limitation noted in the margin it was paid for in the 3^d quarter of 1837, and 2^d quarter of 1839, and charged in the accounts of the Surveyors General for those quarters, vouchers No. 6 & 7 — The South boundary 5 miles 73.04 chains, was surveyed in the 2^d quarter of 1837 — the east boundary 5 miles 32.62 chains — and the subdivision lines 56 miles 4.52 chains, were surveyed in the 3^d quarter of 1837, all by Ignatius J. Sprigg, under contract signed by the Surveyor General, on the 21st of November 1836, and by Sprigg on the 15th day of December of the same year. The surveys by Sprigg, were paid for in the 1st and 2^d quarters of 1839 — and charged in the accounts of the Surveyors General for those quarters Vouchers No. 2 and 3

William Milburn
Surveyor General

Notes: The accounts in which the west boundary of this township is charged amount to \$2,443.25, of which \$2,059.00 were paid on the 25th of July 1837 — and \$384.25 on the 20th day of June 1839. The balance being \$384.25 having been paid by Charles J. Longfellow, former Surveyor General, in Voucher No. 6 of the accounts of the Surveyor General for the 3^d quarter of 1837, and Voucher No. 7 of account for the 2^d quarter of 1839 (William Milburn)

Fractional Township 35 North of the Base line in Range 5 East of the 3^d principal Meridian.

32

Surveyor's Office.
Saint Louis 21st of May 1839.

The above plat of fractional township 35 north of the base line, range 5 east of the 3^d principal meridian, north of the old indian boundary, east of Fox river is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. — The Southern boundary which is designated 'the Indian boundary' was a survey in September 1821, in order to close the surveys to the South thereby, under the contract of Stephen Rector, and Thomas C. Rector, of the 20th of March 1821, and was intended as a survey of the indian boundary which could not be properly identified, that had been surveyed in the 4th quarter of 1818, by John C. Sullivan, assisted by James M. Duncan, from a point on Sandy creek 10 miles above its mouth S. 82° W. 28 miles and 66 chains to a point on Fox river 10 miles above its mouth, under a letter of appointment dated October 18th 1818 for running the line of the treaty of St. Louis of the 24th of August 1816, between the United States and the United Nations of Ottawas, Chippewas and Pottawatomies: — That part of said line which forms a boundary to this fractional township 4 miles 78.9 chains was resurveyed — and the east boundary of the township 8 miles 7.36 chains — the north boundary 2 miles and 38 chains were surveyed in the 4th quarter of 1837 — and the subdivision lines 39 miles 6.75 chains — and meanders of the left bank of Fox river, 6 miles 71.80 chains were surveyed in the 2^d quarter of 1838 — all by Eli S. Prescott, under contract signed by the Surveyor General on the 8th day of May, and by Prescott on the 3rd of June 1837: — They were paid for in the 4th quarter of 1838 — and charged on the account of the Surveyor General for that quarter — Voucher No. 5.

WASHINGTON, D. C., MAY 9, 1939.
THE SURVEY REPRESENTED BY THIS PLAT, HAVING BEEN CORRECTLY EXECUTED IN ACCORDANCE WITH THE REQUIREMENTS OF LAW AND THE REGULATIONS OF THIS OFFICE, IS HEREBY ACCEPTED.

Paula M. Thompson
ASSISTANT COMMISSIONER.

Fractional Township 36 North of the Base line in Range 5 East of the 3^d principal Meridian.

33

Scale of 40 chains to one inch.

Aggregate Area 21623.66 acres

Surveyors Office - Saint Louis 21st of May 1839.

The above plat of fractional township 36 north of the base line, range 5 East of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The old Indian boundary from the point on the west bank of Fox River due west of the southern extremity of Lake Michigan, was surveyed west to the Mississippi river in the first quarter of 1819 by John C. Sullivan assisted by James W. Duncan under a letter of appointment dated October 19th 1818 for running the line of the treaty of Saint Louis of the 26th of August 1816, between the United States and the United Nations of Ottawas, Chippewas and Potawatimias - That part of said boundary, which runs in part through and in part bounds this fractional township, being 4 miles 62.74 chains, was reserved for the purpose of conceal and identification; and the west boundary 5 miles 35.95 chains - the south boundary, east of Fox River 2 miles and 35 chains - the east boundary 6 miles - the north boundary 5 miles 57.77 chains were surveyed in the 4th quarter of 1827 - and the subdivision lines 37 miles 22.15 chains - and the meanders of Fox river on both banks and two islands 2 miles 65.06 chains were surveyed in the 2^d quarter of 1833 by E. S. Prescott, under contract signed by the Surveyor General on the 8th of May and by the said Prescott on the 3rd of June 1837. They were paid for in the 4th quarter of 1838, and charged in the accounts of the Surveyor General for that quarter under No. 5.

William Sullivan
Surveyor General
D 4

Township N:37 North of the Base line in Range N:5 East of the 3^d principal Meridian.

34

Scale of 40 chains to one inch.

Aggregate area 21996.42 acres.

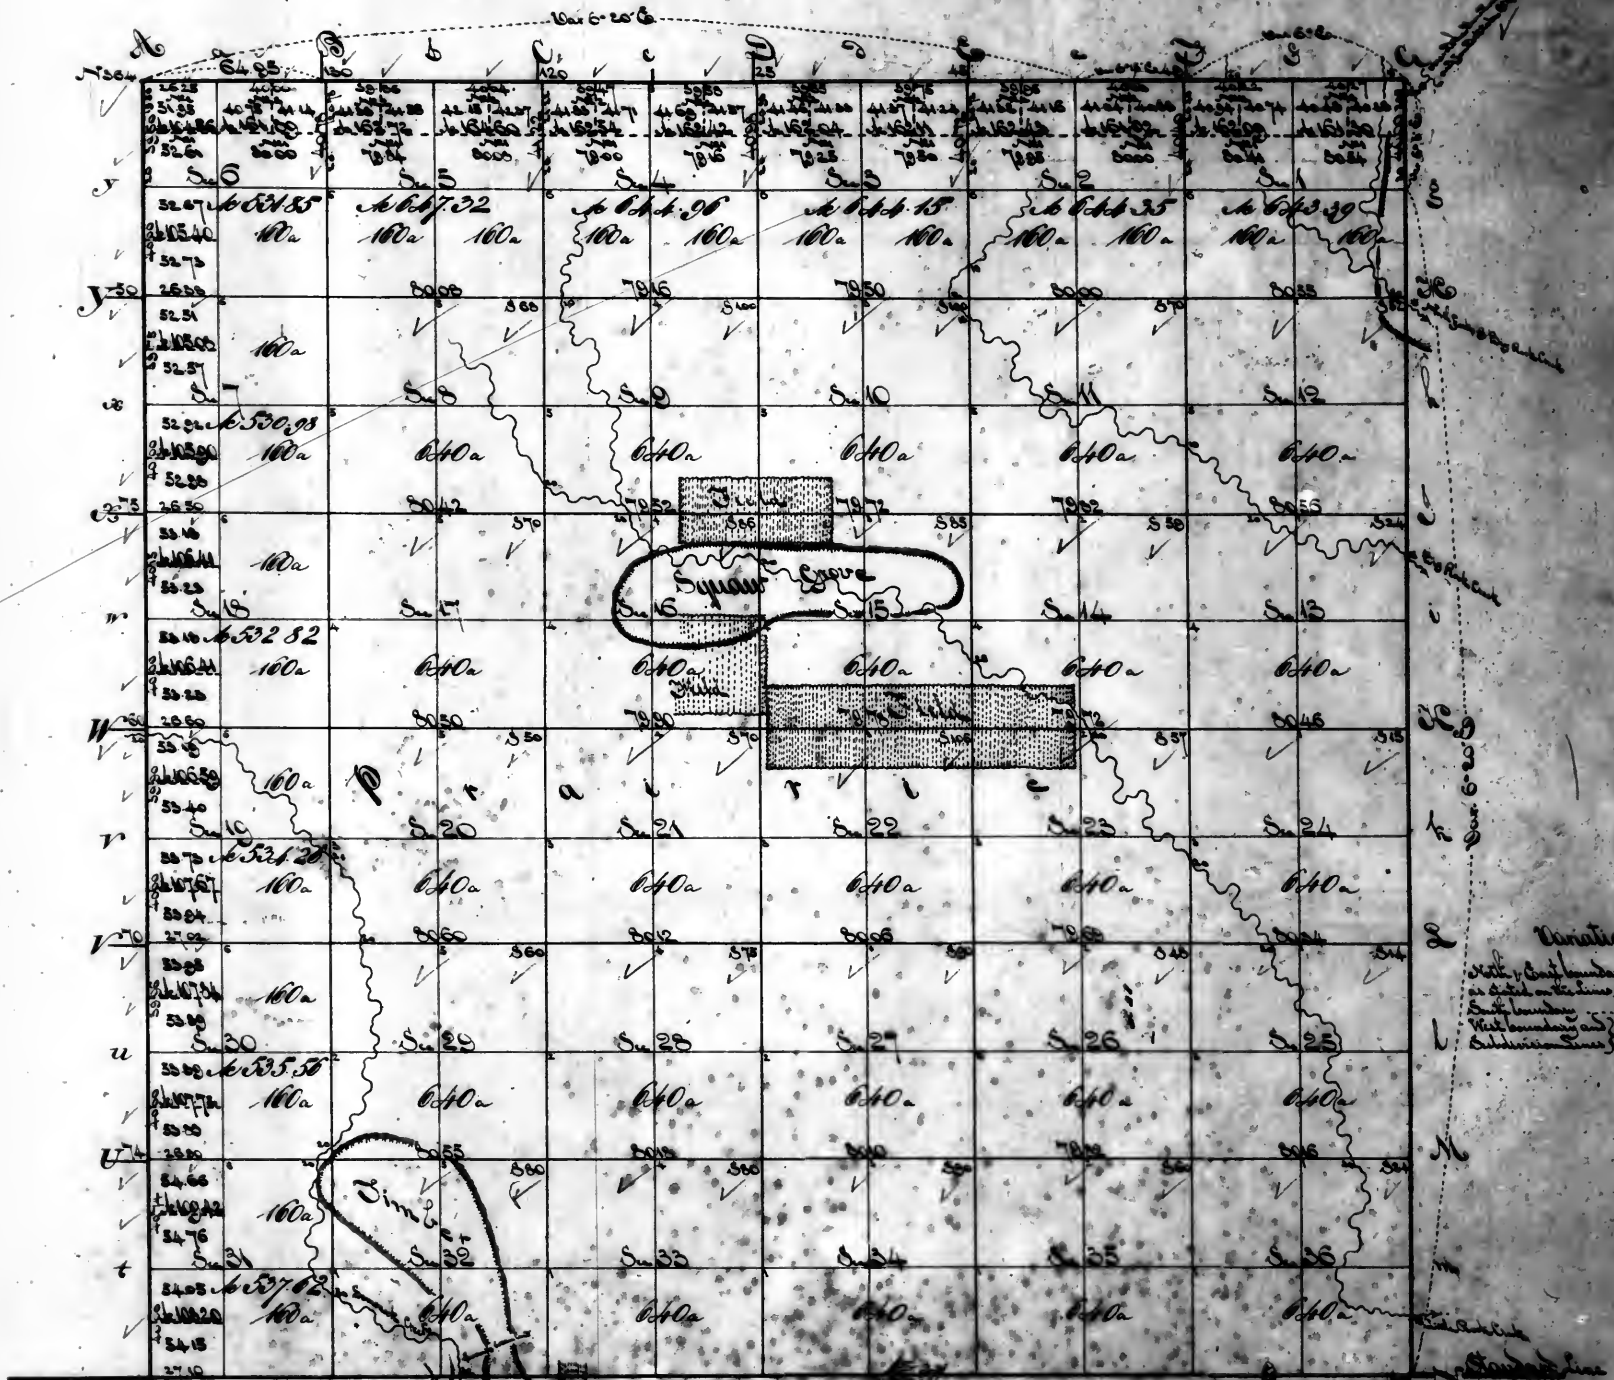

Surveyor's Office. Saint Louis 28th of August 1842.

The above plat of township 37 north of the base line, range 5 east of the 3^d principal meridian is, strictly conformable to the field notes of the Survey thereof on file in this Office, which have been examined and approved. The South boundary 5 miles 54.77 chains—the east boundary 6 miles 5.33 chains—the north boundary 5 miles 53.19 chains—and the west boundary 6 miles and 4 chains, were all surveyed in the 4th quarter of 1837, by Eli S. Proctor, under a contract signed by the Surveyor General on the 8th of May 1837, and by M. Proctor on the 3rd of June following—They were paid for in the 4th quarter of 1838, and charged in the account current of the Surveyor General during the same quarter, Voucher N^o 5.—The subdivision lines, 57 miles 61.46 chains, were surveyed in the 3^d quarter of 1837, by James H. Rice, for Eli S. Proctor, without authority from, or a contract with, this office; but the field notes thereof have been received for examination upon their own merits, in virtue of the directions contained in the letter of the Commissioner of the general land office, to Surveyor General McIlhenny, dated 5th of June 1840; and Mr Rice's notes having been examined as aforesaid, and found correct;—and the Commissioner of the General Land Office, in his letter to Surveyor General Rice, dated 6th May 1842, having authorized him to pay therefore, the 57 miles 61.46 chains, more than they pay out of the general appropriation, and they will be charged in the account current of the Surveyor General, during this 3^d quarter of 1842, Voucher N^o— but for the plat of the Commissioner of the General Land Office of the 25th of July 1842, withholding the said payment for the same herein assigned, and should be not have upon Mr Rice's charge.

Silas Reed

43

Note: Sec. 4 is divided into lots 1 & 2 of the S.E. & W. quarters, and no part thereof will be designated the S.E. A quarter of the Section, notwithstanding the East boundary is 38 links over the half mile, and a quarter section corner was established there. The said quarter section corner is abandoned so far as this Section is concerned, and is retained only for the use of the adjoining Section 3.

22 June 1839
William Milburn
Surveyor General

Surveyor General's Office.
Saint Louis 22^d July 1839.

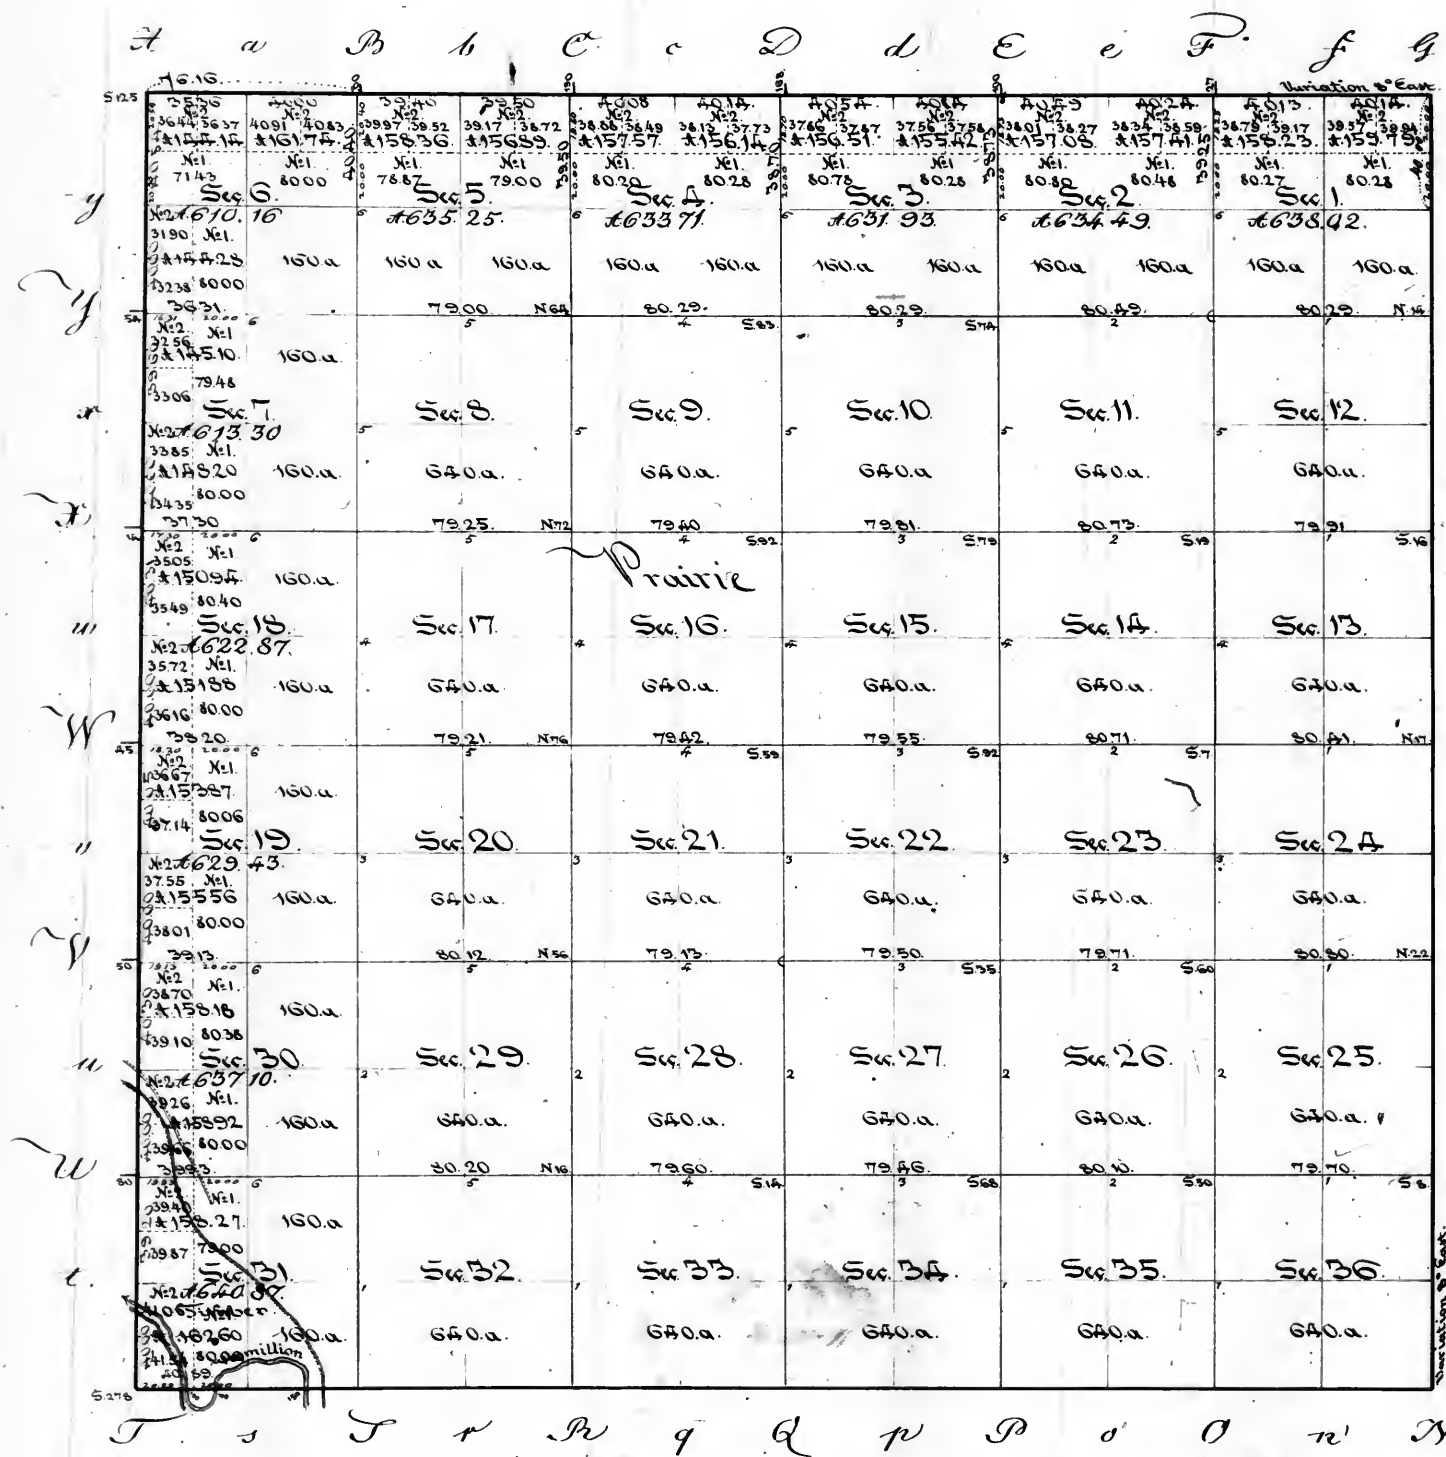

Scale of 40 chains to one inch.
Aggregate area 20972.89 acres.

The above plat of township 46 north of the base line, range 5 east of the 3^d principal meridian, is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. The north boundary was surveyed in 1832 and 1833 by Lucius Lyon, Commissioner on the part of the United States as certified to this office by M. J. Williams, Surveyor General of Ohio, Indiana & Michigan:—the said line being a part of the boundary between Illinois and Michigan, now Wisconsin.—The east boundary 5 miles 42.14 chains was surveyed in the 2^d and 3^d quarters of 1837.—The South boundary 5 miles 77.23 chains.—The west boundary 5 miles 32.62 chains, and the subdivision line 5 miles 26.34 chains, were surveyed in the 3^d quarter of 1837, all by signatus J. Sprigg, under contract signed by the Surveyor General on the 21st of November 1836, and by Sprigg on the 15th day of December of the same year.—They were paid for in the 1st and 2^d quarters of 1839, and charged in the accounts of the Surveyors General for those quarters. Vouchers A. 2 and 2.

William Milburn
Surveyor General

Township 28 North of the base line Range 6 East of the 3rd principal Meridian

46

Surveyors Office
Saint Louis October 3rd 1838

The above plat of township 28 north of the base line, range 6 east of the 3rd principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The North boundary (5 miles 76.15 chains) was surveyed in the 4th quarter of 1833 - and the West boundary (6 miles) - The South boundary (6 miles and 80 chains) - The East boundary (6 miles) - and the Subdivision lines (59 miles 64.50 chains) were surveyed in the second quarter of 1834 - all by Erastus Moore, under contract of the 12th of August 1833 - and with the limitation notes in the margin, were paid for, in the 2nd quarter of 1838, and charged in the account of the Surveyor General for that quarter.

David Huntlin
Sur. Genl.

Notes. The original account of 28 March, in which the survey of the township is charged, amounts to \$ 2517 1/2, of which \$ 191 1/2 was paid in the 1st quarter of 1833, and the balance being \$ 2200, was withheld for the purpose of securing the speedy completion of the survey of the western range of sections in 3rd 26 1/2, and 28 1/2, which was done by J. M. Mearns and Dr. S. Mearns, to the final between ranges 6 and 7 East, as first surveyed by Dr. Moore, and which, in consequence of the survey of the 3rd range line by Dr. Mearns, must be revised therewith by him.

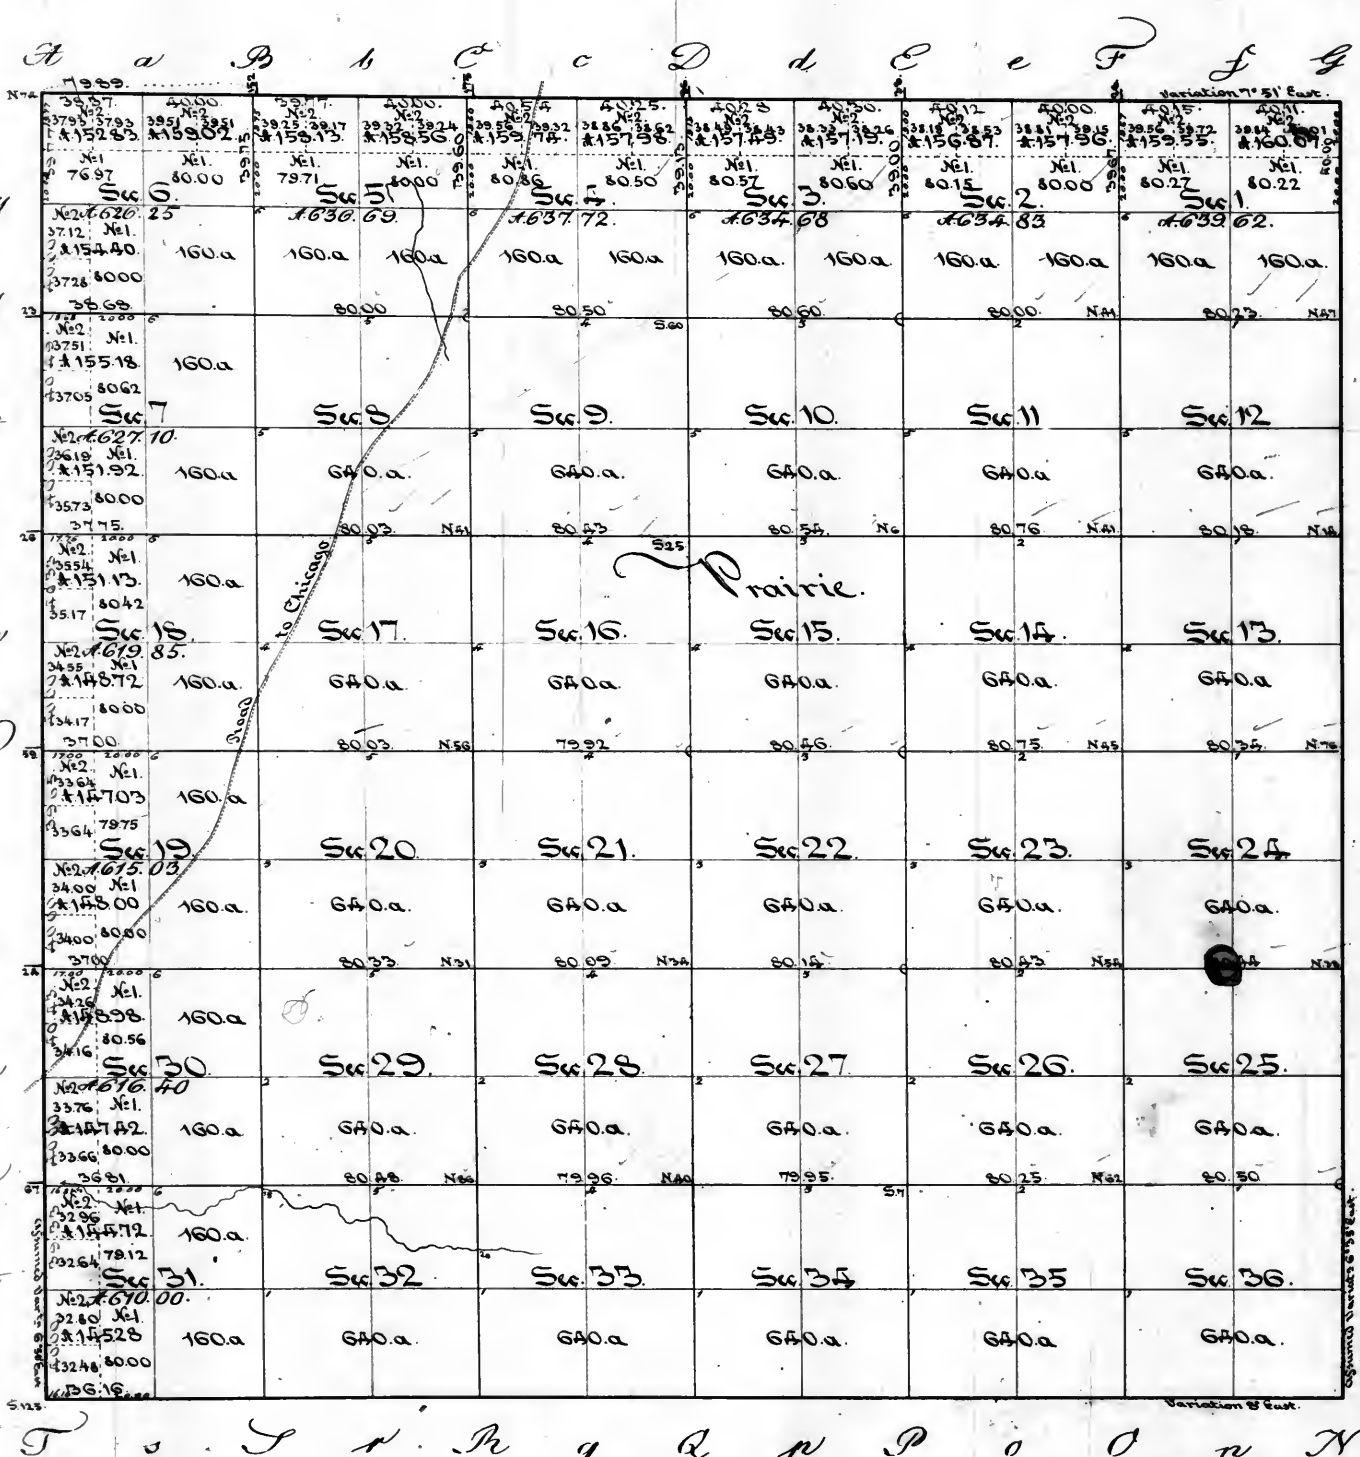

It shows 10 Sept. 1838
That the copy to the Surveyor of the Plat, Land Office
is copy of the plat of the section (28) within time of quarter of time.

Fractional Township N. 35 North of the Base line in Range N. 6 East of the 3^d principal Meridian.

54

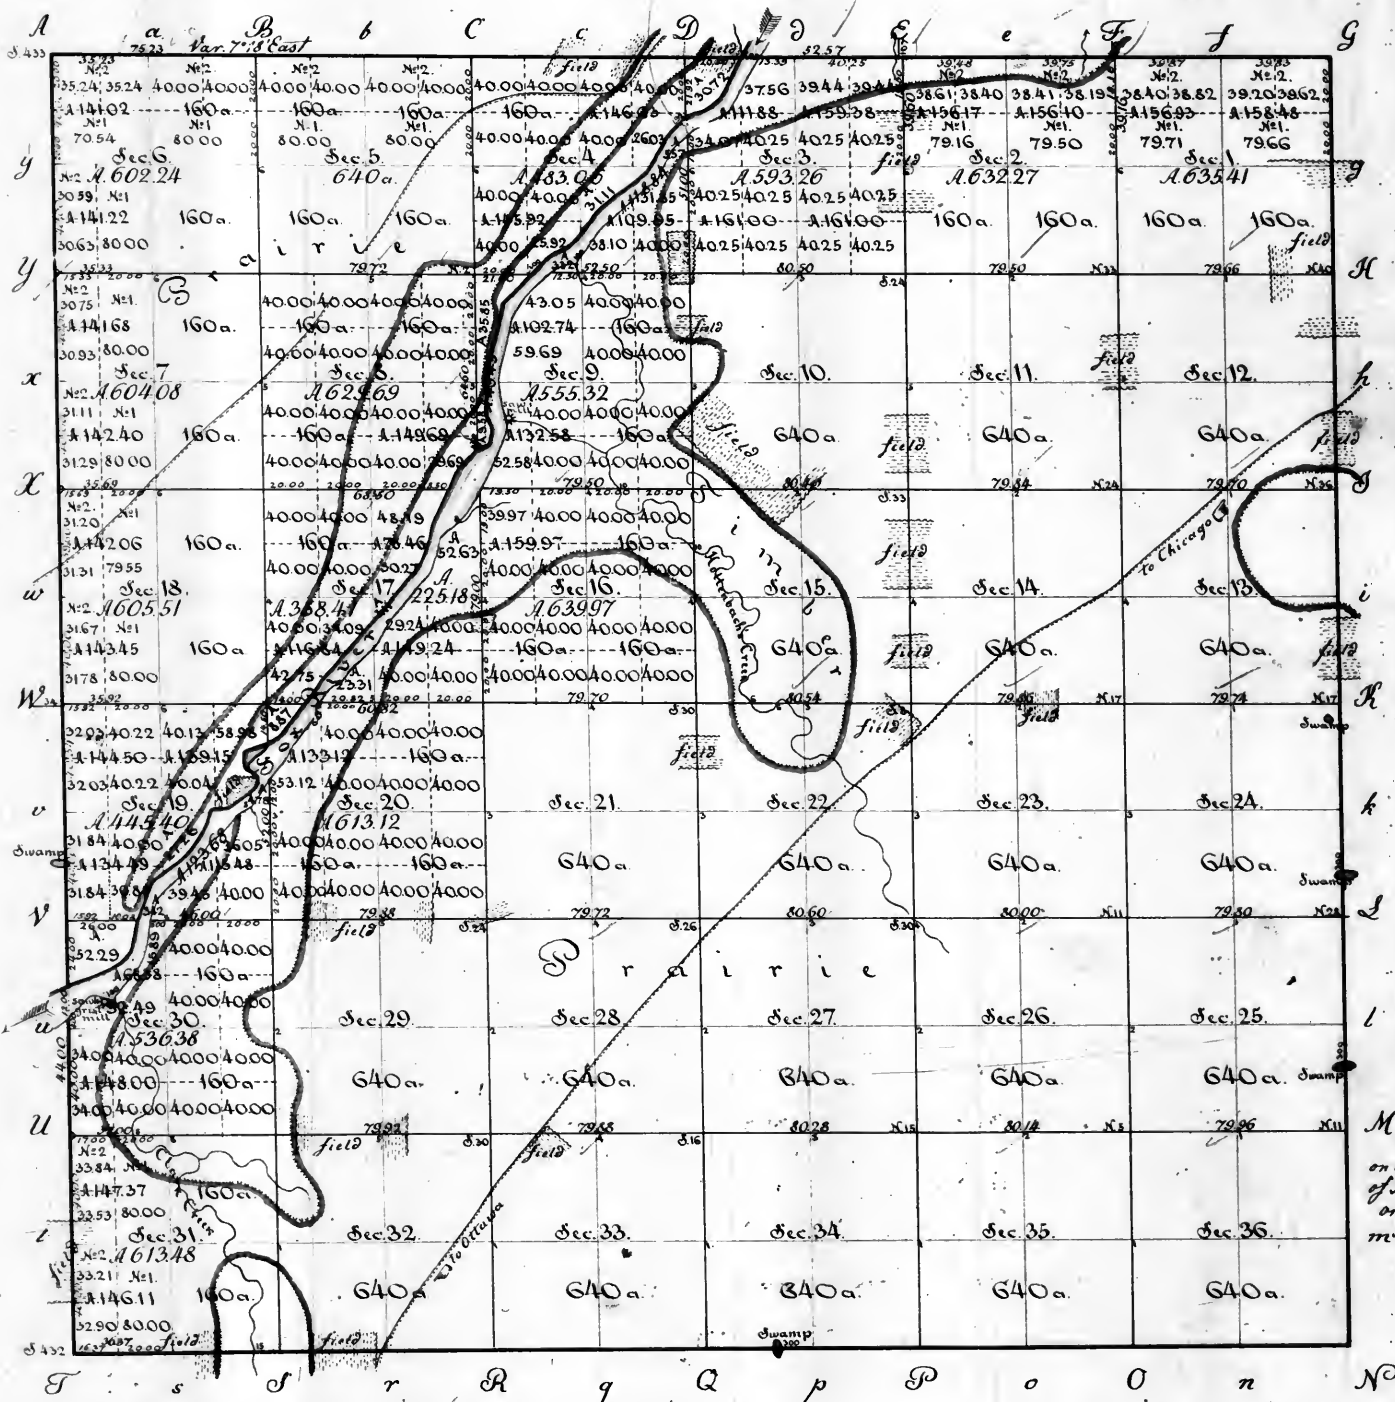

Surveyors Office.
Saint Louis 23rd of May 1839.

The above plat of fractional township 35 north of the base line range 6 east of the 3^d principal meridian, north of the old indian boundary is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The Southern boundary which is designated 'old Indian boundary' was a resurvey in September 1821 - in order to close the surveys to the South thereof, under the contract of Stephen Rector and Thomas C. Rector of the 20th of March 1821, and was intended as a resurvey of the indian boundary (which could not be properly identified) that had been surveyed in the 4th quarter of 1818, by John C. Sullivan assisted by James W. Duncan from a point on Sandy creek 10 miles above its mouth 3.82 1/2 miles and 66 chains to a point on Fox river 10 miles above its mouth, under a letter of appointment dated October 18th 1818, for running the lines of the treaty of Saint Louis of the 24th of August 1804, between the United States and the United Nations of Illinois, Chippewas, and Pottawatimies - That part of said line as surveyed in 1821, which constitutes a boundary of this fractional township 6 miles 2.60 chains was resurveyed and the west boundary 4 miles 7.36 chains - the east boundary 3 miles 1.50 chains - the north boundary 5 miles 76.37 chains were surveyed in the 4th quarter of 1837, and the subdivision lines 36 miles 1.67 chains were surveyed in the 2^d quarter of 1838, and with the exception of the line between sections 19 and 30 of the subdivision, all the lines of the fractional township were paid for in the fourth quarter of 1838, and charged in the account of the Surveyor General for that quarter voucher 965. - In the 3^d quarter of 1839, the survey of the line between sections 19 and 30 was corrected by Mr. Prescott - the field notes have been examined and approved, but not yet paid for - The last resurvey of the indian boundary and the survey of all the other lines of the fractional township, were by E. S. Prescott, under contract signed by the Surveyor General on the 8th day of May and by Mr. Prescott on the 3rd day of June 1837.

VOL. 28

Vol 24

Township 26 North of the base line Range 7 East of the 3rd principal Meridian.

Surveyor General's Office.
Saint Louis 21 August 1833.

The above plat of Township 26 north of the base line, range 7 east of the 3rd principal meridian, except Sections 6, 7, 13, 19, 30 & 31, which are omitted, because they are not connected with the east boundary of T. 26 N. R. 6 E. by E. Moore, is strictly conformable to the field notes of the Survey of said Township on file in this office which have been examined and approved - The South boundary was surveyed in the 1st quarter of 1822 - by C. Sten, under contract of the 5th of March 1822 - The north and the east boundaries - and the subdivision lines were surveyed in the 4th quarter of 1830 - as by J. M. Messinger and J. J. Messinger, under their joint contract of the 2nd of September 1830.

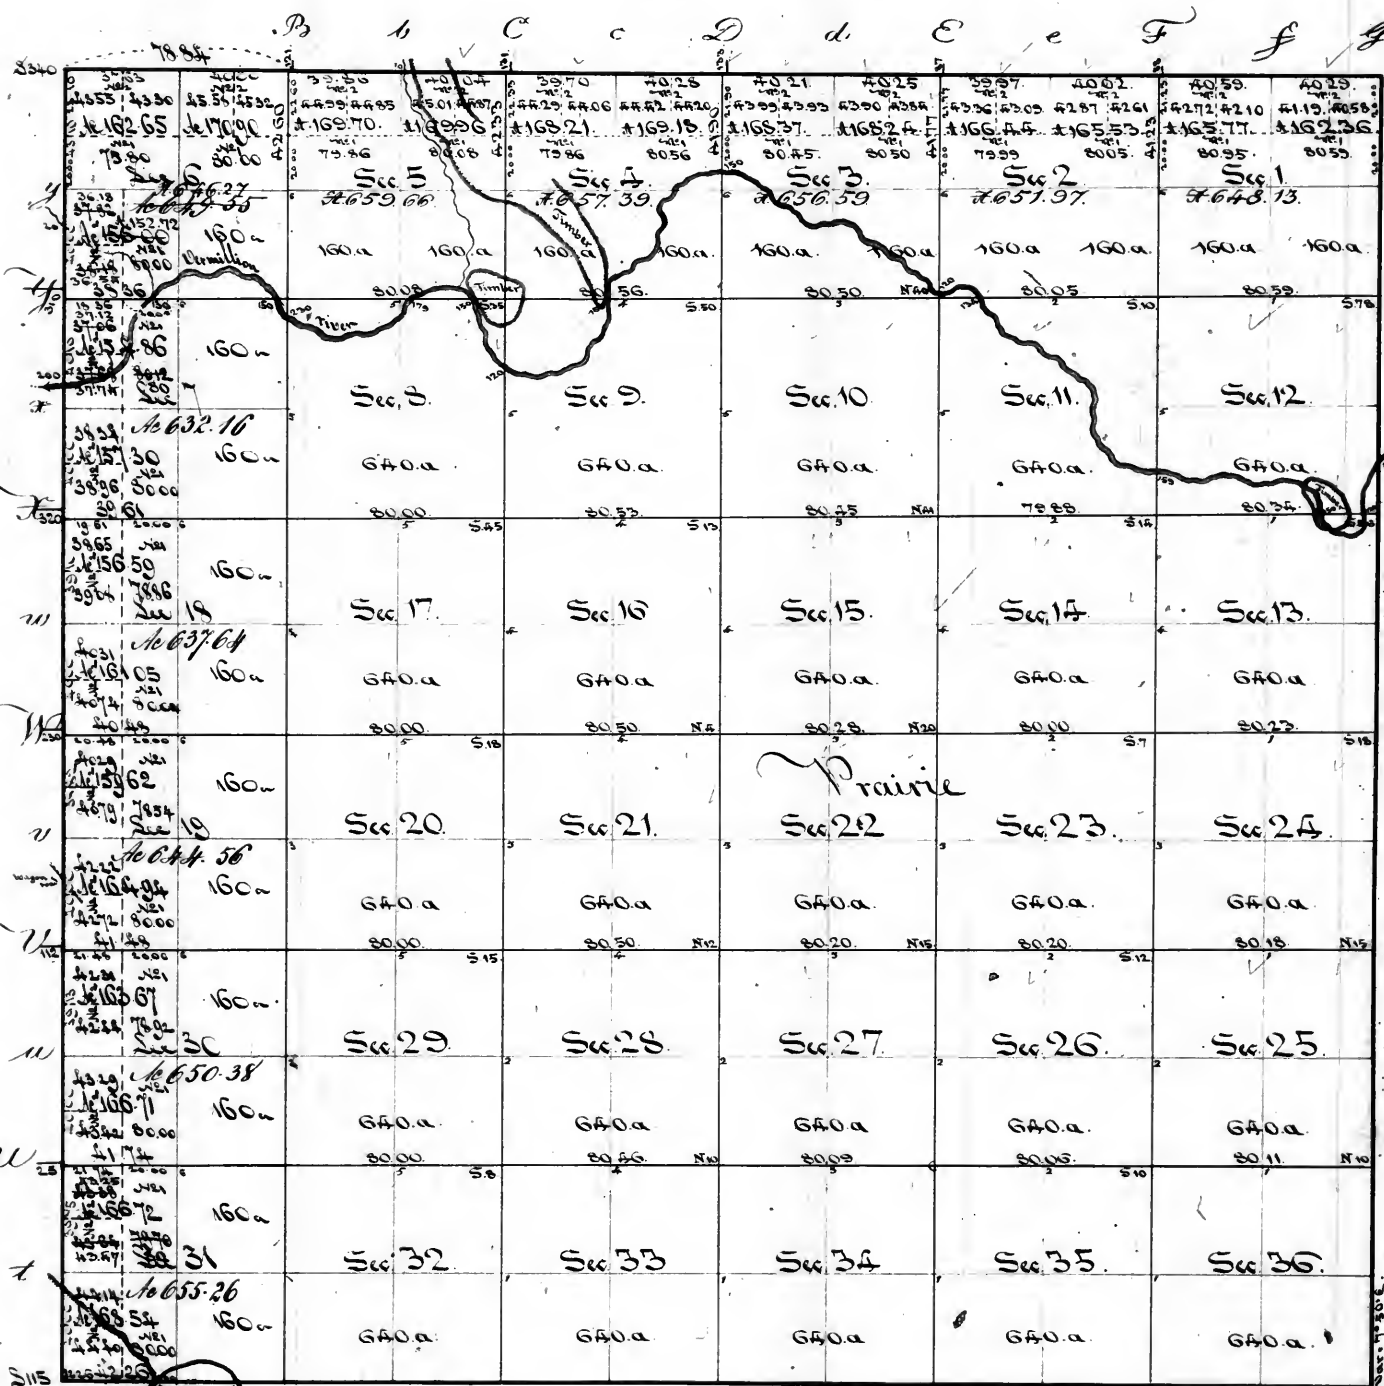

William Hillman
Surveyor General

Office of the Surveyor General for Illinois and Missouri, Paris 12 June 1850.

Sections 6, 7, 13, 19, 30 & 31 of this township which were excepted in the certificate of the approval of the Survey thereof, are retained from suspension and their areas calculated in consequence of Erskine Moore, having in August 1830, corrected their lines with his recovered East boundary of T. 26 N. R. 6 E. - and the 200, - that had been withheld from him on the 15 June 1830, to ensure the speedy execution of this work were paid to him on the 3rd September 1840, as per voucher N. 16 of account current for the 3rd quarter of that year under the general surveying fund. An authentic copy of the plat of the above sections is this day sent to the Commissioner of the General Land Office and a duplicate to the Register at St. Louis.

M. Lewis Clark
Surveyor General

Township 27 North of the base line Range 7 East of the 3rd principal Meridian

Surveyor General's Office.
Saint Louis 21 August 1833.

The above plat of township 27 north of the base line, range 7 east of the 3rd principal meridian, except sections 6, 7, 18, 19, 30 & 31, which are omitted because they are not connected with the surveyed east boundary of T. 27 N. R. 6 E, by S. Moore, is strictly conformable to the field notes of said township on file in this Office, which have been examined and approved. The north, the east and the south boundaries, and the subdivision lines were all surveyed in the 4th quarter of 1823 - by J. M. Messinger and D. J. Messinger, under their joint contract of the 2nd of September 1823.

Office of the Surveyor General for Illinois and Missouri.
Saint Louis 21 June 1830.

Sections 6, 7, 18, 19, 30 & 31, of this township which were excepted in the above certificate of the approval of the Survey thereof, are released from suspension and their areas calculated, in consequence of Creek Moore, surveyor in August 1830, connecting their lines with his surveyed east boundary of T. 27 N. R. 6 E. And the \$200, then had been withheld from him on the 15 June 1828, to induce the speedy execution of his work, were paid to him on the 9 September 1830, as per voucher NKS of account current for the 2nd of that year, under the general Surveying fund. An authenticated copy of the plat of the above sections is this day sent to the Commissioner of the general land office, and is deposited in the Register at St. Louis.

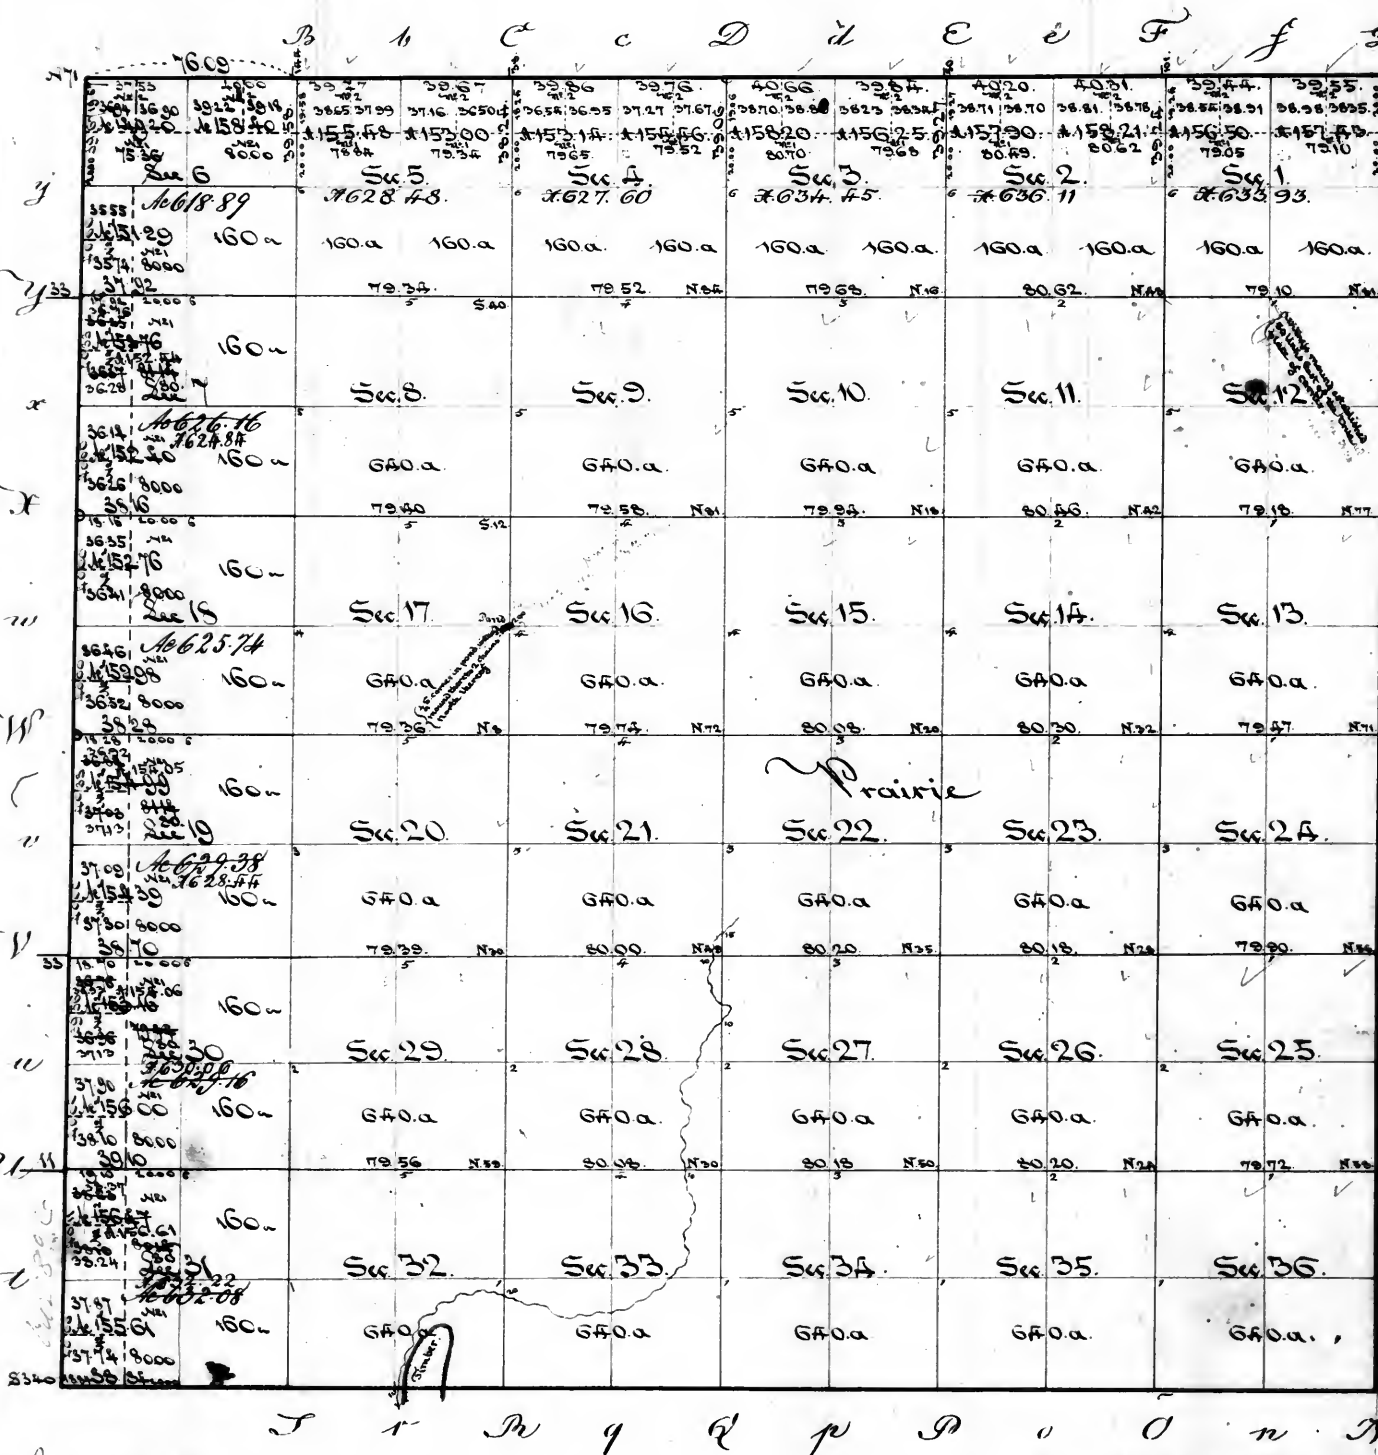

Area = 19273.74 acres exclusive of Secs 6, 7, 18, 19, 30 & 31.
Aggregate Area 23743.29 acres

William Miller

Surveyors Office.
Saint Louis 21st May 1839.

The above plat of fractional township 35 north of the base line, range 7 east of the 3^d principal meridian, and north of the old indian boundary, is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The southern boundary which is designated "old indian boundary" was a recovery in September 1831, in order to close the surveys to the South thereto under the contract of Stephen Rector and Thomas C. Rector of the 20th of March 1831, and was intended as a recovery of the indian boundary (which could not be properly identified) that had been surveyed in the 4th quarter of 1818 by John C. Sullivan, assisted by James Mc. Duncan from a point on Sandy creek 10 miles above its mouth S. 82¹/₂° W. 2.2 miles and 66 chains to a point on Fox river, 10 miles above its mouth, under a letter of appointment dated October 18th 1818, for running the lines of the treaty at Saint Louis of the 24th of August 1816, between the United States and the United Nations of Ottawas, Chippewas and Pottawatomias. That part of said line, which forms a boundary to this fractional township 6 miles 53.31 chains, was surveyed: - the west boundary of the fractional township 2 miles 1.50 chains - the east boundary, 2 miles 10.53 chains and the north boundary 6 miles 5.95 chains, were surveyed in the 4th quarter of 1837 - and the subdivision lines 25 miles 9.62 chains, were surveyed in the 2^d quarter of 1838 - all by Eli. S. Prescott, under contract signed by the Surveyor General on the 3rd day of May, and by Prescott on the 3rd day of June 1837 - They were paid for in the 4th quarter of 1838 - and charged in the account of the Surveyor General for that quarter. Voucher No. 5.

William Milburn
Surveyor General

Township No 36 North of the Base line in Range No 7 East of the 3^d principal Meridian.

12

Surveyors Office.
Saint Louis 25th May 1839.

Scale of 40 chains to one inch.
Aggregate Area 23371.91 acres.

The above plat of township 36 north of the base line, range 7 east of the 3^d principal meridian is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved - The west and east boundaries, 6 miles each, - The south boundary 6 miles 5.95 chains - and the north boundary 6 miles 8.02 chains, were surveyed in the 4th quarter of 1837 - and the subdivision lines 60 miles 4.05 chains, were surveyed in the second quarter of 1838 - all by Ch. S. Prescott, under contract signed by the Surveyor General on the 8th May, and by the said Prescott on the 3rd of June 1837 - they were paid for in the 4th quarter of 1838, and charged in the account of the Surveyor General for that quarter - Voucher No 5.

T₃₇ N R 7 E of the 3^d p^t M.

Scale of 40 chains to an inch

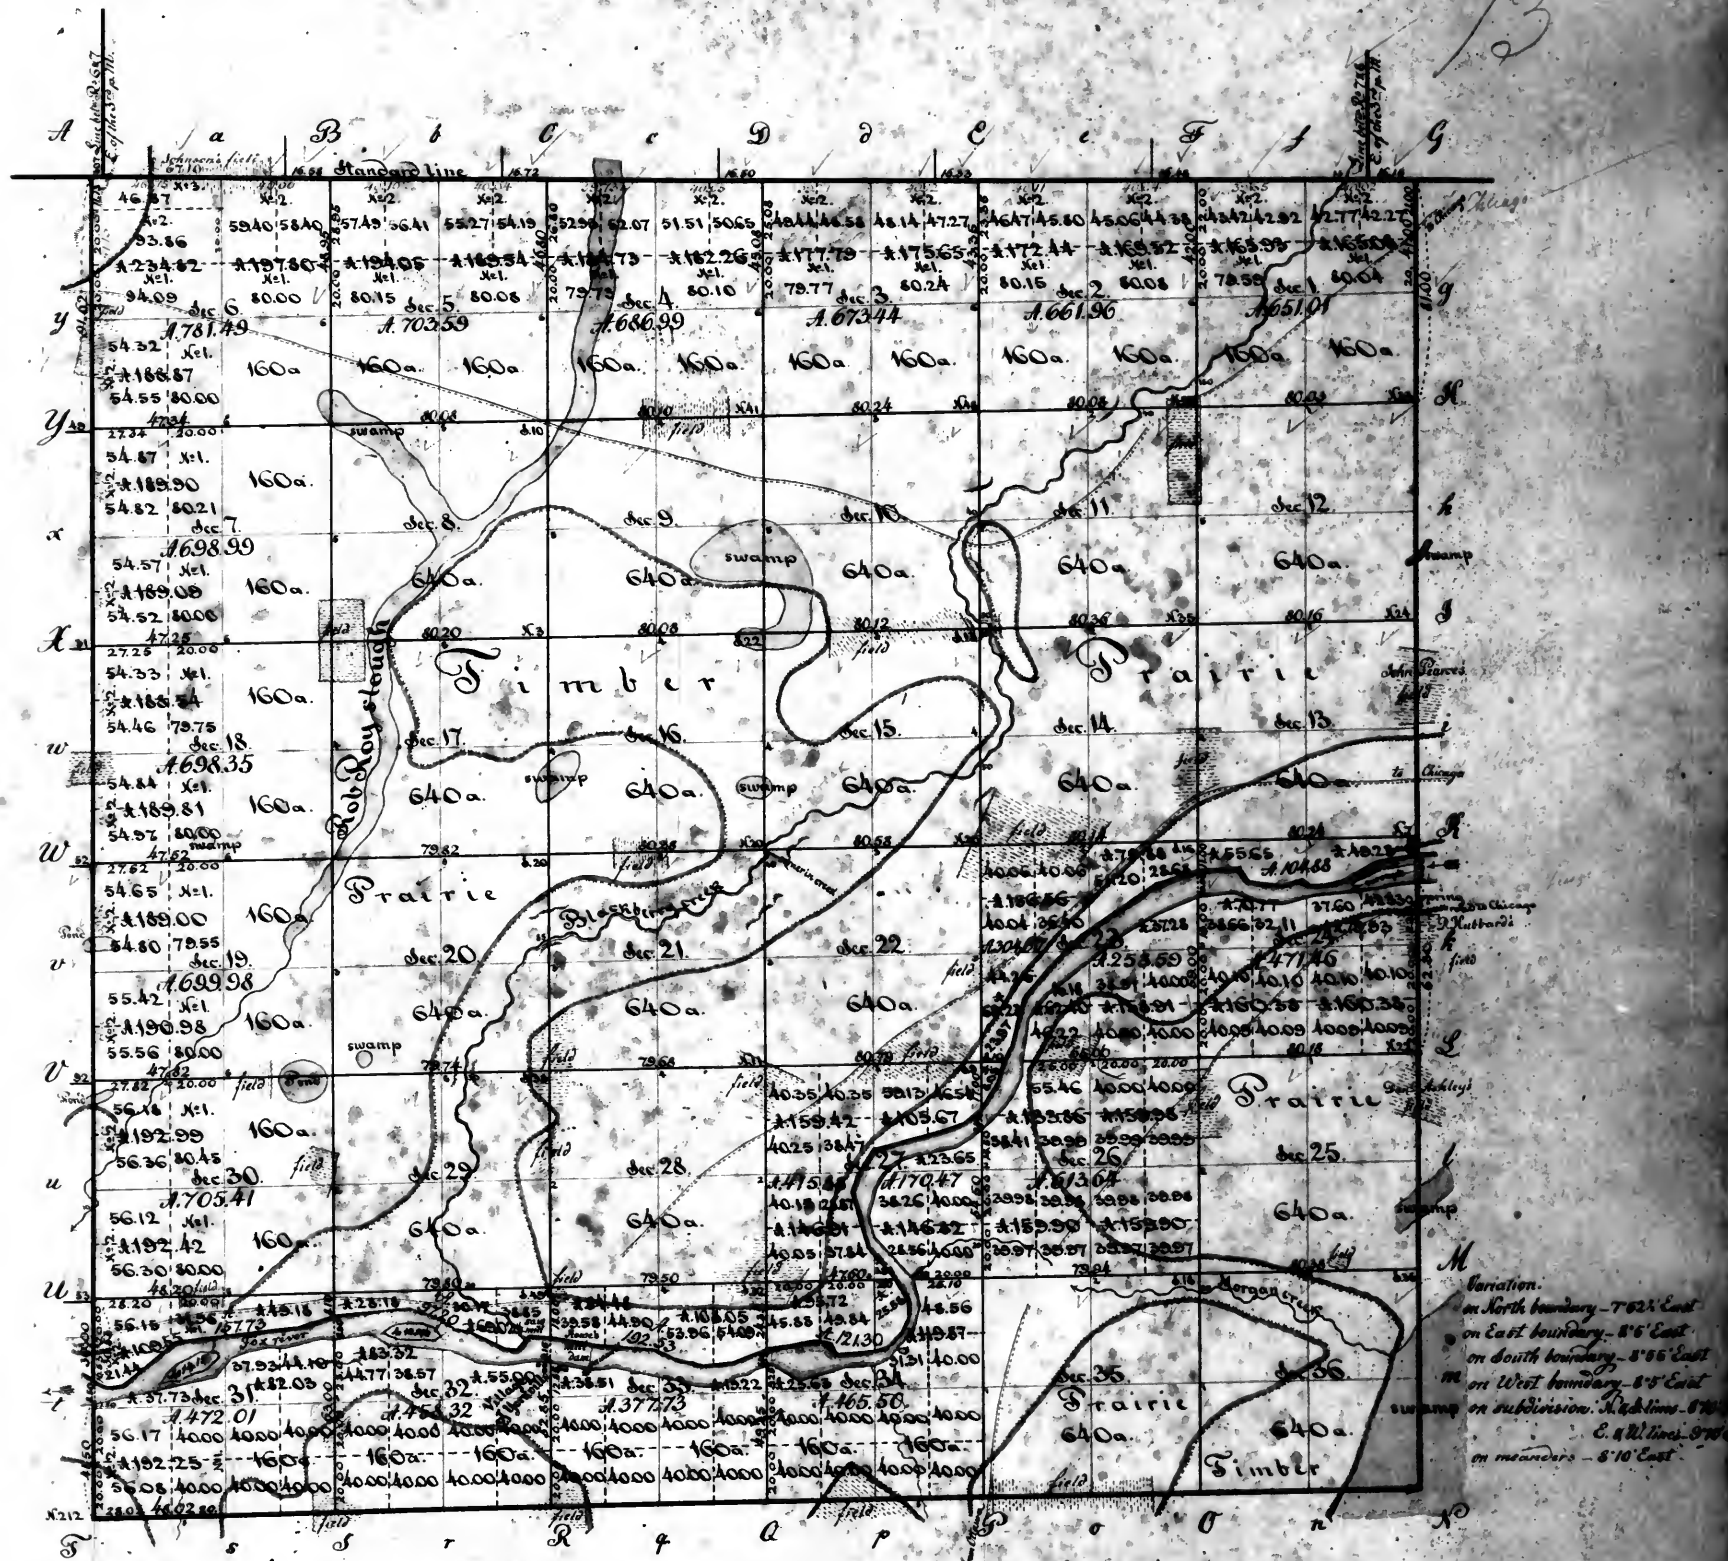

Office of the Surveyor General for Missouri & Arkansas.
St. Louis, February 14, 1857.

The above plot of two tracts, one in Section 31, and the other in Section 32 of Township 37 north of the base line and range 7 east of the 3rd principal meridian, is strictly conformable to the field notes of the survey. They were surveyed on December 1856, by J. N. Clarke, under instructions of 14th October of same year. The surveying account is under \$2.23 cents, which at 50 cts per mile makes \$1.12. An account for a survey by me, completed by Clarke, and transmitted to the Commissioner of the General Land Office, for a direct bill (account with the Registry, out of the appropriation for the Commission of Ordnance and Defective Lines in Illinois to Missouri), at a rate not exceeding 50 cts per mile — in conformity with instructions of 11 March 1856.

Mo Loughborough
Surgeon General

A copy of this plot was sent to the
Concord Register on 14 Feb'y 1857

Township N^o 37 North of the Base line in Range N^o 7 East of the 3^d principal Meridian.

Scale of 40 chains to one inch.
 Aggregate area of public lands 23141.21 acres
 estimated area of Fox river 530.80 acres
 Aggregate area of Township 23672.01 acres

Surveyors Office, Saint Louis 25th of August 1842.

The above plat of Township 37 north of the base line range East of the 3^d principal meridian is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The south boundary 6 miles 8.02 chains - the east boundary 6 miles and 1 chain - the north boundary 6 miles 6.03 chains - and the west boundary 6 miles 11.62 chains, were all surveyed in the 4th quarter of 1837, by Eli S. Prescott, under contract signed by the Surveyor General on the 8th of May, and by W^m Stewart, on the 3rd of June 1837 - They were paid for in the 4th quarter of 1837, and charged in the account current of the Surveyor General during the said quarter, Voucher N^o 5 - The subdivision lines 60 miles 52.63 chains, and the meanders of both banks of Fox river, 16 miles 2.12 chains, were surveyed in the 3^d quarter of 1837, and 4th quarter of 1841 - by James H. Rice, for Eli S. Prescott, without authority from, or a contract with, the Surveyor General; but the field notes thereof have been received for examination upon their own merits, in virtue of the directions contained in the letter of the Commissioner of the general land office to Surveyor General Milburn, dated 3rd June 1840, and W^m Rice's notes having been examined, and some corrections made in the field; - and the Commissioner of the general land office in his letter to Surveyor General Rice, dated 6th May 1842, having authorized him to pay therefor, the said subdivision lines and meanders, were accordingly paid out of the General appropriation for surveying the public land; and charged in the account current of the Surveyor General during this 3^d quarter of 1842, Voucher N^o 1 - for the letter of the Commissioner of the public land office of the 25th of July 1842, authorizing the said payment, for the reasons herein assigned, and which do not bear upon W^m Rice's survey.

Silas Reed
 Surveyor of the public lands in
 the State of Missouri & Arkansas.

Township No 38 North of the Base line in Range No 7 East of the 3^d principal Meridian.

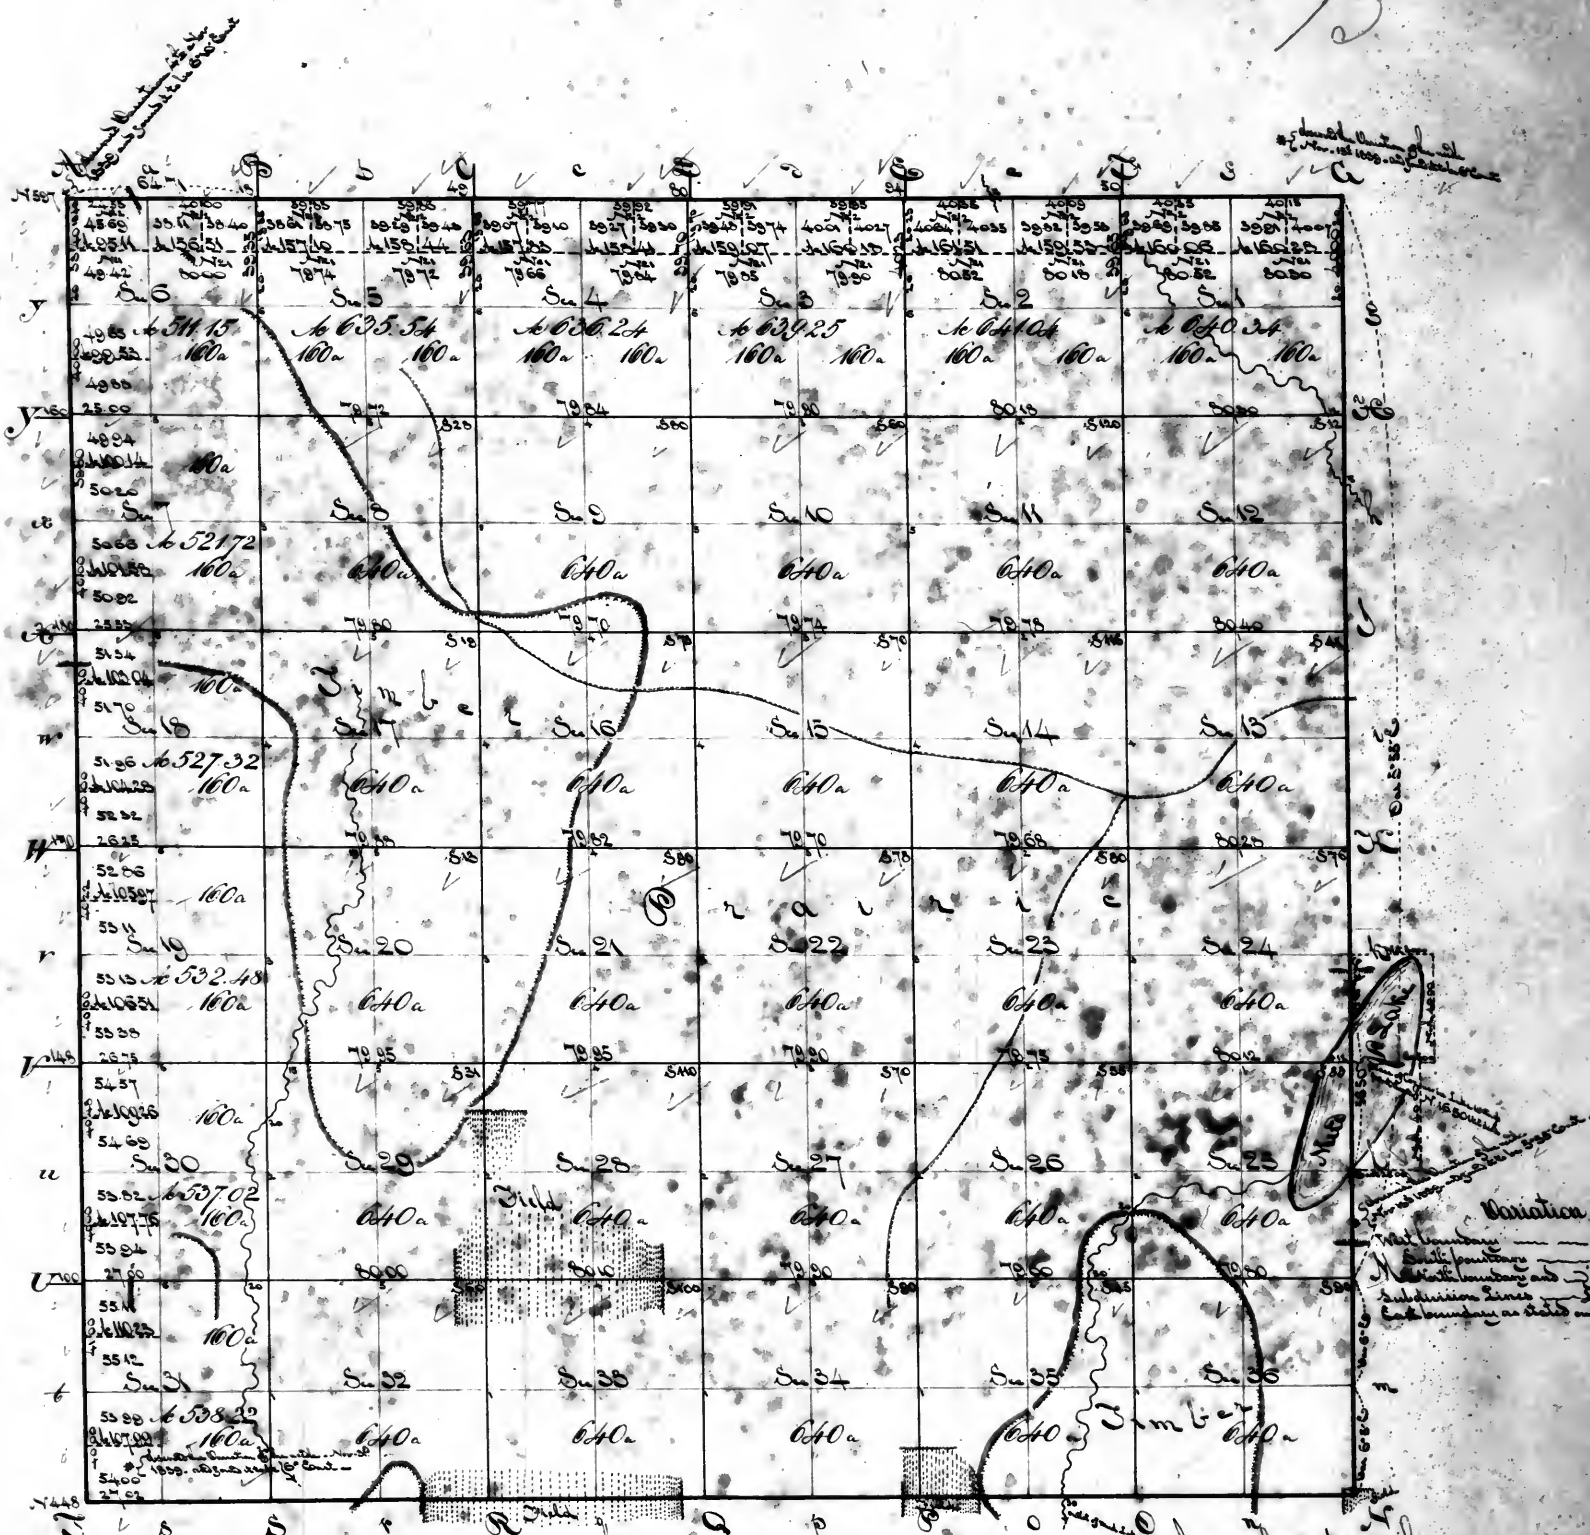

Surveyor's Office.

Saint Louis 29th of September 1840.

The above plat of township 38 north of the base line in range 7 east of the 3^d principal meridian, is strictly conformable to the field notes of the surveys thereof on file in this office, which have been examined and approved. The South boundary 5 miles 67.10 chains was surveyed by Eli S. Prescott, in the 4th quarter of 1837, under contract signed by the Surveyor General on the 8th of May, and by W^m Prescott on the 3rd of June 1837; it was paid for in the 4th quarter of 1838, and charged in the account of the Surveyor General for that quarter. Voucher No 5— The East boundary 6 miles— The West boundary 6 miles— The north boundary 5 miles and 67.02 chains— and the subdivisional lines 50 miles 14.12 chains, were all surveyed in the 4th quarter of 1839, by James Thompson and John P. Thompson, under their joint contract of the 21st of September 1839— The surveys by William Thompson were paid for in this 3^d quarter of 1840, and they will be charged in the account current of the Surveyor General, during the said quarter, under the general appropriation for surveying the public land— Voucher No 17.

William Milburn
Surveyor of the public lands in
the States of Illinois and Missouri.

Fractional Township 26 North of the Base line in Range 28 East of the 3^d principal Meridian.

35

Surveyors Office. Saint Louis 25th of May 1855.

The above plan of fractional township 26 north of the base line, range 28 east of the 3^d principal meridian, with west of the old Indian boundary, is, strictly conformable to the field notes of the survey thereof, in the Office, which have been examined and approved. The South eastern boundary of this fractional township which is designated old Indian boundary, was surveyed in the 4th quarter of 1821, in order to close the surveys to the South East House, under the contract of Stephen and Thomas C. Becker of the 20th of March 1821; it was commenced at the N.W. corner of the Indian boundary, run by John C. Sullivan assisted by James M. Sullivan, in the 4th quarter of 1821, from a point 10 miles North of the prairie South west to a point 10 miles above the mouth of the prairie, and on a line of approximately 18th of October 1818, for the survey of the boundary line of the treaty of San Luis of the 20th of August 1816, between the United States and the tribes of Ottawas, Chippewas and Pottawamies, and was included as a survey in part of said survey of 1818, but changed thence to the point west - the point of said Indian boundary which forms a boundary to this fractional township, 2 miles 53.6 chains was surveyed and the South boundary 2 miles 67.25 chains - the west boundary 6 miles and the east boundary 2 miles 74.75 chains, were surveyed in the 4th quarter of 1827, and the subdivision line 54 miles 17.27 chains were surveyed, and the line was connected with the survey of the Indian grant to Waish-see Shaw 54.38 chains - in the 2^d quarter of 1828, all by Eli S. Beckett under contract signed by the Surveyor General on the 8th of May, and by the said Beckett on the 2^d of June 1828, and with the exception of the lines between sections 1 and 2 - 2 and 3 - 3 and 4 - 4 and 5, amounting to 1 mile 67.25 chains, were paid for in the 4th quarter of 1828; and charges in the account of the Surveyor General for this quarter under No. 5 - The four lines above stated were excepted from the account, because Mr. Beckett has lost the field notes of the survey of the north boundary of the township - In the 1st quarter of 1830 he completed the said north boundary - and his field notes thereof have been examined and approved, but the survey has not yet been paid for - The grant of 540 acres to Waish-see Shaw was surveyed in the 4th quarter of 1826, by Edward D. Telford, under instructions of the 22^d of January of that year.

Surveyors Office
Saint Louis 11th of February 1842

The surveying of the grant of 540 acres to Waish-see Shaw was paid in the 4th quarter of 1830 and charged in the annual account of the Surveyor General during that quarter under No. 9.

William Milburn
Surveyor General

MEMORANDUM

THIS PLAT REPRESENTS THE SURVEY OF TWO ISLANDS IN THE FOX RIVER WHICH WERE NOT INCLUDED IN THE ORIGINAL SURVEY OF THE TOWNSHIP AS SHOWN ON THE OFFICIAL PLAT APPROVED AUGUST 25, 1912, ALTHOUGH INDICATED IN OUTLINE ON SAID PLAT.

THE SURVEY WAS EXECUTED PURSUANT TO AUTHORITY CONTAINED IN GENERAL LAND OFFICE LETTER 810598 DATED SEPTEMBER 16, 1932, WHICH BEARS DEPARTMENTAL APPROVAL UNDER DATE OF SEPTEMBER 20, 1932.

THE ISLANDS DESIGNATED AS A, B, C, D, E, F, AND G, ARE SHOWN ON THE PLAT AS ITEMS OF TOPOGRAPHY ONLY, FOR THE PURPOSE OF PORTRAYING EXISTING CONDITIONS IN THE VICINITY OF THE SURVEYED ISLANDS. THESE ISLANDS HAVE NOT BEEN SURVEYED, AS THERE IS NO SUPPORTING EVIDENCE ON THE GROUND, OR KNOWN RECORD EVIDENCE, TO ESTABLISH THE FACT THAT THEY ARE PUBLIC LANDS OF THE UNITED STATES.

W. H. Stowell
ASSISTANT COMMISSIONER.

Township 40 North of the Base line in Range 28 East of the 3rd

Surveyors Office.

Saint Louis. 28 September 1840.

The above plat of township 40 north of the base line, range 28 east of the 3rd principal meridian, is hereby confirmed to be the true and correct plat of the same as it appears on file in this office, which have been examined and approved. The South boundary 5 miles 64.22 chains - the north boundary 5 miles 64.22 chains - the subdivisions lines 51.70 chains - the measures of both halves of the river, 16 miles 9.33 chains, were all surveyed, in the 1st quarter of 1840, by James J. Thompson, under the joint contract of the 2d of September 1839. They were paid for in full in the month of 1840, in the account current, of the Surveyor General, being the said quarter under the general appropriation for surveying the public lands.

Wm. H. Thompson

Surveyor of the public lands in
the State of Illinois and Missouri.

The above plot of township, 24 south of the base line, range 6 east of the 5th principal meridian, which have been examined and approved by the United States Surveyor General, is the actual extent of the Oregon Purchase of 1806-7, as surveyed in the 1st quarter of the 2^d section of the 21st Twp. S. 19 N. R. 6 E. The whole land was surveyed in the 1st quarter of 1830, by Lewis Thompson, Quarter Master U.S.A. The subdivision was made in the summer of both years of Sec. 36. Sections were surveyed in the 1st quarter of 1830, by Lewis Thompson, Quarter Master U.S.A. They will form the 1st quarter of 1842, and complete the actual extent of the 3^d

Township 45 North of the base line Range 8 East of the 3^d principal Meridian

44

When the account of Mr. Gallows in which the Survey of the St. Louis Survey of this township is charged amounts to \$1062.95 of which \$562.50 was paid on the 23^d of November 1830 - the rest (\$500.45) having been paid on the 3^d of February of same year by David Bunker, late Surveyor General.

Surveyor General's office.

St. Louis 17th of December 1859.

The above plat of township 46 north of the base line, range 8 east of the 3rd principal meridian, is strictly confirmable to the field notes of the survey thereof on file in this office, which have been examined and approved. The north boundary was surveyed in 1853 and 1855 by Lucius Lyon, Commissioner on the part of the United States, as certified to this office by W. J. Williams, Surveyor General of Ohio, Indiana & Michigan; the said line being a part of the boundary between Illinois and Michigan, now Wisconsin - In the 3rd quarter of 1857, J. Galloway (under the contract below designated) resurveyed in part said boundary as represented on this plat. The west boundary 5 miles 45.58 chains, was surveyed in the 3rd quarter of 1857, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by said Thompson on the 15th of December 1856; it was paid for in the 1st quarter of 1859, and charged in the account of the Surveyor General for that quarter, Voucher N^o 6. The south boundary 6 miles 1.49 chains - the east boundary 5 miles 38.50 chains - and the lines of subdivision 57 miles 55.88 chains, were all surveyed in the 3rd quarter of 1857, by James Galloway, under a contract signed by the Surveyor General on the 21st of November, and by said Galloway on the 15th of December 1856. The surveys by Galloway, were, to the extent noted in the margin, paid for in the present quarter, being the 4th quarter of 1859, and will be charged in the account of the Surveyor General for said 4th quarter of 1859, under the general appropriation for surveying the public lands - Voucher N^o 4.

Fractional Township 32 North of the base line, Range 9 East of the 3^d Principal Meridian

Variation
On north boundary, — on line between sections
1 and 2 (10) on meander along section 2 not
shown in the field notes.
on all the other line 7' East.

Surveyor General's Office.
Saint Louis 16 August 1850.

The above plat of fractional township 32 north of the base line, range 9 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The north boundary was surveyed by John Wells in the 2^d quarter of 1821, under the contract of Stephen and Thomas C. Rector of the 20th of March 1821 — the east boundary North of the township line 14.2, and the meander along section 2, one of the Indian boundary line surveyed by Daniel Miller in the 2^d quarter of 1821, under the aforesaid contract of Stephen and T. C. Rector. The meander and the balance of said east boundary, the subdivision lines and meanders, were surveyed in the 1st quarter of 1834 by Capt. W. Beckwith, under contract of the 20th of October 1833.

William M. McKim
Surveyor General

Surveyor's Office.
St. Louis 15th August 1846.

The above plat of these islands in the Kaskaskia river, to wit: of Big island in section 743, of Grape island in section 744, and of Malberry island, in section 647, in township 33 north of the base line range 9 East of the 3^d P^m meridian, is strictly conformable to the first sale of the survey made on file in this office, which have been examined and approved. The township was surveyed in July 1821, under the contract of Thomas C. Reister and Stephen Reister of St. Louis 1821 - but it having been represented to the Commissioner of the General Land Office, that there was an island unsurveyed in the section aforesaid, he, on the 20th March 1846, instructed the surveyor General to have it surveyed, and in consequence thereof, an order of survey, was on the 18th May 1846, given to A. S. Mathewson, to that effect - The same was done in June 1846, the three islands above designated. The surveying is detailed in the above statement. The islands 743, 744, 745, which are paid for on this day, and charged to the United States, in Voucher No. 1, of account current of the surveyor General during the 3^d quarter 1846, under the appropriation of \$1200, of the 3^d of March 1845, for the purchase of surveys & defective surveys in Illinois & Missouri, at a rate not exceeding 50¢ dollars a mile. See page 65, note of 2^d session of 28 Congress.

J. R. Cowan
Surveyor of the public land in
the State of Missouri & Wisconsin.

Pursuant to a Contract with and instructions from William Proctor Surveyor of the lands of the
the States of Missouri and Illinois and Territory of Arkansas bearing date the twentieth day of
1821 We have advanced and laid out and surveyed the above described Township and do hereby Certify
has such marks and bounds both natural and artificial as are ascertained on said plat
described in the field notes made thereof and returned unto this Plat into the office of the Surveyor
lands of the United States in the States of Missouri and Illinois and Territory of Arkansas

Fractional Township No. 36 North of the Base line in Range No. 9 East of the 3rd pr. Meridian.

56

The above plat of fractional township 36 north of the base line range 9 east of the 3rd principal meridian, north west of the old indian boundary, is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved - The South eastern boundary of this fractional township which is designated 'old indian boundary' was surveyed in the 4th quarter of 1821, in order to close the surveys to the South east thence, under the contract of Stephen and Thomas C. Pector, of the 20th of March of 1821; it was commenced at the 17th mile of the indian boundary run by John C. Sullivan, assisted by James Mc. Duncan, in the 4th quarter of 1818, from a point 10 miles North of the postage South west to a point 10 miles above the mouth of Sandy creek, under a letter of appointment dated 18th of October 1813, for the survey of the boundary lines of the treaty of Saint Louis of the 24th of August 1816 between the United States and the united tribes of Ottawas, Chippewas and Pottowattomies and was intended as a reserve in part of said survey of 1818, but diverged therefrom to the North west - That part of said indian boundary which forms a boundary to this fractional township 5 miles 23.73 chains was surveyed - and the west boundary 3 miles 71.73 chains - and the north boundary 3 miles 47.50 chains, were surveyed in the 4th quarter of 1827, and the subdivision lines 10 miles 70.68 chains, were surveyed in the 2nd quarter of 1838 - all by Eli. S. Prescott under contract signed by the Surveyor General on the 8th of May - and by the said Prescott on the 3rd of June 1837 - and with the exception of the subdivision line between sections 18 and 19 (which in the first survey was 70.34 chains) they were paid for in the 4th quarter of 1838, and charged in the account of the Surveyor General for that quarter - Voucher N^o 5 - The line between sections 18 and 19 was resurveyed in the 2nd quarter of 1839: the field notes have been examined and approved - but the Survey has not yet been paid for.

E. J. Conyhar

Fractional Township N^o 37 North of the Base line in Range N^o 9 East of the 3^d pr^l Meridian.

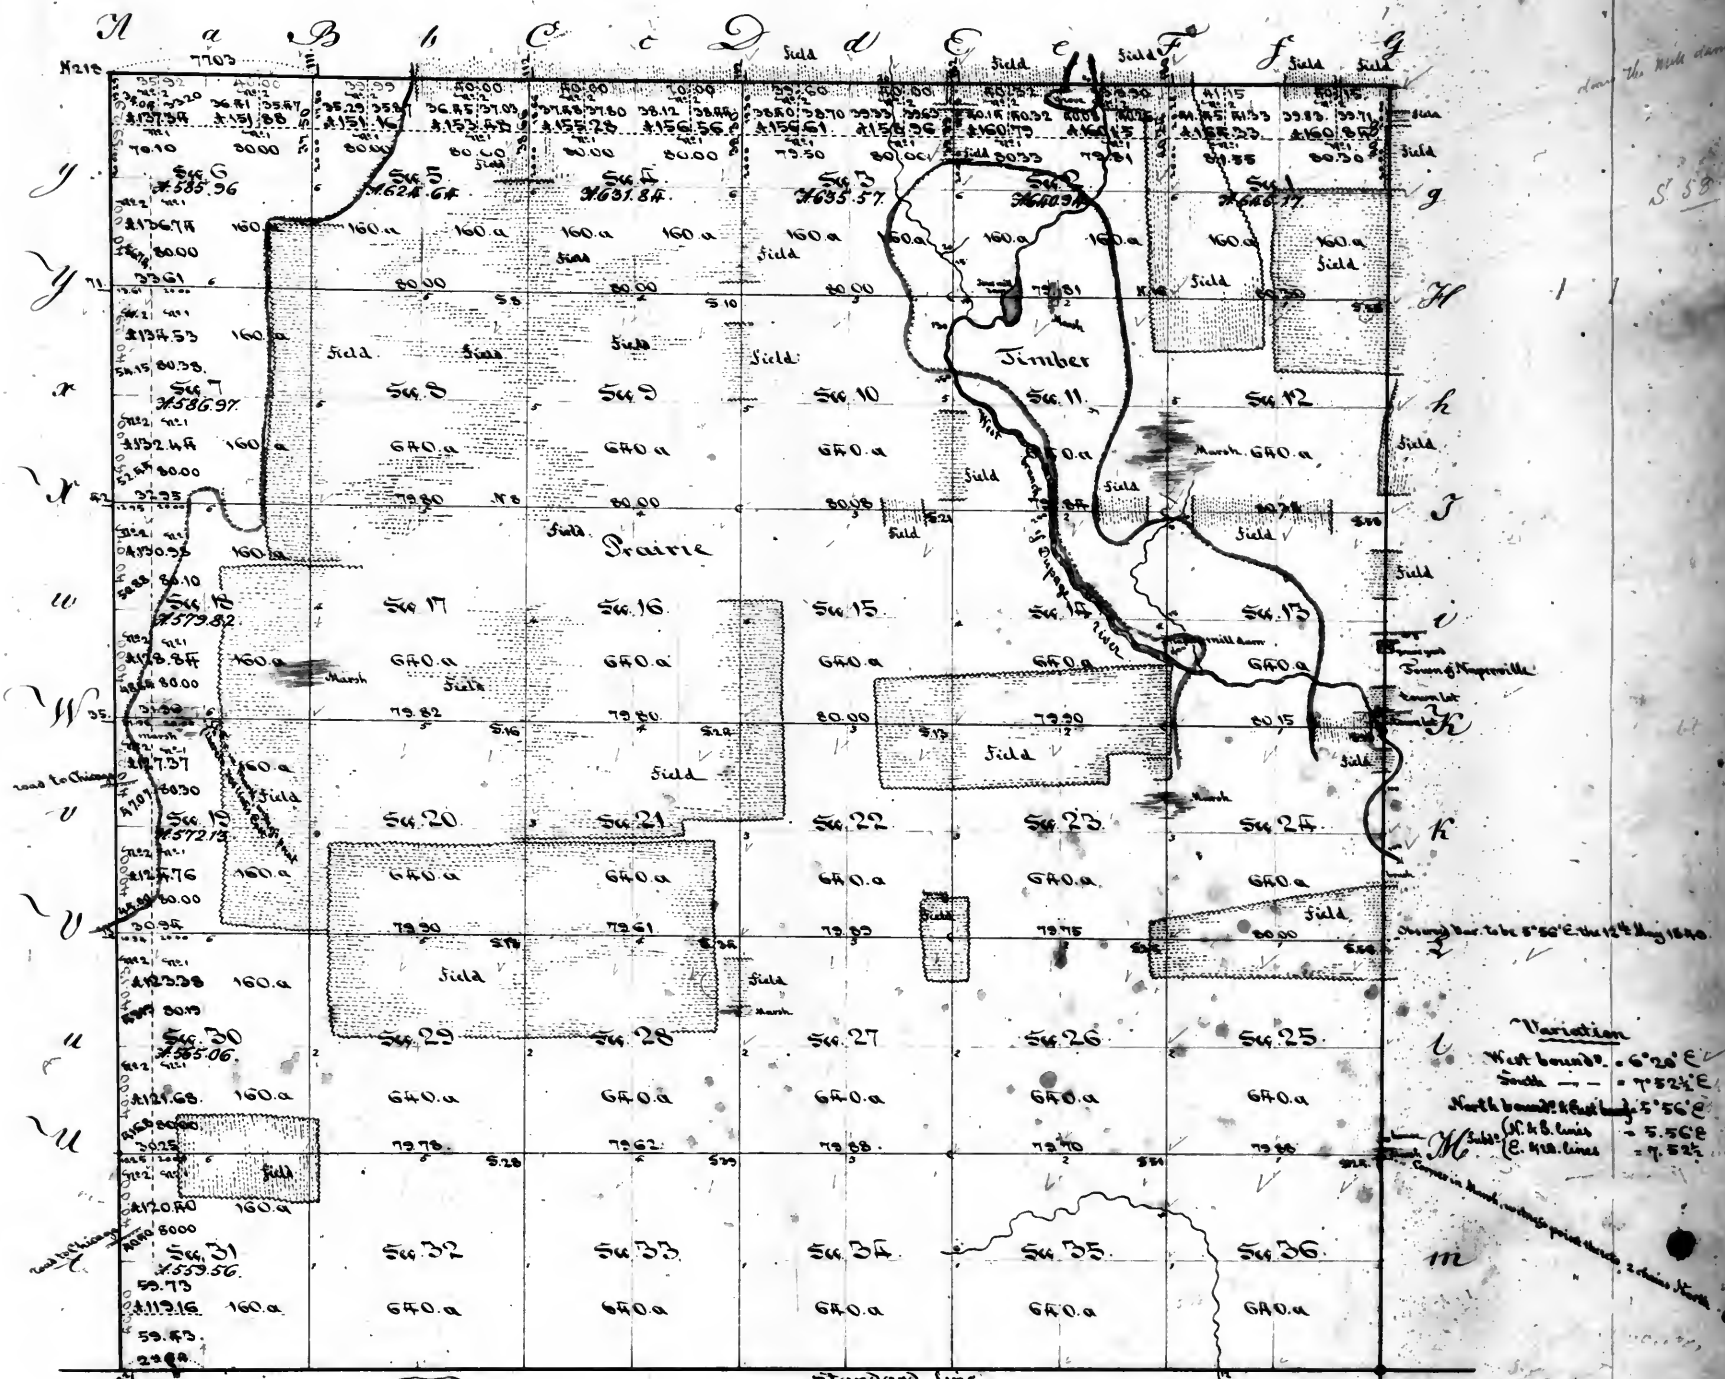

Surveyors Office, Saint Louis 21st of May 1839.

The above plat of fractional township N^o 37 north of the base line, range 9 east of the 3^d principal meridian, north west of the old indian boundary, is strictly conformable to the field notes of the surveying office in this office, which have been examined and approved. The South eastern boundary of this fractional township which is designated "old indian boundary" was surveyed in the 4th quarter of 1821, in order to close the survey to the South east thence, under the contract of Stephen and Thomas C. Foster, of the 20th of March 1821; it was commenced at the 17th mile of the indian boundary run by John C. Sullivan assisted by James M. Duncan, in the 4th quarter of 1818, from a point 10 miles North of the portage South west to a point 10 miles above the mouth of Sandy creek, under a letter of appointment dated 18th of October 1818, for the survey of the boundary lines of the treaty of Sand Lake of the 26th of August 1816, between the United States and the United Tribes of Ottawas, Chippewas and Ojibwas, and was intended as a return in part of said survey of 1818, but diverged thence to the North West - That part of said Indian boundary which forms a boundary to this fractional township 28.82 chains, was resurveyed, and the west boundary 6 miles 7.17 chains the South boundary 2 miles 47.80 chains - the east boundary 2 miles 48.20 chains - and the north boundary 5 miles 63.64 chains were surveyed in the 4th quarter of 1827 - and the subdivisions lines 56 miles 18.80 chains were surveyed in the 5th quarter of 1828 - all by Eli S. Prescott, under contract signed by the Surveyor General and by said Prescott on the 3^d of June 1827, and with the exception of the subdivisional lines between sections 6 and 7 - and said 6 amounting, according to the first survey to 1 mile 76.07 chains, they were paid for in the 4th quarter of 1828, and charged in the accounts of the Surveyor General for that quarter voucher N^o 5 - The survey of the line between sections 6 and 7 was corrected in the 1st quarter of 1829, and the field notes thereof, and of the line between sections 5 and 6 have been examined and approved; but the survey of the said line has not yet been paid for.

Surveyor General's Office.
Saint Louis 17th of December 1839.

The above plat of township 46 north of the base line range 9 east of the 3^d principal meridian is exactly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The North boundary was surveyed in 1832 & 1833, by Julius Lyon, Commissioner on the part of the United States, as certified to this office, by Mr. J. Williams, Surveyor General of Ohio, Indiana & Michigan: the said line being a part of the boundary between Illinois & Michigan, now Wisconsin. In the 3^d quarter of 1837, James Galloway, (under the contract before designated) remeasured in part said north boundary, as represented on this plat. The west boundary 5 miles 38.30 chains, was surveyed in the 3^d quarter of 1837. The south boundary (including the line crossing Pistakee lake 5 miles 4.71 chains) 5 miles 78.80 chains — the East boundary 5 miles 38.73 chains — the subdivision lines 38 miles 76.21 chains — and the meanders of both banks of Fox river, and of Pistakee lake, together 25 miles 29.56 chains, were surveyed in the 4th quarter of 1838, by James Galloway, under a contract signed by the Surveyor General on the 31st of November, and by said Galloway on the 15th of December 1836. The surveys by J. Galloway were, to the extent noted in the margin, paid for in the present quarter, being the 4th quarter of 1839, and will be charged in the account current of the Surveyor General for said 4th quarter of 1839, under the general appropriation for surveying the public land, Voucher No. 4.

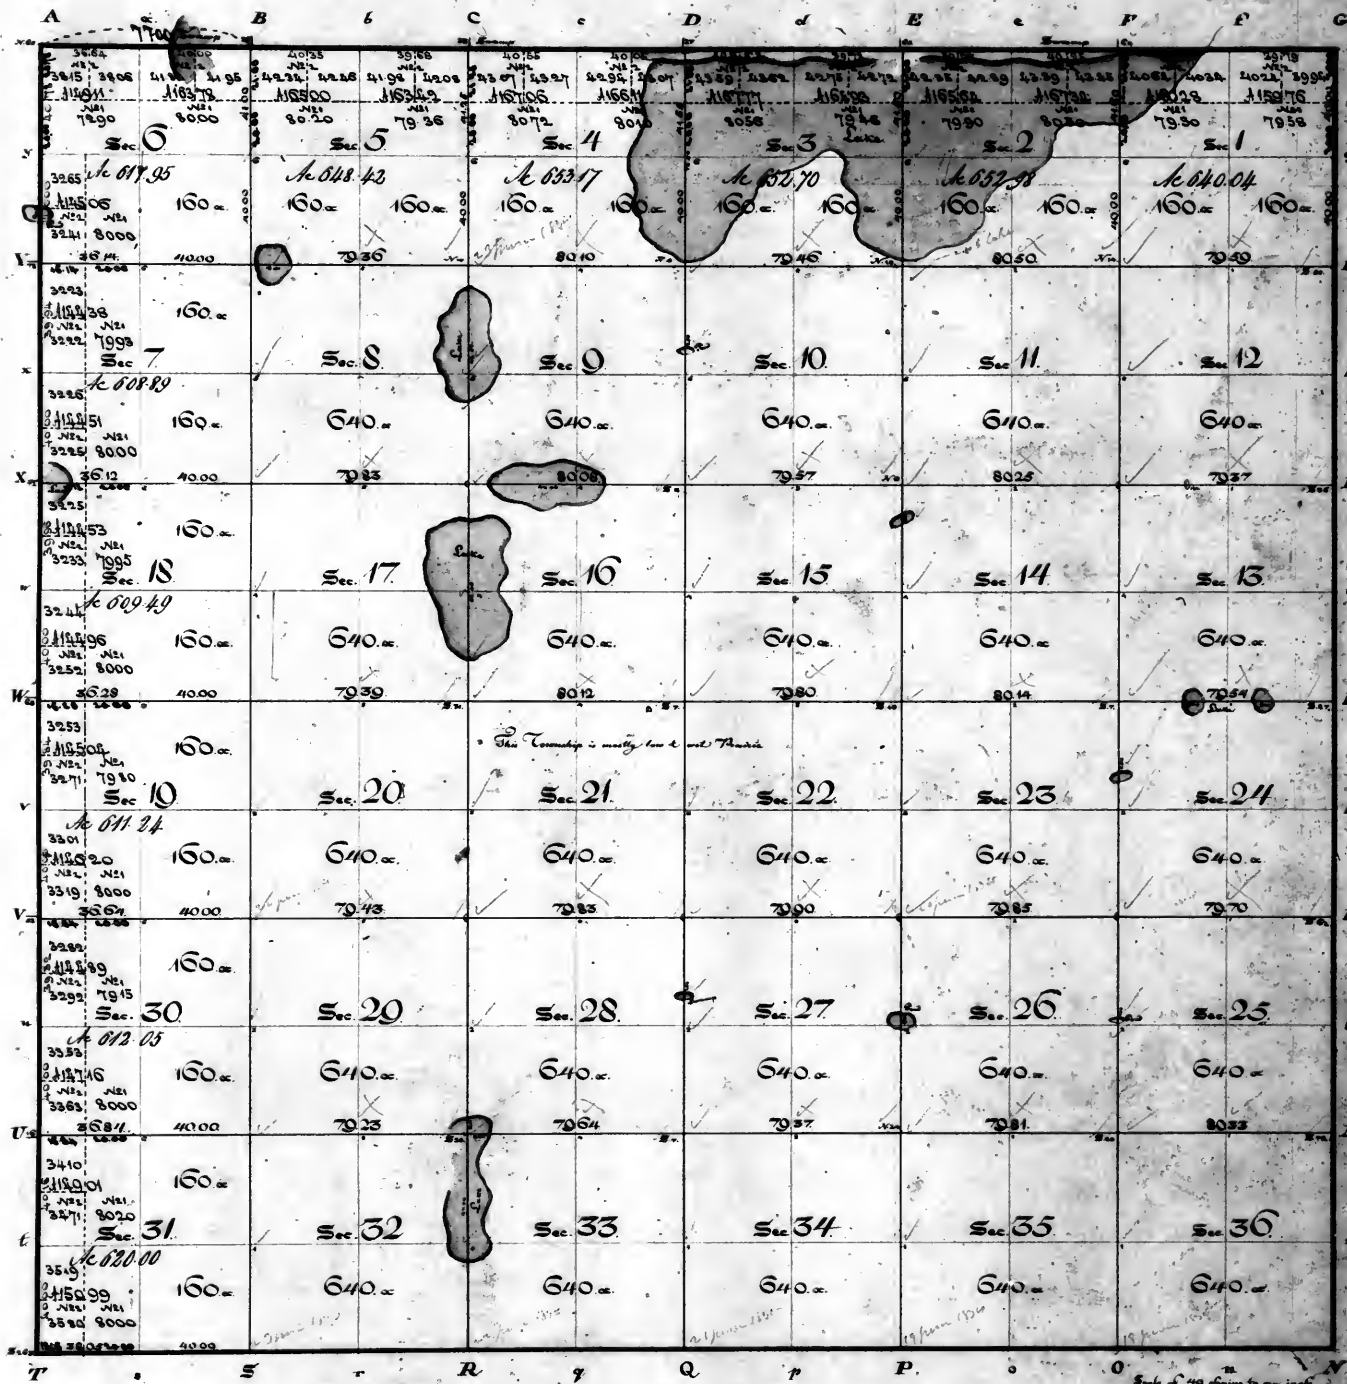

Aggregate area of public land — 1503083 acres
estimated area of the Fox River & Pistakee Lake — 583411
Total 2086494 acres

Scale of 40 chains to one inch.

Aggregate area 3884.07 acres

Surveyors Office.

Saint Louis 21st of May 1839.

The above plat of fractional township 37 north of the base line, range 10 east of the 3^d principal meridian, north west of the old indian boundary, is strictly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved— The South eastern boundary to this fractional township, which is designated "Old indian boundary" was surveyed in the 4th quarter 1834, in order to close the surveys to the South east thereof, under the contract of Stephen and Thomas C. Rector of the 20th of March 1831; it was commenced at the 17th mile of the indian boundary run by John C. Sullivan, assisted by James Mc. Duncan, in the 4th quarter of 1818, from a point 10 miles North of the portage S. W. to a point 10 miles above the mouth of Sandy creek, under a letter of appointment dated 18th of October 1818, for the survey of the boundary lines of the treaty of Saint Louis of the 24th of August 1816, between the United States and the united tribes of Ottawas, Chippewas and Pottawatomias, and was intended as a reserve in part of said survey of 1818, but diverged therefrom to the Northwest— That part of said indian boundary which forms a boundary to this fractional township 4 miles 75.08 chains, was recovered— and the west boundary 3 miles 48.20 chains— and the north boundary 3 miles 30.25 chains were surveyed in the 4th quarter of 1838— and the subdivision lines 8 miles 43.26 chains were surveyed in the 3^d quarter of 1838— all by Eli S. Prescott under contract signed by the Surveyor General on the 8th of May, and by the said Prescott on the 3^d of June 1837;— they were paid for in the 4th quarter of 1838— and charged in the account of the Surveyor General for that quarter— Voucher N^o 5.

E. J. Langhorne

Township 38 North of the base line Range 10 East of the 3^d principal Meridian

15

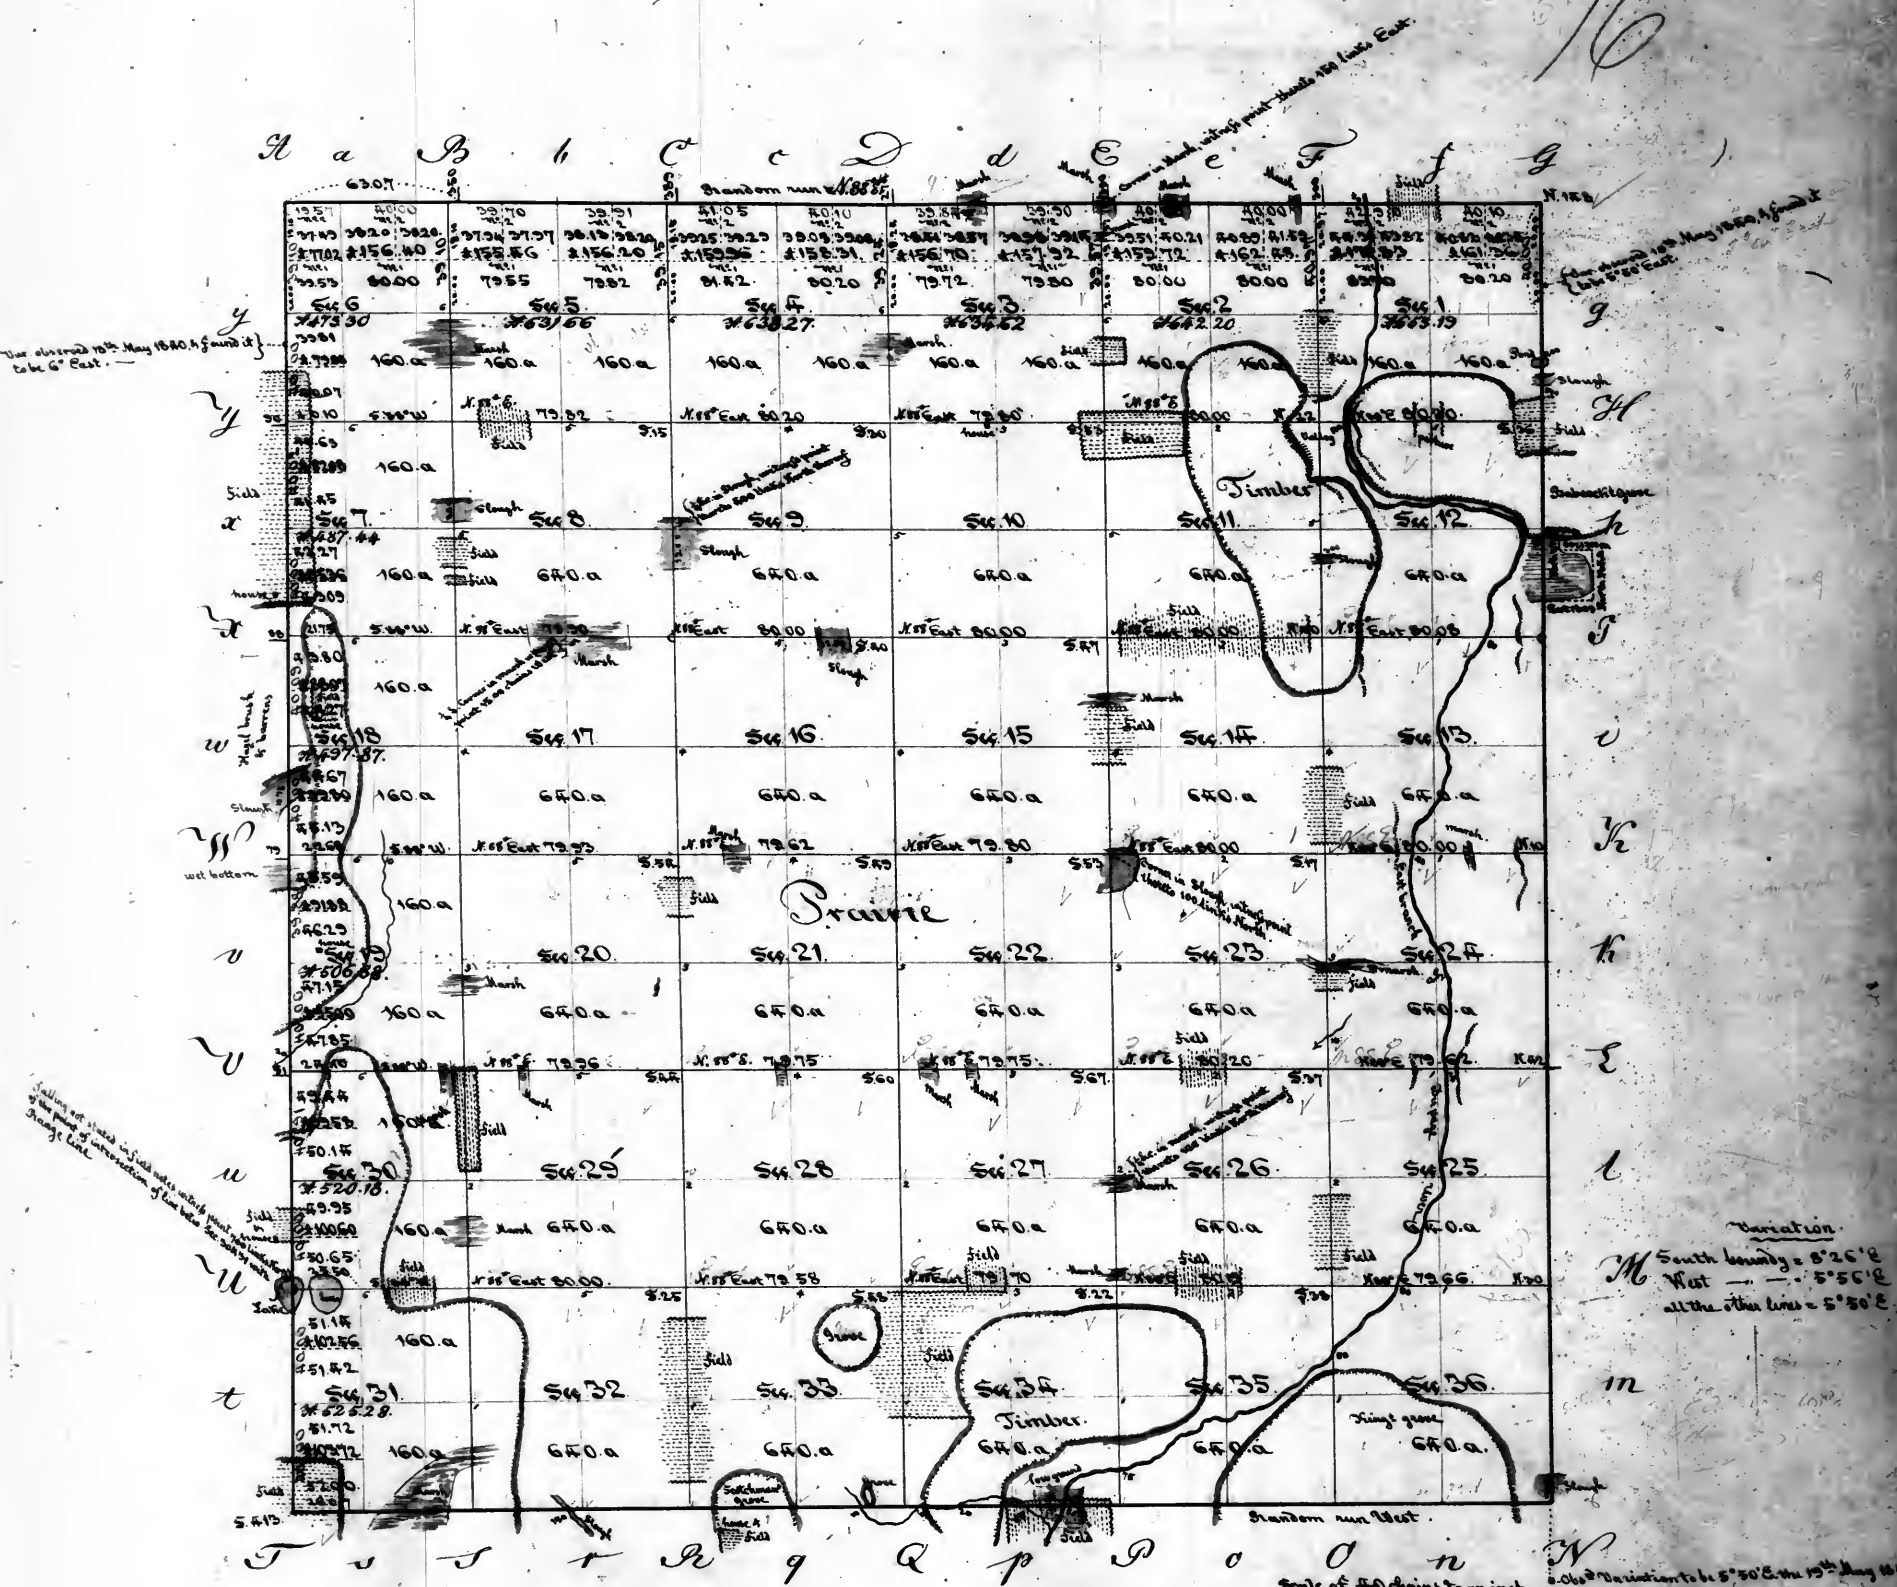

Surveyors Office. Saint Louis 4th of January 1842.

The above plat of township 38 north of the base line, range 10 east of the 3^d principal meridian, north west of the 16th section boundary line, is strictly conformable to the first notes of the survey thereof, on file in this office which have been examined and approved. The southwestern boundary of the township begins at the corner of the 16th section boundary line, was surveyed in the 1st quarter of 1818, by John C. Sullivan, as principal surveyor, and claims to be the true line, as certified by a letter from William Redd, surveyor of the public lands in the territory (now States) of Illinois and Missouri, dated the 15th of October 1818, authorizing said Sullivan and Buchanan, to survey under the direction of Commissioner Nathan B. Phelps, appointed by the President of the United States to run the lines of the tract ceded by the treaty of St. Louis of the 24th August 1816 (page 177 and following, land laws, edition of 1828) - This being the line, agreed to be run from a point on the line of the tract ceded by the treaty of St. Louis north of the west end of the Portage between Chicago Creek which empties into Lake Michigan, and the River des Plaines, a fork of the Illinois, and was run by the said Sullivan and Buchanan from the said point 10 miles north of the west end of the Portage, S. 44° 35' W. 38 miles and 20 chains to a point 33.75 chains at right angles to the west of the corner established on Sandy Creek 10 miles from its mouth - On the 3^d quarter of 1821, John Wells, under the contract of Stephen and Thomas Redd of the 20th of March of that year, resurveyed this line for the purpose of closing the public surveys on the south east side thereof - The whole of the line was retraced and the fractional section corners for the surveys on the South east side thereof, were re-established in the 3^d quarter of 1827, by Eli S. Brown, under contract signed by the Surveyor General on the 8th of May, and by Eli S. Brown on the 2^d of June 1827 - On the 1st quarter of 1838, and charged on the account current of the Surveyor General, during that quarter, section 15 - The east boundary 3 miles 7.50 chains - The north boundary 5 miles 58.07 chains - The west boundary 6 miles - and the subdivision lines 38 miles 53.22 chains, were resurveyed in the 2^d quarter of 1840, all by Wm. L. Brown, under contract of the 20th of September 1839 - They were paid for in the 2^d and 4th quarters of 1841, and charged on the second account of the Surveyor General, during those quarters under the general appropriation for surveying the public land. Vouchers A 2 & 12.

Jos. C. Brown
Surveyor of the public lands for
the District of Illinois & Missouri.

Township 29 North of the base line Range 10 East of the 3rd principal Meridian

on the 4th day of June A.D. 1868.

Variation of the Needle 6° 55'

Scale 40 chains = 1 inch

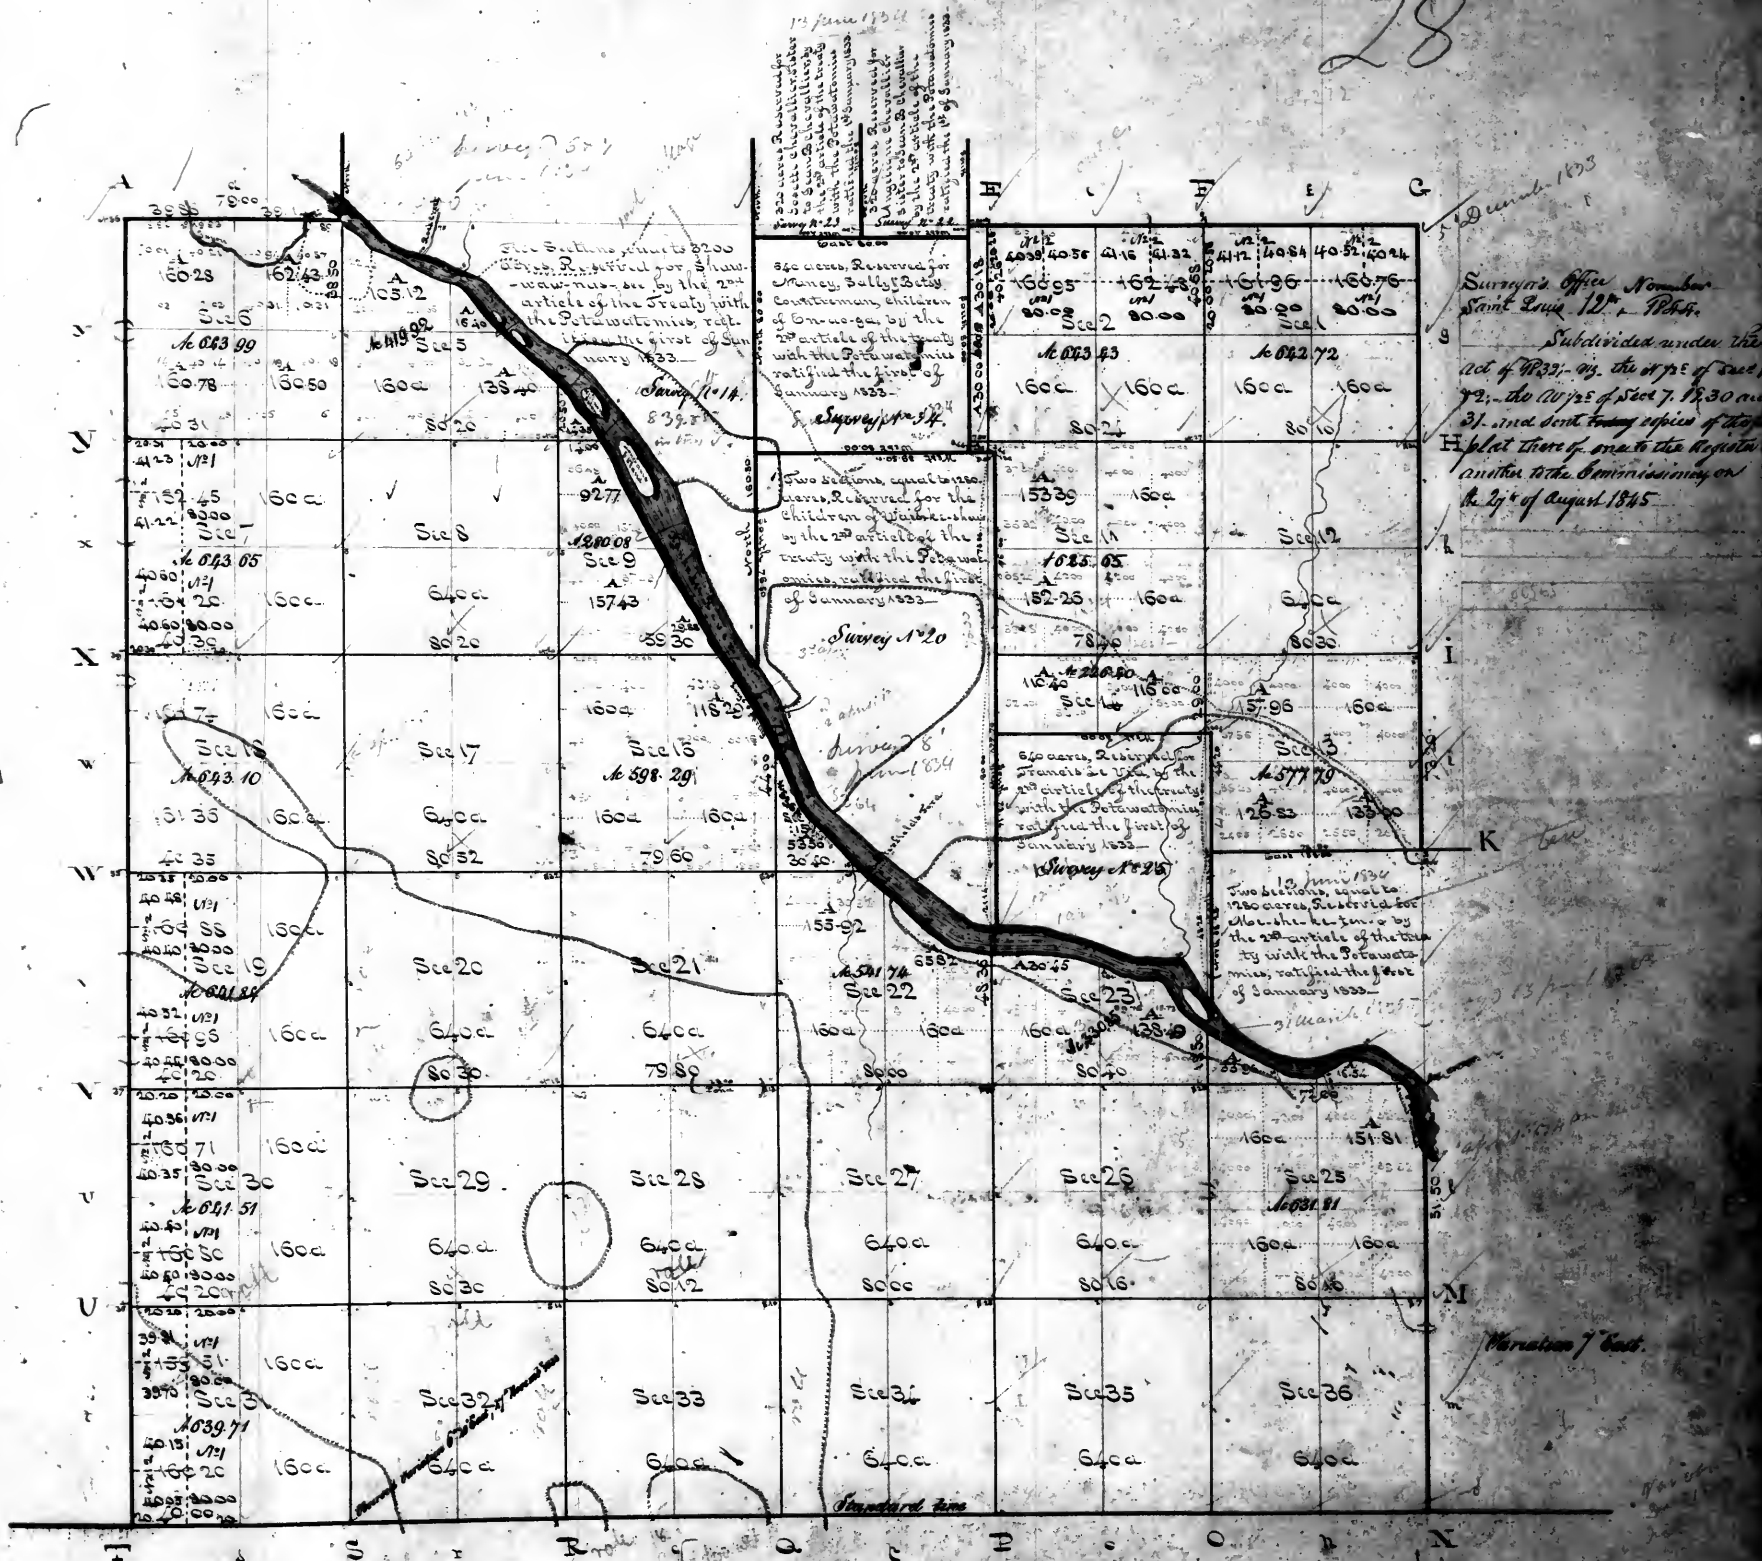

General Land Office,
Washington D.C. August 18th 1868
The above Diagram of Langham's Island, in Kankakee River,
in Sec. 9 Town 32 N. R 11 E. 32 P.M. State of Illinois, is strictly
conformable to the field notes of the survey thereof on file in this
Office, which have been examined and approved.

[Signature]

Commissioner and Ex-Officio
Surveyor General of Illinois.

Township 31 North of the base line, Range 11 East of the 3^d principal meridian.

28

Surveyor's Office, St. Louis, Mo.
Subdivided under the
act of 1837, by the 17th of sec. 1,
72, the 10th of sec. 7, 1830 and
31, and sent to the register
and to the Commissioner on
the 24th of August 1845.

Surveyor General's Office.
St. Louis 16th August 1849.

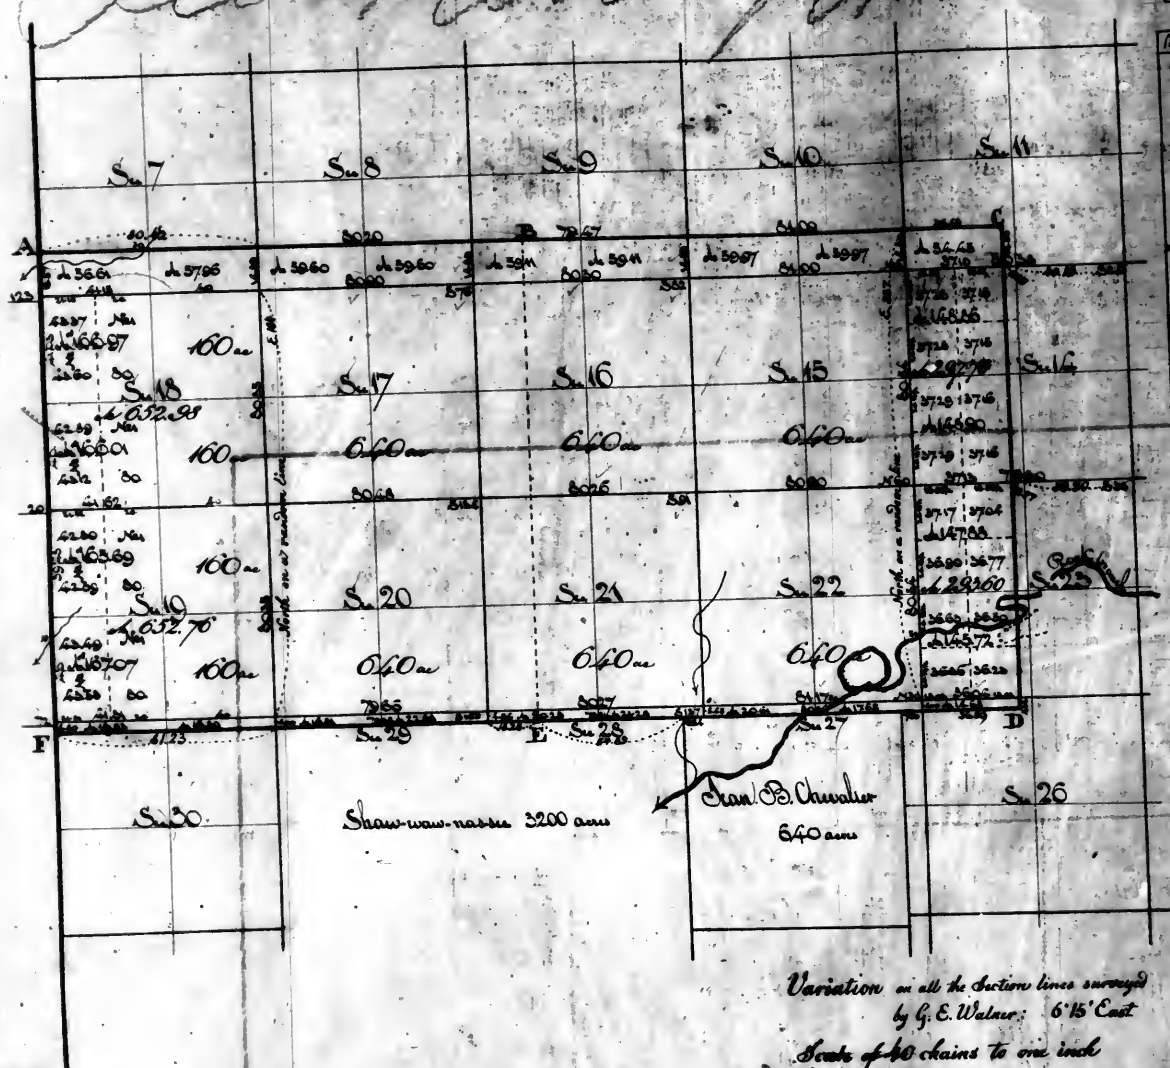

Public Land 155371 acres
Indian Reservations 1019.19 acres
Total 22532.90 acres

The above plat of Township 31 North of the base line, range 11 East of the 3^d principal meridian is truly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved. The exterior boundary lines were surveyed on the 4th quarter of 1830. The sectional lines, Indian reservations, and meanders on the 1st and 2^d quarters of 1844, all by Genl. W. Beckwith under orders of the 28th of October 1830.

William Milburn
Surveyor General
D.

Sec. N. P. M. Eng. & P. M.

Variation in all the section lines surveyed by G. E. Walker: 6' 15" East
Scale of 40 chains to one inch

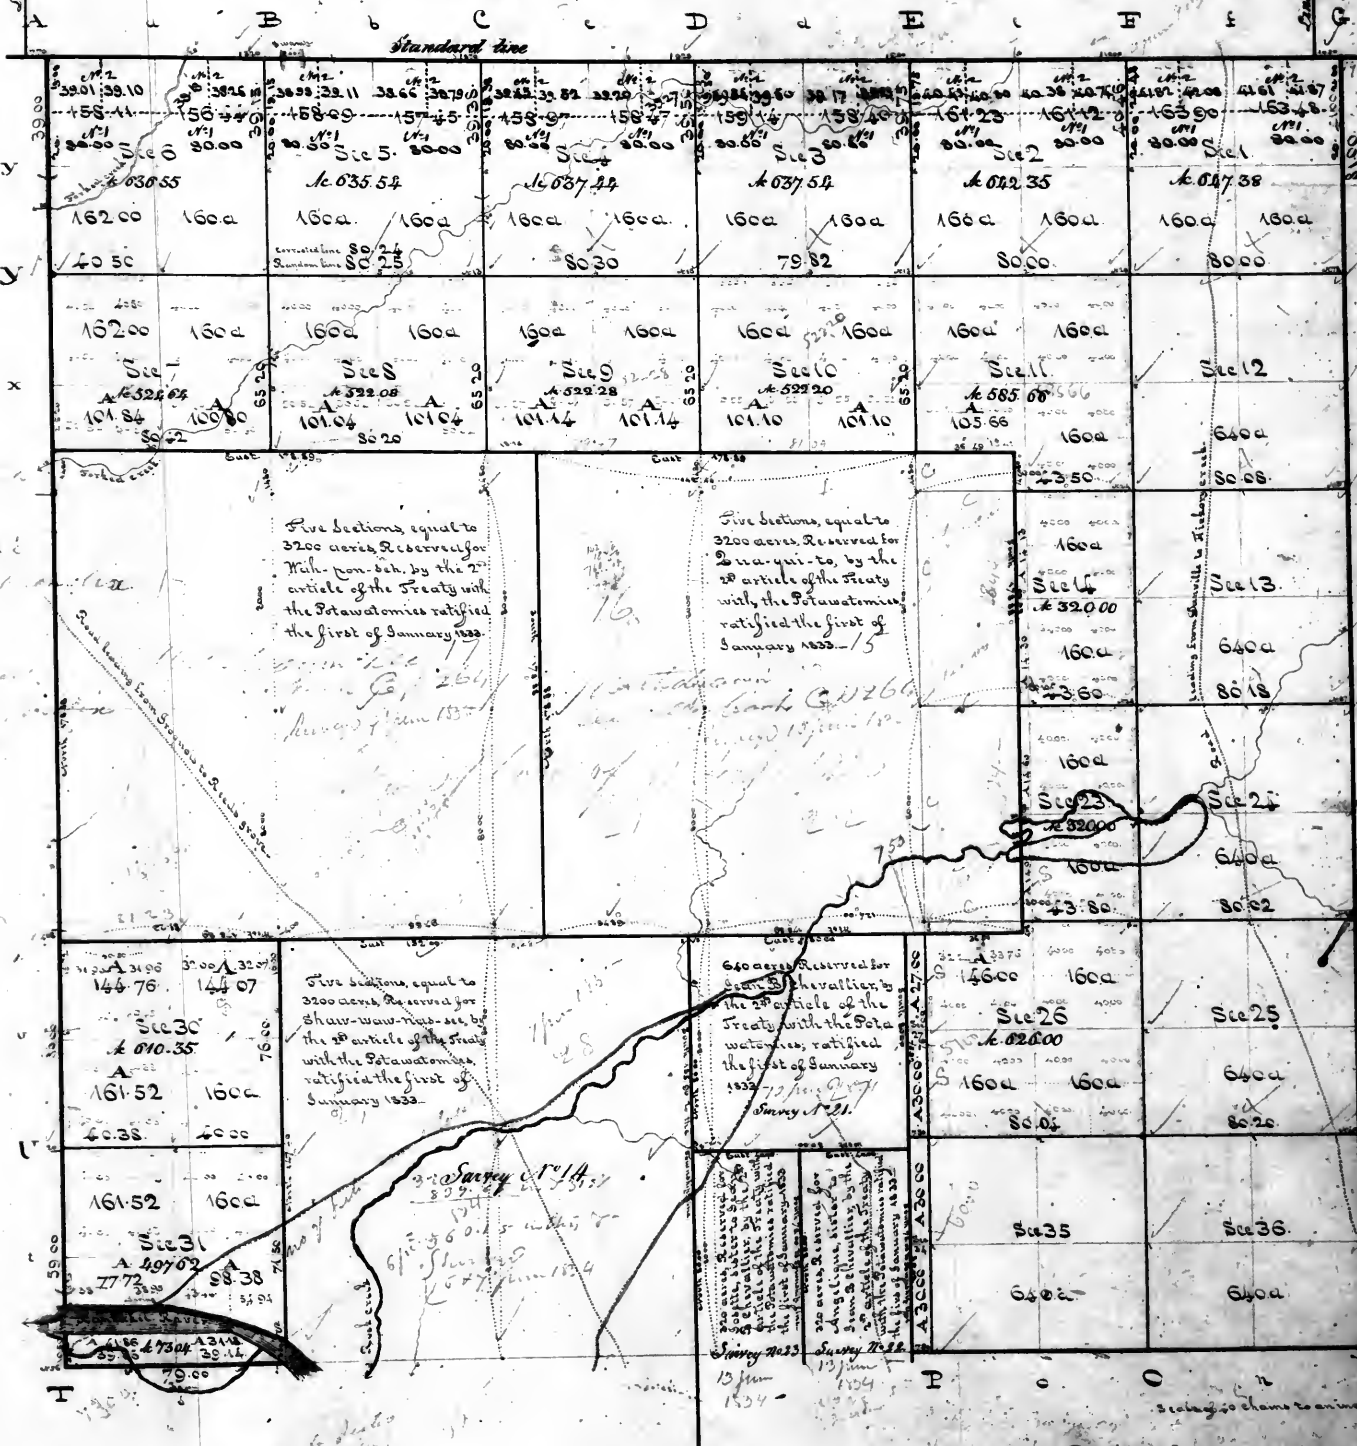

Surveyor's Office, Saint Louis 26th of July 1844.

The above plat of sections 15, 16, 17, 18, 19, 20, 21, 22, and parts of sections 7, 8, 9, 10, 11, 14, 23, 24, 25, 26, 27, 28, by H. 30, within the lines A, C, D, E, in township 32 north of the base line, range 11 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The township was formerly subdivided, and the Indian reservations therein laid out, in the 3^d quarter of 1834, by David, to Red Jacket, under contract of the 29th of October 1833. The lines A, B, C, D, E, represent the survey of the five sections of land, reserved for Wah-pa-ah in the prairie near Rock village, by the 2^d article of a treaty made & concluded at Camp Dispersal in the State of Indiana, on the 20th of October 1832, between the Commissioners of the United States and the Chiefs and Headmen of the Potawatamie tribe of Indians of the Prairie and Kankakee, and the lines B, C, D, E, show the survey of the five sections of land reserved for Quia-gui-tio in the prairie near Rock village by the 2^d article of the same treaty. On the 11th of September 1840, the Commissioner of the General Land Office, informed the Surveyor General, at Saint Louis, that the Indian title had been relinquished to the two above reservations, and instructed him to have the lands within the lines hereby laid out as public land by extending through them the lines of the public survey, closing thereon. In consequence of these directions, Geo. E. Walker, under instructions of the 4th of August 1843, surveyed in September of the same year, the lines delineated in the margin of this plat. 23 miles. 45.77 chains, which were paid for in the 1st quarter of 1844, and charged on the account current of the same quarter, under the general appropriation, Voucher N^o 2.

Silas Reed
Surveyor of the public land in the
State of Illinois & Missouri.

Township 32 North of the base line, Range 11 East of the 3^d principal meridian

 Surveyor's Office
 Saint Louis 17th March
 Old division under the 1st of 1832, viz. the 1st of 1832, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Surveyor General's Office
 Saint Louis 16th August 1853.

Public Land 12975.62 acres
 Indian Reservations 10008.15 acres
 Total 22983.77 acres

The above plat of Township 32 north of the base line range 11 east of the 3^d principal meridian is strictly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The north boundary was surveyed in the 2^d quarter of 1854 by Don Alonzo Spaulding, under contract of the 3^d of October 1853. The south boundary was surveyed in the 3^d quarter of 1853 by Don Alonzo Spaulding, under contract of the 3^d of October 1853. The west boundary in the 1st and 2^d quarters of 1854 and the east boundary the subdivision lines, meanders and Indian reservations in the 2^d quarter of 1854, all by Genl W. Beckwith, under contract of the 29th of October 1853.

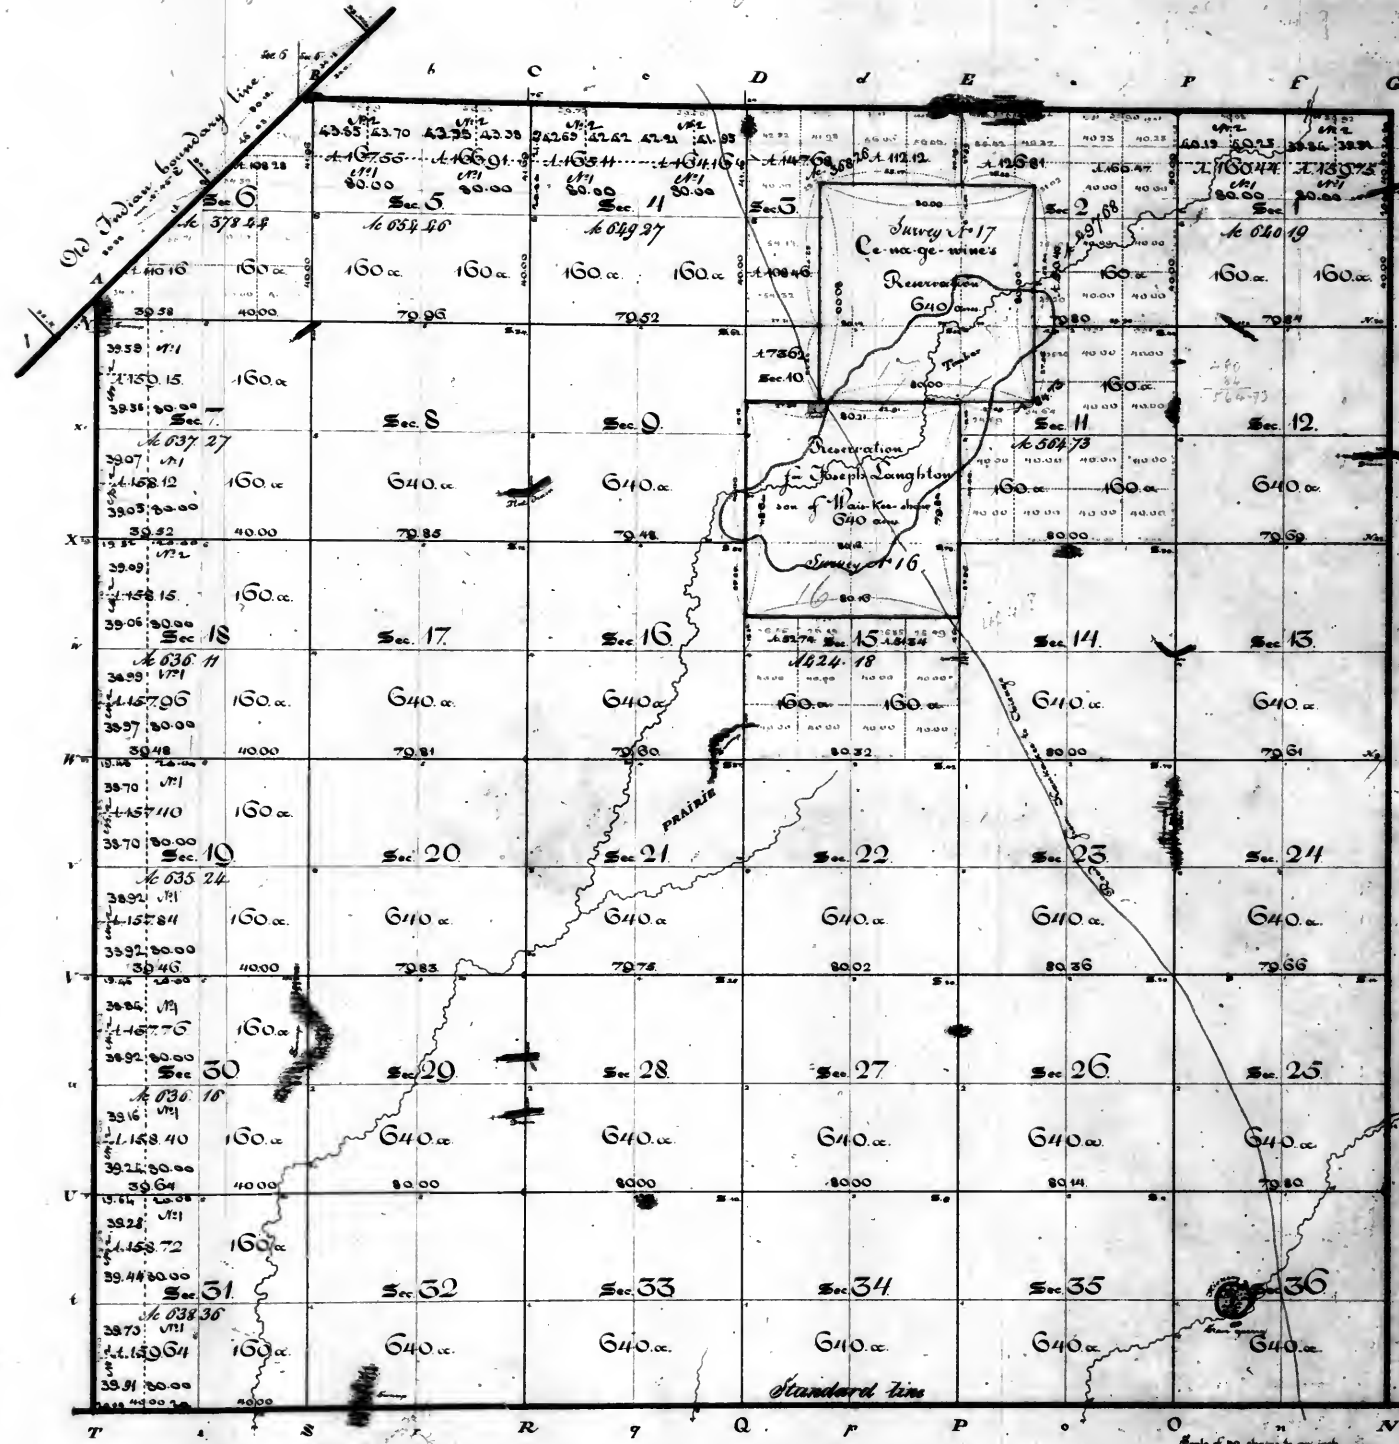

William McIlwain
 Surveyor General

The Section lines through the plat are in accordance with the instructions of the 7th of July 1853 by G. E. Wolcott in Sept. 1853 in the instructions of the 7th of July 1853 by G. E. Wolcott I p. 271

Plotted
The above Part of Township 33 North of the base line Range 11 East of 3rd principal Meridian, conformable to the field notes
of the survey thereof on file in this Office, which have been examined and approved. The line designated 'Old Indian boundary line' was retraced and the corner
and mile points thereon were uncovered by Don O'Leary Spaulding in the 2nd quarter of 1834, under contract of the 3rd of October 1833 - The said 'Old Indian boundary
line' was originally surveyed in the 1st quarter of 1810, by James M. Duncan, assisted by John C. Sullivan, under a letter of appointment from 10th March 1810, Surveyor of the
lands of the United States, in Illinois and Missouri, dated October the 18th 1813, authorizing Sullivan as Surveyor, and Duncan as assistant to survey under the
direction of Commissioners Graham and Phillips, appointed by the President of the United States to run the lines of the tracts ceded by the treaty of San Lorenzo of the
24th of August 1816 (page 177) and following - said lands within of 1821 - This being the line agreed to be run - from a point on Lake Michigan 10 miles Southward
of the mouth of the Chicago river, in a direct line to a point on the Kankakee 10 miles above its mouth - and was first by said Sullivan and Duncan to run
S. 45° 2' W. 45 miles and 13 chains - In the 3rd quarter of 1821, John Wells, whilst assisting Stephen Rector and Thomas C. Rector in the resurvey of their contract
of the 20th of March 1821, being unable to find and properly identify this line and the mile points thereon, further Southward from the latter than the 3rd
mile point, commenced thereat and resurveyed S. 45° 2' W. and struck the base of the Kankakee 130 miles South of the old line, but about 5 chains further
South westward - It was this resurveyed line to which the Surveyors to the N.W. were closed, and which was retraced and renewed by Spaulding just as laid down
on this map in accordance with the title of Spaulding in the South, east, with its most boundary lines - the subdivision lines and Indian reservations, were all
surveyed in the 2nd quarter of 1834, by D. O. Spaulding, under his special contract of the 3rd of October 1833.

William Millburn
Surveyor General

Surveyor General's Office.
St. Louis 26th August 1839.

The mile points designated on the 'old Indian boundary line' are, the points perpetuated one mile apart according to the measurement on the said line, at the time of the survey thereof by Wells. Their numbers are progressive from Lake Michigan - The distances set down between said mile-points are according to the measurement of Mr. Spaulding.

William Miller
Surveyor General
JH

The field notes used in the construction of this Plat are by Don Alougo Spaulding with the contract of the 3rd of October 1833 and also for an account of the 25th of February 1835.
The notes of the South boundary are dated 20th of May 1834.
East boundary as dated 10th of May 1834.
Old Indian boundary line being the North-West bound line of the fractional Township line dated 28th of April 1834.
Subdivision lines are dated from the 25th to the 30th of June 1834.

The South & East boundaries of the Subdivision lines were surveyed at a variation of 7th 20' East.
The Old Indian boundary line was surveyed at a variation of 6th 45' East till the 30th mile post. From that post the survey of the line was carried at a variation of 6th 50' East.

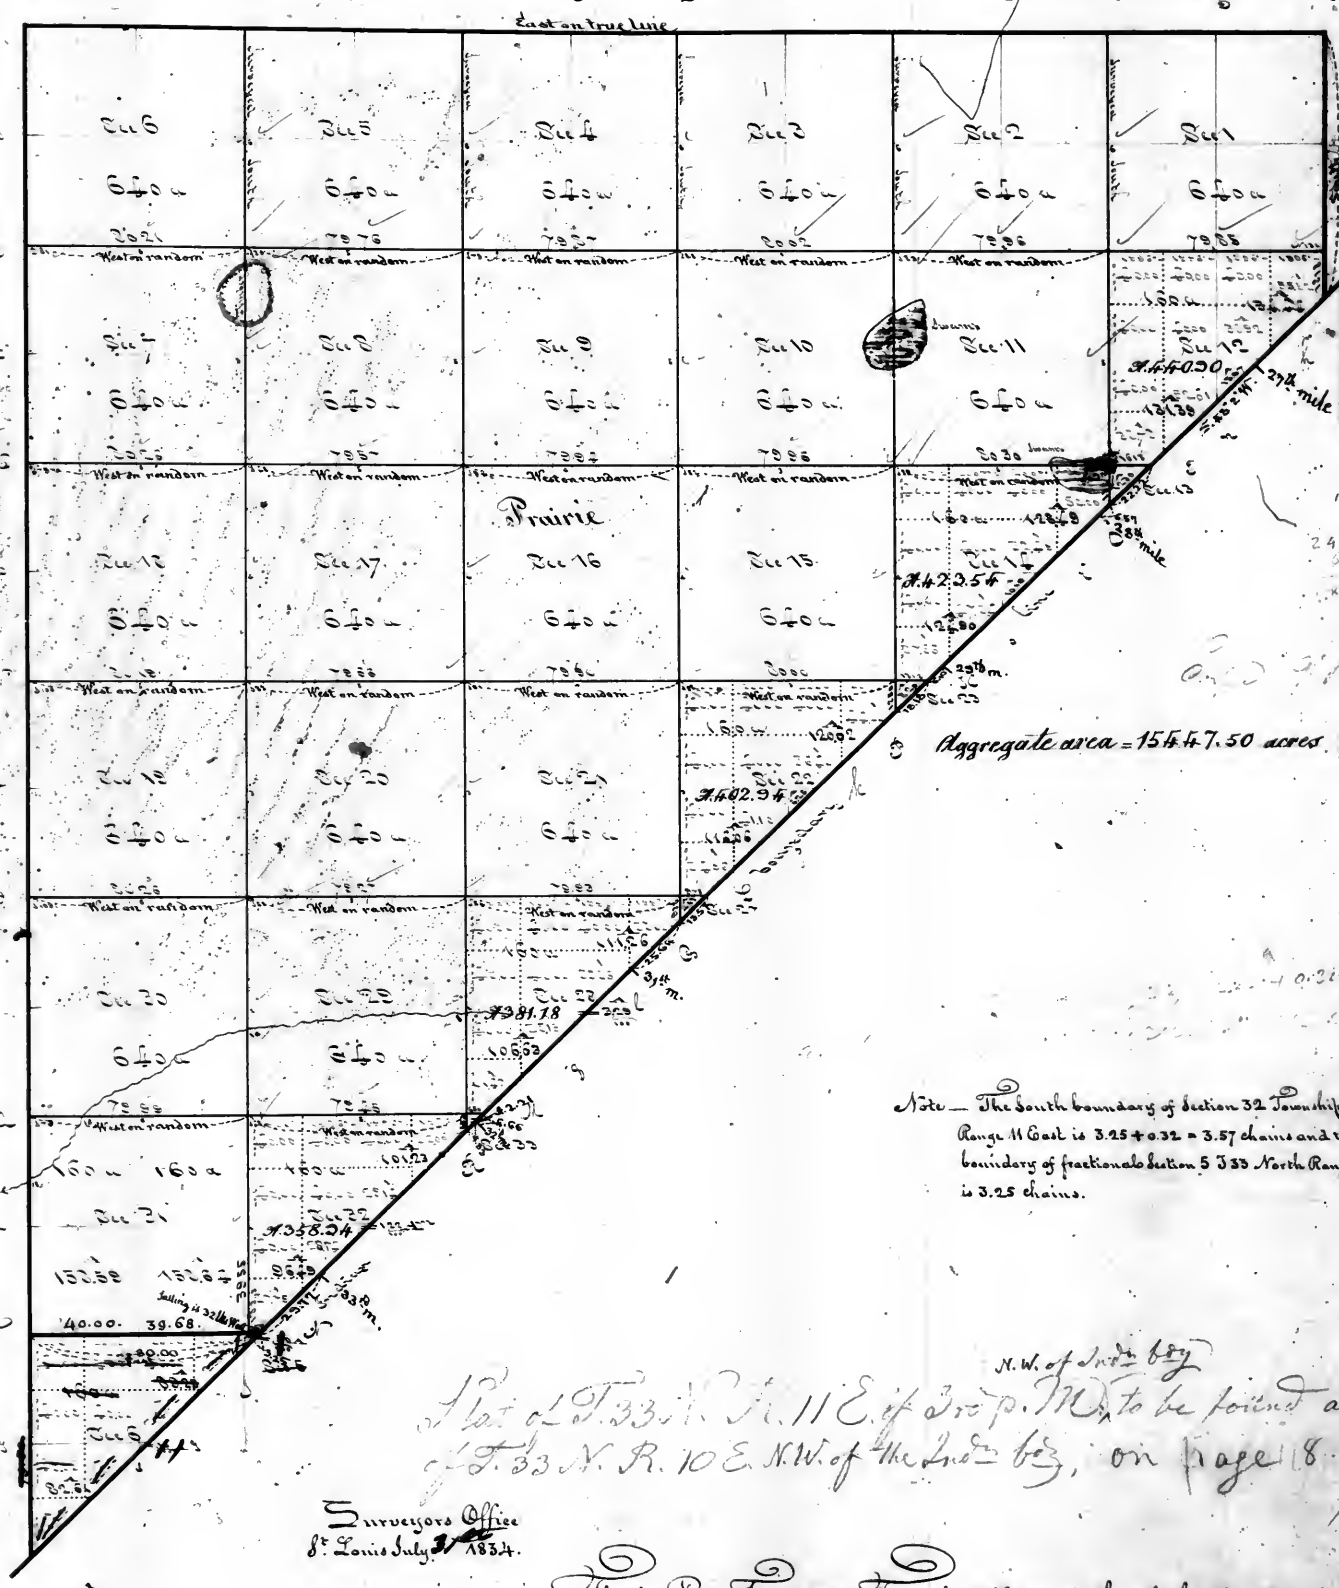

Surveyor's Office
St. Louis 17th August 1839

The above Plat of Fractional Township 34 North of the base line Range 11 East of 3rd principal Meridian South east of 'Old Indian boundary line' is mostly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved: - The line designated 'Old Indian boundary line' was retraced, and the corners or mile-points therein were surveyed by Don Alougo Spaulding in the 2nd quarter of 1834, under contract of the 3rd day of October 1833 - The said 'Old Indian boundary line' was originally surveyed by James M. Duncan, assistant to John C. Sullivan, under a letter of appointment from William Recker, Surveyor of the lands of the United States in Illinois and Missouri, dated October the 18th 1818, authorizing Sullivan as Surveyor, and Duncan as assistant to carry, under the direction of Commissioners Graham and Phelps, appointed by the President of the United States to run the lines of the tracts ceded by the treaty of Saint Louis of the 24th of August 1816 (page 177 and following - Land laws - edition of 1828) - This being the line agreed to be run 'from a point on Lake Michigan 10 miles Southwest of the mouth of the Chicago creek, in a direct line to a point on the Kankakee 10 miles above its mouth' and was found by said Sullivan and Duncan to run S. 48° 2' W. 43 miles and 18 chains - In the 3rd quarter of 1831, John Wells, whilst assisting Stephen Recker and Thomas C. Recker, in the execution of their contract of the 20th of March 1831, being unable to find and properly identify this line and the mile-points therein, further Southwestward from the lake than the 3rd mile-point, commenced thereat, and ran S. 48° 2' W. and struck the head of the Kankakee 180 miles South of the old line, but about 5 chains further Southwestward - It was this surveyed line to which the surveys to the N. W. were closed, and which was retraced and removed by Spaulding; and is laid down on this map in accordance with his notes - The South and east boundaries - and the sectional lines were surveyed on the 2nd quarter of 1834, by the said Spaulding, under his contract above designated.

do 15 & 16 - from river bank
of river E. & W. line of Range 15.00

Acres
Total 537.00

Note: The yellow lines from A to B on this Plot represent those surveyed on the 12th of October 1821 by John Walls under the contract of Silas C. Rector and Stephen Rector, dated the 20th of March 1821, and according to Walls' field notes the said lines were run with the N.W. bank of the river Des Plaines.

It probably to the field notes of the Peninsula, as surveyed by A. D. Mathewson, in the said Mathewson ran from C to D, with Walls' old lines. The Register at Chicago in a letter of the 17th of April last to this Office, stated that fractional Sections 11 & 15, N.W. of what Walls called the N.W. bank of the Des Plaines river, were Canal lands and that fractional Section 16 was School land. The Register gives the Aggregate area of fractional Section 11 as 535.37 acres and of fractional Section 15 as 371.53 acres, but according to two State (in this Office) of 1827, N.W. 11 & 15 of the 3^d pl. Mon, fractional Section 11 contains 535.37 acres and fractional Section 15 - 232.12 acres.

Surveyor's Office
St. Louis, August 15 1846

J. R. Donnan
Surveyor of the public lands in the
States of Illinois & Missouri.

Surveyor's Office. St. Louis 15 August 1846.

The above plot of a peninsula in sections 11, 14, 15 & 16 in Township 37 and of the base line, range 11 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this Office which have been examined and approved. The distance from A to B, on the plot was run in the survey of the township as the northern bank of the River des Plaines; but as it has been represented to the Commissioner of the General Land Office, that there was an island unsurveyed in the vicinity aforesaid, he, on the 20th of March 1846, instructed the Surveyor General to have it surveyed; - and in consequence thereof, an order, was, on the 18th of May 1846, issued to A. D. Mathewson to that effect. He ran, in June 1846, the lines detailed in the marginal Statement, 5 miles 37.00 chains - This surveying is paid for on this day, and charged to the United States, in Voucher No. 1, of account current of the Surveyor General during the 3^d quarter 1846, under the appropriation of \$ 1200, of the 3^d of March 1845, for the erection of creosote & depots in surveys in Illinois & Missouri, at a rate not exceeding 25¢ dollars a mile. See page 65, etc. of 2^d volume of 28th Congress.

J. R. Donnan
Surveyor of the public lands
in the States of Illinois & Missouri.

Plot sent to the Commissioner & Register 19th August 1846.

This is a detailed topographic map of a section of the Illinois-Missouri border. The map is overlaid with a grid of land parcels, each labeled with a number (e.g., 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956,

On Old Indian boundary as shown on the line
on all the other lines - 5° 15' East

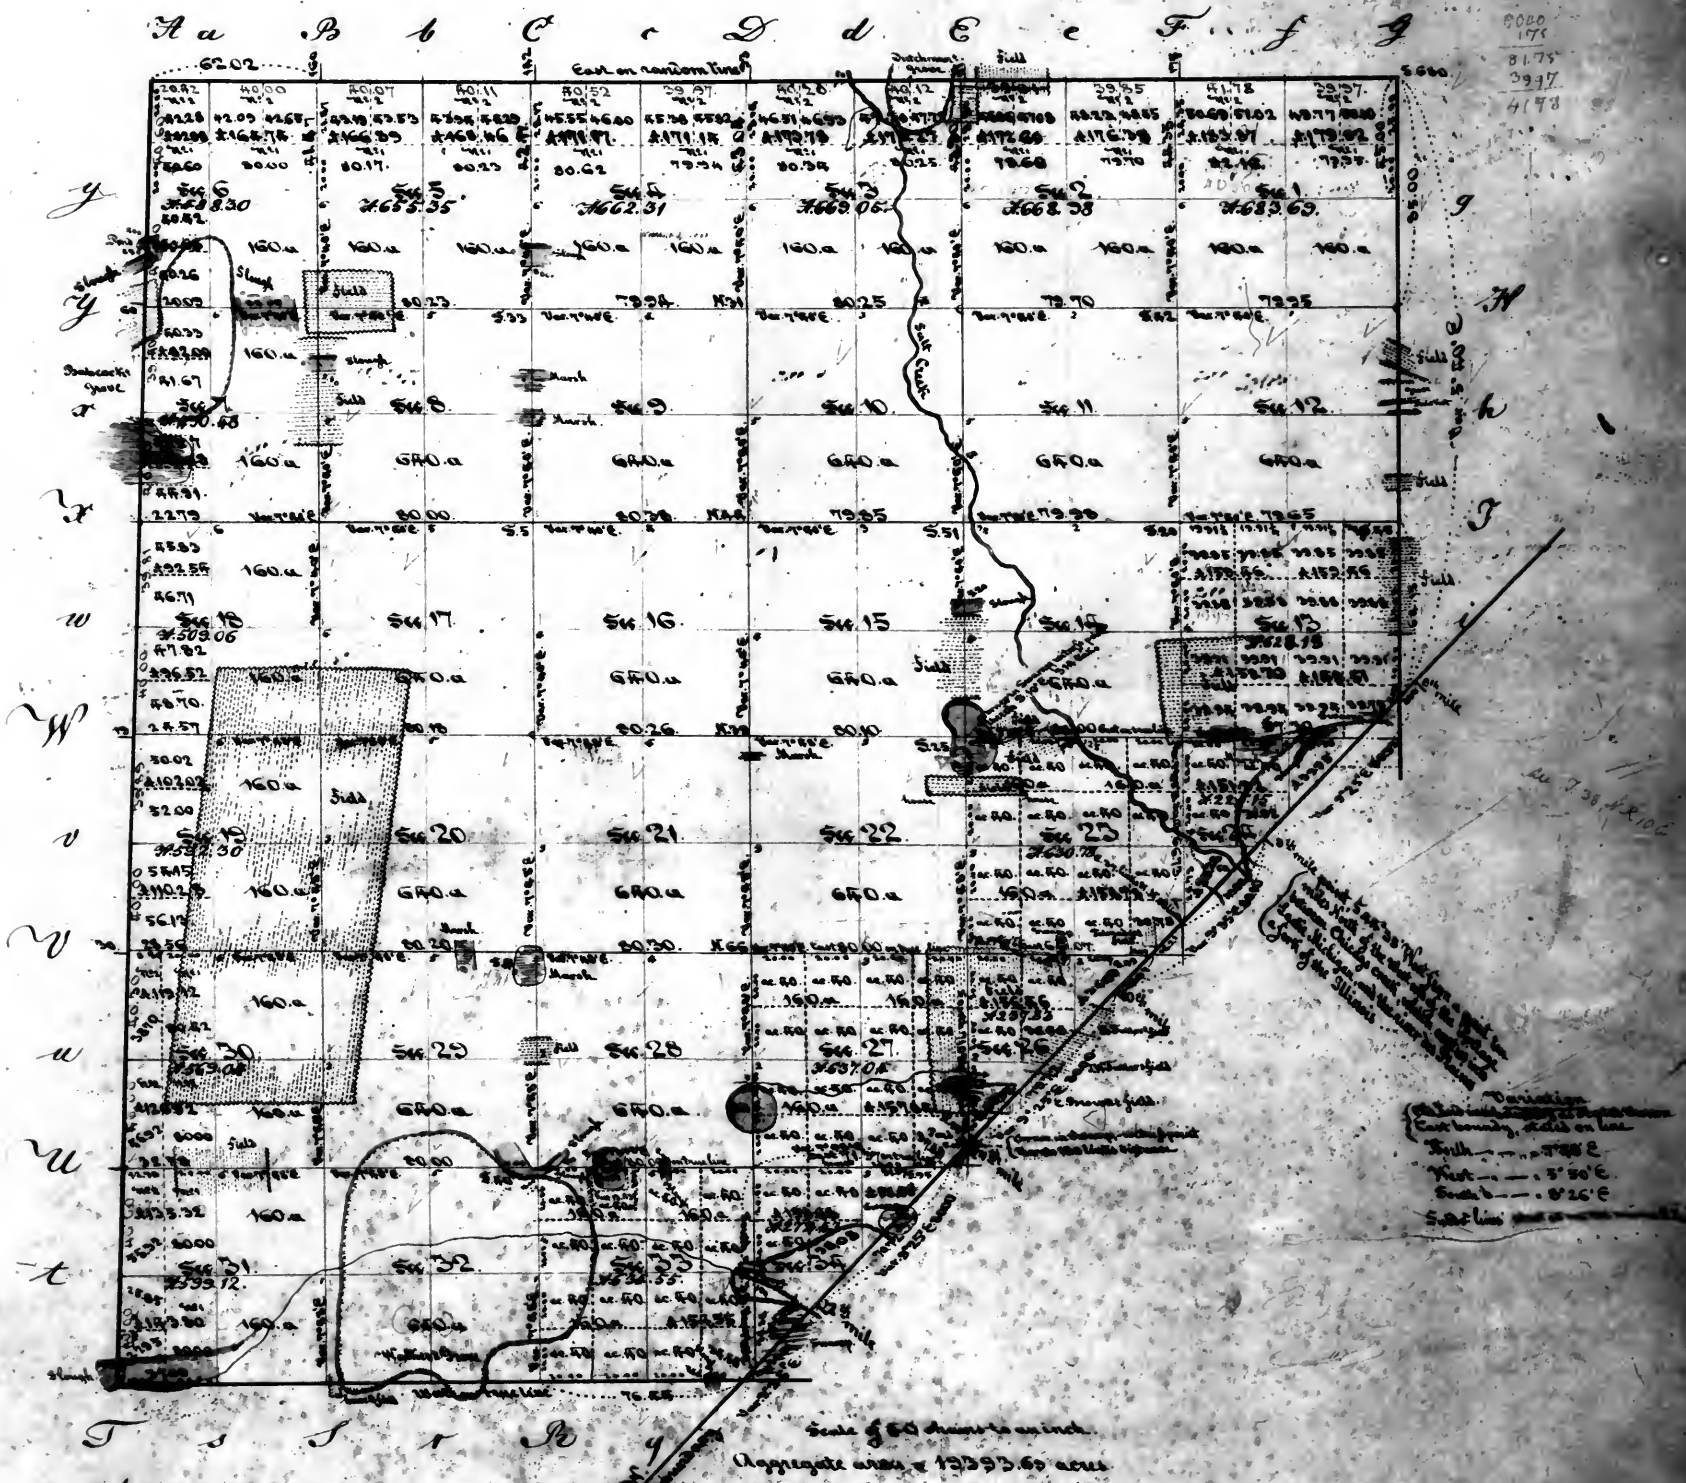

Surveyors Office. Saint Louis 4th of January 1842.

The above plat of Township 38 north of the base line, range 11 east of the 3^d principal meridian, with west of the old Indian boundary, is strictly conformable to the field notes of the survey thereof, which have been examined and approved, and are on file in this office. The southern boundary congruent "Old Indian boundary" was surveyed in the 1st quarter of 1819, by John C. Sullivan, as principal surveyor, and James M. Duncan, as assistant surveyor, under the authority of a letter from William Recker, surveyor of the public lands in the Territories (now States) of Illinois and Missouri, dated the 18th of October 1818, authorizing said Sullivan and Duncan, to survey under the direction of Commissioners Graham and Miller, appointed by the President of the United States, to run the line of the tract ceded by the treaty of Saint Louis of the 24th of August 1816 (page 177 and following, Laws of 1818) - This being the line agreed to be run from a point on Sainty Creek ten miles above its mouth in a direct line to a point ten miles north of the west end of the Portage between Chicago Creek which empties into Lake Michigan and the River des Plaines a point of the Illinois; and was run by the said Sullivan and Duncan from the said point, 10 miles north of the west end of the Portage, S 44° 35' W, 28 miles and 70 chains to a point, 22.75 chains at right angles to the west of the corner established on Sainty Creek (10 miles from its mouth) In the 3^d quarter of 1821, John Willis, under the contract of Stephen and Thomas Recker, of the 20th of March of that year, re-surveyed this line for the purpose of closing the public surveys on the south east side thereof. The whole line was retraced and the fractional section corners for the surveys on the south east side thereof, and the mile points thereon, were renewed, in the 3^d quarter of 1827, by Eli S. Parrott, under contract signed by the Surveyor General on the 8th May, and by Mr. Parrott, on the 3^d of June 1827. This re-measurement was paid for in the 4th quarter of 1828, and charged in the account current of the Surveyor General, during the said quarter Voucher N° 5 - The west boundary 2 miles 73.44 chains - the north boundary 2 miles 73.44 chains - and the subdivision lines 6 miles 12.12 chains were surveyed in the 2^d quarter of 1840, by W. L. D. Ennis, under contract of the 23rd of September 1839 - They were paid for in the 2^d and the 4th quarters of 1841, and charged in the account current of the Surveyor General, during those quarters, Vouchers N° 2 & 12

Jos. C. Brown
Surveyor of the public lands for the
district of Illinois & Missouri.

Township 39 North of the base line Range 11 East of the 3^d principal Meridian

39

New York Office. St Louis 4th of January 1842.

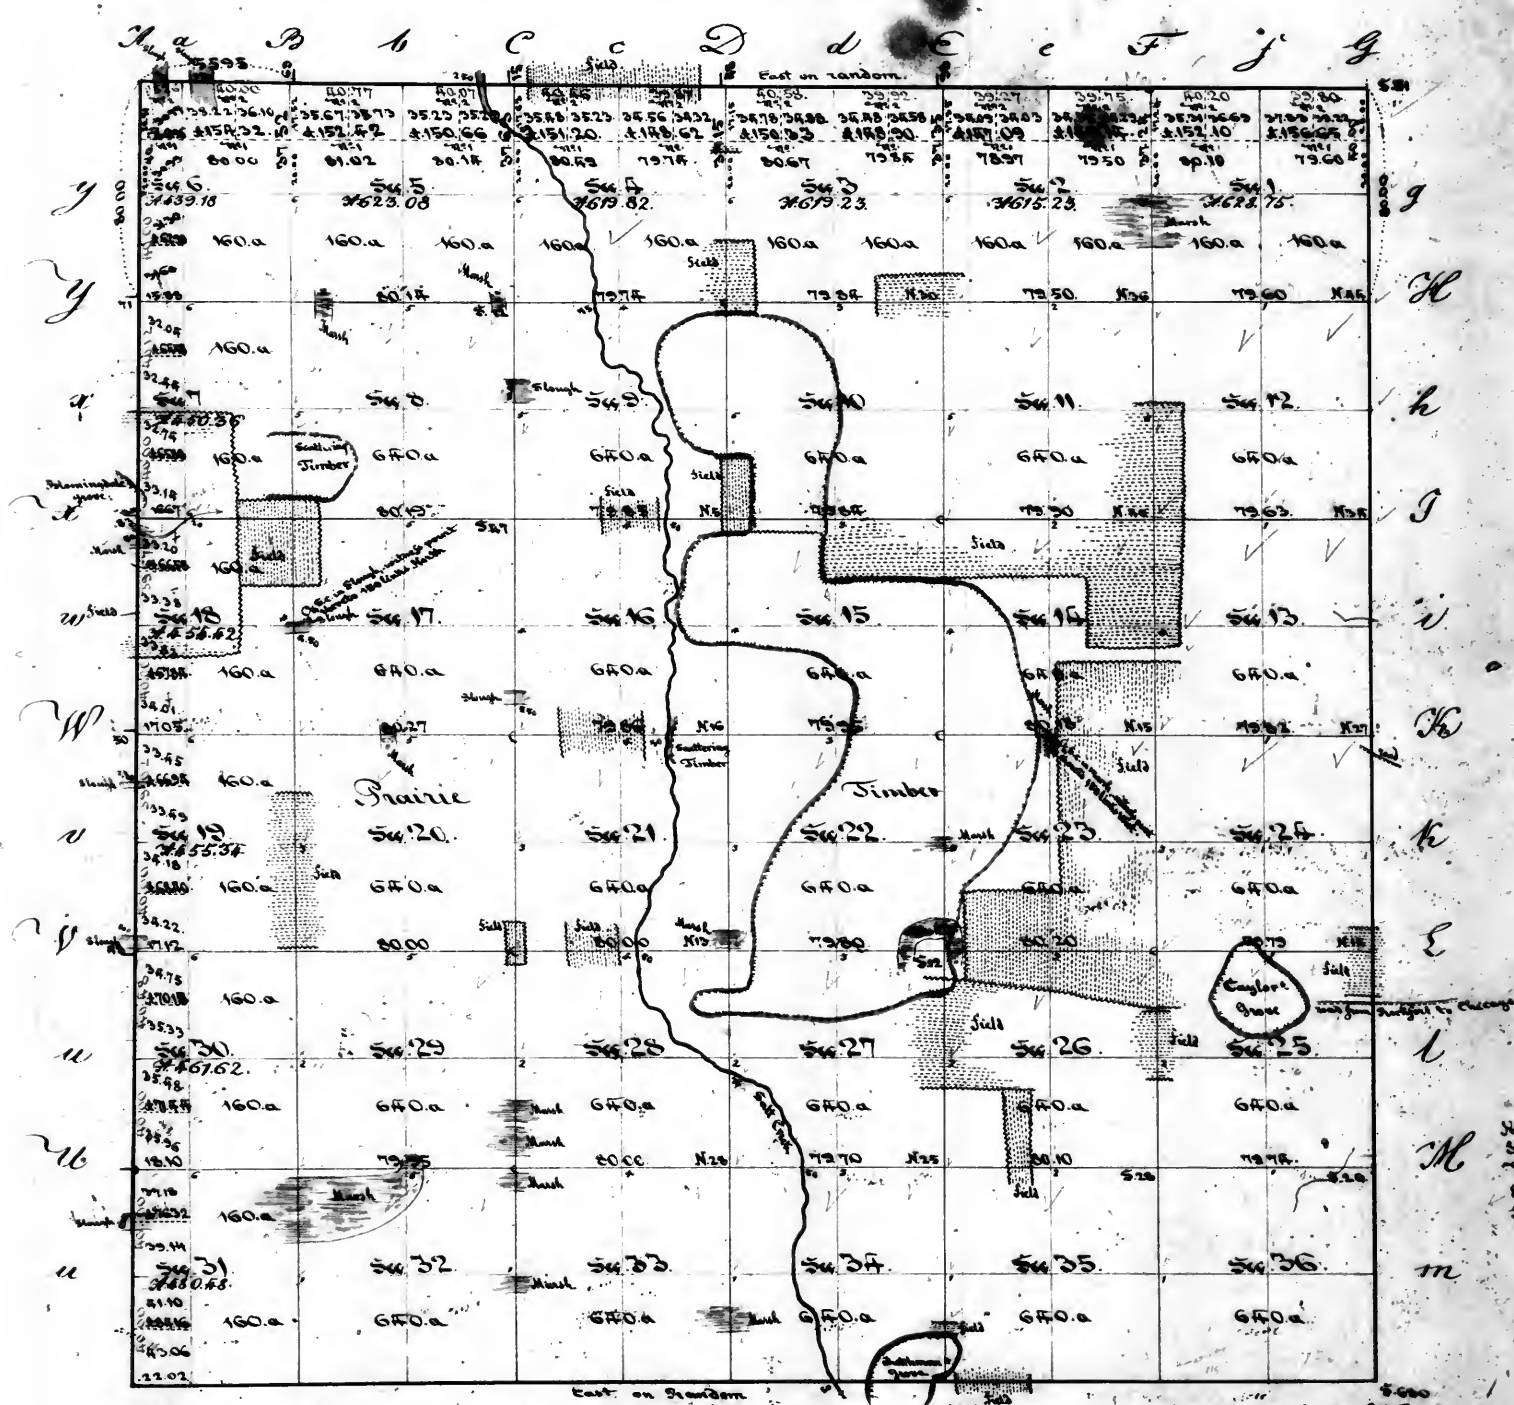

The above plat of Township 3 south of the base line, range 11 east of the 3^d principal meridian, north east of the 1st principal boundary, is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. The southeastern boundary beginning at its intersection with the 3^d principal meridian, was surveyed in the 1st quarter of 1819, by John C. Sullivan, as principal surveyor, and James M. Donnan, as assistant surveyor, under the authority of a letter from William Rector, Surveyor of the public lands in 1818. The acquisition (two states) of William M. McHenry, dated the 1st of October 1818, establishing the land sold to William Rector to survey under the provision of Commissioners Graham & Phillips, appointed by the President of the United States to run the lines of the lands ceded by the treaty of St. Louis of the 20th of August 1804 (page 177, and following 4-6, a. of 1804) this being the line agreed to be run from a point on Henry creek ten miles above its mouth in a direct line to a point ten miles north of the point out of the Survey between Chicago creek which empties into Lake Michigan and the River des Plaines, a fork of the St. Vrain, and was run by the said William M. Donnan from the said point 10 miles north of the north end of the Portage 5th 35' 10" 31 miles and 10 chains to a point 25.75 chains at right angles to the west of the corner established on Henry Creek (10 miles from its mouth) - On the 3^d quarter of 1821, John Rector, under the contract of Stephen and Thomas Lister of the 22^d of March of that year, ran across this line, for the purpose of clearing the public surveys on the southeast side thereof - the work of the line was observed and the fractional section corners for the surveys on the creek and side thereof, and the mile posts thereon were renewed in the 3^d quarter of 1827, by Ed. S. Henshaw, under contract signed by the Surveyor General on the 8th of May, and by 70th Henshaw on the 3^d of June 1827. This renewal was paid for in the 4th quarter of 1828, and charged in the account current of the Surveyor General during that quarter, Voucher A 24 15 - The east boundary 2 miles 22.15 chains was surveyed in the 1st quarter of 1823, by George W. Kinnison, under contract of the 3^d of September 1823 - it was paid for in the 2^d quarter of 1828, and charged in the account current of the Surveyor General during that quarter, Voucher A 13 - The other lines of the township were surveyed by W. L. D. Carey, under contract of the 23^d of September 1823, to wit: - The north boundary 2 miles 73.45 chains & the west boundary 5 miles in the 2^d quarter of 1820. They were paid for in the 2^d and 3^d quarters of 1821 and charged in the accounts current of the Surveyor General for those quarters, Vouchers A 24 19 - The north boundary in the 2^d quarter of 1828 - the 1/4 miles along the north boundary of lat. 38.33.29.35.42.56.57.40 to N, were paid for in the 2^d and 3^d quarters of 1821, and charged in the accounts current of the Surveyor General for those quarters, Voucher A 24 12 - the 63.22 chains along the S. E. of lat. 38.34.28.11, were paid for in the 3^d quarter of 1821 & charged in the accounts current of the Surveyor General for that quarter, Voucher A 15 - The subdivision line 2 miles 22.59 chains in the 2^d and 3^d quarters of 1820 - They were paid for in the 1st quarter of 1821, and charged in the account current of the Surveyor General, during that quarter, Voucher A 15

Surveyor's Office. Saint Louis 4th of January 1842.
Scale of 40 chains to an inch
Aggregate area = 21877.50 acres.

The above plat of Township 40 north of the base line, range 11 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The east boundaries of sections 36, 25, 24, 13 & 12, 5 miles were surveyed in the 4th quarter of 1839, by George W. Harrison, under contract of the 21st of September 1839. They were paid for in the 2^d quarter of 1840, and charged in the account current of the Surveyor General, during that quarter, Voucher N^o 12. The east boundary of section 1, 30 chains, was surveyed in the 3^d quarter of 1840, by the said Harrison, under the same contract, and it was paid for in the 4th quarter of 1840, and charged in the account current of the Surveyor General, during that quarter, Voucher N^o 10. The west boundary 6 miles was surveyed in the 3^d quarter of 1840 by W^m L. B. Ewing, under contract of the 23rd of September 1839. It was paid for in the 2^d and the 4th quarters of 1841, and charged in the account current of the Surveyor General, during those quarters, Vouchers N^{os} 2 & 12. The south boundary 5 miles 62.25 chains, was surveyed in the 2^d quarter of 1840 by W^m L. B. Ewing under his said contract: the 5 miles, along the South boundaries of sections 32 to 36, were paid for in the 2^d and the 4th quarters of 1841, and charged in the account current of the Surveyor General, during those quarters, Voucher N^o 2 & 12. — and the 62.25 chains, along the South boundary of section 31, were paid for in the 4th quarter of 1841, and charged in the account current of the Surveyor General, during that quarter, Voucher N^o 15. The north boundary 5 miles 55.95 chains, and the subdivision lines 51 miles 29.30 chains, were surveyed in the 3^d quarter of 1840, by the said Ewing, under his said contract: they were paid for in the 2^d and the 4th quarters of 1841, and charged in the account current of the Surveyor General, during those quarters Voucher N^o 2 & 12.

Jos. C. Brown,
Surveyor of the public lands for the
District of Mines & Missouri.

Township 41 North of the base line Range 11 East of the 3rd principal Meridian

41

Surveyor's Office
St. Louis January 20th 1849
In the field notes of the East
boundary of this Township, the distance
from the corner of sections 12 & 13 to
the Standard line, is entered as
80.34 chains, and the following thereon
is noted as 16.30 chains. Half of the
quarter section corner on the South
boundary of Sec. 35 is 112.16
Both of these distances, being evidently
erroneous, are omitted. The
distances of 75.33 and 73.52 chains
set down on this plat, on the East
and North boundaries of section 12,
were found by calculation and
used in estimating the several
areas of said section. The
point assumed for the quarter-section
corner on the East boundary of
section 12 is at 81.00 chains
North of the corner of section 12 & 13.

Surveyor's Office, Saint Louis 4th of January 1842.
The above plat of township 41 north of the base line, range 11 east of the 3rd principal meridian, except the north half of section 12 which is omitted on account of an error, in the survey of the east boundary thereof, is strictly conformable to the field notes of the survey of said township on file in this office, which have been examined and approved. The north boundary was surveyed in the 2nd quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by M. Thompson on the 15th of December 1836 — it was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General, issuing that quarter, Voucher No. 6. The east boundaries of sections 36, 25, 24, 13, 4 miles, were surveyed in the 3rd quarter of 1840, by F. W. Harrison, under contract of the 21st of September 1839 — they were paid for in the 4th quarter of 1840 and charged in the account current of the Surveyor General, issuing that quarter, Voucher No. 10. The West boundary 5 miles 10.05 chains, was surveyed in the 2nd quarter of 1840. The South boundary 5 miles 53.35 chains, and the subsidiary lines 50 miles 5.44 chains, were surveyed in the 3rd quarter of 1840 — by W. L. Drury, under contract of the 23rd of September 1839. They were paid for in the 2nd and the 4th quarters of 1841, and charged in the accounts current of the Surveyor General for those quarters, Vouchers No. 2 & 13.

Scale of 40 chains to an inch
Aggregate area = 177 1/2 Townships, except 1/2 Sec. 12.

Jose Brown
Surveyor of the public lands for
the District of Kansas & Missouri.

Township No 42 North of the Base line in Range 11 East of the 3^d principal Meridian.

42

Surveyor's Office.
Saint Louis 24 June 1840.

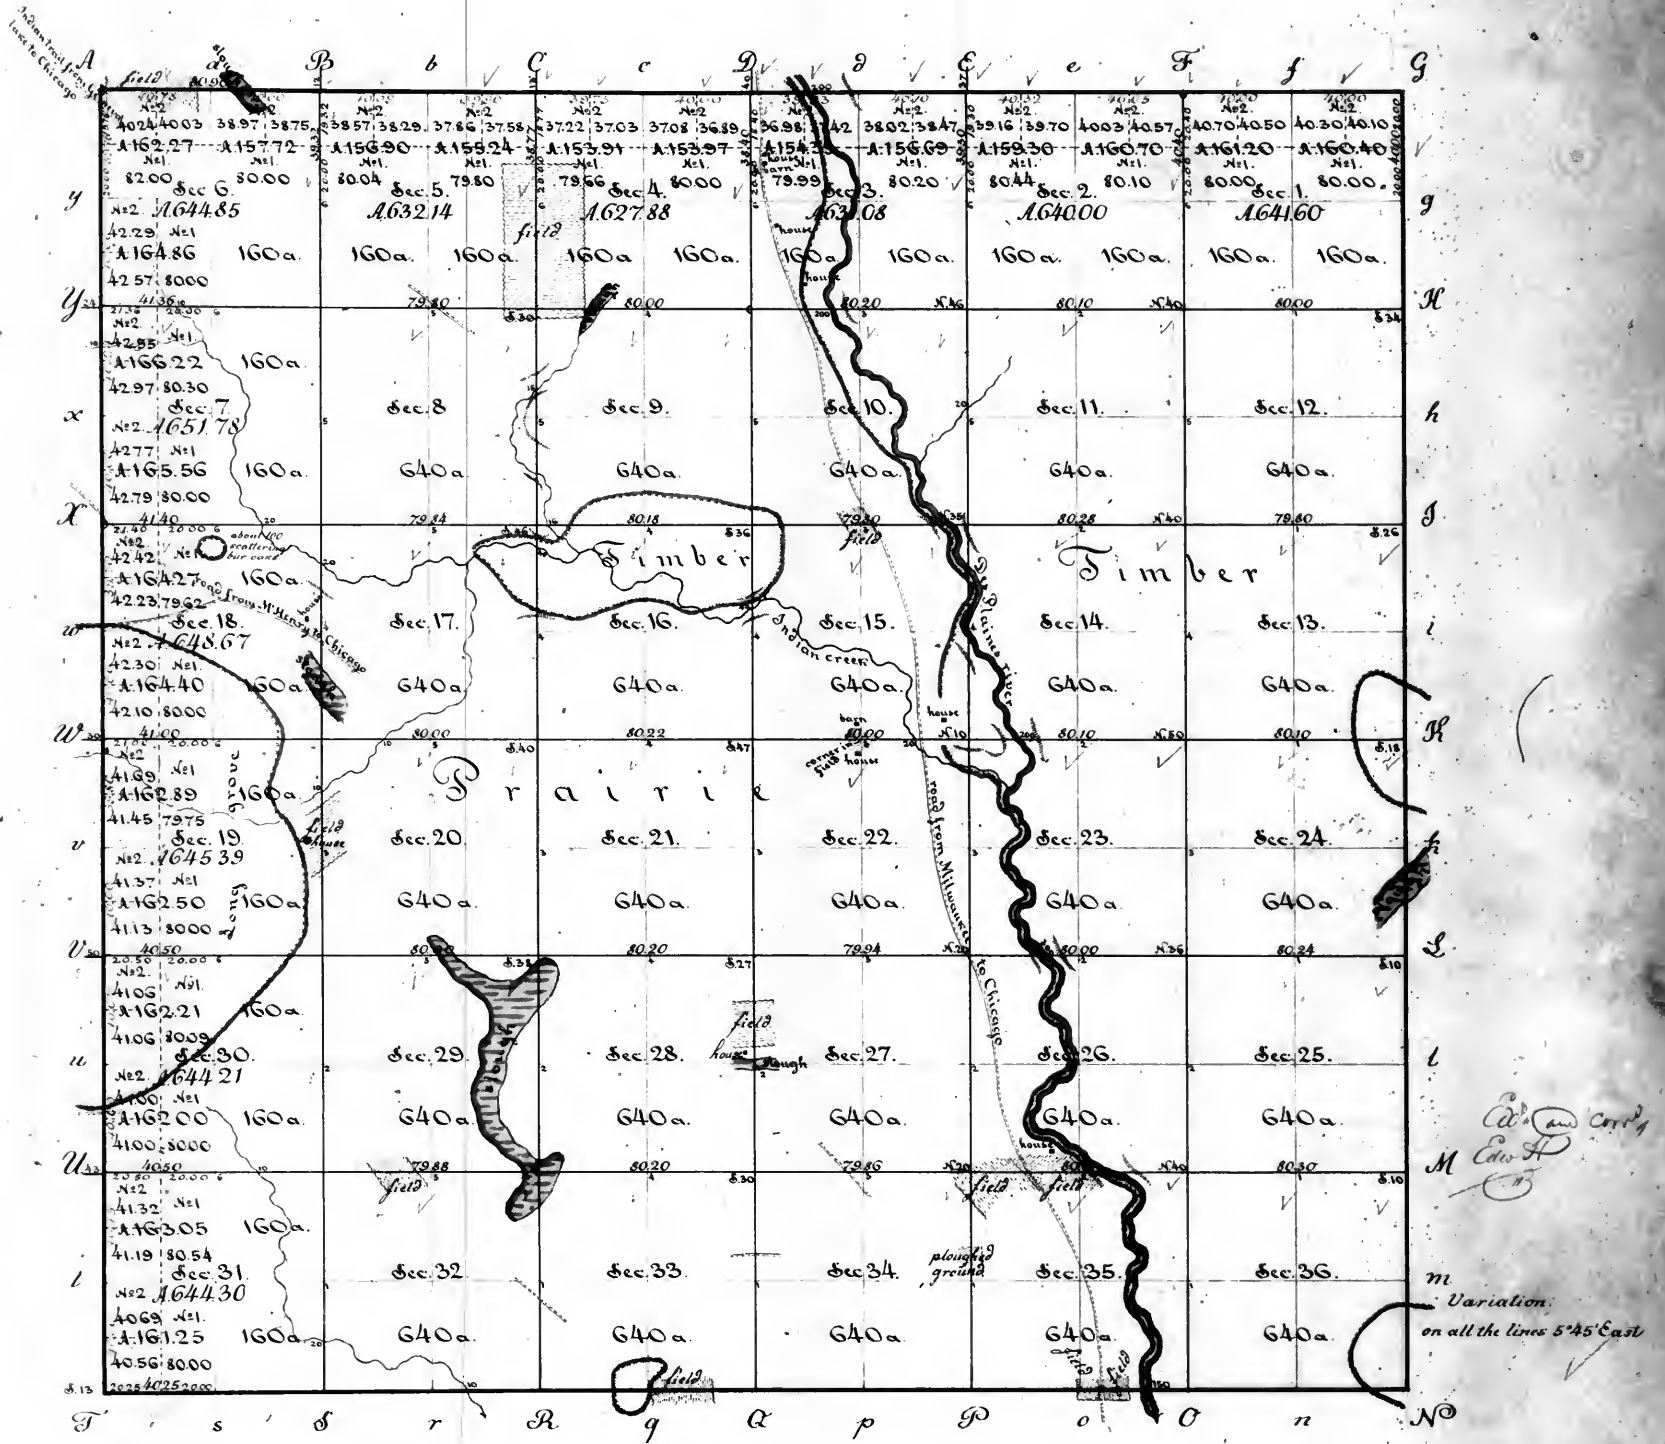

Scale of 40 chains to one inch.
Aggregate area 23134.29 acres

The above plan of township No 42 north of the base line range 11 east of the 3^d principal meridian is strictly conformable to the field notes of the survey of said township on file in this office which have been examined and approved. The South boundary 6 miles was surveyed in the 2^d quarter of 1837, by James Thompson under contract signed by the Surveyor General on the 21st of November 1836, and by the said Thompson on the 15th of December of the same year; it was paid for in the 3^d quarter of 1839, and charged in the accounts current of the Surveyor General for said quarter, Voucher No 6. The West boundary 6 miles, was surveyed in the 2^d quarter of 1838 - the east boundary 6 miles - the north boundary 6 miles and 25 links - and the subdivision lines 59 miles 78.31 chains, were surveyed in the 3^d quarter of 1838, all by E. C. Berry, under contract dated the 9th of September 1837; they were paid for in this 2^d quarter of 1840, and they will be charged in the account current of the Surveyor General, during said quarter, under the general appropriation for surveying the public lands. Voucher No 11.

This is a Plat of Township 33 North of the base line Range 12 East of 3^d principal Meridian, conformable to the field notes
of the survey thereof on file in the Office, which have been examined and approved. The colour boundary lines, were changed in the 2^d
quarter of 1834 - and the subdivision lines in the 2^d and 3^d quarters of 1834, - all by D. George Spaulding, under contract of
the 3^d of October 1833.

William Miller
Surveyor General
A4

Fractional Township 34 North of the base line Range 12 East of 3rd principal Meridian

Surveyor's Office
St. Louis, Mo. August 1833.
I, the undersigned, being a duly qualified Surveyor of the Public Lands of the United States, do hereby certify that the above is a true and correct copy of the original survey of the Township of 34 North of the base line, Range 12 East of the 3rd principal Meridian, as the same is shown on the map of the said Township, and that the same is in conformity with the act of Congress, passed on the 27th of August 1845.

Reference to the field notes used in the construction of this Map of the North boundary by John Clark dated 15th of May 1834 of the South East & West boundaries, the Old Indian boundary line & Subdivision lines by Don Alving Spaulding under his contract of the 3rd of October 1833 and changed for in his account of the 19th of January 1835. The notes of the South boundary in vol. 22nd of May 1834. East boundary as dated 28th of May 1834. Old Indian boundary line as dated 29th of April 1834. West boundary as dated 19th of May 1834. Subdivision lines as dated from the 8th to the 17th of July 1834.

The South East & West boundaries of the Subdivision lines were surveyed at a bearing of 7th 30' East. The North boundary was surveyed at a bearing of 6th 40' East. The Old Indian boundary line was surveyed at a bearing of 6th 50' East.

The mile points surveyed on the old Indian boundary line are, the points projected on the old line at the line of the survey thereof, as well as the points on the new line at the line of the survey thereof. The mile points are projected from the old line to the new line by a line of 1000 feet, and the distance between the old and new points are according to the measurement of the survey.

Surveyor's Office
St. Louis, Mo. August 1833.

The above Map of Fractional Township 34 North of the base line Range 12 East of 3rd principal Meridian is, in conformity to the field notes of the survey thereof on file in this Office which have been examined and approved. The line designated 'Old Indian boundary line' was retraced and the corners or mile-points thereon were removed by Don Alving Spaulding in the 2nd quarter of 1833, under contract of the 3rd day of October 1833. The said 'Old Indian boundary line' was originally surveyed in the 1st quarter of 1819, by James M. Duncan, assistant to John C. Sullivan, under a letter of appointment from William Recker, Surveyor of the lands of the United States in Illinois and Missouri, dated October the 17th 1818, authorizing Sullivan as Surveyor and Duncan as assistant to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States to run the line of the treaty ceded by the treaty of Ghent, signed of the 2nd of August 1816 (page 177 and following - land laws edition of 1833) - This being the line agreed to be run from a point on Lake Michigan 10 miles Southward of the mouth of the Chicago river, in a direct line to a point on the Kankakee 10 miles above its mouth - and was followed by John Sullivan and Duncan to run S. 87th 2' W. As on the 10th of March 1821 - being unable to find and properly identify this line and the mile-points thereon further Southward from the latter than the 8th mile-point, commenced thereon, and retraced S. 87th 2' W. and struck the banks of the Kankakee 130 miles South of the old line, but about 5 chains further Southward. It was this retraced line to which the Surveyor's line of the 10th of March 1821 was closed and which was retraced and removed by Spaulding; and is laid down on this map according to his notes. The north boundary was surveyed in the 2nd quarter of 1834 by John Clark, under contract of the 22nd of September 1833. The south, east, and west boundaries, were surveyed in the 2nd quarter of 1834 - and the Subdivision lines in the 3rd quarter of the same year - all by the said Spaulding, under his contract above mentioned.

William Miller
Surveyor General

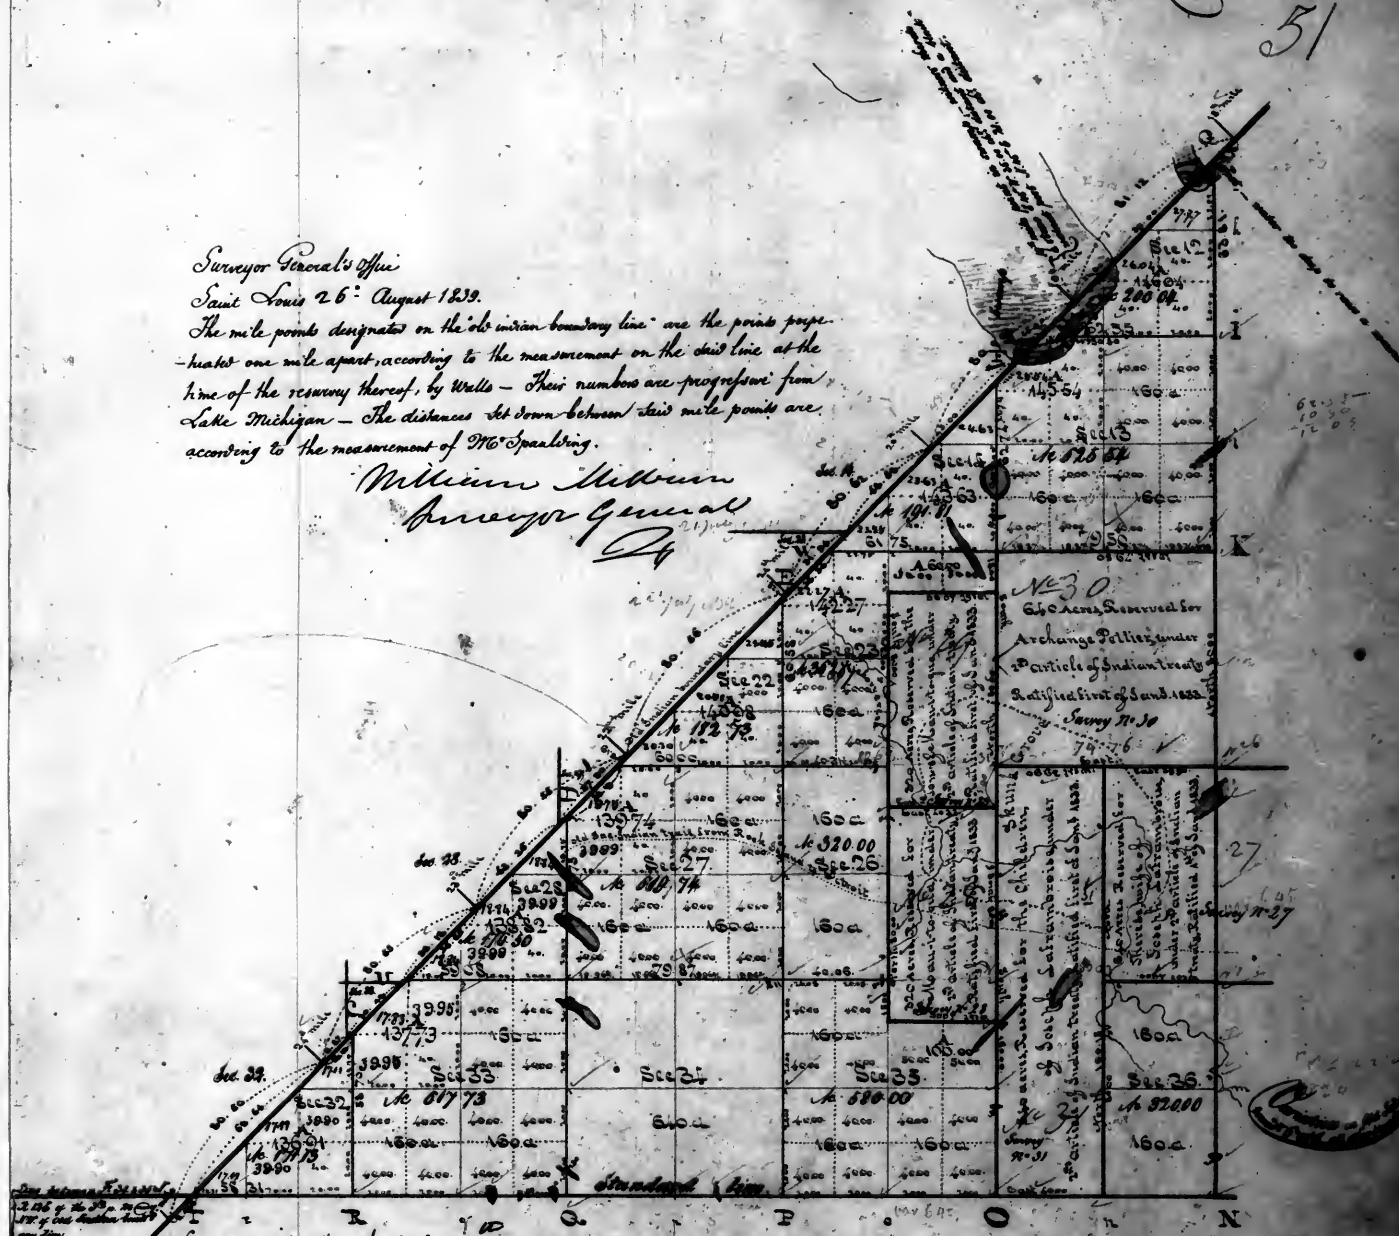

Township 35 North of the base line, Range 12 East of the 3rd Principal Meridian

51

Surveyor General's Office
Saint Louis 26th August 1859.

The mile points designated on the old Indian boundary line are the points proper - marked one mile apart, according to the measurement on the said line at the time of the survey thereof, by Wells - Their numbers are progressive from Lake Michigan - The distances set down between said mile points are according to the measurement of W. C. Spaulding.

William Millman
Surveyor General
OK

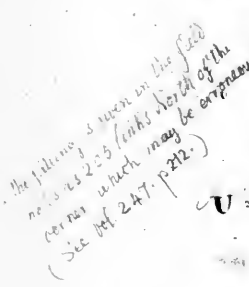

Surveyor General's Office. Saint Louis 26th August 1859.

The above plan of fractional township 35 north of the base line, range 12 east of the 3rd principal meridian, and the aggregate area of Public Land 5007.297 East of Old Indian boundary line is strictly conformable to the files and of the survey of said fractional township - Indian Reservations 2246.000
file in this Office, which have been examined and appeared on the line designated 'Old Indian boundary line' was returned and the errors on mile points therein corrected
was returned by Wm. A. Spaulding in the 2nd quarter of 1854, under contract of the 8th day of October 1855 - The said 'Old Indian boundary line' was originally surveyed
by James M. Duncan, assistant to John C. Sullivan, under a letter of appointment from William Rector, Surveyor of the lands of the United States in Indiana and Wisconsin
dated October the 18th 1818, authorizing Sullivan as Surveyor and Duncan as assistant to survey, under the direction of Commissioner Graham and Phelps, appointed by the
President of the United States to run the line of the treaty ceded by the treaty of Saint Louis of the 26th of August 1816 (page 177 and following) and line - which
of 1828) - This being the line agreed to be run - from a point on Lake Michigan 10 miles south of the mouth of the Chicago river, in a general line to a point
on the Kentucky 10 miles above its mouth - and was done by this Sullivan and Duncan to run S. 45° E. 2nd W. 40 miles and 18 chains - On the 8th quarter of 1821,
John Wells, whilst assisting Stephen Rector and Thomas C. Rector, in the execution of this contract of the 26th of March 1821, being unable to find and properly
locate this line and the mile points therein further South-westward from the latter than the 8th mile point, commenced thereat, and surveyed S. 45° E. 2nd W. and
marked the south of the Kentucky 120 miles South of the old line, but about 5 chains further South-westward - It was this erroneous line to which the survey
to the N. W. corner of the tract, and which was returned by Spaulding, and is laid down on this map, in accordance with his notes - The South boundary was
surveyed in the 2nd quarter of 1824 - the east boundary, in the 2nd and 3rd quarters of 1824 - and the subdivision line and Indian reservations, were surveyed in
the 3rd quarter of the same year - as by the C. Clerk, under contract of the 22nd of September 1855.

Township 39 North of the base line Range 12 East of the 3^d principal Meridian.
(North of the Old Indian boundary line)

57

Surveyor's Office. Saint Louis 15th of August 1843.

The above plat of fractional township 39 north of the base line, range 12 east of the 3^d principal meridian, north of the old Indian boundary line, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The Indian line was surveyed in 1818, by John C. Sullivan, as principal surveyor, and James M. Duncan, as assistant surveyor, under the authority of a letter from W. Rector, Surveyor of the public lands in the territories (now states) of Illinois & Missouri, dated the 18th October 1818, authorizing the said Sullivan & Duncan to survey under the direction of Commissioner Graham and Phelps, appointed by the President of the United States to run the lines of the tracts ceded by the treaty of St Louis of the 24th of August 1804 (1777 and following c. Laws edition of 1828) - this being the line agreed to be run from a point on Sandy creek ten miles above its mouth, in a direct line to a point ten miles north of the west end of the postage 544° 35' W. 28 miles and 70 chains to a point 23.75 chains at right angles to the west of the corner established on Sandy creek (10 miles from its mouth) - On the 3^d quarter of 1823, John Wells, under the contract of Stephen and Thomas C. Rector of the 20th of March of that year, remeasured this line for the purpose of closing the public surveys on the South and side thereof - the whole of the line was retraced and the fractional section-corners for the surveys on the Southeast side, and the mile-points were renewed in the 3^d quarter of 1827, by Eli S. Prescott, under contract signed by the Surveyor General on the 8th May and by Mr. Prescott on the 3^d of June 1827. This remeasurement by Prescott was paid for in the 4th quarter of 1828, and charged in the account current of the Surveyor General during that quarter, Voucher N° 5. The west boundary 2 miles 63.15 chains, and the north boundary 2 miles 45.66 chains were surveyed in October 1829, by Geo. W. Harrison, under contract of 21 September 1829. They were paid for in the 2^d quarter of 1840, and charged in the account of the Surveyor General during that quarter, Voucher N° 12. The subdivision lines 4 miles 79.26 chains were surveyed in July 1842, by Geo. E. Walker, under instructions of the 5th of July of the same year, which instructions were issued under the approved contract of Harrison. These subdivisions will be paid for during this quarter & charged in the account current of the Surveyor General therefor.

Silas Reeds
Surveyor General

Fractional Township 40 North of the base line Range 12 East of the 3rd principal meridian.
 South East of the Old Indian boundary except fractional sections 13 & 24 which are omitted on account of errors in the survey thereof, 3429.56 ac.
 an error on account of error in the survey thereof.

58

Note. The field notes of the survey of the south boundary of this Township call for running East, along the south boundary of sections 36, 35, 34 & 33 in the order here specified which is impracticable.
 In the construction of this Plat, it is considered that the south boundaries of the several sections were run West; but stated through mistake to have been run East.

to by 26th Census, has as yet been paid for.
William H. H. H.
Surveyor of the public lands in
the State of Illinois 19th Dec 1890.
J. H.

Order No. 10.
Morgan Melburn
Manager of the public lands
in the State of Minnesota.

Township N^o 41 North of the Base line in Range N^o 12 East of the 3^d principal Meridian.

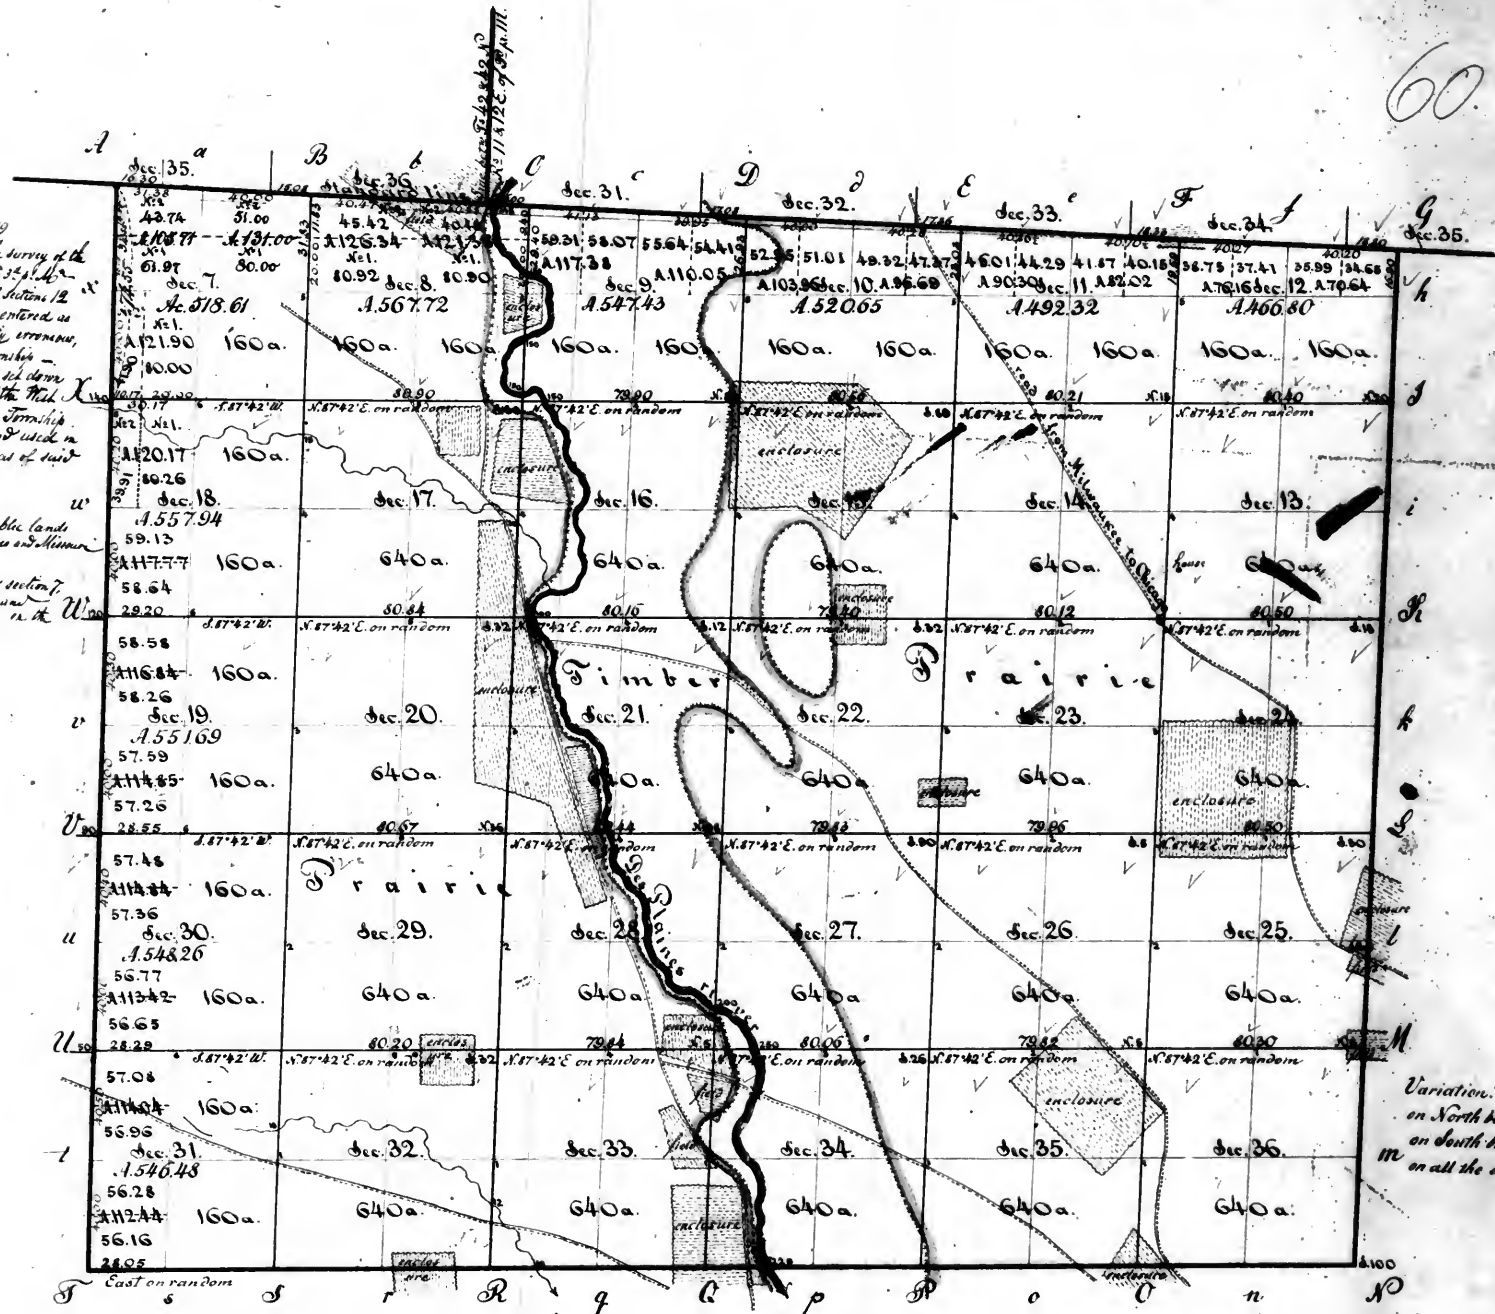

60

Surveyor's Office.
St. Louis January 20th 1849

In the field notes of the survey of the East boundary of Twp. N. 41 E. 12 R. 12 the distance from the corner of Section 12 to the Standard line is entered as 80.34 chains, which being evidently erroneous, is omitted on this plat. The distance of 75.55 chains, set down on this plat, as the length of the said boundary of Section 7, of this Township, was found by calculation, and used in estimating the several areas of said section.

Surveyor of the public lands in the State of Missouri & Illinois.

A copy of the plat of said section 7, was sent to the Register, and another to the Commissioner in the 3^d of Feb^y 1849.

Variation:
on North boundary - 5° 45' East
on South boundary - 7° 50' East
on all the other lines - 5° 40' East.

Surveyor's Office.
St. Louis 6th of January 1841.

Scale of 40 chains to one inch.

Aggregate area 17881.19 acres, except the NE. & NW. quarters of sec. 7.

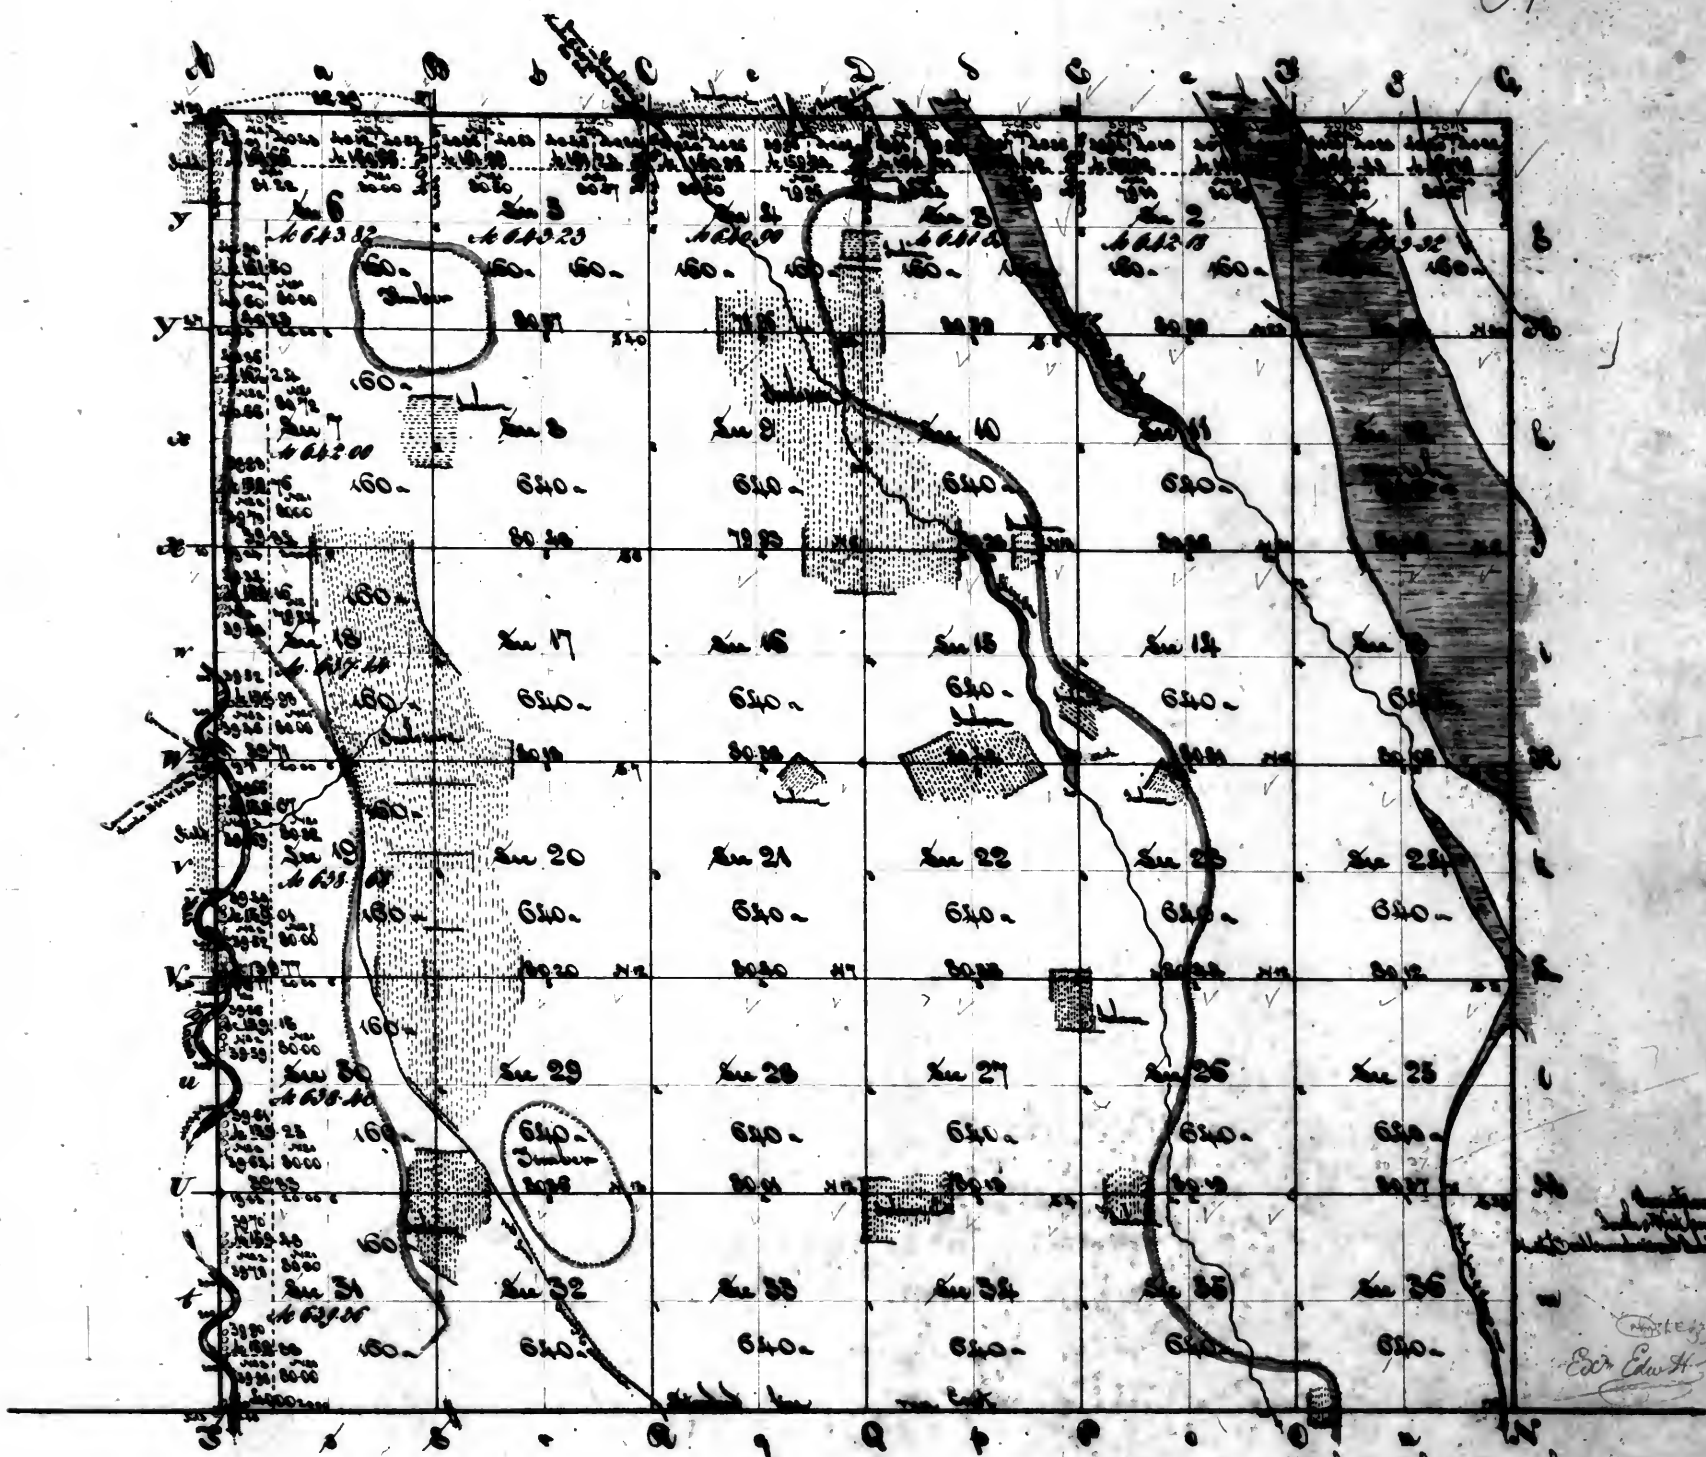

The above plat of township 41 north of the base line, range 12 east of the 3^d principal meridian, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The north boundary was surveyed in the 2^d quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November and by 216th Thompson on the 15th of December 1836; it was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 6. The east boundary 4 miles 56.90 chains was surveyed in the 4th quarter of 1839, by George W. Harrison, under contract of the 21st of September 1839; it was paid for in the 3^d quarter of 1840, and charged in the account current of the Surveyor General during that quarter, Voucher N^o 12. The west boundary 5 miles and 34 links was surveyed in the 3^d quarter of 1840, by George W. Harrison, under contract of the 21st of September 1839 - the 4 miles of the said west boundary, which form the east boundaries of sections 36, 25, 24 & 13 T. 41 R. 11, were paid for in the 4th quarter of 1840, and charged in the account current of the Surveyor General during that quarter, Voucher 10. The south boundary 5 miles 68.05 chains, and the subdivision line 4 miles 51.60 chains, were surveyed in the 3^d quarter of 1840, by the said Harrison under his above mentioned contract. They were paid for in the 4th quarter of 1840, and charged in the account current of the Surveyor General during the same quarter Voucher N^o 10.

William Milburn
Surveyor of the public lands
in the States of Missouri & Illinois.

Township 42 North of the base line Range 12 East of the 3d principal meridian

61

Surveyors' Office.
Saint Louis 24th June 1840.

The above plat of township 42 north of the base line range 12 east of the third principal meridian is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The south boundary 6 miles, was surveyed in the 2nd quarter of 1837, by James Thompson, under contract, signed by the Surveyor General on the 21st of November 1836, and by Mr. Thompson on the 15th of December of that year; it was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General for that quarter, Voucher N^o 6. The west boundary 6 miles was surveyed in the 3rd quarter of 1838, by E. C. Barry, under contract of the 9th of September 1837; it was paid for, in this 2nd quarter of 1840, and will be charged in the account current of the Surveyor General, during the said quarter, Voucher N^o 11. The east boundary 6 miles - the north boundary 6 miles 2.59 chains, and the subdivision lines 60 miles S. 54 chains, were surveyed in the 4th quarter of 1839, all by George W. Harrison, under contract dated the 21st of September 1839. These surveys by Mr. Harrison, were paid for in this 2nd quarter of 1840; and they will be charged in the account of the Surveyor General, for said quarter, under the general appropriation for surveying the public lands - Voucher N^o 12.

William Melburn

at the line 1st & 2nd

Surveyor General's Office.
Saint Louis 19 August 1832.

The above plat of Township 35 north of the base line, range 13 east of the 3rd principal meridian, South east of 'old Indian boundary line' is strictly conformable to the field notes of the survey of said fractional township on file in this office, which have been examined and approved - The line designated 'old Indian boundary line' was retraced and the corners or mile points thereon, were renewed by Don Alonzo Spaulding, in the 2nd quarter of 1834, under contract of the 3rd day of October 1830 - The said 'old Indian boundary line' was originally surveyed in the 1st quarter of 1819 by James M. Duncan, assistant to John C. Sullivan, under a letter of Appointment from William Rector, Surveyor of the Lands of the United States in Illinois and Missouri, dated October the 13. 1818, authorizing Sullivan as Surveyor and Duncan as assistant to survey under the direction of Commissioners Graham and Philips, appointed by the President of the United States, to run the line of the tracts ceded by the treaty of Saint Louis of the 24th of August 1816 (page 177 and following - Land laws, within 1823) - This being the line agreed to be run from a point on Lake Michigan 10 miles Southwest of the mouth of the Chicago creek in a direct line to a point on the Kankakee 10 miles above its mouth, and was found by said Sullivan and Duncan to run S. 48° 2' W. 45 miles and 18 chains - In the 3rd quarter of 1821, John Wallis, whilst assisting Stephen Rector and Thomas C. Rector, in the execution of their contract of the 20th of March 1821, being unable to find and properly locate this line and the mile points thereon, further Southwest from the latter than the 8th mile point, commenced thence, and surveyed S. 48° 2' W. and struck the bank of the Kankakee 180 links South of the old line, but about 5 chains further Southwest - It was this resurveyed line to which the Survey to the N. W. were closed, and which was retraced and renewed by Spaulding, and is laid down on this map, in accordance with his field notes - The north, the east and south boundaries, were surveyed in the 2nd and 3rd quarters of 1834 - The subdivision line - and the Indian reservation, were surveyed in the 3rd quarter of the same year - all by John A. Clark, under contract of the 22nd of September 1830.

The mile points designated on the old Indian boundary line, are the points perpetuated one mile apart according to the measurement on the said line, at the time of the survey thereof by Warren. Their numbers are progressive from Lake Michigan. The distances set down between said mile points are according to the measurement of M. Spaulding.

William Millman
Surveyor General

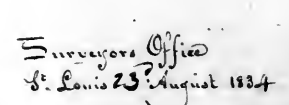

Surveyor General's Office Saint Louis 19 August 1839.

The above plat of fractional township 36 north of the base line, range 13 east of the 3rd principal meridian, south east of old Indian boundary is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The line designated 'old Indian boundary line' was retraced and the mile points or corners thereon were renewed, by M. Spaulding, in the 2nd quarter of 1836, under contract of the 3rd of October 1835. The said 'old Indian boundary line' was originally surveyed in the 1st quarter of 1810, by James M. Duncan assistant to John C. Sullivan, under a letter of appointment from William Redter, Surveyor of the lands of the United States in Illinois, dated October the 15th 1810; authorizing Sullivan as Surveyor, and Duncan as assistant to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States to run the line of the waste ceded by the treaty of Saint Louis of the 24th of August 1816 (page 177 and following - Land Laws, edition of 1825) - This being the line agreed to be run from a point on Lake Michigan 10 miles southward of the mouth of the Chicago river, in a direct line to a point on the Wabash 10 miles above its mouth - and was found by said Sullivan and Duncan to run S. 43° 2' W. 45 miles and 13 chains - In the 3rd quarter of 1821, John Wells, whilst assisting Stephen and Thomas C. Rector, on the occasion of their contract of the 20th of March 1821, being unable to find and properly identify this line and the mile points thereon; further southward from the latter than the 8th mile point, named Horst, and resurveyed S. 41° 2' W. and 57 miles the head of the Wabash 180 miles south of the old line, but about 5 chains further southward - It was this resurveyed line to which the survey to the NW corner closed, and which was retraced and renewed by Spaulding; and is laid down on this map in accordance with his field notes - The South and east boundaries were surveyed in the 2nd quarter of 1834 - and the subdivision lines in the 3rd quarter of the same year - all by John A. Clark, under his contract of the 22nd of September 1835.

Aggregate area 7278.88 acres.

Fractional Township 41 North Range 13 East of the 2d principal Meridian

13

Surveyor's Office
June 24 1840
The above plat of fractional township 41 north of the base line, range 13 east of the 2d principal meridian, is hereby confirmed to the field notes of the survey of said fractional township on file in this office, which have been examined and approved. The south eastern boundary of this fractional township which is designated 'McArthur boundary line' was surveyed in the 4th quarter of 1818, by John C. Sullivan, as principal surveyor, and James McArthur, as assistant surveyor, under the authority of a letter from William Hector, Surveyor of the public lands in the Territories (now States) of Illinois and Missouri, dated the 13th October 1818, authorizing said Sullivan and McArthur to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run the line of the tracts ceded by the treaty of St. Louis of the 23rd of August 1804 (page 177 and following, laws of Illinois of 1820) - This being the line agreed to be run from a point ten miles north of the west end of the Portage between Chicago Creek which empties into Lake Michigan and the River Des Plaines, a part of the Chicago, in a direct line to a point on Lake Michigan, the north end of the mouth of Chicago Creek, and was found by said Sullivan and McArthur to run from the above designated point on Lake Michigan S. 60° E. 10, 3 miles and 75 chains, to the point 10 miles north of the west end of the Portage. The said old survey boundary line was retraced, and the fractional section corners for the surveys on the south east side thereof, and the mile points thereon were renewed in the 3rd quarter of 1837, by E. S. Peck, under contract signed by the Surveyor General on the 8th of May, and by 7th of June 1837. This recovery was paid for in the 4th quarter of 1838 - and charged in the account current of the Surveyor General for that quarter, Voucher No. 5. - The north boundary of this fractional township, was surveyed in the 2nd quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by 7th of December 1836. - It was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General, for that quarter, Voucher No. 6. - The south boundary, West of the old Indian line, viz: East of the survey of Billy Caldwell's Indian reservation, Trunk 57, 25 chains, and west of said Caldwell's survey, Trunk 8, 63 chains together 2 miles 65.34 chains. - The west boundary, 5 miles 56.30 chains - the east boundary, North of the old Indian line, Trunk 65, 22 chains, the subdivision lines 44 miles 55.41 chains, were surveyed, - and the lines of the public surveys, were connected with the surveys of the Indian grants. - 2 miles and 44 chains, all in the 4th quarter of 1839, by George W. Hamilton, under contract of the 21st of September 1839 - They were paid for in the 3rd quarter of 1840, and they will be charged in the account current of the Surveyor General, during the 4th quarter, under the general appropriation for surveying the public lands, Voucher No. 12. - The tract of - 1600 acres, granted to John W. Moore - of 225 acres, granted to Victor J. Fisher, - and of 1600 acres, granted to Billy Caldwell, by the fourth article of the treaty between the United States and the United Nations of Chippewa, Ottawa, and Shawanoe Indians, ratified on the 2nd day of January 1830, were surveyed in the 2nd quarter of 1836, by B. B. Cross, under instructions of the 10th of May of the same year. - It does not appear from the files of accounts in this office that this surveying by B. B. Cross, has ever been paid for.

Subsequent to the survey of June 24 1840, the north eastern boundary line of the above fractional township was surveyed by James McArthur, as principal surveyor, and James McArthur, as assistant surveyor, under the authority of a letter from William Hector, Surveyor of the public lands in the Territories (now States) of Illinois and Missouri, dated the 13th October 1818, authorizing said Sullivan and McArthur to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run the line of the tracts ceded by the treaty of St. Louis of the 23rd of August 1804 (page 177 and following, laws of Illinois of 1820) - This being the line agreed to be run from a point ten miles north of the west end of the Portage between Chicago Creek which empties into Lake Michigan and the River Des Plaines, a part of the Chicago, in a direct line to a point on Lake Michigan, the north end of the mouth of Chicago Creek, and was found by said Sullivan and McArthur to run from the above designated point on Lake Michigan S. 60° E. 10, 3 miles and 75 chains, to the point 10 miles north of the west end of the Portage. The said old survey boundary line was retraced, and the fractional section corners for the surveys on the south east side thereof, and the mile points thereon were renewed in the 3rd quarter of 1837, by E. S. Peck, under contract signed by the Surveyor General on the 8th of May, and by 7th of June 1837. This recovery was paid for in the 4th quarter of 1838 - and charged in the account current of the Surveyor General for that quarter, Voucher No. 5. - The north boundary of this fractional township, was surveyed in the 2nd quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by 7th of December 1836. - It was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General, for that quarter, Voucher No. 6. - The south boundary, West of the old Indian line, viz: East of the survey of Billy Caldwell's Indian reservation, Trunk 57, 25 chains, and west of said Caldwell's survey, Trunk 8, 63 chains together 2 miles 65.34 chains. - The west boundary, 5 miles 56.30 chains - the east boundary, North of the old Indian line, Trunk 65, 22 chains, the subdivision lines 44 miles 55.41 chains, were surveyed, - and the lines of the public surveys, were connected with the surveys of the Indian grants. - 2 miles and 44 chains, all in the 4th quarter of 1839, by George W. Hamilton, under contract of the 21st of September 1839 - They were paid for in the 3rd quarter of 1840, and they will be charged in the account current of the Surveyor General, during the 4th quarter, under the general appropriation for surveying the public lands, Voucher No. 12. - The tract of - 1600 acres, granted to John W. Moore - of 225 acres, granted to Victor J. Fisher, - and of 1600 acres, granted to Billy Caldwell, by the fourth article of the treaty between the United States and the United Nations of Chippewa, Ottawa, and Shawanoe Indians, ratified on the 2nd day of January 1830, were surveyed in the 2nd quarter of 1836, by B. B. Cross, under instructions of the 10th of May of the same year. - It does not appear from the files of accounts in this office that this surveying by B. B. Cross, has ever been paid for.

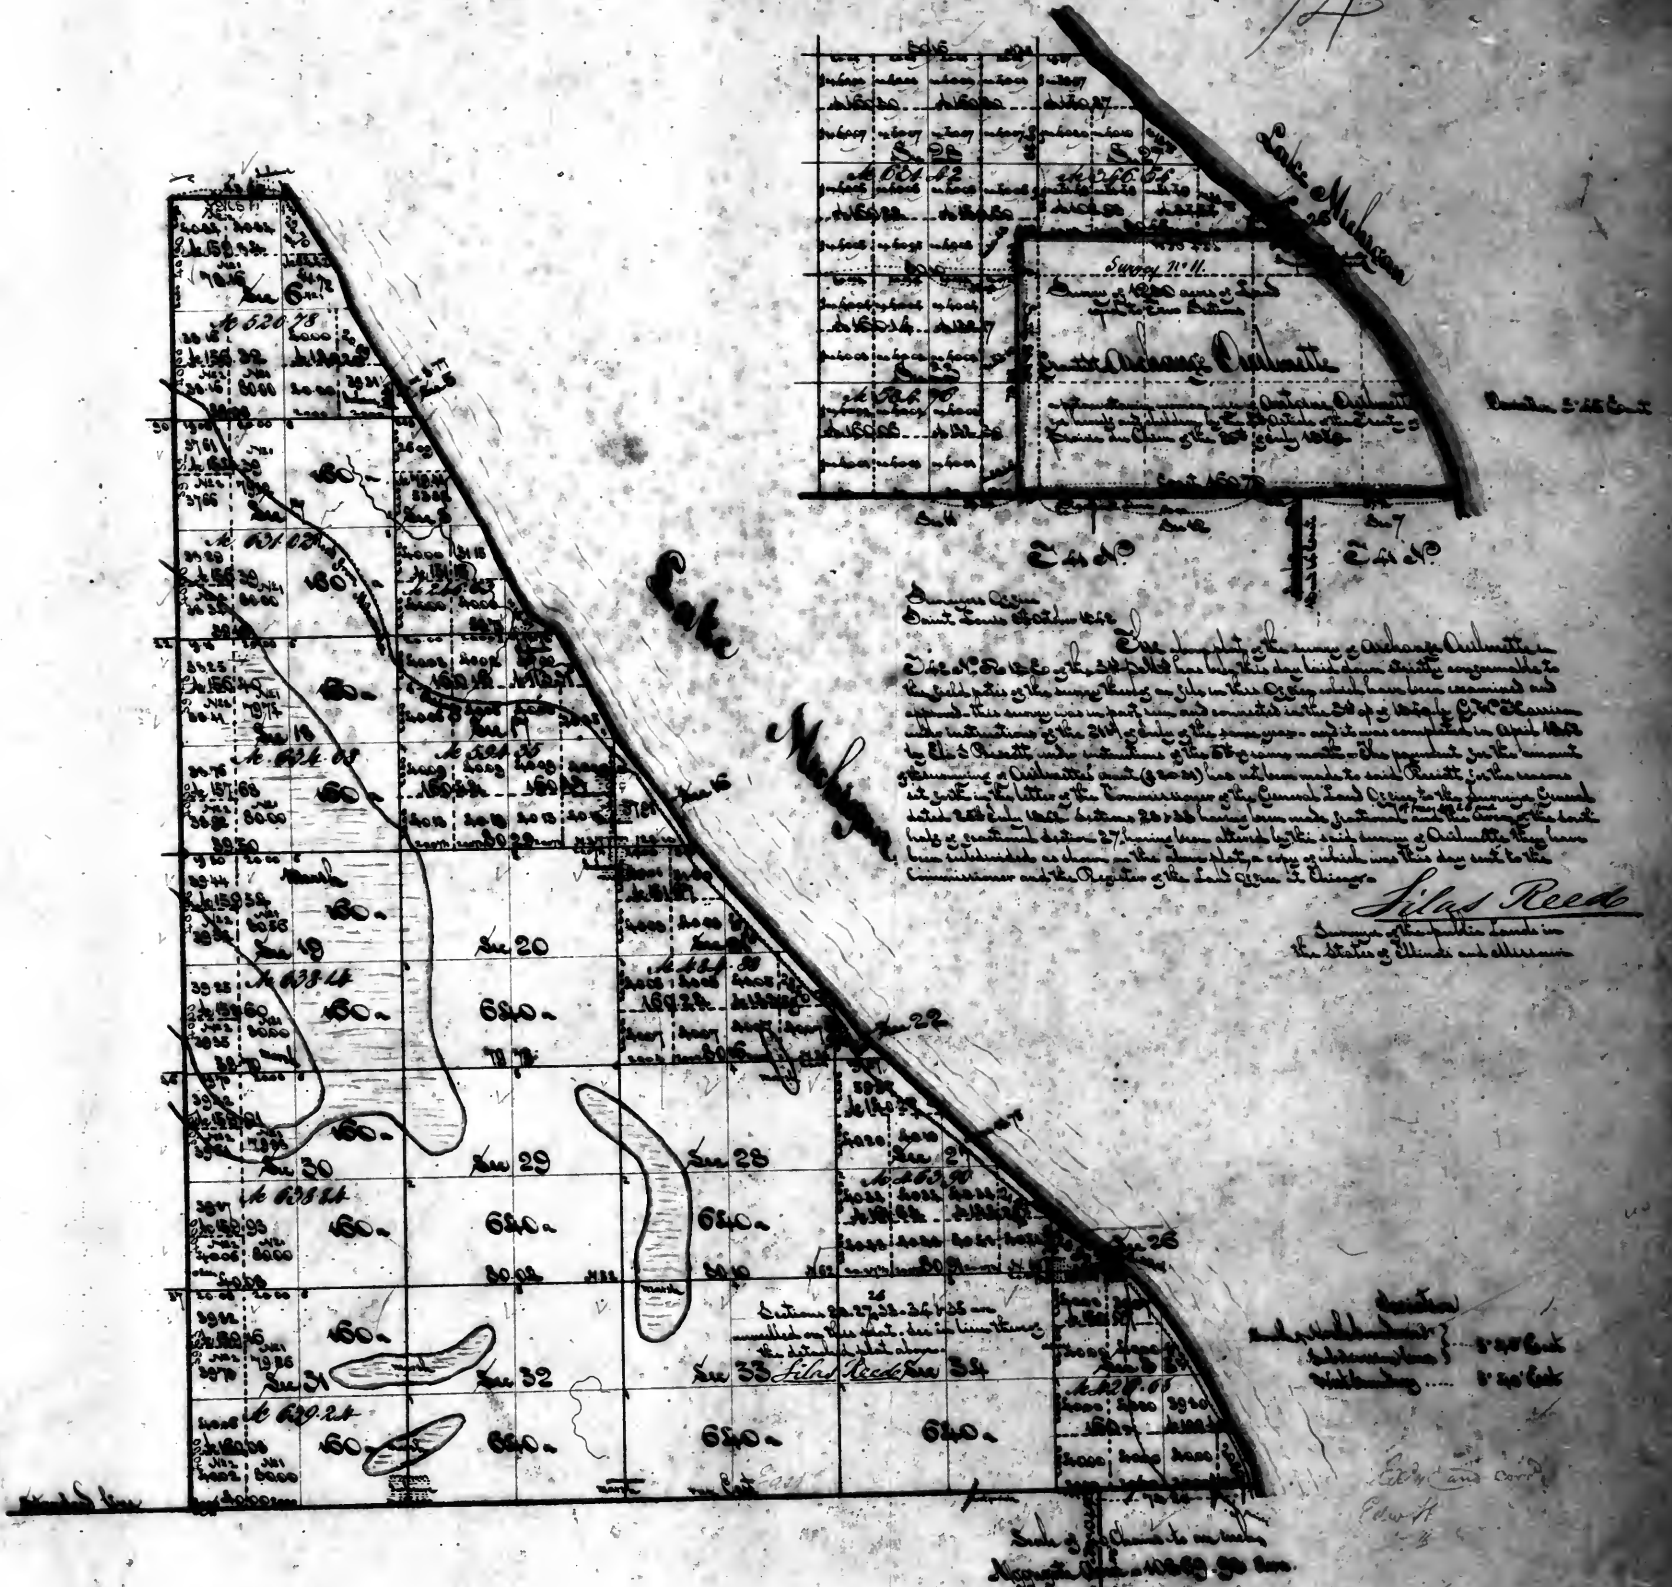

Surveyor's Office
June 24 1840

Subsequent to the survey of June 24 1840, the north eastern boundary line of the above fractional township was surveyed by James McArthur, as principal surveyor, and James McArthur, as assistant surveyor, under the authority of a letter from William Hector, Surveyor of the public lands in the Territories (now States) of Illinois and Missouri, dated the 13th October 1818, authorizing said Sullivan and McArthur to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run the line of the tracts ceded by the treaty of St. Louis of the 23rd of August 1804 (page 177 and following, laws of Illinois of 1820) - This being the line agreed to be run from a point ten miles north of the west end of the Portage between Chicago Creek which empties into Lake Michigan and the River Des Plaines, a part of the Chicago, in a direct line to a point on Lake Michigan, the north end of the mouth of Chicago Creek, and was found by said Sullivan and McArthur to run from the above designated point on Lake Michigan S. 60° E. 10, 3 miles and 75 chains, to the point 10 miles north of the west end of the Portage. The said old survey boundary line was retraced, and the fractional section corners for the surveys on the south east side thereof, and the mile points thereon were renewed in the 3rd quarter of 1837, by E. S. Peck, under contract signed by the Surveyor General on the 8th of May, and by 7th of June 1837. This recovery was paid for in the 4th quarter of 1838 - and charged in the account current of the Surveyor General for that quarter, Voucher No. 5. - The north boundary of this fractional township, was surveyed in the 2nd quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by 7th of December 1836. - It was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General, for that quarter, Voucher No. 6. - The south boundary, West of the old Indian line, viz: East of the survey of Billy Caldwell's Indian reservation, Trunk 57, 25 chains, and west of said Caldwell's survey, Trunk 8, 63 chains together 2 miles 65.34 chains. - The west boundary, 5 miles 56.30 chains - the east boundary, North of the old Indian line, Trunk 65, 22 chains, the subdivision lines 44 miles 55.41 chains, were surveyed, - and the lines of the public surveys, were connected with the surveys of the Indian grants. - 2 miles and 44 chains, all in the 4th quarter of 1839, by George W. Hamilton, under contract of the 21st of September 1839 - They were paid for in the 3rd quarter of 1840, and they will be charged in the account current of the Surveyor General, during the 4th quarter, under the general appropriation for surveying the public lands, Voucher No. 12. - The tract of - 1600 acres, granted to John W. Moore - of 225 acres, granted to Victor J. Fisher, - and of 1600 acres, granted to Billy Caldwell, by the fourth article of the treaty between the United States and the United Nations of Chippewa, Ottawa, and Shawanoe Indians, ratified on the 2nd day of January 1830, were surveyed in the 2nd quarter of 1836, by B. B. Cross, under instructions of the 10th of May of the same year. - It does not appear from the files of accounts in this office that this surveying by B. B. Cross, has ever been paid for.

Fractional Township 42 North Range 13 East 1st principal Meridian

Surveyors Office
Saint Louis 24 June 1840.

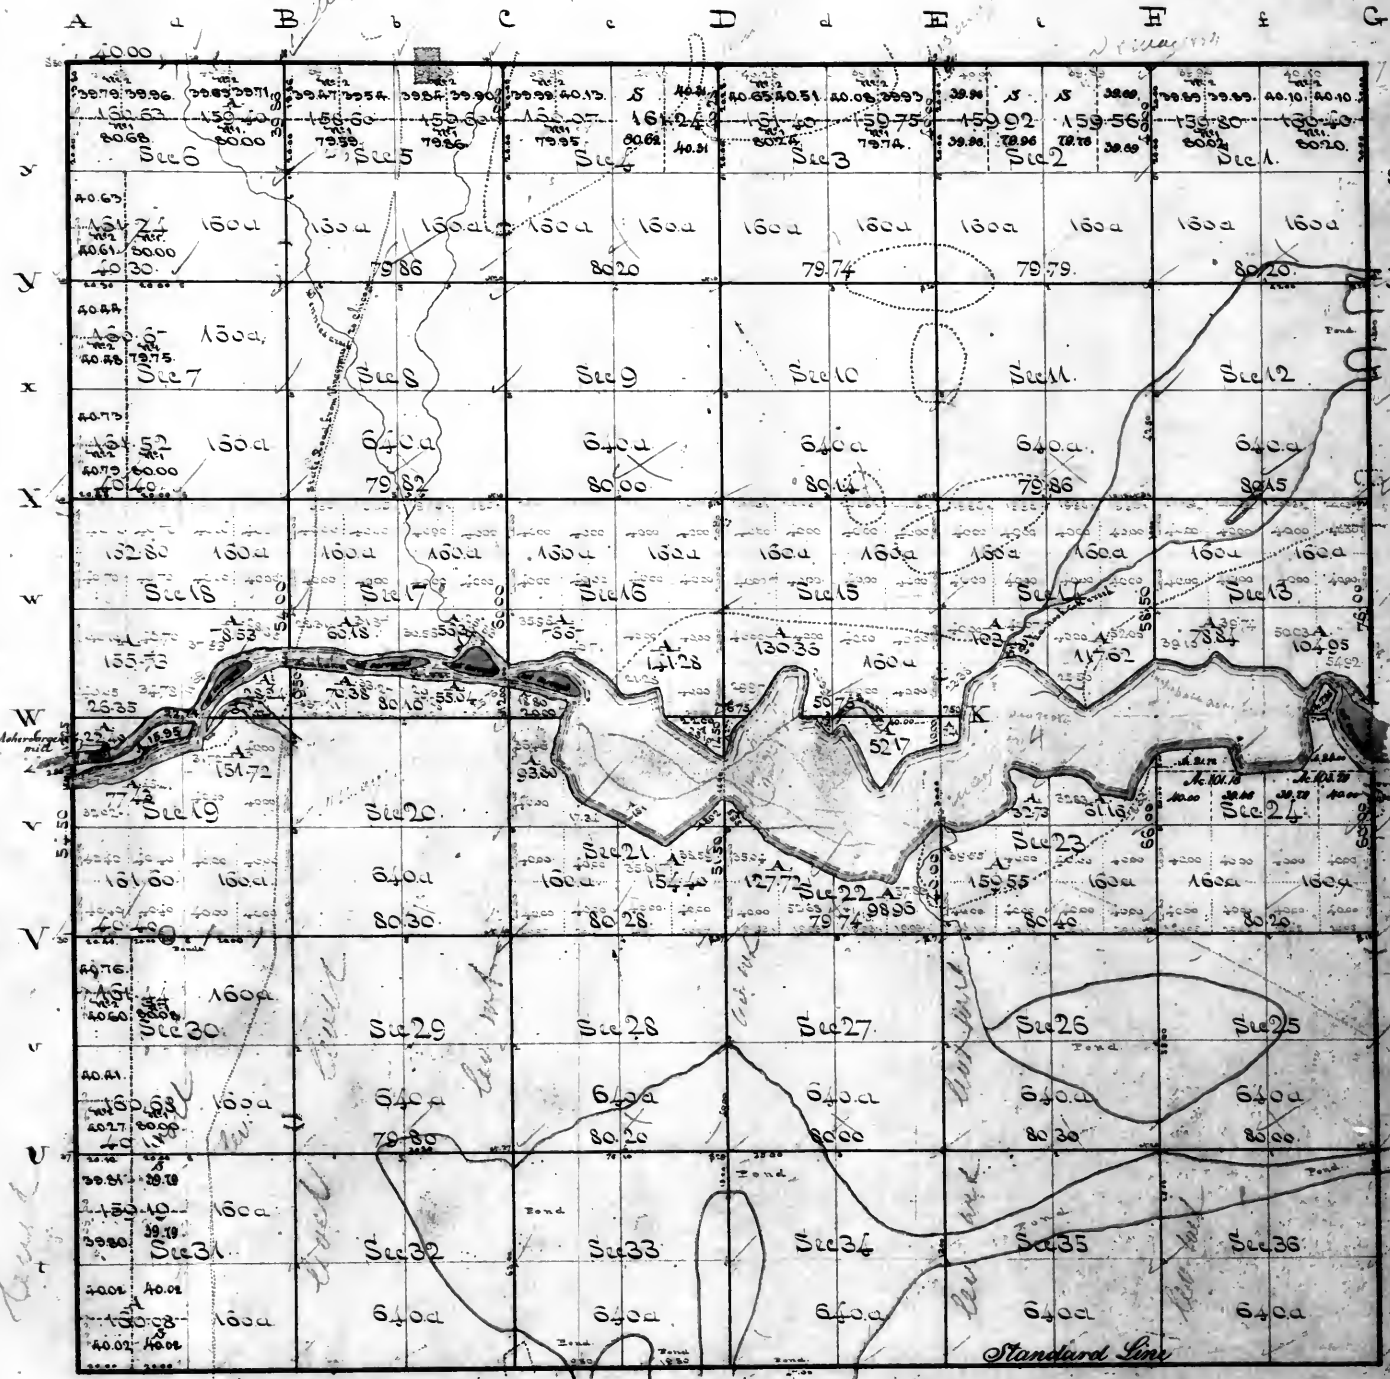

The above plat of fractional township 42 north of the base line, range 13 east of the 3rd principal meridian, on the western margin of Lake Michigan, is strictly conformable to the plat notes of the survey of said fractional township, on file in this office which have been examined and approved. The South boundary 4 miles 14.20 chains, was surveyed in the 2nd quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November 1836, and by W^m Thompson on the 15th of December of the same year. It was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General, for that quarter, Voucher No 6. The west boundary 6 miles - the north boundary 4.3.66 chains - the subdivision lines 24 miles 77.73 chains - and the meanders of the western margin of Lake Michigan 7 miles 41.43 chains, were surveyed in the 4th quarter of 1839, all by George W. Harrison, under contract of the 31st of September of the same year. These surveys by W^m Harrison, were paid for in this 2nd quarter of 1840, and they will be charged in the account current of the Surveyor General, during the said quarter under the general appropriation for surveying the public lands, Voucher No 12.

Surveyor General's Office
 St. Louis, the 7th of April 1840
 The survey of that part of an island, which lies in Section 13, including the connections thereof with the surveys on the main shore, has this day been laid down on this plat, according to the field notes thereof on file in this office, which have been examined and approved. Said survey was executed by Addison Collins in the first quarter of 1840, under instructions from this office, dated the 11th of December 1839, signed in conformity with the letter of the Commissioner of the General Land Office, dated the 17th of July 1837. A plat of fractional section 13 on island has this day been sent to the General Land Office, and another plat thereof to the Register of the District Land Office.
 William H. Brown
 Surveyor of the public lands in Missouri and Napoleon

On February 5th 1839, the area of the island of the north half of section 24, and of fractional section 13, and the river, was calculated, also the north half of section 2, and the south half of section 3, and the whole township was divided into 36 equal parts, and a copy of the plat thereof was sent to the Commissioner of the General Land Office, and a copy of the plat of the whole township was sent to the Register at Chicago on the same day.

See letter from Register to St. Louis giving an account of sales.

Public land on main shore exclusive of the old half of sec. 24 and that part of sec. 13 which lies south of the river. 21400. 4 acres.
 Estimated area of river, including islands, of 3 of sec. 24 and that part of sec. 13 which lies south of the river. 1406. 66.

Total, 22806. 06 acres.

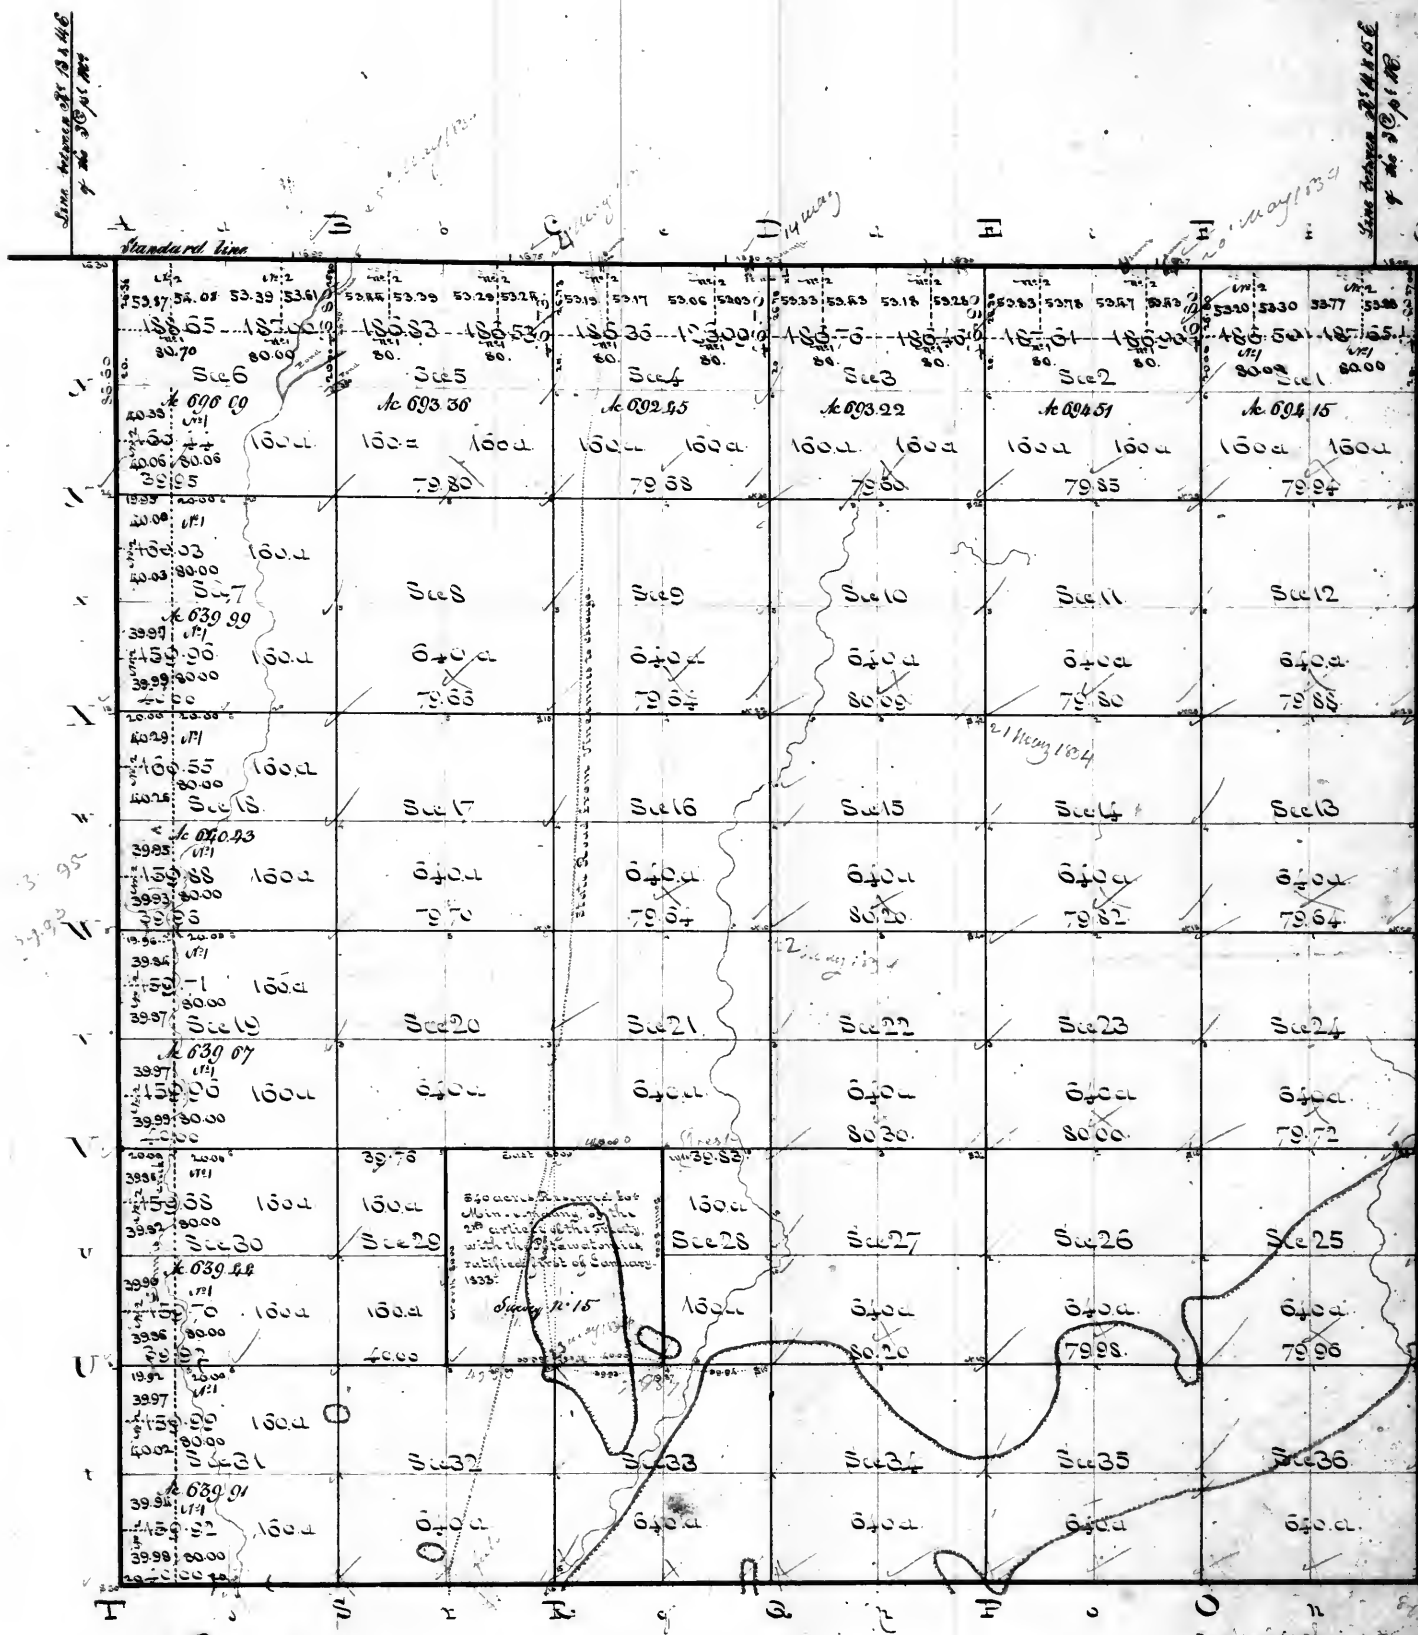

Surveyors Office.
 Saint Louis 23rd November 1838

The above plat of Township 31 North of the base line, range 14 East of the 3rd principal meridian, except the north fractional half of section 24, and that part of section 13, which lies south of the Kankakee river is strictly conformable to the field notes of the survey of that township, on file in this office, which have been examined and approved. The South and West boundary lines, were surveyed in the 4th quarter of 1835, and the East and North boundaries and the subdivision lines and meanders, were surveyed in the 2nd quarter of 1834, all by Daniel W. Beckwith, under contract of the 25th day of October 1835.

William H. Miller
Surveyor General

Township 36 North of the base line, Range 14 East of the 3rd principal meridian

Color 20

Surveyor General's Office.
Saint Louis 19th August 1838

The above plat of fractional township 36 north of the base line, range 14 east of the 3rd principal meridian, south east of the old Indian boundary line, is strictly conformable to the field notes of said fractional township on file in this office which have been examined and approved. The line designated 'old Indian boundary line' was retraced and the corners or mile-points thereon were renewed; by J. B. Spaulding, in the 2nd quarter of 1838, under contract of the 3rd day of October 1833. The said 'old Indian boundary line' was originally surveyed in the 1st quarter of 1810, by James M. Duncan, assistant to John C. Sullivan, under a letter of appointment from William Reeder, Surveyor of the lands of the United States in Missouri. By Missouri, 18th October the 17th 1817, authorizing Sullivan as surveyor and Duncan as assistant, to survey under the direction of Commissioner Graham and Phelps, appointed by the President of the United States to run the line of the tract ceded by the treaty of Saint Louis of the 24th of August 1816 (page 177 and following - Land laws, edition of 1828). This being the line agreed to be run from a point on Lake Michigan 10 miles southward of the mouth of the Chicago creek, in a direct line to a point on the Kankakee 10 miles above its mouth, and was found by said Sullivan and Duncan to run S. 45° 2' 10" W. 4 miles and 18 chains. In the 3rd quarter of 1821, John Wells, assistant to Stephen Reeder and Thomas C. Reeder, in the execution of their contract of the 20th of March 1821, being unable to find and properly identify this line and the mile-points thereon, further southward from the latter than the 1st mile-point, commenced thereat, and retraced S. 45° 2' 10" W. and struck the bank of the Kankakee 180 links south of the old line, but about 5 chains further southward. It was this retraced line to which the surveys to the N. W. were done, and which was retraced and renewed by Spaulding; and is laid down on this map, in accordance with his field notes. The north, the east, the south of the west boundary line - the subdivision line and measures of both, banks of Little Kankakee River, and the Indian Reservation, were all surveyed in the 2nd quarter of 1834, by John B. Clark, under contract of the 22nd of September 1833.

William Millman
Surveyor General

Surveyor General's Office
Saint Louis 26th August 1838.
The mile-points designated on the old Indian boundary line are, the points proposed one mile apart according to the measurement on the line at the time of the survey thereof by Wells. Their numbers are given in the margin of the plat. The distances between said mile-points are according to the measurement of Spaulding.

Not drawn by any section and any 5' 30" and all the other lines 6' 40" and.

Aggregate area of Public land 21765.28
Indian reservation 610.00
Total 22405.28 acres

Office of the Surveyor General for Miami and Missouri. March 6, February 1888.

The Subdivision of T. 37, R. 16 E., in June 1883, by John Wade, under the contract of Thos. C. and Stephen Reeder of 20 March of that year, the latter Reeder was not answered on Feb. 12, 1884, which prevents the calculation of the acres of said negative tracts. This land was introduced in the 13 November 1885, to complete the surveys of those sections. The ran by Mrs (a Beccomb 1850) detailed above, and said Reeder's 13, 14 & 35, are this day laid down on the plat, strictly conformable to his field notes, which have been examined and approved. One Quarter 13, 35 of this Reeder was this day paid for to said Reeder, and will be charged on my account current with the United States, during his guardianship, and a contribution of \$1500, made the 3rd March 1888, for the construction of irrigation and drainage surveys on 5th section and adjacent portions in Miami and Missouri, at a rate not exceeding six dollars per mile. See p. 65 last of 3rd session of 30th Congress.

Yours respectfully,
J. H. ...

Surveyors Office
St. Louis July 1874

The above Plat of fractional Townships 36 & 37 North of the base line, Range 14 East of the 3^d principal meridian, North West of the Old Indian boundary line, except fractional sections 13, 14 & 23 Township 37 North, is conformable to the field notes of the survey thereof on file in this Office.

Surveyed June 24 1840

Surveyors Office

St. Louis 24th June 1840

The above plat of fractional township 4 North range 14 East of the 3^d principal meridian, north west of the old Indian boundary line, and on the western side of Lake Michigan, is strictly conformable to the field notes of the survey of said fractional township on file in this office, which have been examined and approved - The South eastern boundary of this fractional township which is designated 'Old Indian boundary line' was surveyed in the 4th quarter of 1818, by John C. Sullivan, as principal surveyor, and James M. Duncan, as assistant surveyor, under the authority of a letter from William H. Sullivan, Surveyor of the public lands in the territories (now states) of Illinois and Missouri, dated the 18th of October 1818, authorizing said Sullivan and Duncan to survey under the direction of Commissioners Graham and Phelps, appointed by the President of the United States, to run the lines of the tracts ceded by the treaty of Saint Louis of the 24th of August 1816 - C. page 177 and following, land laws, section of 1823 - This being the line agreed to be run from a point ten miles north of the west end of the portage between Chicago Creek, which empties into Lake Michigan, and the River Des Plaines, a fork of the Illinois, in a direct line to a point on Lake Michigan ten miles northward of the mouth of Chicago Creek - and was found by said Sullivan and Duncan to run from the above designated point on Lake Michigan (A on this plat) S. 60 1/2 W. 8 miles and 75 chains to the said point 10 miles north of the west end of the portage - The said 'Old Indian boundary line' was retraced, and the fractional section corners for the surveys on the S. E. side thereof, and the mile points thereon, were renewed in the 3^d quarter of 1837, by E. J. Trickett, under contract signed by the Surveyor General on the 8th of May, and by Mr. Trickett on the 2^d of June 1837 - This running was paid for in the 4th quarter of 1838, and charged in the account current of the Surveyor General for that quarter, Voucher D. 5 - The north boundary of this fractional township 57.91 chains, was surveyed in the 3^d quarter of 1837, by James Thompson, under contract signed by the Surveyor General on the 21st of November, and by Mr. Thompson on the 15th of December 1836 - it was paid for in the 1st quarter of 1839, and charged in the account current of the Surveyor General for said quarter, Voucher D. 6 - The west boundary 3 miles 65.42 chains - the subdivision lines 3 miles 33.65 chains, and the meanders of the western margin of Lake Michigan 3 miles 4.59 chains, were surveyed in the 4th quarter of 1839, all by George W. Harrison, under contract of the 21st of September of the same year - They were paid for in this 2^d quarter of 1840, and they will be charged in the account current of the Surveyor General, during said quarter, under the general appropriation for surveying the public lands, Voucher D. 12.

Surveyor's Office.

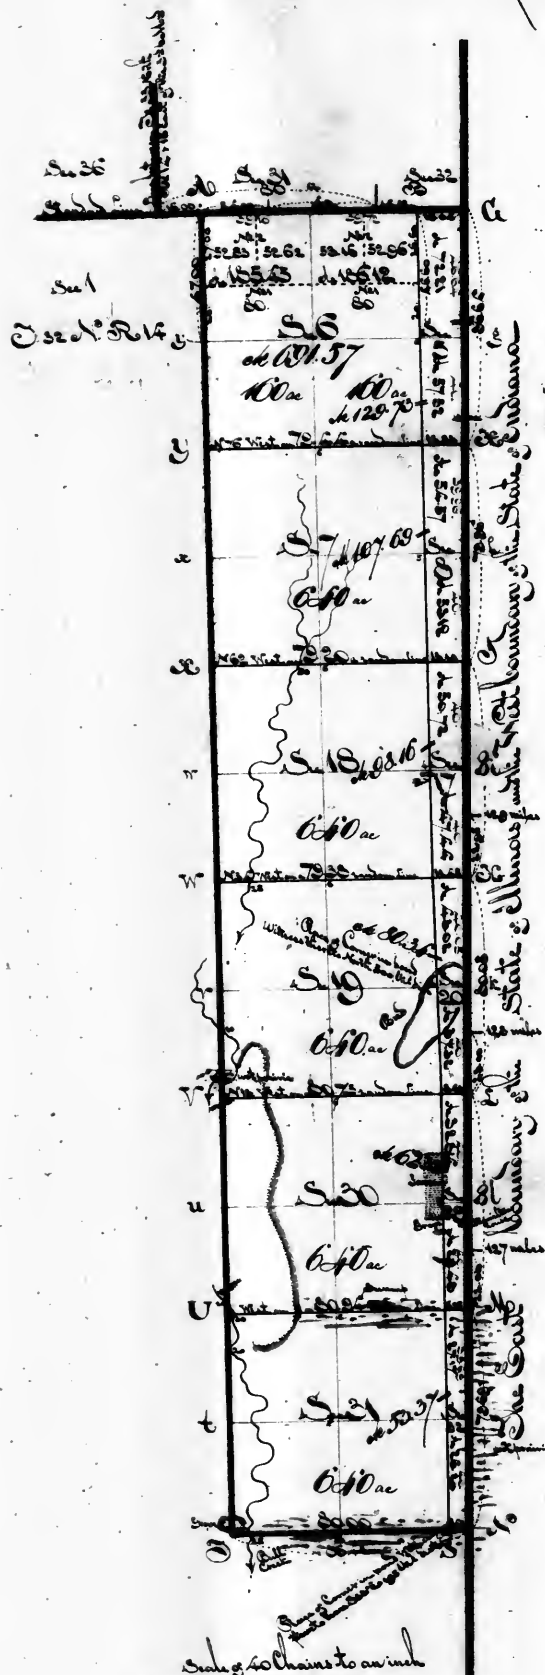

Saint Louis 2nd of June 1843.

The above plat of fractional township 31 north of the base line, range 15 east of the 3rd principal meridian, west of the line between the States of Indiana and Illinois, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The said State line was surveyed or rather a line which had been formerly run, was retraced, marked and measured in the 1st or 2nd quarter of 1824, by Silas Hickey, under the provisions of the act of Congress of the 2nd of March 1820 to authorize the President of the United States to cause the public surveys to be connected with the line of demarcation between the States of Indiana and Illinois, as certified to this office on the 10th of June 1834 by Mr. J. Williams, Surveyor General of Ohio, Indiana and Michigan. In the 1st quarter of 1843, Silas Houlanicki, under his contract of the 9th of November 1842, made the connections and measurements along said line, details in the Statement B, above - 2 miles 47.65 chains, which were paid for in his 2nd quarter of 1843; and will be charged in the Surveyor General's account for said quarter Voucher N^o 1 - The west boundary 6 miles was surveyed in May 1844, by W. Beckwith, under contract of the 29th of October 1843 - See note A above for some operations in this line by Houlanicki, in January 1843 - The South boundary 79.14 chains - the north boundary 1 mile 6.42 chains - the subdivision lines 10 miles 11.73 chains, and the measure of both banks of the River & the river 4 miles 21.69 chains, were surveyed in January 1843, by Silas Houlanicki, under his contract of the 9th of November 1842. They were paid for in his 1st quarter of 1843; and they will be charged in the account current of the Surveyor General during said quarter Voucher N^o 1.

Silas Houlanicki
Surveyor of the public land in
the State of Illinois & Wisconsin

Fractional Township 32 North Range 15 East, 3d Principal Meridian

27

The South boundary of Sec. 32 T. 32 N. R. 15 E. 3d P.M. was stated by the act of the Original Survey by S. A. Spaulding to be 15 chains. The distances at points along said line on this plat are conformable to the measurement of said line by S. A. Spaulding.

A. M. Kulamicki having been instructed to verify the closing of the west boundary of this township on the Howard line, as run by Spaulding, resurveyed the East boundary of sec. 1 T. 32 N. R. 14 E. north of the quarter section corner, and found it 146.25 ch. - he also ascertained the distance from the corner to sec. 1 T. 32 N. R. 14 E. and sec. 6 T. 32 N. R. 15 West to the corner of T. 32 N. R. 15 E. to be 15.95 chains - together 62.77 chains, which were paid for to said Kulamicki, and will be charged to the United States, as his other surveying in this township.

Silas Reed

The mile-points designated on the State line are the points designated one mile apart, according to the measurement on the said line, at the time of the survey thereof - Their numbers are progressive from the intersection with the Wabash river.

Variation

North boundary - 6.45 East.
State boundary - 6.46 East.
West boundary - 7 East.
South boundary & subdivision lines - 7.15 East.

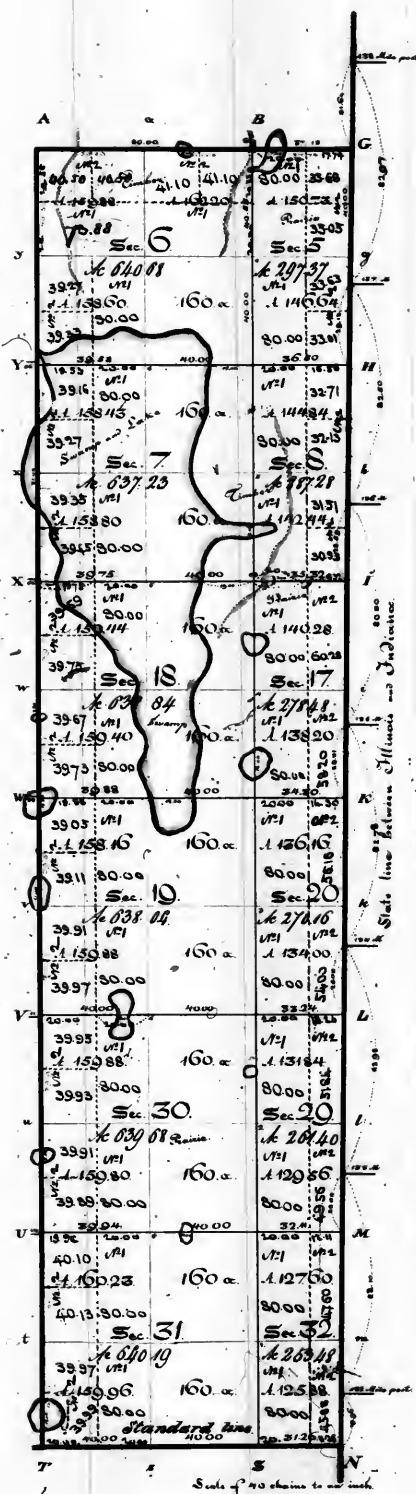

Surveyor's Office.
Saint Louis 2^d of June 1843.

The above plat of fractional township 32 north of the base line, range 15 east of the 3^d principal meridian, west of the line between the States of Indiana & Illinois is strictly conformable to the plat notes of the survey thereof on file in this office which have been examined and approved - The said State line was surveyed, or rather a line which had been formerly run, was retraced, marked and measured in the 3^d quarters of 1834, by Silas Reed, under the provisions of the act of Congress of the 2^d of March 1833 - & authorized the President of the United States to cause the public surveys to be connected with the line of demarcation between the States of Indiana and Illinois as certified to this Office by Mr. J. Williams, Surveyor General of Ohio, Indiana & Michigan - In January 1843, Silas Kulamicki, under his contract of the 9th of November 1842, resurveyed this line 6 miles 6.34 chains, which was erroneously set down in Kulamicki's account 6 miles 6.29 chains, and paid for on the 5th of May 1843; which account will be voucher No. 1 of the account current of the Surveyor General for this 3^d quarter of 1843 - The west boundary 6 miles and 7 chains was surveyed in May 1834, by B. W. Desha, under his contract of the 29th of October 1833 (see note A above) - The north boundary 1 mile 15.26 chains was surveyed by B. A. Spaulding in August 1834 under his contract of the 3rd of October 1833 - It was resurveyed by Kulamicki in the 1st quarter of 1843, under his contract of the 9th of November 1842 - 1 mile 14.86 chains, which was paid for in the 2^d quarter of 1843; and will be charged on the account of the Surveyor General during the said quarter voucher No. 1 - The South boundary 1 mile 6.42 chains, and the subdivision lines 11 miles 60.25 chains, were surveyed by the said Kulamicki in the 1st quarter of 1843, under his contract of the 9th of November 1842. These surveys were paid for to Kulamicki, and they will be charged to the United States as aforesaid.

Silas Reed
Surveyor of the public lands in
the States of Indiana & Illinois

28

Aggregate Area 5482.83 acres

Surveyor's Office

St. Louis 12th Nov. 1845.

Subdivided under the act of 1833, 14, the same fractional in Sec 5, 8, 17, 20, 29 & 32 - the 10th & 15th W. of Sec 6, the Wth of Sec 7, 12, 14, 30 & 31 and sent many copies of the plat thereof on to the Register and another to the same, on the 27th of August 1845.

Reference to the field notes and on the continuation of this plat of the State line between Missouri & Indiana along the East boundary of this fractional Township by Sylvester Sibley in March, April 1834 of the North West & South boundaries of Sub-Division lines by Don Alango Spaulding under the contract of the 3rd of October 1833 and changed for in his account of the 29th of January 1835. The notes of the South boundary are dated 15th of August, 1834. North boundary are dated 26th of August, 1834. West boundary are dated 4th of June 1834. Subdivision lines are dated 19th & 20th of August 1834.

The State line shows Missouri & Indiana was surveyed at a Variation of 0th 20' East. The North West & South boundaries of the Subdivisions lines were surveyed at a Variation of 0th 45' East.

Surveyor General's Office.

St. Louis 26th August 1839.

The mile points designated on the State line are, the points re-petitioned one with a part according to the measurement on the said line, at the time of the survey thereof. Their numbers are progressive from the intersection with the Wabash river. The distances set down between said mile points are according to the measurement of Wm. S. Day.

William M. McQuinn
Surveyor General

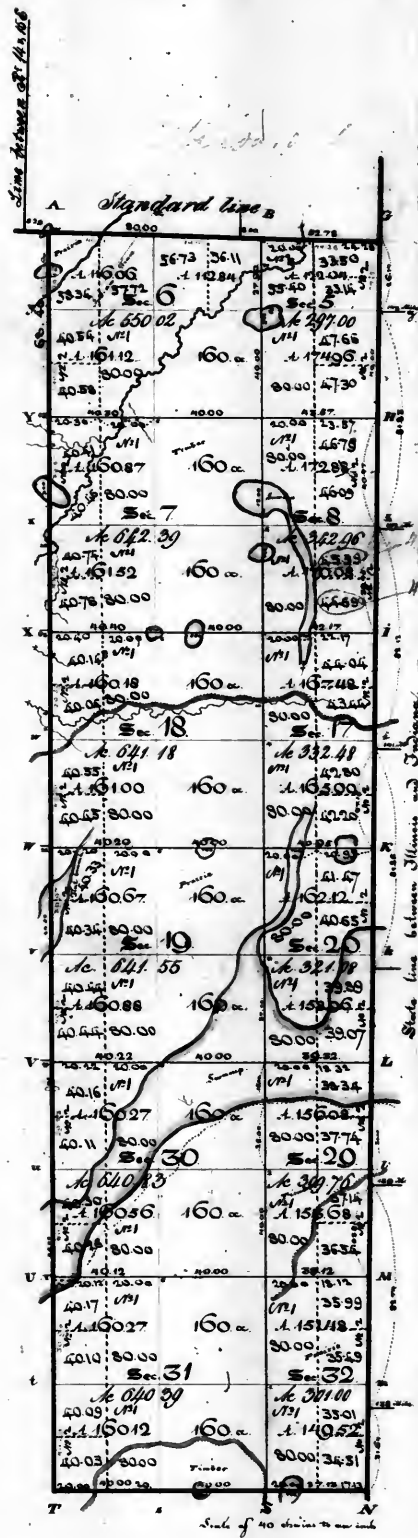

Surveyor's Office

St. Louis 17th August 1839.

The said plat of fractional Township 33 North of the base line Range 15 East of 3rd principal Meridian is exactly faithful to the field notes of the survey thereof in file in the Office which have been examined and approved. The east boundary line, that is the line between the States of Indiana and Illinois was surveyed, in 1834, a rather a line which had been formerly run, was "surveyed, marked and measured" in the 3rd & 2nd quarter of 1834, by Sylvester Sibley, under the provisions of the act of Congress of the 2nd of March 1833 to authorize the President of the United States to cause the public surveys to be connected with the line of demarcation between the States of Indiana and Illinois as subject to this Office on the 10th of June 1834. by Mr. J. Williams, Surveyor General of Ohio, Indiana and Michigan. The West boundary was surveyed in the 2nd quarter of 1834. The South boundary - the North boundary and the Subdivision lines, were surveyed in the 3rd quarter of 1834 - all by D. A. Spaulding, under his contract of the 3rd of October 1833.

William M. McQuinn
Surveyor General

Fractional Township 34 North of the base line Range 15 East of 3rd principal Meridian

29

Surveyor's Office

St. Louis 12th Nov. 1844

Subdivision made on the 20th of 1832, 14th section fractional at Sec 5, 8, 17, 20, 29 & 32; the N^W 1/4 Sec 24, 25, 26, 27, 28, 29, 30 & 31; the N^W 1/4 of Sec 32, 33, 34, 35, 36 & 37. And that being a part of the first township, one to the State, and another to the 16 commissioners, on the 27th of August 1845.

Reference is made to the field notes used in the construction of this Map of the State line between Illinois & Indiana being the East boundary of the fractional Township by Sylvester Sibley in March & April 1834 of the North boundary by John Clark dated 16th of May 1834 of the South & West boundaries & East division line by David Allen Spanning under his contract of the 2nd of October 1833 and changed for in his account of the 25th of January 1835. The West of the South boundary on dated 26th of August 1834. West boundary on dated 5th & 6th of June 1834. Subdivision lines are dated from the 27th to the 29th of August 1834.

The East boundary was surveyed at a Variation of 6° 30' East. The North boundary was surveyed at a Variation of 5° 40' East. The South & West boundaries of the Subdivision lines were surveyed at a Variation of 6° 45' East.

Surveyor General's Office

St. Louis 26th August 1839.

The mile points designated on the State line are, the points perpetuated one mile apart according to the measurement on the said line, at the time of the survey thereof. Their numbers are progressive from the intersection with the Wabash river. The distances set down between said mile points are according to the measurements of Mr. Sibley.

Saint Louis 12th November

Subdivided under the act of 1832:
viz. the 8th of fractional sections 17, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Aggregate area - 6598.90 acres
Variation in line between the states of
Indiana & Illinois 5' 0" east, - in all the
other lines 5' 10" east.

Surveyor General's office.
Saint Louis 19th August 1839.
This plat of fractional township 36 north of the
base line, range 15 east of the 3rd principal meridian,
West of the line of demarcation between the States
of Indiana & Illinois, is made conformable to the
field notes of the survey of this fractional township
on file in this office which have been examined
and approved. The east boundary line which is the
line between the States of Indiana and Illinois, was
surveyed, or rather a line which had been formerly
run was retraced, marked and measured in the 1st
or 2nd quarter of 1834, by Sylvester Sibley, under
the provisions of the act of Congress of the 2nd of March
1833 to authorize the President of the United States
to cause the public surveys to be continued with the
line of demarcation between the States of Indiana
and Illinois, as certified to this office on the 10th of
June 1834, by M. J. Williams, Surveyor General
of Ohio, Indiana & Michigan. The north, the
west, and the south boundaries - the published one
and measure of the Grand Kalamazoo and the
Little Kalamazoo Rivers, were all surveyed
in the 2nd quarter of 1834, by John A. Davis
under his contract of the 22nd of September 1833.

William H. Harrison
Surveyor General

Surveyor General's office.
Saint Louis 26th August 1839.
The mile points designated on the state line
the points perpendicular one mile apart according
measurement on the state line, as the basis of
thereof - their numbers are progressive from
intersection with the United river - The distance
set down between said mile points are
the measurement of M. Sibley.

William H. Harrison
Surveyor General

Township 37 North of the base line, Range 13 East of the 3rd principal meridian

32

Surveyor's Office
 Saint Louis 15th March 1855.

Subscribed under the act of 1803,
 upon the fractional part of Section 17 and some
 other copies of the plat thereof one to the Register
 and another to the Commissioner, on the
 27th of August 1845.

Surveyor General's Office
 Saint Louis 26th August 1855.

The mile points designated on the State line are
 the points perpetuated on the map according to
 the measurement on the said line, at the time of the
 survey thereof - their numbers are progressive from
 the intersection with the Wabash river - The distances
 set down between said mile points are according
 to the measurement of Mr. S. Silby - and where
 the distances between the mile points are not
 designated on this map the said points were not
 found by Mr. Silby.

William Williams
 Surveyor General

Note
 of Survey of August 1855

On retracing the State line from
 the station in the field notes of the 185th mile at the
 corner of Section 17 and 18, and the corner to the 18th
 mile point at 31.05 chains, which gave for the length
 of the east boundary of section 30 of this township
 exclusive of the falling of the north boundary of
 section 30, of 3.44 chains north of the 18th mile point only
 16.74 chains. - According to the measurement of the line
 along the southern boundary of section 30, measured
 by John A. Clark, the east boundary thereof is 16.74
 chains. - Mr. Silby did not establish a corner at
 the above station for continuation of the line to
 State line - therefore the length of the said east
 boundary of section 30 is not chain according to the
 calculation of Mr. Clark - measurement of the line was
 by 53.9 chains - and the calculation of the corner
 the said section 30 was made accordingly.

William Williams
 Surveyor General

Surveyor General's Office
 Saint Louis August 1855.

This plat of fractional township 37 North of the base line
 of the 3rd principal meridian - South east of the
 South west of Lake Michigan, and west of the line of
 the States of Indiana and Illinois - is a copy of the
 of the Survey of said fractional township and the
 line examined and approved with the line designated by the
 originally surveyed in the Township of 1818 by Thomas
 A. C. Graham, who is later of appointment from 1818 to
 land of the United States in Illinois and Missouri and
 authorizing William Williams Surveyor General as assistant
 the Director of Commissioners Graham and Phelps
 Division of the United States to run the line of the
 The Survey of said township of the 27th of August 1855
 bearing - said line - which of 1818 - This being
 the line of the State of Illinois and the State of
 of the Chicago river in section 17 and 18 of section 30
 of the township - and with first by the
 5.45° 2' 10" - 33 miles and 48 chains - this
 line was retraced and the mile points thereon
 Mr. A. Spaulding in the 2nd quarter of 1848,
 2nd of October 1850 - It was then again
 which the survey is the 18th mile point was shown
 on this map, in accordance with the notes of the
 east boundary line which is the line between the
 and Illinois was surveyed or rather a line which
 formerly was, was retraced, measured and
 2nd quarter of 1854, by J. A. Clark, and
 the act of Congress of the 2nd of March 1855
 "Division of the Survey of the State of Illinois"
 connected with the line of the State of
 Indiana and Illinois as a matter of
 June 1854, by Mr. W. Williams, Surveyor
 Indiana and Michigan - The west
 was surveyed in the 2nd quarter
 lines - and measured of 16.74 chains
 as "roughly" better, was shown on
 and 1st quarter of 1856 - as by
 corner of the 22nd of September 1848

William Williams
 Surveyor General

Scale of 1 inch = 40 chains -
 aggregate area 352.03 acres
 Direction to the boundary line is shown on the map
 - as the line between the States of Indiana and Illinois
 6° 14' east - as all the other lines 6° 14' east -

Surveyor General's Office, Saint Louis 26th August 1855.

Mr. Spaulding did not find any of the old mile points on the Indian boundary - E. End of the T^h mile - The therefore established new mile points
 line surveyed by Division, as indicated in position by the above fractional section corner of the old survey to be
 1845 - According to Spaulding's position the line between boundary between the line and the T^h mile
 found by this survey is that 78.15 chains from the lake at the mouth of the Little Kalamazoo

52

It appears to be the case below - By the comparison of the field notes of the Survey of the South boundary of this township, in 1842, by Mr. Call, with the survey thereof in 1842, by Holmanicki, it is evident that Mr. Call ran south 60.58 chains further East, to intersect what was supposed to be the State line - that in consequence of this discrepancy there is an offset in the corner due north of the line that line, shown on the plat of this office, from the records and the field notes therein, it appears that the East and West lines in the Eastern tier of sections in township 27 to 10, intersect only a "N 4 S line"; and nothing can be inferred from them of their closing on a "State line" - that the operations by Silbey in 1834, on the line between the States of Illinois & Indiana, were but a retracing, measuring and measuring thereof - that he did not connect the lines of the public surveys, on the West side, therewith, which renders it impossible to determine its position in T. 27 to 10 - that Holmanicki, who subdivided this township, from several mile posts still standing and plainly marked on the State line - that his work closes with the surveys on the north of his district; and that particularly in T. N. 28, 15 E. of 3^d 1st 16th, his surveys along Kankakee river, and his closing of the line between these sections on the State line, show the position of the said river to be as reported by Silbey, between the 182nd and 183rd mile-points - It is in consequence of these facts, that Mr. Holmanicki's surveys were approved and paid for.

Silas Reed
Surveyor of the public lands in
the State of Illinois & Wisconsin.

The mile points designated on the State line are the points perpetuated one mile apart according to the measurement on the said line, at the time of the Survey thereof - These numbers are progressive from the intersection with the westward line.

Surveyor's Office, Saint Louis 3rd of June 1843.

The above plat of fractional township 28 north of the base line, range 10 west of the 2^d principal meridian, west of the line between the States of Indiana and Illinois, is strictly conformable to the field notes of the Survey thereof on file in this office, which have been examined and approved - The said State line was surveyed, or rather a line which had been formerly run, was retraced, marked and measured in the 1st and 2nd quarters of 1824, by Silvester Silbey, under the provisions of the act of Congress of the 2^d of March 1805 to authorize the President of the United States to cause the public surveys to be connected with the line of demarcation between the States of Indiana and Illinois, as certified to this office on the 10th of June 1824, by Mr. J. W. Williams, Surveyor General of Ohio, Indiana, and Michigan - It was re-surveyed 6 miles in December 1842, by John Holmanicki, under contract of the 3rd of November of that year; these 6 miles were paid for in this 2^d quarter of 1843; and they will be charged in my account for the said quarter Voucher No. 1 - The south boundary was surveyed in September 1842 by J. B. M. Call, under instructions of the 18th April of that year - See the Statement A above - It was re-surveyed 57.62 chains, in the 4th quarter of 1842, by the said Holmanicki, under his said contract; and the 57.62 chains were paid as above - The west boundary 60.00 miles, were surveyed by Edward Smith in November 1833, under contract of 27th September 1833 - The north boundary 60.58 chains - and the subdivision lines, 3 miles 60.30 chains, were surveyed in the 4th quarter of 1842, by the said Holmanicki, under his said contract of the 3rd of November of said year: - They were paid for in this 2^d quarter of 1843 and they will be charged in the account current of the Surveyor General during the said quarter, Voucher No. 1.

The above plat of township 22 north of the base line, range 10 west of the 2^d principal meridian, west of the line between the States of Indiana and Illinois, is strictly conformable to the field notes of the survey thereof on file in this office, which have been examined and approved. The east boundary or said State line, was surveyed, or rather, a line which had been formerly run, was retraced, marked and measured in the 1st and 3rd quarters of 1834, by Silvester Sibley, under the provisions of the act of Congress of the 2^d of March 1833, to authorize the President of the United States to cause the public surveys to be conducted with the line of demarcation between the States of Indiana and Illinois, as certified to this office on the 10th of June 1834, by Mr. J. Williams, Surveyor General of Ohio, Indiana & Michigan. It was surveyed 5 miles 79.17 chains, in January 1843, by John H. Hulme, under his contract of the 3rd of November 1842. This survey was paid for in this 2^d quarter of 1843, and it will be charged in the Surveyor's General's account for the said quarter, Voucher N^o 1. The west boundary 6 miles was surveyed in the 1st quarter of 1835, by Edward Smith, under his contract of the 27th of September 1833. The south boundary 63.58 chains - the north boundary 69.70 chains - and the subdivision line 4 miles 16.67 chains were surveyed in the 1st quarter of 1843, by John H. Hulme, under contract of the 3rd of November 1842. They were paid for in this 2^d quarter of 1843, and they will be charged in the account of the Surveyor General for this last quarter, Voucher N^o 1.

Reference to the field notes used in the construction of this Plat. The south boundary was surveyed in September 1822, notations stated by S. B. McCall and the same boundary was in part re-surveyed in October 1822 by S. Smith and charged for in his account of the 16th of January 1825. The S. B. McCall of Sec. 24, Sec. 25, and S. B. of Sec. 24, Sec. 25, the West boundary and the subdivision lines, were all surveyed at a variation of East 10° S. Smith S. under his contract of the 27th of September 1822 and charged for in his account of the 14th of January 1825. The West boundary was surveyed on the 20th of October 1822. The East boundary, was surveyed on the 20th of November 1822. The North boundary was surveyed on the 20th of November 1822. The subdivision lines were surveyed from the 20th to 15th of June 1823. Surveyors of the land were S. B. McCall, S. Smith, and S. B. McCall. The North line of sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, and the South West quarter of section 19 subdivided under the Congress of the 5th of April 1820, and the North West quarter of section 19 subdivided under the Congress of the 5th of April 1820, and a plot of some land registered and another to the supervisor of the several lands.

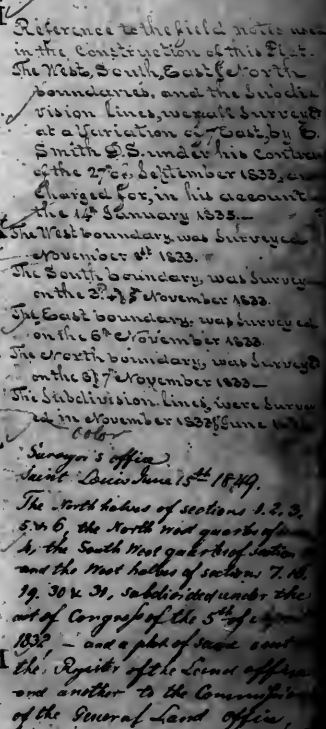

Surveyors Office
St. Louis 16th August 1829

The above Plat of Township 28 North of the base line, Range 11 West of the 2nd principal meridian, is conformable to the field notes thereof on file in this office which have been examined and approved. The South boundary was surveyed in the 3rd quarter of 1822, by James B. McCall, under instructions of the 18th of April 1822, and in the 2nd quarter of 1824, Edward Smith being unable to find the old corners to sections 32 and 33 - and 34 & 35, resurveyed and established the proper corners thereon; the South boundary of sections 32 & 33 - that part of the South boundary of section 34 which lies East of quarter section corner - and that part of the South boundary of section 35 which lies West of quarter section corner, as represented on this map - the West - the east - and the north boundaries, were surveyed in the 4th quarter of 1822, and the subdivision lines, in the 2nd quarter of 1824 - all by Edward Smith, under contract of the 27th of September 1822.

William McCall
Surveyor General

I Referenced to the field notes in the construction of this plat the South boundary was surveyed on 9th October 1822, by S. B. Smith, S. S., variation not stated, and the same boundary, examined and in part resurveyed on the 4th of April 1824, by S. B. Smith, S. S., charged for in his account of the 16th January 1825, to wit: S. B. Smith, W. of 1st Sec. cor., and the S. 1st Sec. 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, of 1st Sec. cor. - The West, East & North boundaries and the subdivision lines were surveyed by S. B. Smith, S. S., under his contract of the 27th of September 1823, and charged for in his account of the 16th of January 1825. The West boundary was surveyed on the 25th October 1823, at a variation of 7th 26th East. The East boundary was surveyed on the 26th October 1823, at a variation of 1st East. The North boundary was surveyed on the 20th 1st October 1823, at a variation of 1st East. The subdivision lines were surveyed from the 2nd to the 9th of April 1824, at a variation of 7th 26th East. Surveyor's office: Saint Louis, June 15th 1849. Subdivided the North half of sec. 1, 2, 3 & 4, of the South West 1/4 of section 6, and the North half of section 7, 8, 9, 10, 11, 12, and a plat thereof to the Register, and to the Commissioner General Land Office.

Surveyors Office
St. Louis 16th August 1837

The above Plat of Township 28 North of the base line, Range 12 West of the 2nd Principal Meridian, is conformable to the field notes, & is on file in this office, which have been examined and approved - The South boundary was surveyed in the 4th quarter of 1822, by James D. Smith, S. S., under instructions of the 18th of April of that year: - In the 2nd quarter of 1824, Edward Smith whilst subdividing the township was unable to find the corner to sections 22 and 24 - and therefore re-established it as represented on the map - the west, east and north boundaries, were surveyed in the 4th quarter of 1823, and the subdivision lines were surveyed in the 2nd quarter of 1824, by Edward Smith, under contract of the 27th of September 1823.

William Milburn
Surveyor General

55
Township 29 North of the base line, Range 12 West of the 2nd Principal Meridian

I Refer to the field notes in the construction of this Plat. The West, South, East & North boundaries, and the subdivision lines, were all surveyed at a Variation of 7° East by E. Smith & S. under his contract of the 27th of September 1833, and charged for in his account of the 1st of January 1835. The West boundary, was surveyed on the 28th October 1833. The South boundary, was surveyed on the 30th October 1833. The East boundary, was surveyed on the 1st of November 1833. The North boundary, was surveyed with the theodolite on the 1st of November 1833. The subdivision lines, were surveyed from the 15th to the 16th of April 1834.

Variation 7° East

aggregate area 23195.82 acres.

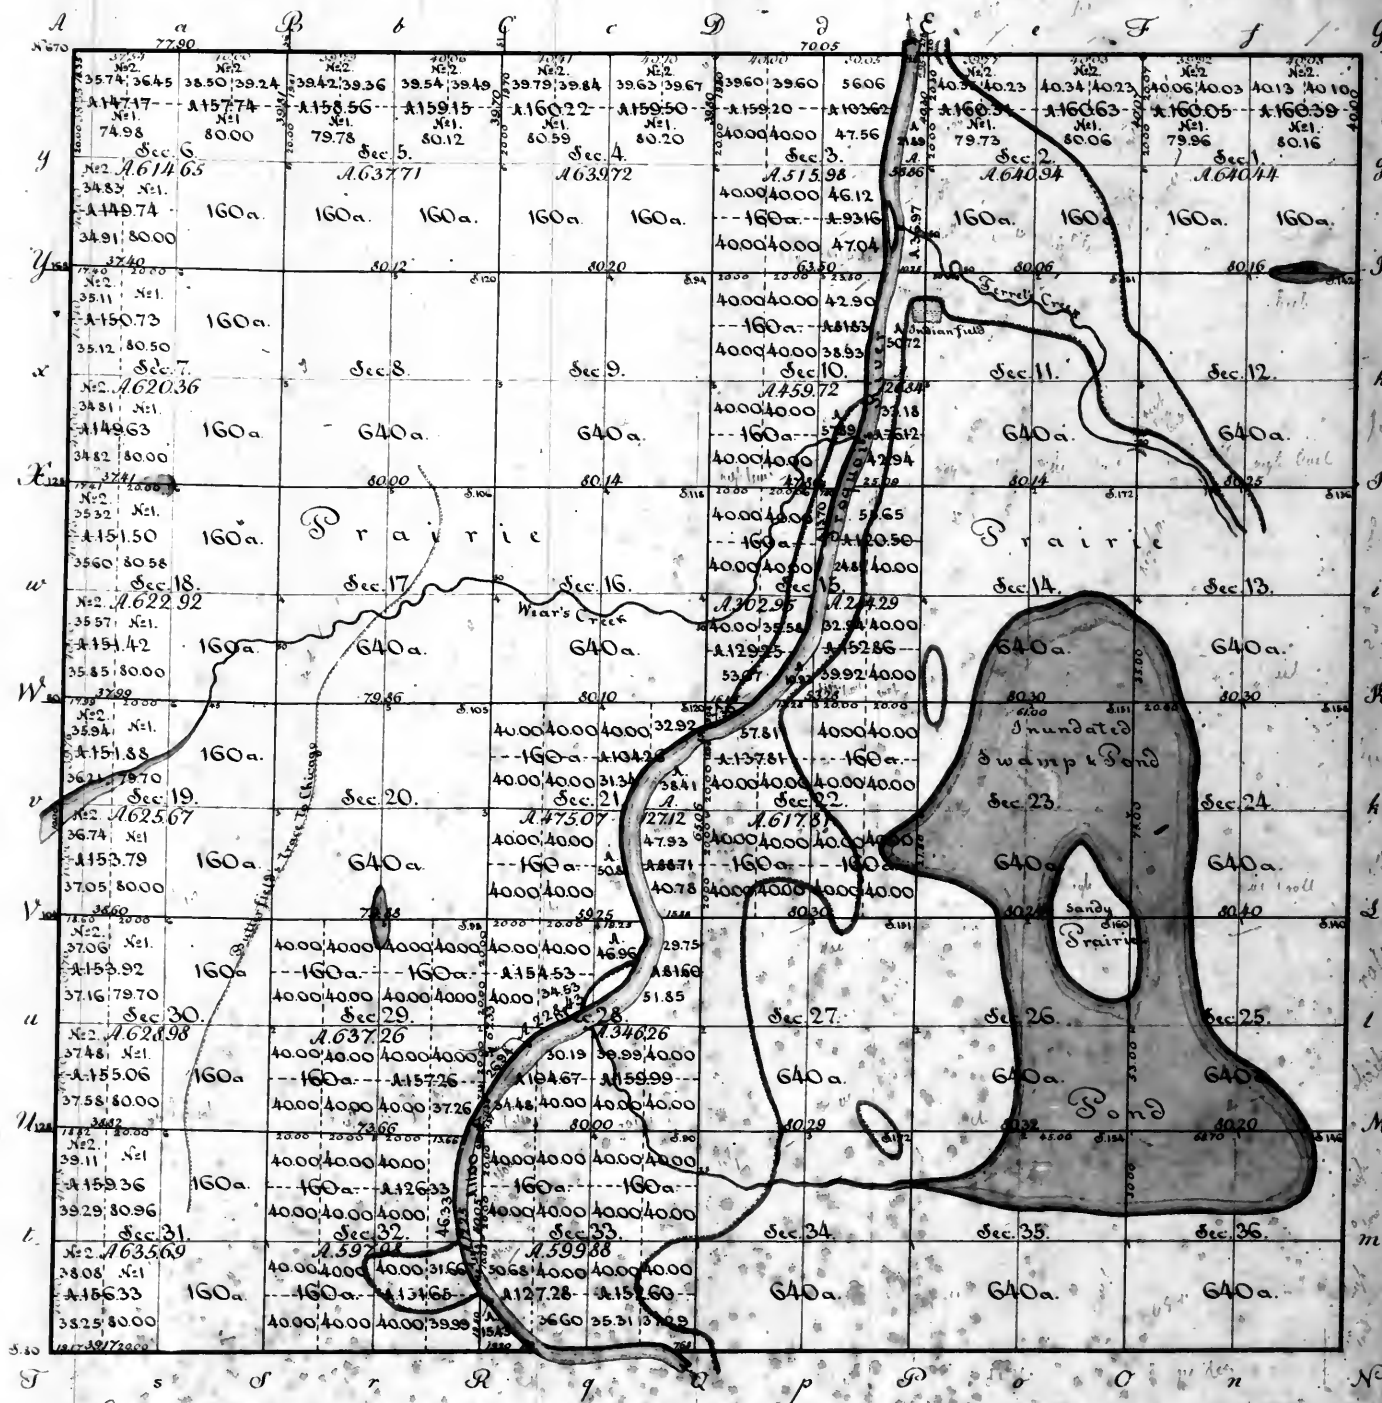

Surveyors Office

Office of the Surveyor General for Illinois and Missouri
Illinois 6 February 1851.

The above plat of fractional sections 13, 14 & 23 in Township 37 north of the base line range 14 East of the 3rd principal meridian, north of the old Indian line, is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. In the subdivision in June 1841, of the township, by John Wells, under the contract of Theo C. Rector and Stephen Rector of the 20 March of that year, the Kalamazoo Lake was not measured along said sections 13, 14 & 23, which prevented the calculation of the areas of their respective tracts. To remedy this omission, John Lewis, was on the 14th November 1850, instructed to complete the survey of the said section. In December of the same year, he executed the work, and in order to close it with the adjacent lines, and remove all missing corners, he surveyed twice the measure of section 13, 14 & 23, the lines detailed in the above Statement - in all 7 miles 18.38 chains, which are paid for this day to said Lewis, and will be charged in my account current with the United States during the 1st quarter of 1851, under the appropriation of \$1200, made on the 3 March 1849, for the correction of erroneous and defective surveys in small and detached portions in Illinois and Missouri at a rate not exceeding six dollars per mile. See page 65, act 2 Session of 30 Congress.

A copy of this plat was sent to the Register
on 6 February 1851.

Township 30 North of the base line Range 14 West of 2^d principal Meridian

Survey of 30 N. Township 30 N. Range 14 W. of 2^d principal Meridian -
 30 N. Range 14 W. of 2^d principal Meridian -

1870. The amount of 9100 acres in which has been surveyed in this township is charged amount to \$22,652.82, of which \$655.94 was paid for the 22^d day of February 1870, the rest (\$22,000.00) being due from C. J. Layman, from Surveyor General.

William Melbourn

Aggregate Area - 22,652.82 acres

Surveyors Office
 St. Louis, 20 March 1870.

The above Part of Township 30 North of the base line Range 14 West of 2^d principal Meridian is hereby confirmed to the field notes of the survey thereof - file in this Office, which have been measured and approved. The south boundary was surveyed in the 4th quarter 1833 by Daniel W. Backus under contract of the 20th of October of that year - The South boundary 5 miles 77.50 chains was surveyed in the 4th quarter of 1833 - and 2^d quarter of 1834 - the West boundary 5 miles 79.90 chains, the east boundary 5 miles 67.03 chains and the subdivision lines 5.9 miles 41.02 chains, were surveyed in the 2^d quarter of 1834 - all by William Lee L. Enig, under contract of the 15th day of August 1833 - The Survey by Enig, was to the extent noted on the margin paid for, on the 22^d of February 1870; and they will be charged in the account current of the Surveyor General for the present quarter (being the 1st quarter of 1870) under the general appropriation for surveying the public lands, Voucher No. 7

William Melbourn
 Surveyor of the public lands
 in the State of Illinois & Missouri

U. S. DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,

WASHINGTON, D. C., May 5, 1900.

ADDRESS ONLY THE
COMMISSIONER OF THE GENERAL LAND OFFICE.

Asking for copies of
plats.

Hon. Auditor of State,
Springfield, Ills.

Sir:

This office has copies of diagrams on file, of
T. 48 N., R. 18 E., Third Prin. Mer., one approved January
18, 1841, and the other October 8, 1848. The originals,
however, cannot be found, after careful search. Please
cause to be made certified copies from the plats on file
in your office, placing your certificates directly on the
face of the plats. I inclose frank and also franked envel-
ope, and thank you for the favor of furnishing copies to
replenish files.

Very respectfully,

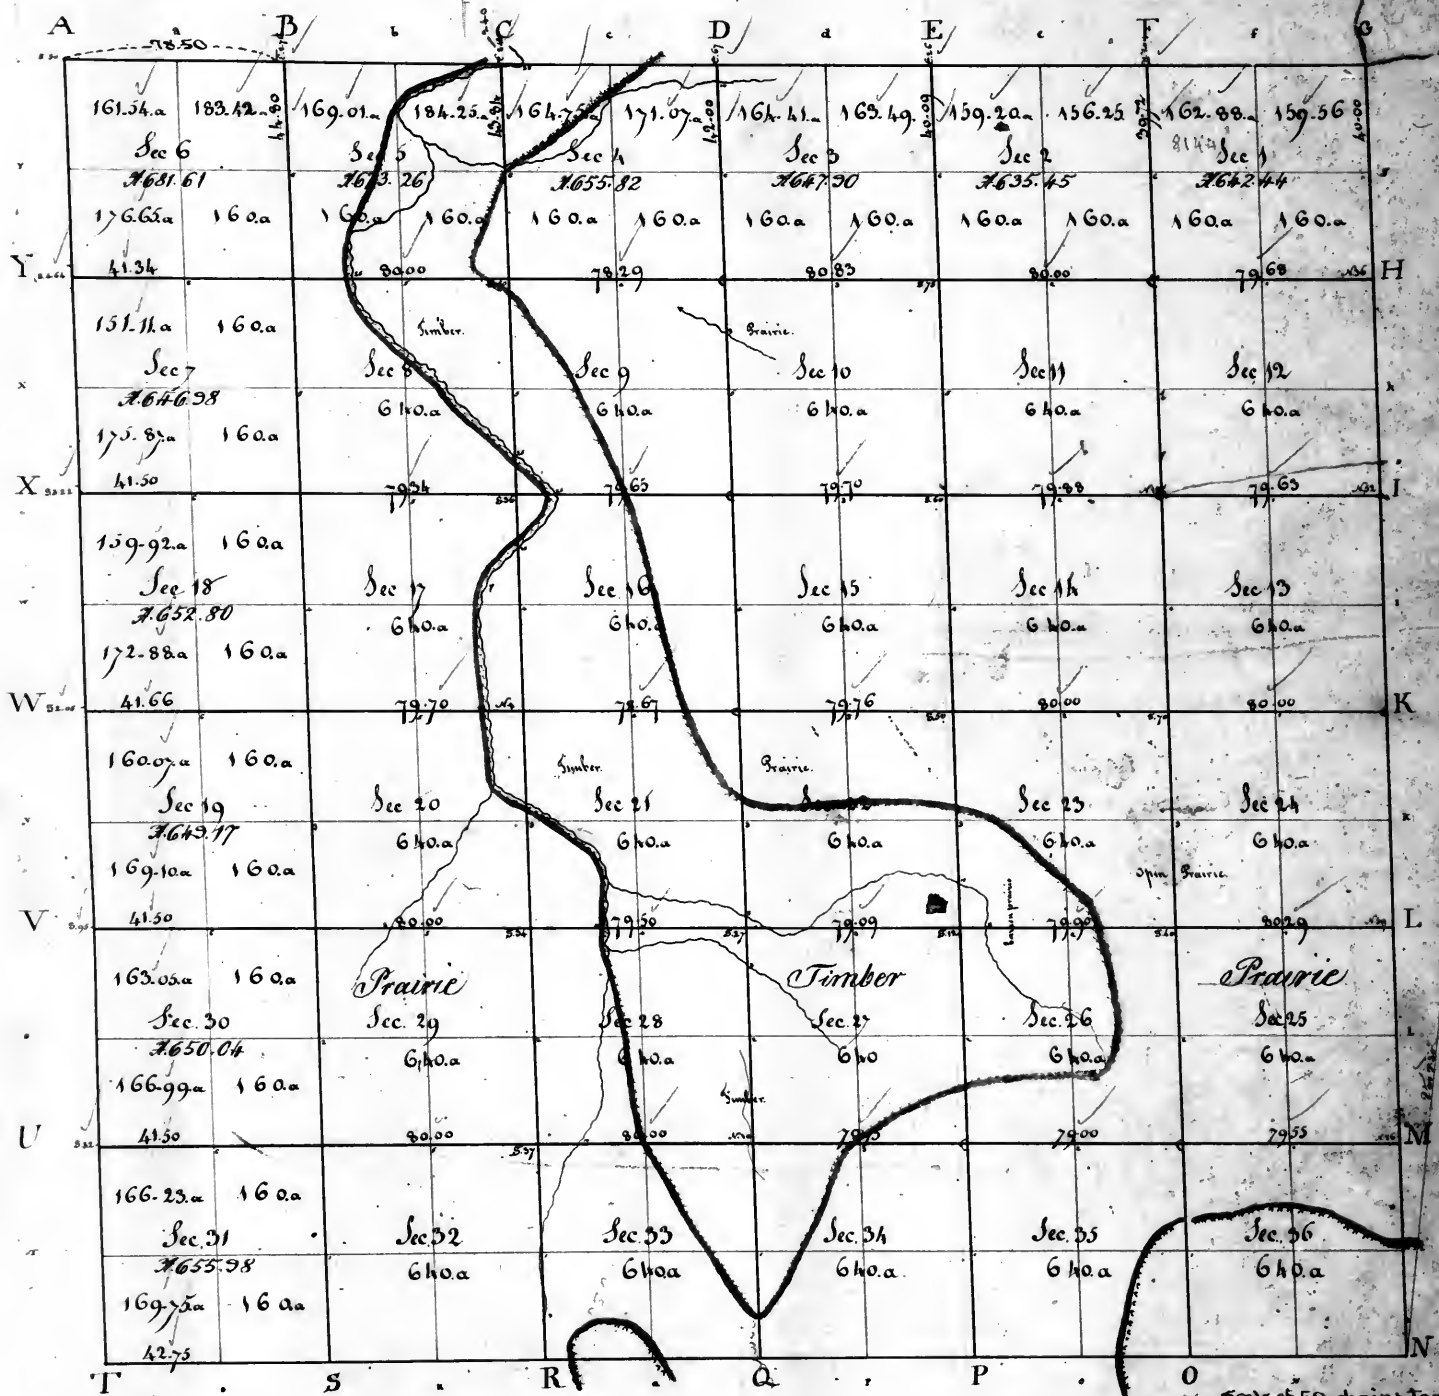

J. W. Bond

Assistant Commissioner.
